Intuitive technology

The Everest helps protect your family with a host of safety features, from 7 airbags to Emergency Assistance and Adaptive Cruise Control.

A. Keeping an eye out⁵.

The Everest's front sensors scan the road ahead for traffic signs and displays the current speed on the digital instrument cluster, helping you to avoid a speeding fine.

B. Lane Keeping Aid⁵.

If you accidentally drift out of your lane, the Everest will apply gentle steering torque and a warning vibration to guide you back if needed.

C. Autonomous Emergency Braking (AEB)⁵.

Always scanning ahead, AEB with Pedestrian Protection alerts you to potential collisions and can apply the brakes if an unexpected danger appears in front of the car.

D. Active Park Assist^{5,6}.

At the press of a button, Active Park Assist will help you find the right size parking spot and steer the car into position while you focus on controlling the brakes.

B

Hands-Free Power Tailgate²⁰.

Easy access, even with your hands full. Kick your foot under the rear bumper and the hands-free power tailgate opens and closes automatically.
