

# FORD CAPRI CLUBSPRINT.

HAVE YOU DRIVEN A FORD...LATELY?

LOOKS GREAT AND  
GOES EVEN BETTER.

The Ford Capri Clubsprint delivers exactly what its appearance promises: exhilarating performance.

Clubsprint is a specially built, sports-modified version of the already highly-successful, high performance Ford Capri XR2 Turbo.

It has been developed by Ford in conjunction with TVE, Tickford Vehicle Engineering, the Australian operation of English automotive engineering maestros, Tickford Limited. TVE has taken the Capri and woven into it the same kind of performance magic that,

overseas, Tickford has applied to cars from some of Britain and Europe's most exotic automotive manufacturers.

LOOKING THE  
GOODS.

No other car on the road has quite such a bold and assertive appearance as the Capri Clubsprint.

The streamlined exterior is black and beautiful with a body that proudly displays muscular curves and a unique aerodynamically styled 'Capote' cover to the extra-large luggage area behind the seats.

The seats themselves are trimmed in vibrant blue leather that loudly proclaims the individuality of both car and driver. Put yourself in the driver's seat and right before you is a black leather Italian 'Momo' steering wheel. Instrumentation is as comprehensive as you'd expect in a thoroughbred sports machine and includes a turbo boost gauge.

EQUIPPED  
FOR EXCITEMENT.

Capri Clubsprint is built for both performance and pleasure. So while you'll be captivated by its sporting character you'll also enjoy a high degree of comfort. The leather seats include head rests and the entire interior, including the luggage area, is trimmed in cloth fabric.

For audio performance that matches the driving abilities of the Clubsprint, a state of the art Alpine four speaker stereo system

High performance Alpine stereo.

Convenient electric windows.

Remote change CD player is an option.

Large luggage area under Capote lid.

is fitted. It features an AM/FM radio cassette player with Dolby, music search, auto store and security coded anti-theft protection.

And, for ultimate sound quality, a remote change CD player is available as an option.

Other convenience features include electric remote mirrors, a luggage compartment that is simply cavernous and, for those trips when you want to cool off but keep the soft top on, air conditioning is available as an option.

### IT'S OPENING TIME.

Raising or lowering the Capri Clubsprint's soft top takes only moments, a minimum of effort and is easily managed by one person. When lowered, the roof

packs neatly away beneath the Capote cover.

### MORE BRIGHT IDEAS.

Capri Clubsprint has special rear lights that, with their large round design, perfectly complement the car's unique tail shape. And to show the way ahead at night, powerful driving lights are also fitted.

All dimensions are shown in mm.

1.6 litre DOHC  
16 valve, intercooled  
turbocharged engine.

THE PLEASURE OF  
POWER.

The heart of any sports car is its engine. Under the Capri Clubsprint's bonnet is a 1.6 litre power plant that boasts Double Overhead Camshafts, 16 valves for rapid gas flow, Electronic Fuel Injection and the ultimate performance enhancer, an intercooled turbocharger.

*Gear selector.  
A short-throw gear lever and  
shaped knob make changing  
gears a sporting delight.*

All of that means the Capri Clubsprint can produce 100kW of power with adrenalin pumping performance on the road.

The power is transferred through a light but sensitive five-speed close ratio transmission which, with its short throw gear lever, makes gear changing a positive joy.

TAKE THE RIDE OF  
YOUR LIFE.

As you'd imagine Capri Clubsprint has distinctly sporting handling characteristics.

Its suspension, specially designed for

the Clubsprint, is stiffer and lower even than that of the standard Capri, itself a highly creditable performer.

Yet the ride is still remarkably smooth and stable thanks in part to 16" x 6 1/2" wheels and 205/45 ZR16 low profile Michelin tyres.

The sensitive and responsive steering features power assistance.

When you need to stop, Ford Capri Clubsprint is equipped

with powerful disc brakes on all four wheels.

GO FOR IT.

Capri Clubsprint looks and performs like no other car on the road. And in keeping with its unique qualities Clubsprint will be a low volume production vehicle.

Yet while its numbers may be small, the pleasures of owning one will be virtually unlimited.

The Ford Capri Clubsprint. Be quick.

PLEASE NOTE.

All optional equipment referred to in this brochure is available at extra cost unless otherwise stated.

This brochure is designed to provide you with a general introduction to the Ford Products (including available optional equipment) referred to, and should be read in conjunction with the latest specification sheet. Because of changes in conditions and circumstances Ford\* reserves the right, subject to all applicable laws, at any time, at its discretion, and without notice, to discontinue or change the features, designs, materials, colours and other specifications and the prices of its products, and to either permanently or temporarily withdraw any such products from the market without incurring any liability to any prospective purchaser or purchaser. The latest specification sheet should be referred to for information on the availability, ordering and use of optional equipment. Always consult an Authorised Ford Dealer for the latest information with respect to features, specifications, prices, optional equipment and availability before deciding to place an order.
