

Q30

Image by @laurenieri

EXPRESS CREATE CHALLENGE

You see opportunity. If something doesn't exist, you create it. Introducing the first-ever Infiniti Q30. A category-redefining premium active crossover that pushes boldly past the conventional boundaries of design. But then, what else would you expect?

YOU. OUT IN FRONT. DEFINING A NEW STYLE.

The city is your stage. The Q30 puts you in the spotlight—with a stance that rises above the rest and with dramatic lines that are as expressive as you are.

ELEVATED STANCE The Q30 is sleek and sporty, with a seating position that gives you the height to stand out. The unique black lacquer trim around the wheels emphasise its unique stance. The ideal height provides a clearer view over traffic whilst making it easier to enter and exit the Infiniti Q30.

UNDENIABLY INFINITI The top arc of the grille mirrors the arc of the bottom to form Infiniti's signature double-arch grille. The crescent-shaped C-Pillar arcs forward from the rear window as if in perpetual motion. The Q30 displays Infiniti's DNA in every curve, front to rear.

19-INCH SPORT WHEELS Specially designed to integrate with the athletic lines of the Infiniti Q30. Lightweight to enhance performance, they are standard on the Q30 Sport and Sport Premium.

SIGNATURE LED LIGHTING Inspired by the human eye, the trademark Infiniti light shape can be seen from both the front and the side. It is echoed in the taillamps for a definitive character from every angle.

DYNAMIC LINES A rising and dipping shoulder line runs the entire length of the Q30. The deep, sharp curves on the doors are so dramatic, engineers had to develop a new type of 3D manufacturing process to produce them. The Q30 looks like nothing else on the streets.

THE NEW FEEL OF NONCONFORMITY

On every surface inside, you'll find high-quality softness from the same premium materials found on your favourite luxury goods.

SUEDE-LIKE SOFTNESS Dinamica - Developed in Italy by the high-fashion industry for use on surfaces you touch often—like the lining in purses and shoes—this non-solvent, recycled material imparts a suede-like feel to the front pillars and headliner. Standard on Q30 Sport and Sport Premium.

TESTED TOUCH We tested with hundreds of people around the world to find a texture that was most pleasing to the fingertip, then exclusively created Alcantara to match it. Wherever the feel is important and durability is critical, you'll find it. Standard on Q30 Sport.

NAPPA LEATHER This genuine leather is selected for its exceptional, clothing-quality softness. And we use it beyond the seating surfaces, such as the dash. Standard on Q30 Sport Premium.

Q30 Sport model shown

THE NEW SHAPE OF INDIVIDUALITY

Shapes that flow naturally in beautiful asymmetry create an inviting interior that's fresh and unique. This is design with a new view.

FIRST IMPRESSIONS From the driver's seat, the intersecting curves of the interior are refreshingly dynamic, but our designers know that your first view happens before you ever sit down. So they designed it to be breathtaking the moment you open the door, from the side view, as well as head on.

DESIGNED IN MOTION When you're in the Q30, you're driving—and that's why our design director had his team push him around in the courtyard while he sat in a mockup of the interior. The movement of light had to be perfect on every surface.

IN TOUCH WITH YOUR WORLD

Infiniti InTouch™ makes your world flow. Your life is always moving, and Infiniti InTouch™ seamlessly brings your world into your car. Stay ahead and in contact with your voice, text, email, calendar, navigation and music.

A PREMIUM CONNECTION Every time you get into your Q30, connect with technology that responds like the technology you hold in your hand. After you connect your smartphone, Infiniti InTouch™ brings your world into your car, allowing you to read email or text, listen to your playlist, navigate unfamiliar streets or call your friends.

MORE OF YOUR WORLD Personalise your Q30 to keep you moving ahead instead of catching up. Sync to a selection of apps from your smartphone to your car, allowing you to access your email, calendar, and search capabilities.

ADJUSTS TO YOU Infiniti InTouch™ delivers an intuitive experience right from your driver's seat in the manner that best suits you. Once your smartphone is connected, you can interact with the state-of-the-art system however you find easiest—through the 7-inch colour touchscreen, Infiniti Controller or voice command.

PLUG-IN CONVENIENCE Two USB ports give you twice the opportunities. Get instant access to your music library. Charge your smartphone. Listen to tunes on a USB stick or drive. The 10-speaker Bose® audio system will transform your Q30 into a mobile sound studio - optional on Q30 Sport and standard on Q30 Sport Premium.

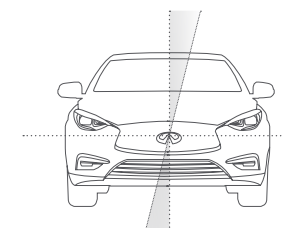

BLUETOOTH® STREAMING AUDIO Turn your Bluetooth®-enabled smartphone into a source of music, and listen to your top playlists over the Q30's audio system.

HANDS-FREE VERSATILITY With the Infiniti Bluetooth® Hands-free Phone System, you can make and receive wireless calls using voice recognition. No fumbling. No need for a headset. Just press a button on the steering wheel.

Overseas model shown

QUICK RESPONSES FOR THE URBAN STREETS

Obstacles and opportunities come up fast in the city. The Q30 empowers you to respond with finely tuned handling that's as agile as it is smooth.

STABLE CORNERING

SHARPNESS WITH SMOOTHNESS Sporty yet forgiving, you can feel the attention paid to tuning the Q30 shock absorbers. They hold the Q30 tight and stable as you take turns whilst softening rough pavement and cobblestone, for a rare balance of responsive handling with a smooth ride. Engineers even reduced suspension noise so it sounds smooth.

FINE-TUNED STEERING The Q30 was made to thrive in the fast-paced thrust and parry of urban driving. A little turn of the wheel results in a big response with little effort, so it's always easy.

SPORT SUSPENSION In the Infiniti Q30 Sport and Sport Premium, reflexes are sharpened and the look is more aggressive, thanks to a lower and firmer suspension. It is paired with larger brakes and cross drilled front discs that stay cooler for better stopping performance.

SEAT DESIGN You connect to your Q30 through the steering wheel and your seat. The driver seat's design is based on zero gravity research to provide maximum spinal support and reduce the pressure on muscles, so it supports you where you need it whilst also reducing fatigue on long drives.

EVERY SENSE IS HEIGHTENED AND QUICKENED

From the feel of acceleration to the song of the engine, we've amplified the experience of power and sound motion in the Q30.

A CONTINUOUS RUSH Acceleration Swell is our vision of power. By precisely tuning the engine to unleash torque over a broader rev range, the force you feel seems to increase the faster you go, making swell feel like a limitless rush.

SHARP SHIFTING Paddle shifters on the steering wheel give you fingertip control over gear selection. The speedy shifting of the Dual Clutch Transmission feels even faster when you never take your hands from the wheel to change gears.

7 SPEED DUAL CLUTCH TRANSMISSION Shift delays are now an artefact of history. With one clutch for even gears and another for odd, the next gear is already pre-selected. The result is smooth gear changes you'll interpret as pure, clean power.

DRIVE MODE SELECTOR Adjust your driving experience to fit the moment. Whether you want efficiency, smoothness or sportiness, select Manual, ECO or Sport mode to fine-tune your performance to your needs.

EASY TO PARK FROM ANY ANGLE

The Q30 offers engineering that intuitively extends your ability to manoeuvre in and around tight spaces.

SEE EVERY SIDE Gain a new perspective on what's around you. With the Around View® Monitor with Moving Object Detection and Front and Rear Parking Sensor System, four cameras and one virtual 360° view from above make it easy to see and manoeuvre in even the tightest spaces. Standard on Q30 Sport Premium.

MOVING OBJECT DETECTION The four cameras not only give you an unprecedented view, they keep watch as well. An audible alert is given when a stationary or moving object is detected behind you or close by, and the appropriate camera is highlighted to show you which side. Standard on Q30 Sport Premium.

INTELLIGENT PARK ASSIST Using a combination of 12 sensors, this system will determine if the parking area is large enough. Simply press a button to confirm, and operate the accelerator and brake pedals. The Q30 will park itself safely—in parallel or reverse parking spots. Standard on Q30 Sport Premium.

CAMERAS

MASTER THE WAY YOU MOVE THROUGH TRAFFIC

Whether the roads are clear, chaotic or constantly changing, intelligent technologies help guide you through the action.

SEE THE SIGNS The Traffic Sign Recognition uses a camera to watch for posted speed limits and give you a reminder in the instrument panel. When you're aware, you're in command. Standard on Q30 Sport and Sport Premium.

MAINTAIN YOUR LANE The Lane Departure Warning monitors lane markings and will warn you visually, audibly and physically—as a vibration through the steering wheel—so you can correct your line before you leave your lane. Standard on Q30 Sport and Sport Premium.

MANAGE YOUR PACE In the Q30 Sport Premium, set your desired speed and distance, and Intelligent Cruise Control (Full-Speed Range) will automatically adjust your speed in slowing traffic, all the way to a complete stop. Once the way clears, Intelligent Cruise Control will bring you back up to your preset speed.

KNOW YOUR WAY Find your way through busy streets and unfamiliar territory. Infiniti InTouch™ with Navigation lets you choose a view that's most intuitive to you—a 2D overhead view or a 3D Birdview perspective. You can even search for a destination without knowing the specific name or category, then save it to start your journey. Standard on the Q30 range.

Overseas model shown

PREPARED FOR

RECOGNISING DANGER Forward Collision Warning looks ahead for the vehicle in front. If you're closing in too quickly, the system will warn you visually and audibly. Standard on the Q30 range.

ASSISTED BRAKING Forward Emergency Braking adds another dimension of security. It detects vehicles in the lane ahead of you. If you need to brake, it will push up the accelerator pedal and apply the brakes to help minimise or even prevent a collision. Standard on the Q30 range.

HELPING STAY IN CONTROL Vehicle Dynamic Control (VDC) compares actual vehicle cornering to the driver's input. If the system senses oversteer or understeer, VDC adjusts engine power and applies appropriate braking to individual wheels to help correct the problem and keep the Q30 on the intended path.

BETTER DIRECTIONAL STABILITY WHILST STOPPING Electronic Brake force Distribution adjusts the amount of pressure applied to the front and rear wheels to improve braking performance and reduce front-end dive.

SENSES WHERE YOU CAN'T SEE The Blind Spot Warning System uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds. Standard on Q30 Sport Premium.

PREPARED FOR

ENHANCED PROTECTION Includes front air bags, front seat-mounted side-impact air bags and roof-mounted curtain side-impact air bags. Knee air bags for the driver help provide an additional measure of safety in a front or rear collision.

STRONGER AND LIGHTER High- and ultra high-strength steel is used in critical areas, such as the roof pillars, floor and roof crossmembers, door beams and various reinforcements to enhance your safety in case of a collision.

REDUCING FORCE In the event of a collision, advanced front and rear crumple zones deform gradually to help absorb the energy of the impact before it reaches the passenger cabin.

1

Intelligent Cruise Control (Full Speed Range) is not a collision avoidance or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident.

2

Intelligent Brake Assist is only an aid to assist the driver and is not collision warning or avoidance device. It is the driver's responsibility to stay alert, drive safely and be in control of the vehicle at all times.

3

Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. Infiniti Navigation System may be inoperable in some areas.

4

Airbags are only a supplementary restraint system; always wear your seat belt. Even with the front passenger airbag switched off, it is recommended to not use rear-facing child restraints in the front passenger's seat. In addition, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents. See your owner's manual for more detail.

5

ESP, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness or dangerous driving techniques. Always drive safely.

6

The Lane Departure Warning system operates between approximately 60-200km/h and only when lane markings are clearly visible on the road. These system will not prevent loss of control. See your owner's manual for more details.

7

The Blind Spot Monitor system is not a substitute for proper lane change procedures, the system will not prevent contact with other vehicles or accidents due to careless or dangerous driving techniques or detect every vehicle or object around you.

8

FCW cannot prevent accidents due to carelessness or dangerous driving techniques. Always drive safely.

9

Driving is serious business and requires your full attention. Do not operate any devices connected to the USB port while driving.

10

Bose is a registered trademark of the Bose Corporation

11

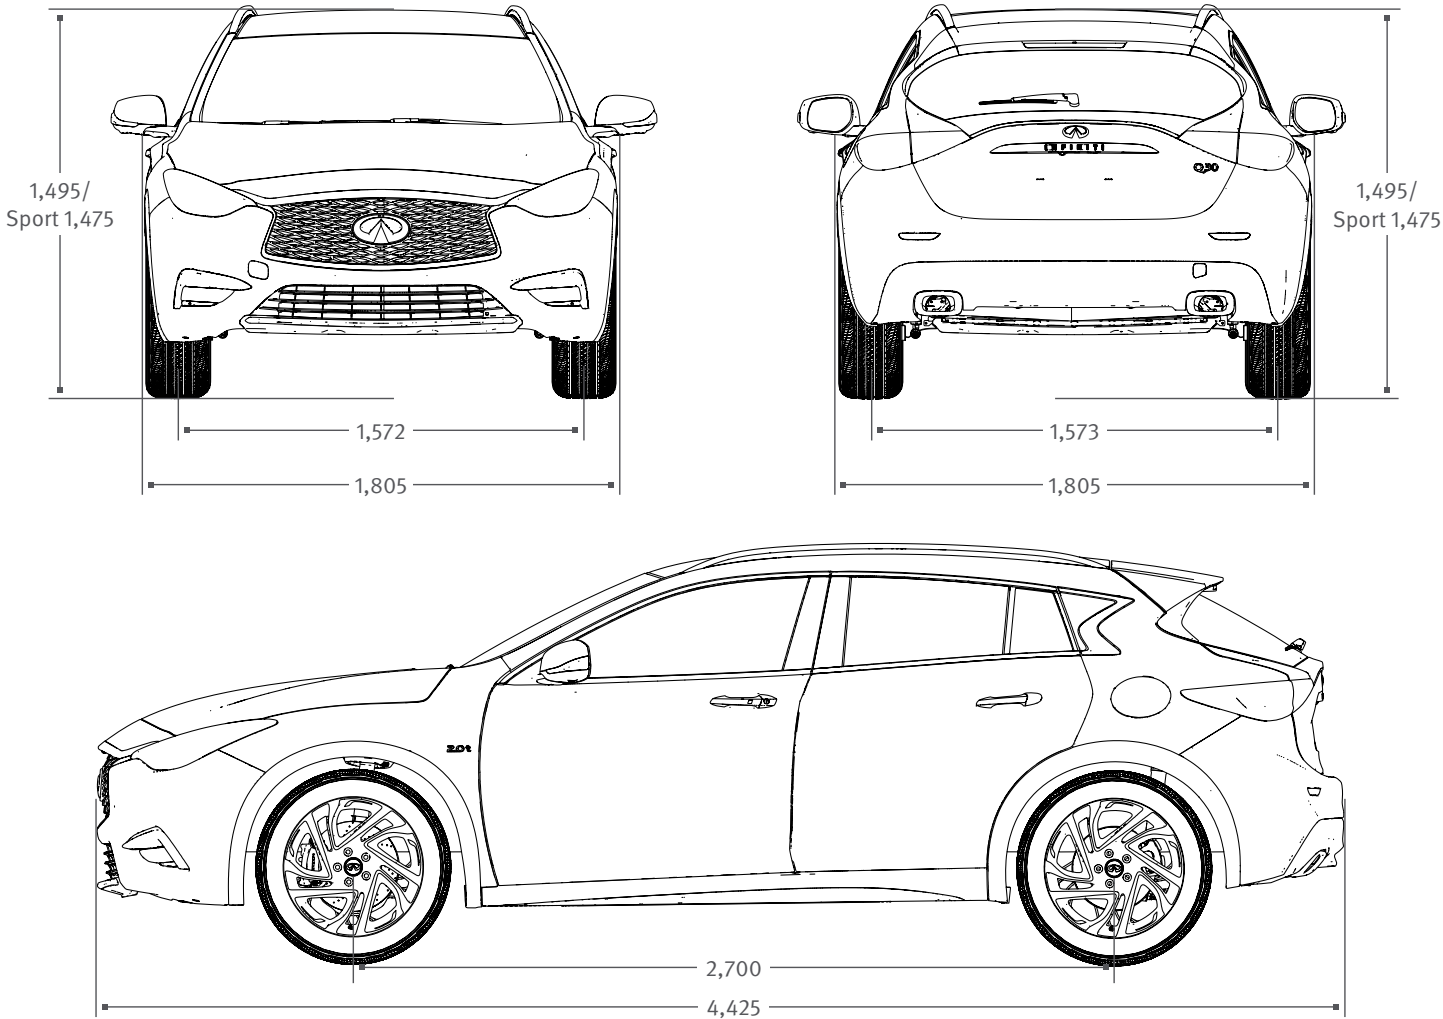

The Bluetooth™ word mark is owned by The Bluetooth SIG, Inc. Functionality and compatibility will vary depending on the device.

* Figures tested in accordance with ADR81/02 (combined test). **Figures stated for the purposes of comparison amongst vehicles only.** Actual fuel consumption [and CO² emissions] depends on factors such as traffic conditions, vehicle condition, how you drive and any accessories fitted.

THE FORMULA FOR PARTNERSHIP

The excitement builds. The pressure mounts. Emotions surge. This is how partnership feels when technology, ingenuity and passion fulfil their promise. This is Infiniti's Formula One know-how.

We may be the ones racing, but you are the winner. Infiniti provides engineering resources and knowledge to the Renault Energy F1 power unit's Energy Recovery System. By combining our expertise in performance hybrid technologies with the knowledge and skills of the Renault Sport Formula One racing team, we can translate racing technology and driver exhilaration from the track to the road, delivering you emotionally charged vehicles with forward thinking.
