A5 Sportback

Beautiful view
- whatever your perspective

Comes with a new, tauter look

The new Audi A5 Sportback comes with a new cutting-edge MMI touch operating concept. Its mild hybrid technology reduces fuel consumption and offers greater comfort.

Elements of the new design language outline the sporty aesthetics of the Audi A5 Sportback and gives more depth and width. In addition, it offers trendsetting technology such as the standard Audi Matrix LED headlamps and a large infotainment stage.

Aesthetic design
Electrified
Well connected

Amazing design
Impressive sportiness

The Singleframe honeycomb grille is flatter and wider. Ventilation slits above the grille are reminiscent of the classic Audi Sport quattro from 1984. A bold blade forms the lower edge of the bumper which features larger air inlets. Together with a new sill, the design provides a slimmer appearance when viewed from the side and wider from the back.

The new A5 Sportback comes standard with Matrix LED headlamps at the front and allows more precise, higher resolution illumination of the road ahead without affecting other road users. The headlights instantaneously and seamlessly detect on-coming vehicle and masks the appropriate light-emitting diodes in the other vehicle's field – while still lighting the area around them.

Intuitive and in focus

The digital world of the Audi A5 Sportback can be controlled intuitively on the 10.1-inch MMI touch display with acoustic feedback. The new Audi virtual cockpit plus presents you key driving-related information and whose customisable operation, intuitive menu guidance and driver-oriented display dispenses with unnecessary complexity.

Cutting-edge MMI touch system and Audi connect

With its new MMI touch operating concept, the Audi A5 Sportback offers you a seamless experience similar to a smartphone. The Audi A5 Sportback offers a large selection of Audi connect services that come standard, such as the remote locking/unlocking of car, point-of-interest search, allowing you to send a destination to the car remotely so you can hit the roads the moment you enter the car.

Stand out from the crowd

The Audi A5 Sportback's suspension harmonises perfectly with its cultivated sportiness. Equipped with an automatic 7-speed S tronic transmission drive.

Thanks to the larger interior, the Audi A5 Sportback offers much space in the luggage compartment and in the rear, suitable for leisure day outs and family road trips.

The A5 Sportback comes with electrically adjustable front sport seats, complete with 4-way lumbar support and memory function for the driver's seat. No doubt a quick way to get right into your customised seat settings and a pleasant start to your everyday drive in the Audi A5 Sportback.
