

Q50

POWER INTELLECT INTENSITY

Wherever you go, your presence stirs a reaction, and the Infiniti Q50 reflects the way you are seen by the world. Through an increase in performance and advancement in technologies, you'll always find yourself out in front.

ELEVATING YOUR POWER AND POTENTIAL

S

SIGN OF PERFORMANCE At Infiniti, performance is more than delivering a heightened driving experience. We believe it should unleash a more dynamic driver in you. And now, a shared passion can be boldly displayed by the letter S. Whether it is more intense power, tuning or design, every Infiniti Sport Edition represents something special.

S

RED SPORT The Q50 Red Sport represents the most powerful engine in its lineup: the new 3.0L twin-turbo 298kW engine.

S

BLUE SPORT The Q50 Blue Sport Hybrid is designated for the Infiniti Direct Response Hybrid® engine, an enhanced hybrid that delivers inspiring performance with efficiency at its core.

2.0-LITER TURBOCHARGED ENGINE Honed for eager response and quick acceleration when you want it, the turbo spools quickly to produce 155 kW. It also outputs a stirring 350 Nm of torque while reaching 7.3l per 100km combined fuel consumption.

224
KW

9.2*
L/100KM COMBINED
FUEL CONSUMPTION

ALL-NEW 3.0-LITER TWIN-TURBO 224KW ENGINE A variant of the new V6, this twin-turbo V6 delivers power you would expect from Infiniti performance engineering. Thanks to the lightweight aluminum engine block and friction-reducing technologies, 224 kW and 400 Nm of torque is ready on tap.

125
KW

5.2*
L/100KM COMBINED
FUEL CONSUMPTION

2.2 LITER DIESEL ENGINE Robust with a flexible supply of pulling power, this 2.2l diesel engine delivers effective performance with 125 kW and 400 Nm of torque. Quickly get up to cruising speed and achieve up to 5.2 l/100 km.

* Figures tested in accordance with ADR81/02 (combined test). Figures stated for the purposes of comparison amongst vehicles only. Actual fuel consumption and CO2 emissions depends on factors such as traffic conditions, vehicle condition, how you drive and any accessories fitted.

INTENSIFY THE FEELING OF PERFORMANCE

Unleash the intelligence and force of the Q50, and free yourself to drive precisely the way you desire.

AN ELECTRIFYING CONNECTION The Q50 steers with innovation. The world's first digital steering system, DAS is quick to respond while filtering out unwanted vibration. Tuned for a more natural connection, it also offers up to 6 settings to personalise performance.

ENHANCED STABILITY The all-new Dynamic Digital Suspension¹ monitors chassis vitals and continually adjusts the suspension to deliver a smooth ride yet maintains tight handling in the turns. Activate Sport mode and dial up the suspension for even sharper handling whenever you feel like it. Working along with DAS, it completes a digital handling system for confidence over any winding road.

Sport Premium Model Shown

MORE RESPONSIVE BRAKING With ventilated discs and aluminium 4-piston opposed front calipers and 2-piston opposed rear calipers, Performance Brakes¹ provide great stopping force from both sides of the rotor at the same time for better bite, more friction and direct feel.

A CONTINUOUS RUSH Acceleration Swell is our vision of power, dedicated to delivering a shape and feel to acceleration. By precisely tuning the engine to unleash torque at a broader rev range, the force you feel seems to increase the faster you go, making Swell feel more like a limitless rush than a momentary thrill.

ENHANCING THE DRIVE The Infiniti Drive Mode Selector allows you to personalise the driver settings—from steering, engine and suspension inputs¹—to best fit your needs of the moment.

SHAPED WITH PURPOSE AND INTENSITY

Break free from convention with design that adds a new dimension to premium styling and leaves an unmistakable impression wherever you go.

SIGNATURE STARE OF INTENSITY Undeniably Infiniti, the crescent-shaped LED headlights and taillights replicate each other whether the lights are on or off.

IMPRESSION AMPLIFIED Expressing signature Infiniti design, the double arch grille is prominently placed front and center. The arc of the bottom, like a natural reflection to that of the top, gives the front fascia a distinctive appearance.

AERODYNAMIC ADVANTAGE The upper and lower body of the Q50 directs air to flow over, around and under the Q50, turning it into effective downforce. The overall design achieves zero lift at the front and rear and helps reduce the effect of wind turbulence at higher speeds.

ATHLETIC STANCE Large 19-inch alloy wheels¹ not only complement the sporty proportions of the Q50 but are designed to make handling more responsive. The lightweight construction inherently reduces unsprung weight and helps contribute to quicker turn-ins.

MASTER THE WAY YOU MOVE THROUGH THE CITY

Whether the roads are clear or chaotic, intelligent technologies are always adapting to evolving conditions.

MANAGE YOUR PACE Set your desired speed and distance, and Intelligent Cruise Control (Full-Speed Range)^{1,5} will automatically adjust your speed in slowing traffic, all the way to a complete stop. Once the way clears, Intelligent Cruise Control will bring you back up to your preset speed.

KEEP YOUR DISTANCE Distance Control Assist^{1,6} looks ahead and warns you if your following distance becomes too short. If detected, and you do not take your foot off the accelerator pedal, the system will partially engage the brakes and push back on the pedal.

Sport Premium Model Shown

STAY ON PATH Working with Direct Adaptive Steering[®], Active Lane Control² evaluates the road ahead and can make small steering input angle adjustments if your Q50 experiences minor direction changes due to uneven road surfaces or crosswinds.

MAINTAIN YOUR LANE The Lane Departure Warning and Lane Departure Prevention Systems^{1,3} monitor lane markings and will warn you if you start to drift. If the drift continues, the system will provide brief steering input to ease your Q50 back towards the center of your lane.

KNOW YOUR WAY Find your way through busy streets and unfamiliar territory. Infiniti InTouch[™] with Navigation⁴ lets you choose a view that's most intuitive to you—a 2D overhead view or a 3D perspective. Now, you can access reliable unlimited search capabilities directly from your vehicle. Search for a destination without knowing the specific name or category, and then save it or start your journey.

A HEIGHTENED VISION OF WHAT'S AROUND YOU

*Naturally and instantly, your abilities
are amplified—in the way you see and
in the comfort you feel, all without
you having to think about it.*

INTUITIVE FRONT LIGHTING Illuminate where you truly want to be. The Adaptive Front lighting System (AFS) improves visibility at intersections and around curves by sensing your steering and turning the headlights to see not just ahead but around as well.

RECIRCULATE. REFRESH. RELAX. Just as you don't think about breathing, the Advanced Climate Control System adjusts without you asking. Constantly monitoring the incoming air, it senses outside fumes and automatically closes the vents, recirculating purified air throughout the interior. The system actively cleans the air, helping remove up to 99.5% of allergens.

ASSISTING EFFICIENCY To help improve fuel economy, the ECO pedal¹ system counteracts with the pedal push-back control mechanism if an excess of pressure on the accelerator is detected. An indicator on the instrument panel will also indicate the optimal level for fuel-efficient driving.

360°
VIEW

SEE EVERY SIDE Gain a new perspective on what's around you. With the Around View[®] Monitor with Moving Object Detection and the Front and Rear Sonar System^{7,*} four cameras and one virtual 360° view from above make it easy to see and manoeuvre in even the tightest spaces.

STAYING ALERT The Moving Object Detection⁹ system will sound an audible alert when a moving object is detected around the Q50.

Sport Premium Model Shown

PREPARED FOR

SENSES WHERE YOU CAN'T SEE The Blind Sport Warning and Blind Spot Intervention[®] system^{1,10} uses sensors to detect vehicles entering the blind spot area. First, a warning light will illuminate; then, if you move toward the occupied lane, a warning sounds. A brief steering input will also be provided to help guide your Q50 back to your current driving lane.

ADVANCED WARNING Forward Emergency Braking^{1,11} adds another dimension of security. It detects vehicles in the lane ahead of you, and if deceleration is required, the accelerator pedal is pushed up and the brakes are applied to help minimise a collision—or even help prevent one.

RECOGNISING DANGER Predictive Forward Collision Warning^{1,12} uses radar to continuously monitor not only the vehicle directly ahead of you but also the vehicle in front of that one. If the system detects a potential risk, it provides an alert and tightens the driver's seat belt to help restrain you.

MORE SURE WHEN BACKING Backup Collision Intervention^{1,13} increases your awareness and ability to react. As you back up, the system warns you if approaching vehicles or large stationary objects are detected behind your Q50 and can help you avoid a collision by applying the brakes.

Backup Collision Intervention

Forward Collision Warning with Forward Emergency Braking

PREPARED FOR

STRONGER AND LIGHTER Ultra high-strength steel is twice as strong as conventional steel and is built around you to enhance your safety in case of a collision.

ENHANCED PROTECTION Based on the severity of the crash and seat belt usage, the Infiniti Advanced Air Bag System adjusts inflation in the front supplemental air bags. Also featured are front seat-mounted side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags.¹⁴

WHAT YOU CAN'T SEE

WHAT YOU CAN'T AVOID

Sport Premium Model Shown

IN TOUCH WITH YOUR CONNECTED WORLD

Infiniti InTouch™ makes your world flow. Your life is always moving, and Infiniti InTouch™ seamlessly brings your world into your car. Stay ahead and in contact with your voice, text, email, calendar, navigation and music.⁴

A PREMIUM CONNECTION Every time you get into the Q50, experience a seamless connection with technology that responds like the technology you hold in your hand. Connect your smartphone so Infiniti InTouch™⁴ brings your world into your car, allowing you to read email or text, catch up on the latest news, listen to your playlist, navigate unfamiliar streets or call your friends. It even remembers your personal driving preferences.

MORE OF YOUR WORLD Personalise your Q50 to keep you moving ahead instead of catching up. Sync a selection of your favorite apps from your smartphone to your car, and even synchronise your email and calendar. Access unlimited search capabilities.

ADJUSTS TO YOU Infiniti InTouch™⁴ delivers an intuitive experience right from your driver's seat in the manner that best suits you. Once your smartphone is connected, you can interact with the state-of-the-art system however you find easiest. The top screen can be operated by touch, steering wheel switches or the Infiniti Controller; it is primarily used for driving information, including the monitor system and navigation. The bottom screen can be operated by touch and lets you manage the infotainment systems, such as the apps, audio and climate control.

HIGH-QUALITY SOUND The Infiniti Studio on Wheels® by Bose®¹ boasts 14 speakers, three of which are 10-inch subwoofers to add palpable depth to every form of music. Their positioning and sound delivery is precision-engineered specifically for the interior of the Q50 to filter out noise and distortion, and to surround you with rich and realistic sound.

BLUETOOTH® STREAMING AUDIO Turn your Bluetooth®-enabled smartphone into a source of music, and listen to your top playlists over the Q50's audio system.⁵

HANDS-FREE VERSATILITY With the Infiniti Bluetooth® Hands-free Phone System;⁵ you can make and receive wireless calls using voice recognition. No fumbling. No need for a headset. Just press a button on the steering wheel.

DEDICATION IN EVERY DETAIL

Reveal true craftsmanship that goes into everything you see and the materials you touch.

PLEASING TO THE EYES The soothing glow of the Fine Vision electroluminescent gauges has been designed to not only be brighter, but the contrast delivers information clearly, even at a glance.

CONSISTENT SWITCH FEEL Touch a button. Then touch the one next to it. Every button and switch is crafted with the same level of precision, so you sense a consistent Infiniti feel under the fingertip. With this attention paid to a switch, imagine how the remaining surfaces feel.

Overseas model shown

SOFTER SEATBELTS The seat belt is one of the few surfaces you continually touch, so we use a variable herringbone weave that is 20% softer than standard fabrics. This makes it more comfortable to wear, easier to pull out, and even less likely to snag your finer fabrics.

TAILORED TO YOUR EVERY ARRIVAL

*Begin every journey with a special moment.
Be at the center of thoughtful conveniences
that always make you feel special.*

INVITING YOU IN For added convenience and safety, Welcome Lighting responds to your presence automatically with a sequence of exterior then interior lights. The puddle lights illuminate the ground below, and then the interior lights glow to help you settle in. The choreographed sequence ends with the Start/Stop button pulsing, waiting for you to bring it to life.

INFINITI INTELLIGENT KEY Recognising you upon your approach, the Infiniti Intelligent Key lets you unlock the doors and trunk, and even start the engine without taking the key out from your pocket or purse. And as you enter, it slides your seat back for you, then adjusts your steering wheel and outside mirrors automatically to your preferences.

OPTIMISED COMFORT The dual occupant memory system¹ allows two custom profiles. Depending on which key you possess, the preferred settings for the seat, steering column, and mirrors are automatically executed with the press of a button, giving both drivers an intimate level of comfort.

MORE COMFORTABLE QUICKLY Here, every aspect of your entrance is as hospitable as possible. Heated front seats² will keep you warm during winter months or chilly nights with a simple push of a button.

1 Available on select models. **2** Active Lane Control cannot prevent accidents or loss of control. It is the driver's responsibility to be in control of the vehicle at all times. ALC may not detect the lane markers in certain road, weather or driving conditions. **3** The Lane Departure Warning/Lane Departure Prevention Systems operate only when the lane markings are clearly visible on the road. Speed limitations apply. See your Owner's Manual for more details. **4** Driving is serious business. Only use Infiniti InTouch Apps™ when safe to do so. Subscription Agreement required. Compatible smartphone required. May require retailer service visit or software upgrade to activate. Not all app features are available for all models. Like any computer, processing speed may vary and system response delay or system reset may occur intermittently. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. Cellular network not available in all areas. Cellular network, apps, and services, including Google® services, are provided by independent companies not within Infiniti's control and may require subscription and owner consent to activate. **5** Intelligent Cruise Control is not a collision avoidance or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. **6** Distance Control Assist helps maintain a distance to the vehicle in front under certain conditions. Not a collision avoidance system. Failure to apply the brakes could result in an accident. **7** AVM with MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 8 kph. Always check surroundings and turn to look behind you before moving vehicle. **8** The Sonar System is a convenience, not a substitute for proper parking and/or backing procedures. Always check that it is safe to do so before moving vehicle. May not detect every object. **9** MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 8 kph. Always check surroundings and turn to look behind you before moving vehicle. **10** Blind Spot Warning/Blind Spot Intervention Systems are not a substitute for proper lane change procedures. The systems will not prevent contact with other vehicles or accidents. They may not detect every vehicle or object around you. **11** FEB cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. **12** PFCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other limitations apply. See Owner's Manual for details. **13** BCI will not detect every object, and speed limitations apply. Always check surroundings and turn to look behind you before moving vehicle. See owner's manual for details. **14** Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner's Manual for more details. **15** Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Infiniti is under license.

THE FORMULA FOR PARTERNSHIP

The excitement builds. The pressure mounts. Emotions surge. This is how partnership feels when technology, ingenuity and passion fulfil their promise. This is Infiniti’s Formula One know-how.

We may be the ones racing, but you are the winner. Infiniti provides engineering resources and knowledge to the Renault Energy F1 power unit’s Energy Recovery System. By combining our expertise in performance hybrid technologies with the knowledge and skills of the Renault Sport Formula One racing team, we can translate racing technology and driver exhilaration from the track to the road, delivering you emotionally charged vehicles with forward thinking.

Visit us online to create your ideal Infiniti, get pricing and more.
