

MONDEO

Go Further

Driven By Design

Design is a journey. To arrive at something special, you must imagine, create, refine and re-define. When you sit behind the wheel of the Ford Mondeo, you're instantly connected to the painstaking hours of craft and development that went into every inch of this vehicle. Technologically advanced and stylishly considered, its design will drive you.

Designed to be noticed

It's the progressive, self-assured silhouette the Mondeo cuts that demands attention. From the iconic trapezoid grille to the panoramic roof on the Titanium model, every inch radiates confidence. This is not a case of style over substance. Each precision element contributes to a highly aerodynamic profile, which ensures the Mondeo doesn't just turn heads, it turns them quickly.

Smart Technology

The Mondeo offers the features you want, not just the ones you need.

SYNC® 3

SYNC® 3 is a fully integrated, voice-activated system cleverly designed to let you use your favourite compatible devices while your hands stay on the wheel, and your eyes stay on the road* Sync your phone to call your friends, play your favourite music, find the perfect temperature with hands free climate control, and stay on track with the integrated Satellite Navigation System. It comes complete with an 8" capacitive LCD Touch Screen. Best of all, it can be paired to more than one mobile device.

Effortless control

Stay in touch with your world. Just say the word and SYNC® 3 keeps you connected, while your hands stay safely on the wheel and your eyes on the road. And when you've reached your destination, take your hands off the wheel and the Mondeo Titanium will steer itself in for a perfect park†.

9

Enhanced Active Park Assist†

Imagine. Perfect parallel parking without your hands ever touching the steering wheel. Enhanced Active Park Assist not only helps you find the right parking space, it steers you in. Perfectly. Put the car into gear. Take your hands off the wheel. All you have to do is work the accelerator and brake. It even steers you out of your park, hands-free.

Overseas model shown.

SYNC® 3 Emergency Assistance® can call emergency services and share your exact GPS location in the unlikely event of an accident that shuts off the fuel pump or activates an airbag.

Seamless integration with your compatible smartphone through Apple CarPlay, Android Auto™ and Applink®* allows you to choose how you remain connected to your world.

At the touch of a finger it is easy to access the features you want. With a new capacitive 8" touch screen SYNC® 3* is quicker and more responsive than ever before.

*Not all SYNC®3 features are compatible with all phones, for full compatibility list see www.ford.com.au/sync †To use Emergency Assistance, your phone must be paired and in mobile reception range. †Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay is a trademark of Apple Inc. registered in the US and other countries. Android Auto is a trademark of Google Inc. Ford Applink® is available on selected SYNC® models and is compatible with select smartphone platforms. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. †Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions.

Smart features

Whether you're driving in stop-start traffic, reversing out of a tight spot, or just trying to keep your younger drivers safer – Ford's latest smart technologies have got you covered.

Mondeo Titanium Hatch shown.

Active City Stop†

When traffic is crawling along, it can be easy to miss someone suddenly stopping. At speeds between 3.6 and 40 km/h, if Active City Stop detects that the car in front has unexpectedly stopped, it automatically applies the brakes if you don't.*

*Active City Stop may help avoid, or minimise the impact of a collision between speeds of 3.6 and 40km/h. It is not a substitute for driver alertness. Function may not operate in some driving and road conditions, or adverse weather. †Available on Trend and Titanium models only. ‡Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions.

BLIS (Blind Spot Information System)†

BLIS is your extra set of eyes. When sensors detect that a vehicle has entered your blind spot, an indicator light appears in your side mirror.

Rear View Camera

Reverse like you have eyes in the back of your head. The Rear View Camera lets you clearly see what's behind you, while the beep of the rear parking sensors tells you how close you are. The system even automatically turns down your music so you can hear the beeps clearly.

MyKey™

Handing over the keys to the younger members of your family is a tough call. MyKey™ helps make sure that they'll drive as if you were in the car with them. You can program it to remind them to put on seat belts, limit their speed, keep their music volume down and concentrate on the drive, not their phone.

Pre-Collision Assist with Pedestrian Detection†

Designed to scan the traffic ahead and warn you if it senses the possibility of a collision. If a collision is likely, it can apply the brakes. This technology can also detect pedestrians.‡

We give you the choice of two of our most fuel efficient and powerful engines, then we top it all off with Ford's latest performance technologies that give you greater control and ease of driving.

Adaptive Cruise Control*

Cruise Control is great on the open road. But, even here, you can find traffic. So instead of having to turn the system on and off, it will adapt. Sensors are designed to scan the traffic ahead, updating their positions 20 times a second. If they sense that traffic has slowed, your vehicle will slow also. When the traffic clears, it returns to your preset speed.

Mondeo Titanium Hatch shown.

2.0L Diesel

Our highly fuel-efficient 2.0L diesel engine is a gutsy performer. Its turbocharged four cylinders deliver responsive power and torque that builds low in the rev range.

2.0L EcoBoost

The combination of turbocharging, direct fuel injection and twin independent variable camshaft timing (Ti-VCT) in our 2.0L EcoBoost delivers more to you. This four cylinder petrol engine is smaller and lighter than larger displacement engines so it delivers superior fuel economy, yet there is no compromise on power.

6-Speed Automatic with Paddle Shifters

The ease of an automatic and the thrill of a manual. With Paddle Shifters on the steering wheel, similar to those used by racing drivers, our automatic transmission lets you shift through gears, smoothly and effortlessly, without having to use a clutch.

*Available on Trend and Titanium models only. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions.

Exceptional fuel savings

Mondeo knows when to work hard, but is smart enough to know when to conserve power and fuel.

Auto Start-Stop

Think how much time your engine spends idling in heavy traffic or at lights. Then think how much fuel you could save if you switched it off every time. That's what the Mondeo diesel models automatically do when you idle.* Release the brake to go and the engine smoothly restarts, giving you a 4% to 10%# improvement in your fuel efficiency.

Electric Power Assisted Steering

Stable, responsive steering is the hallmark of a quality drive. Electric Power Assisted Steering (EPAS) adjusts to feel lighter in slow traffic and 'heavier' at higher speeds for greater control. It is also designed to adapt to changing conditions, like cross winds, to keep you on track. But unlike traditional systems, EPAS only operates when it's needed, saving you fuel.

Striking features

From the leather steering wheel and dual zone climate control, to smart driver-assist technologies and voice-activated controls, the cleverly designed Mondeo comes with all the features to ensure you arrive in style.

Panoramic roof with power sunshade*

If there were an award for best view from a car, this would be it. The Panorama glass roof takes up nearly all of the roof area, so everyone inside gets to see more of what's going on outside. It also comes with a power sunshade for those extra sunny days.

Mondeo Titanium shown.

Interior. Designed.

Wherever you look inside the Mondeo's cabin, you'll find a perfect blend of form and function. Sleek, elegant interiors house the Mondeo's intuitive features, while the ergonomic styling makes sure they're always within reach.

Mondeo Titanium shown.

Mondeo Titanium shown.

Adaptive LED headlamps*

Not only do these lights automatically turn themselves on and off with changes in natural light, but they also help you see around corners. A standard headlight's beam is usually fixed on one spot. These lights are designed to change the beam's angle, pattern and intensity according to your driving conditions so it's always on the road, no matter what.

Dual zone climate control

Everyone's idea of comfort is different. Our dual zone climate control allows both you and your front seat passenger to choose the heating and cooling settings you prefer for your own personal space. So everyone's happy.

*Available on Titanium models only.

Designed for safety

Good design isn't just aesthetics. At the Mondeo's core is a design that makes no compromise on safety. Sophisticated materials and production techniques, including an industry-first application of hydro-formed high strength steel are just some of the ways Mondeo is designed to ensure you don't just arrive in style, you arrive safe.

Rear inflatable seat belts

These seat belts provide extra protection for outer passengers in the back. They distribute the force of an impact across a wider area of the torso and help support the head and neck. They are also designed to hold people in the correct seating position, which can help reduce the risk of injury in a front or side impact.

Mondeo Ambiente interior shown.

Safety

The Mondeo offers high levels of protection and control that are reflected in its 5-star ANCAP safety rating. Airbags, including side curtain airbags and rear inflatable seat belts, help maximise occupant protection, while Dynamic Stability Control helps keep you on track, especially around corners or when you need to swerve.

Airbags all-round

Knowing you're surrounded by protection is a good feeling. With driver and passenger airbags, seat-mounted side airbags and one for the driver's knee in the front, as well as side-curtain airbags for people in the front and back, peace of mind comes standard in the Mondeo.

Dynamic Stability Control (DSC)

The combination of Dynamic Stability Control (DSC) and Traction Control helps keep you connected to the road and in control, especially around corners and when overtaking. Together with ABS (Anti-lock Braking System) they help reduce the chances of wheel spin, wheel lock and over- or under-steering.

Tow Pack

Whether your towing requirements are for work or play, the Genuine Ford Tow Pack will make towing a breeze.

Cargo Organisers

This premium grade, woven polyester organiser has been laminated for water repellence and mildew resistance. Making it perfect to keep items in place, minimising topples and spills and keeping your car clean.

Dog Guard/Cargo Barrier (Wagon only)

From your groceries to your best friend, this practical and strong partition will keep everything safely secured in the back while you enjoy the drive.

Carry Bars

When you need to transport a bit extra, these strong yet lightweight carry bars can be easily installed and then just as easily removed when you're not using them.

7. Please consult your Ford Dealer to confirm vehicle production date. 8. Not all SYNC[®]3 features are compatible with all phones. Ford Applink[®] is available on selected SYNC[®] models and is compatible with select smartphone platforms. 9. Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android (as applicable), active data service, and connection cable (sold separately). SYNC[®] does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay, is a trademark of Apple Inc. registered in the US and other countries. Android Auto is a trademark of Google Inc. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. 10. Traffic Message Channel is currently provided through an arrangement with Intellematics Australia Pty Ltd (Intellematics). The ongoing provision of this feature cannot be guaranteed if Ford's arrangements with Intellematics cease for any reason. 11. The Bluetooth[®] word mark and logos are registered

trademarks owned by Bluetooth SIG, Inc. and used under licence by Ford Motor Company. Please visit www.ford.com.au/compatibility for compatible devices. ¹² iPod is a trademark of Apple Inc. For compatibility, see iPod Integration page. Please visit www.ford.com.au/compatibility for compatible devices. ¹³ Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate in some driving and road conditions (including at certain speeds) or adverse weather. ¹⁴ Dynamic Stability Control is also known as Electronic Stability Control. ¹⁵ Front seat side airbags protect front seat occupants only. ¹⁶ Needs a paired and in range mobile phone. Can activate in the event of a crash which deploys an airbag or activates the fuel pump shut off.

Quality

We design and build your Ford to feel as good after many years of service as it did the day you picked it up. And to drive just as beautifully, too.

Safety

Ford's Intelligent Protection System uses sophisticated technology designed to help prevent an accident and, if one should happen, to help protect you.

Sustainability

Using advanced technology, we're committed to creating vehicles with improved fuel economy, reduced CO₂ emissions and a lower overall cost of ownership.

Smart

Vehicles with smart, intuitive technologies designed to connect you to your world and many clever solutions that make life a little easier.

Speak to your Ford Dealer today about how we can help you make the most out of your vehicle ownership experience.

State Auto Club Roadside Assistance and Membership.

Our commitment to your complete satisfaction plays a major role in everything we do. That is why we provide a 12 month Roadside Assistance package including State Auto Club Membership for all Retail and Blue Fleet Customers (with fleets less than 5 vehicles).

This package gives you access to the largest network of roadside assistance providers in the country, so you can be assured that you have non-stop coverage every day of the year.

The benefits of being a member are not limited to the peace of mind of 24/7 roadside assistance. You also have access to a wide range of member benefits including Show Your Card & Save. In addition, you will maintain any benefits accrued through your existing years of membership (where applicable).

State Auto Club Roadside Assistance & Membership is valid for eligible Ford vehicles and is available from participating Authorised Ford Dealers only.

Visit your local Ford Dealer or refer to ford.com.au for more information and full terms and conditions.

Warranties & Service.

3 year/100,000km new car warranty.#

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories you may have had fitted before you took delivery.

5 year warranty against perforation corrosion.#

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

myFord Warranties and Insurance.

When you first turn the key of your brand new Ford you want to do so without a care in the world. Our range of myFord products gives you that extra peace of mind. For more information about myFord Warranties and Insurance, visit your participating Ford Dealer for further details on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.

12 months/15,000km service intervals.

Under normal driving conditions service intervals are 12 months or 15,000km, whichever occurs first.

FORD SERVICE

At Ford, we are committed to providing an outstanding ownership experience. For example, we think you should always know what you're going to pay for a standard service, before you go in. So we offer a Service Price Promise for the life of your car, which means we'll publish the maximum price you'll pay for your next A or B logbook service at participating Authorised Ford Dealers on all vehicles built from 2007.

However our service doesn't end at the service garage. With each standard service at a participating Auto Club Dealer, Retail and Small Business

Customers (fleets of less than five vehicles) will also receive up to 12 months Auto Club Membership (including Roadside Assistance), for up to seven years. Eligible customers will even have access to a loan car with any scheduled service, through participating dealers. Why do we do all this? Because at Ford, we think that's what service should be.

For more details visit your participating local Ford Dealer or visit ford.com.au/service/t-and-c for full terms and conditions.

Want to contact us?

#Conditions and exclusions apply. For more information consult your authorised Ford Dealer.

This brochure details specifications and features of the MD Mondeo. Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions. Not all features will be available on the entire MD Mondeo model range. Please visit our website www.ford.com.au for more information.

This brochure is designed to provide you with a general introduction to the Ford Products (including available optional equipment) referred to, and should be read in conjunction with the latest specification sheet. Because of changes in conditions and circumstances Ford* reserves the right, subject to all applicable laws, at any time, at its discretion, and without notice, to discontinue or change the features, designs, materials, colours and other specifications and the prices of its products, and to either permanently or temporarily withdraw any such products from the market without incurring any liability to any prospective purchaser or purchasers. The latest specification sheet should be referred to for information on the availability, ordering and use of features and optional equipment. Always consult an authorised Ford Dealer for the latest information with respect to features, specifications, prices, optional equipment and availability before deciding to place an order.
