

NEW
EVEREST

Go Further

OUTSMART
OUT THERE

READY FOR THE EVERYDAY OR THE EPIC

In the Everest, the world is yours to explore. With its **Terrain Management System**, you get optimal control at the turn of a dial.² From winding city roads to rugged dirt tracks, the Everest makes every drive incredible.

ROAD

Everest Titanium shown.

ROCK

TACKLE ANY TERRAIN¹

- Sand.** Glide through sand with increased accelerator sensitivity that adapts to the environment.
- Mud, Grass or Snow.** From muddy tracks to fresh snow, this mode gives optimised traction and control.
- Rock²** Conquer extreme off-road terrain. Choose this mode to keep 4WD in first gear for superior control.
- Road.** Switch to Road to maximize traction and stability for greater control when travelling along sealed roads.

1. The driver is responsible for assessing off-road situations, determining if the terrain is passable and using appropriate off-road driving techniques. 2. To activate Rock mode, vehicle must be stationary and in 4X4 low range.

ENJOY THE HIGHS AND LOWS

Tough slopes couldn't be easier in the new Everest. On the way up, **Hill Launch Assist** lets you climb with confidence, as this system makes it easier to pull away when your vehicle is on a slope without the need to use the parking brake. On the way down, **Hill Descent Control** uses the brake system to help you descend at a safe and steady pace. Simply take care of the steering and the Everest does the rest!¹

HILL DESCENT
CONTROL

TRAVEL FIRST CLASS EVERYWHERE

Say hello to luxury with an adventurous side. With **seven comfortable seats**, there's plenty of room inside the Everest to take the whole family, team or whoever is on board for the ride in total comfort.

While you're on your way, keep the noise out and the good times in. Inspired by noise cancelling headphones, the Everest's **Active Noise Cancellation** uses three highly sensitive microphones to detect and measure engine noise, then cancels it with opposing sound waves.

Enjoy the great outdoors even when you're indoors. The electric **panoramic sunroof**¹ comprising nearly 50% of the roof space, allows you to open up your world and experience life under the stars at the touch of a button. While the 8-way power driver's and passenger seat¹ gives you premium comfort wherever you're headed.

¹. Standard on Titanium models.

Everest Titanium interior shown.

Everest Titanium shown.

CONTROL YOUR WORLD

Do it all without having to do a thing. Discover driving technology that makes every journey effortless.

Reverse with confidence. See exactly what's behind you thanks to the **Rear View Camera** and **Rear Parking Sensors** that alert you to obstacles.

With **SYNC™ 2**¹ on Trend and Titanium models your voice is in control. Tell SYNC™ 2 what temperature you'd like your cabin. Voice Controlled Sat Nav² standard in Titanium and optional in Trend, helps you stay on track. See everything clearly on the vibrant 8-inch touch screen.

Plus with the two **USB ports** and one **RCA port** it's easier to stay connected to your devices than ever before.

What's more the **dual 4.2" colour instrumentation display screens**³ gives you everything from driving mode to fuel usage, all on low-glare, high-quality flat screens.

Demonstration of Adaptive Cruise Control.

Demonstration of Adaptive Cruise Control with Forward Collision Alert.

Demonstration of Blind Spot Information System.

Everest Titanium shown. Demonstration of Active Park Assist.

ASSISTANCE IN ALL THE RIGHT PLACES

Need help getting the perfect park? At the press of a button, **Active Park Assist**¹ helps you find a parking spot that's just the right fit, then virtually parallel parks the vehicle. Just push the button, put the vehicle into gear, take your hands off the wheel and watch it perfectly steer itself into your parking space. All you have to do is work the accelerator and brakes.

Like a second set of eyes, the **Cross-Traffic Alert**¹ will signal if there's traffic coming from either direction when you're reversing out of a parking spot or driveway.

See what you can't see with **Blind Spot Information System (BLIS)**^{1,4}. When changing lanes, indicator lights in the side mirrors let you know if there's a vehicle in your blind spot.

If your indicator isn't on, the **Lane Keeping System**^{2,3} alerts you by vibrating your steering wheel. And if you keep drifting, it helps guide you back into the correct lane using steering assistance.

If you have younger drivers in the family, **MyKey**^{TM 3} lets you program the key fob to limit car settings — like top speed, audio volume and the ability to make and take calls.

Wish Cruise Control was even cruiser? Well now it is. **Adaptive Cruise Control with Forward Collision Alert**^{3,5} can help you keep your distance from the traffic in front. If it senses slow moving traffic, it slows down. When the traffic clears it goes back to your pre-set speed, or maintains a pre-set distance from the car in front. It can even detect the potential for an accident to occur and alert you with a brake light warning on your windscreen and precharges your brakes.

1. Active Park Assist and Blind spot monitoring system (BLIS) with Cross-Traffic Alert on Titanium models only. 2. Lane Keeping System does not control steering. LKS is a driver-assistance feature which is supplemental and does not replace the driver's judgement. Designed to operate at speeds over 65 km/h on multi-lane roads with clearly visible lane markings. Function may not operate in some driving and road conditions or adverse weather. 3. Available on Trend and Titanium. 4. Blind Spot Information System is a driver-assistance feature which is supplemental and does not replace the driver's judgement. Designed to operate at speeds above 10 km/h. Function may not operate in some driving and road conditions or adverse weather. 5. Adaptive Cruise Control with Forward Collision Alert is a driver-assistance feature which is supplemental and does not replace the driver's judgement. Function may not operate in some driving and road conditions or adverse weather.

PUTS SAFETY FIRST

This is one car with a protective side. The Everest features **seven airbags and ultra-high strength steel**, including front seat driver and passenger airbags, as well as seat-mounted side and side-curtain airbags. There's even an airbag for the driver's knee.

Stress less with **Dynamic Stability Control**. Designed to give you grip and control around tricky corners and when you're overtaking. For added safety, **Roll Stability Control** can detect the potential for the vehicle to roll and kicks in to restore stability.

Stay ready, even when the road's not. If you're driving on uneven roads or in crosswinds, the Everest's **Electric Power Assist Steering (EPAS) with Pull-Drift Compensation** technology helps compensate for slight directional shifts.

And in the case of a collision where airbags are deployed or fuel pump is shut off, **Emergency Assistance** uses your mobile phone to call triple zero (000) and give them your exact location¹.

EMERGENCY
ASSISTANCE

AIRBAGS

DYNAMIC
STABILITY
CONTROL

1. In the event of a crash which deploys an airbag or activates the fuel pump shut off, Emergency Assistance can use a mobile phone to dial emergency services. Phone must be paired and in range.

LOAD CARGO AND JUST GO

Leave nothing behind. The Everest's interior is designed to get you and everything you need from A to B.

From camping gear to soccer teams, it's easy to switch between cargo and people with the Everest's 2nd-row 60/40 split seat and 3rd-row 50/50 split seat.

The electric **PowerFold**¹ 3rd row seat folds flat for a stable surface at the press of a button. There are also an impressive 30 stowage compartments.

With the **Power Tailgate**² it's never been easier to pack a heavy load. Simply press the power button and watch the tailgate open and close by itself.

1. Available on Titanium only. 2. Available on Trend and Titanium only.

EXTRAORDINARY PERFORMANCE MEETS EXCEPTIONAL EFFICIENCY

It's time to elevate your expectations of what an SUV is capable of. The Everest packs 143kW of power with 470Nm of torque, but it also boasts impressive fuel economy of 8.5L per 100km¹. Plus the sleek, **aerodynamic design** delivers even greater fuel savings. So no journey is ever too far.

1. Figures obtained from controlled tests using ADR 81/02. Actual fuel consumption and emissions will depend on many factors including driving habits, prevailing conditions and your vehicle's equipment, condition and use.

Everest Titanium shown.

BUILT FOR THE LONG HAUL

Whether it's packing the Everest with mountain bikes, attaching tents to the roof or towing the boat for a weekend away on the water, the Everest has the strength and capability to get you and your gear there.

	Max Payload ¹	Max Roof Load	Max Towing Capability ²
Ambiente	730kg	100kg	3000kg
Trend	693kg	100kg	3000kg
Titanium	605kg	80kg	3000kg

1. Subject to State and Territory regulations. Payload is defined as the Gross Vehicle Mass minus the kerb mass. Payload is the maximum combined value of occupants, cargo, added options, added structures and tow ball download (when towing). GVM must not be exceeded. 2. Maximum towing capacity when using a Genuine Ford tow pack. Subject to State and Territory regulations.

Quality

We design and build your Ford to feel as good after many years of service as it did the day you picked it up. And to drive just as beautifully, too.

Safety

Ford's Intelligent Protection System uses sophisticated technology designed to help prevent an accident and, if one should happen, to help protect you.

Sustainability

Using advanced technology, we're committed to creating vehicles with improved fuel economy, reduced CO₂ emissions and a lower overall cost of ownership.

Smart

Vehicles with smart, intuitive technologies designed to connect you to your world and many clever solutions that make life a little easier.

Speak to your Ford Dealer today about how we can help you make the most out of your vehicle ownership experience.

Complimentary State Auto Club Roadside Assistance and Membership.

Our commitment to your complete satisfaction plays a major role in everything we do. That is why we provide a 12 month Roadside Assistance package including State Auto Club Membership for all Retail and Blue Fleet Customers (with fleets less than 5 vehicles).

This package gives you access to the largest network of roadside assistance providers in the country, so you can be assured that you have non-stop coverage every day of the year.

The benefits of being a member are not limited to the peace of mind of 24/7 roadside assistance. You also have access to a wide range of member benefits including Show Your Card & Save. In addition, you will maintain any benefits accrued through your existing years of membership (where applicable).

Complimentary State Auto Club Roadside Assistance & Membership is valid for eligible Ford vehicles and is available from participating Authorised Ford Dealers only. Visit your local Ford Dealer or refer to ford.com.au for more information and full terms and conditions.

Warranties & Service.

3 year/100,000km new car warranty.#

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories you may have had fitted before you took delivery.

5 year warranty against perforation corrosion.#

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

myFord Warranties and Insurance.

When you first turn the key of your brand new Ford you want to do so without a care in the world. Our range of myFord products gives you that extra peace of mind. For more information about myFord Warranties and Insurance, visit your participating Ford Dealer for further details on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.

12 months/15,000km service intervals.

Under normal driving conditions service intervals are 12 months or 15,000km, whichever occurs first.

FORD SERVICE

At Ford, we are committed to providing an outstanding ownership experience. For example, we think you should always know what you're going to pay for a standard service, before you go in. So we offer a Service Price Promise for the life of your car, which means we'll publish the maximum price you'll pay for your next A or B logbook service at participating Authorised Ford Dealers on all vehicles built from 2007.

However our service doesn't end at the service garage. With each standard service at a participating Auto Club Dealer, Retail and Small Business

Customers (fleets of less than five vehicles) will also receive up to 12 months Auto Club Membership (including free Roadside Assistance), for up to seven years. Eligible customers will even have access to a free loan car with any scheduled service, through participating dealers. Why do we do all this? Because at Ford, we think that's what service should be.

For more details visit your participating local Ford Dealer or visit ford.com.au/service/t-and-c for full terms and conditions.

This brochure details specifications and features of the Everest. Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions. Not all features will be available on the entire Everest model range. Please visit our website www.ford.com.au for more information.

This brochure is designed to provide you with a general introduction to the Ford Products (including available optional equipment) referred to, and should be read in conjunction with the latest specification sheet. Images and illustrations are for information purposes and are indicative only. Because of changes in conditions and circumstances Ford* reserves the right, subject to all applicable laws, at any time, at its discretion, and without notice, to discontinue or change the features, designs, materials, colours and other specifications and the prices of its products, and to either permanently or temporarily withdraw any such products from the market without incurring any liability to any prospective purchaser or purchasers. The latest specification sheet should be referred to for information on the availability, ordering and use of features and optional equipment. Always consult an authorised Ford Dealer for the latest information with respect to features, specifications, prices, optional equipment and availability before deciding to place an order.
