WHERE WILL LIFE TAKE YOU?

How would you prefer to travel the highway of life? Pampered by sumptuous luxuries, yet energised by the adrenalin rush of agile handling? In your heart you want added exhilaration, yet your head demands reduced consumption, all distilled within a stylish, compact package. Tough task. Introducing the CT 200h, the compact luxury vehicle for today's world that will accelerate your body and invigorate your mind.

DRIVING TOWARDS TOMORROW

We're living in exciting, exhilarating times. The smart thinkers are changing the world as the status quo is being overturned and fresh ideas are breathing new life into traditional themes. At Lexus, we believe the future belongs to those who question what has gone before and strive to devise better solutions. Such thinking has created the Lexus Hybrid Drive (LHD), an engine that fuses two energy sources together to create one singularly uplifting driving experience.

THE OUTER SHELL REFLECTS THE INNER SOUL

Style is the external reflection of who you are on the inside. For some, that look can reflect a quiet inner calm; an understated contentment with who you are. Others may be more outspoken, projecting an image that tells everyone they're firmly in control. Style is also what sets the CT 200h apart. It displays a sense of poise and panache, from the signature spindle grille through to a body design sculpted by dynamic curves and elegant contours. This is the new expression of L-finesse, the design language through which Lexus speaks directly to the heart.

LOOKING INWARD WHILE MOVING FORWARD

Perhaps you seek to feel connected with the outside world, while feeling snug and secure on the inside. You want easy access to technologies that allow you to keep your finger on the pulse of life. Lexus has designed an interior that radiates around the needs of the driver. It provides you with the sense of connection and control you desire and the sublime comforts you crave.

PURSuing A NEW DEFINITION OF LUXURY

In the mid 1980s a team of passionate designers embarked on a remarkable journey. They travelled to America and integrated themselves into an exclusive neighbourhood to better understand the intricacies of privileged lifestyles.

Designers visited upscale boutiques and exclusive country clubs to discover the true essence of western style and to learn what luxury vehicle buyers really wanted. They observed how a new definition of luxury was permeating American society. Fashion, design and architecture were being reshaped by younger, more affluent professionals who were turning their backs on conventional luxury vehicles, seeking a more rewarding driving experience.

Such a fact-finding mission was followed by one of the most extensive development programs ever undertaken by a motor vehicle company. The end result was the Lexus LS 400, a vehicle that ultimately redirected the course of luxury vehicle design, elegance and performance.

The Lexus CT 200h emerged in 2010 and marked an evolution of the Lexus hybrid revolution, as the world's first luxury hybrid hatch. It was the first Lexus equipped with Drive Mode Select, allowing drivers to fine-tune drive characteristics and cabin ambience to suit their particular mood. It showcased futuristic technologies as its full hybrid powertrain delivered remarkable performance while distilling the luxury of a Lexus into a compact package. Now the CT 200h has evolved even further, reflecting the dynamic new look of L-finesse expressed in Luxury, F Sport and Sports Luxury models.

Meanwhile, the Lexus commitment to groundbreaking design has forged ahead into bold new territory. The most recent reminder has been the unveiling of the LF-CC coupe concept at the Paris Motor Show. The LF-CC serves as a glimpse into the Lexus vehicle of tomorrow, while its new generation hybrid power plant sets new benchmarks for high performance and reduced emissions.

LUXURY FOR A NEW GENERATION

INTRODUCING THE CT 200h

To Lexus designers, CT means 'Creative Touring', yet once you slip into its intuitive interior, it will come to mean so much more. CT 200h is the Lexus for today's generation of progressive thinkers, embraced with luxury and firmly in sync with a world that is constantly on the move. Similarly, the unique Lexus design language known as 'L-finesse' has evolved, from the signature spindle grille to the flurry of curves and contours that mould its nimble body. You're also able to change its personality and responses with a simple twist of the Drive Mode Select dial.

The Lexus CT 200h is a vehicle that is sensitive to who you are, allowing you to select a model that best mirrors your personality.

CT 200h Luxury offers understated elegance with a compelling package of refinements. F Sport has been built for those with more athletic aspirations. Then there's CT 200h Sports Luxury, a vehicle equipped with a complete portfolio of comforts and advanced technologies.

In today's world, keeping pace means keeping connected. So CT 200h is equipped with the Lexus Enform⁽¹⁾ communication system which provides a new way to communicate with the world around you. Lexus Enform⁽¹⁾ is so special, it's reserved for Sports Luxury and F Sport models, and for Luxury models with Enhancement Packs 3 and 4. Lexus Enform⁽²⁾ utilises your compatible iPhone[®] or

Android[™] smartphone⁽²⁾ to put a wealth of information at your fingertips.

Excitement means entertainment, so CT 200h is enriched with a choice of two high quality audio systems, beginning with a 10-speaker premium system. There's also a 13-speaker audiophile quality system created by Mark Levinson,[®] one of the world's pre-eminent audio designers.

A selection of paint finishes enhance the dynamic curves of the body design. Each finish is able to capture the light and create unique visual effects which accentuate the flowing curves and contours of the body design.

GETTING AHEAD MEANS GETTING NOTICED

STYLE AND DESIGN

The objective of Lexus designers was to create a hybrid vehicle with a low profile, instilling a vigorous attitude while retaining a distinctly Lexus personality. Notice how the dynamic spindle grille erupts with a flourish of bold geometric lines, leading down into the front bumper and flowing upward into bold character lines which sweep across the bonnet and down the sides.

Headlights incorporate Daytime Running Lights (DRL) in the 'L' configuration for improved visibility and personality. Luxury and F Sport models are equipped with halogen headlights, whilst Sports Luxury has the latest generation Poly Ellipsoid System (PES) LED headlights, for greater illumination using less power than conventional headlights.

Electrically operated exterior mirrors with an LFA-inspired design treatment have a rain dispersing coating for ultimate clarity. They also incorporate puddle lamps which illuminate once you open the door of Luxury models, or as you approach Sports Luxury and F Sport models carrying your Smart Key or Smart Key Card.

Within this dynamic design treatment, certain nuances distinguish particular models. On the F Sport, the spindle grille is offset by mesh patterned inserts. This confident attitude is topped off by a contrasting black roof and a rear spoiler. Luxury and Sports Luxury models feature an elegant spindle grille design punctuated by crisp horizontal lines.

F Sport is distinguished by 10-spoke, 17" alloy wheels offset by a dark smoke finish. The CT 200h Luxury rides on 16" alloy wheels, while a 17" design is reserved for the Luxury Enhancement Packs and Sports Luxury models. Across all models, Yokohama 'dB decibel' tyres provide optimum grip with levels of quietness befitting a Lexus.

INTERIOR DESIRE

STYLE AND DESIGN

When you enter a vehicle, you should feel inspired and empowered. So Lexus has designed the interior around a philosophy they call 'human orientated design', which positions what you need precisely where you need it for enhanced simplicity and control.

Visual displays are located in the upper Display Zone, which is positioned just below your line of vision for maximum visibility with minimal eye movement while driving. Switches and controls are positioned lower in the Operation Zone.

The three-spoke premium steering wheel and shift lever have been designed to impart a look of luxury and refinement. Switches on the steering wheel for the audio system,

Multi Information Display (MID) and Bluetooth[®](4) allow you to make adjustments while keeping your hands on the wheel. The F Sport steering wheel takes on a more performance focused look and bears the distinctive F Sport insignia.

The instrumentation changes depending on the drive mode you select. In 'ECO' or 'NORMAL' modes, the back lighting is blue and a hybrid meter is displayed. Switch to 'SPORT' mode and the lighting turns red, while the hybrid meter turns into a tachometer, complementing the sporting persona.

Luxury models feature fine fabrics, while a leather accented interior is offered in F Sport, Sports Luxury models and in Luxury models equipped with Enhancement Packs. For added

comfort in cooler climates, front seats are heated in all but the base Luxury model.

Six driver's seat adjustments in Luxury models allow you to select your optimum seating position. F Sport and Sports Luxury offer 10-way power adjustment of the driver's seat with a memory switch for instant recall of three seating adjustment and mirror setting combinations. The rear seats have been sculpted for passenger comfort while their split fold design allows you to carry longer items, like snowboards or golf clubs.

ENGAGE THE MIND, EXCITE THE SENSES

TECHNOLOGY

With a twist of the Drive Mode Select dial, you can instantly change the vehicle to suit your mood. EV mode lets you slip quietly along at up to 45-50km/hr on electric power alone, with interior lighting a soothing blue. 'ECO' mode adds in the petrol engine and ensures relaxed vehicle responses. Feeling more energetic? 'NORMAL' mode ensures normal throttle response which is perfect for city driving.

Turn to 'SPORT' mode and the interior lighting turns red, the hybrid meter turns into a tachometer and the electric motor delivers additional power. The throttle and steering become more responsive and the Vehicle Stability Control (VSC) and Traction Control (TRC) are reprogrammed for spirited motoring.

The Lexus Remote Touch (LRT) controller in CT 200h Luxury with Enhancement Packs 3 and 4, F Sport and Sports Luxury models offers easy access to the Satellite Navigation,⁽⁴⁾ Climate Control, audio settings and more. It also operates a remarkable communication system known as Lexus Enform.⁽¹⁾ You can plan your route by sending locations to the vehicle, search for a warm bed or a cool drink along the way,⁽⁵⁾ even make hotel reservations and locate the nearest petrol station.⁽⁶⁾ That's simply a snapshot of what's at your fingertips.

Entertainment begins with a 10-speaker audio system incorporating a DVD player and two USB inputs for iPod® or iPhone®⁽⁷⁾ integration. F Sport, Sports Luxury and Luxury models with Enhancement Packs 3 and 4 give you the enhanced clarity of a Digital Radio (DAB+).⁽⁸⁾

F Sport with Enhancement Pack 2 and Sports Luxury models indulge you with a premium Mark Levinson® system with 13-speakers and a Class D amplifier for breathtaking fidelity.

Satellite Navigation⁽⁴⁾ is standard in F Sport and Sports Luxury models and available in Luxury models with Enhancement Packs 3 and 4 to guide you efficiently to your destination. Even reversing is simpler with the Rear View Camera⁽⁹⁾ fitted as standard. In Sports Luxury, F Sport and Luxury models with Enhancement Packs 3 and 4, the addition of Rear Guide Assist (RGA)⁽⁹⁾ helps you judge distances for greater precision.

THE SERENITY OF SAFETY

SAFETY

Lexus engineers have equipped the CT 200h with many of the technologies developed for its flagship models, resulting in a 5-star ANCAP safety rating. It begins with a package of 8 Supplemental Restraint System (SRS) airbags fitted as standard, including dual stage front airbags and twin knee airbags for the driver and front passenger, front seat side airbags and full length side curtain shield airbags.

Satellite Navigation⁽⁴⁾ is fitted to Sports Luxury and F Sport models, and to Luxury models with Enhancement Packs 3 and 4. This advanced system displays the location of the vehicle on a 'map' screen, and can be programmed to provide information, such as directions to a destination, both visually and with spoken messages, allowing you to keep your eyes on the road.

With the rain sensing function switched on, the wipers activate the moment rain is detected on the windscreen. Even reversing is easier as rain dispersing coatings and heating on the exterior mirrors ensure optimum clarity.

All CT models come standard with a Lane Departure Warning system (LDW).⁽⁶⁾ LDW judges your position and if you appear to be straying out of your lane, a buzzer sounds and a warning appears on the Multi Information Display (MID).

Vehicle Stability Control (VSC) uses electronic sensors in conjunction with both the Anti-skid Braking System (ABS) and Traction Control (TRC) to help deal with certain potentially dangerous situations involving loss of traction which you may encounter. VSC manages both the engine's output and the brake operation on each individual wheel. It immediately intervenes if it senses the car is skidding due to either oversteer or understeer.

Sports Luxury models and F Sport with Enhancement Pack 2 are equipped with a Pre-Collision Safety System (PCS)⁽⁷⁾ which helps to anticipate the likelihood of a collision. If the system detects that a collision may be imminent, it first displays a warning on the Multi Information Display (MID) and sounds an alarm. Then PCS⁽⁷⁾ arms the Pre-Collision Seatbelts (PCSB) for greater restraint and prepares the Pre-Collision Brake Assist (PCBA) to supplement your braking. If the system perceives that a collision is unavoidable, Pre-Collision Brake (PCB) activates automatically to reduce your speed and minimise impact.

Sports Luxury and F Sport models with Enhancement Pack 2 are also equipped with Active Cruise Control (ACC)⁽⁸⁾, an advanced cruise control system that uses radar to detect when the vehicle is closing in on a slower vehicle in front.

When ACC is switched on, it slows the vehicle to maintain a safe gap and only accelerates back to the pre-set speed when the vehicle in front either speeds up or moves out of the way.

THE FUTURE OF PERFORMANCE REVEALED

CT 200h HYBRID

Our world is filled with more new ideas than ever before. So when you step into the driver's seat of a vehicle powered by the Lexus Hybrid Drive (LHD), it feels a natural extension of the world we live in today.

Like all good ideas, the Lexus Hybrid Drive started with a very simple one. Why not join a petrol engine together with an electric motor? So Lexus engineers started with an energetic petrol engine boosted by a wealth of advanced technologies, then added a high energy electric motor. That's when things got interesting.

If that's how it works, how does it feel?

When you're stopped at the lights, there's a relaxing silence, because nothing is running at all. Touch the accelerator gently and the electric motor ushers you quietly along. Keep pushing the accelerator

and the petrol engine joins in for greater response. Once you're up to highway speeds, the electric motor relaxes leaving most of the work to the petrol engine, for blissfully smooth cruising.

Now consider a cleaner future. The Lexus Hybrid Drive emits a mere 95gms/km of CO₂, which is considerably less than a similarly powered petrol engine - less even than a comparable diesel engine.⁽¹²⁾

The Continuously Variable Transmission (CVT) ensures there's no gear shifting like a conventional transmission and your speed simply increases without gear changes. For something so forward thinking and sophisticated, driving a Lexus Hybrid Drive is delightfully simple and effortless. Isn't that the sort of future we all dreamed about?

Pre-Production Prototype model shown

LIFE IS NOT A SPECTATOR SPORT

CT 200h F SPORT

The moment you set eyes on the CT 200h F Sport, the heart beats a little faster. What you'll first notice are the 17" F Sport alloy wheels, F Sport badging and roof mounted rear spoiler. As you step inside, you're greeted by a leather accented interior in your choice of F Sport Dark Rose or F Sport Black, each complemented by Wedge Metal aluminium mouldings. The Lexus Remote Touch (LRT) allows you to access a wealth of technologies including Satellite Navigation.⁽⁴⁾ Once in motion, sports tuned suspension with firmer spring and shock absorber settings ensures reduced body roll on corners, while performance dampers front and rear ensure added comfort and control.

PRIVILEGED ENTRY

CT 200h LUXURY

Your CT 200h journey begins with the Luxury model which comes equipped with an array of standard inclusions. The CT 200h Luxury is distinguished by its stylish 16" alloy wheels, while Daytime Running Lights (DRL) in the distinctive L-configuration are standard to the range. Most noticeable as you step inside is the choice of three stylish fabric colours, instilling a soothing look to the interior treatment with a soft touch. A slim 7" screen positioned on the dash displays audio settings, accessed by the Lexus Display Audio (LDA) controller on the centre console. Drive Mode Select tailors vehicle responses and interior ambience to suit your mood.

ENHANCEMENT PACK 1

- Leather Accented Interior
- Heated Front Seats
- 17" Alloy Wheels
- Front Fog Lights

ENHANCEMENT PACK 2

- Leather Accented Interior
- Heated Front Seats
- 17" Alloy Wheels
- Front Fog Lights

REFINEMENT REDEFINED

CT 200h SPORTS LUXURY

On the outside, Sports Luxury models are distinguished by Poly Ellipsoid System (PES) LED headlights and 17" Sports Luxury wheels. Then as your slim Smart Key Card ushers you inside, the leather accented interior complemented by Shimamoku woodgrain embellishments provides a warm welcome. Assuming your bespoke seating position is as simple as touching the right switches on the 10-way power adjusted driver's seat, then later recalling your settings from

the driver's memory switch. A Mark Levinson® 13-speaker audio system surrounds you with pristine, digitally cleansed sound. With so many luxuries included as standard there was little room for options. So all you have left to decide is which of the three interior design treatments and nine exterior colours you prefer to uniquely personalise your CT 200h Sports Luxury.

Lexus Australia reserves the right to vary and discontinue the current interior and exterior colours, trims and colour/trim/model combinations. Colours and trims displayed here are a guide only and may vary from actual colours due to printing/display process. See your Lexus dealer to confirm colour/trim/model availability when ordering your vehicle.

CT 200h Sports Luxury model shown

A COLOUR PALETTE THAT ADDS PANACHE

EXTERIOR COLOURS

Lexus designers are mindful of the way colour has the ability to reshape design. Some colours impart excitement, others soothe. Yet beyond pure colour, complex paint finishes have been developed which accentuate design, achieving some stunning effects across a complete spectrum of lighting conditions.

In Mercury Grey, tiny particles of Mica below the surface of the paint have the ability to capture the sun's rays and create a dazzling effect, similar to the way highly polished metal emits a rich sheen in direct sunlight.

Certain metallic finishes like Premium Silver and Volcanic Bronze employ metallic particles which are embedded deep within the paint coating to capture the light and emit a rich lustre. A finish called 'Caliente' has also entered the colour spectrum, capable of firing up the emotions with its rich red hues.

The CT 200h F Sport has a colour treatment that is quite over the top. A contrasting black roof enhances the vehicle's sporting personality and provides an added dimension to the seductive L-finesse body design.

Lexus Australia reserves the right to vary and discontinue the current interior and exterior colours, trims and colour/trim/model combinations. Colours and trims displayed here are a guide only and may vary from actual colours due to printing/display process. See your Lexus dealer to confirm colour/trim/model availability when ordering your vehicle. Metallic/mica pearlescent paint is optional and subject to additional charges on most models.

MATERIAL WEALTH

INTERIOR TRIMS

Style emanates from the careful choice of the finest materials as much as from the design and layout. Lexus interior designers have created a selection of interior treatments for the CT 200h resulting in three unique personalities for the Luxury models, three for Sports Luxury models and two exciting treatments for the F Sport.

Some may prefer the tactile softness of the fabric trim lavished on Luxury models, with a choice of Black, Ivory Splash and Kaleidoscope Red, punctuated by black mouldings across the dash, door trims and console.

F Sport is distinguished by a leather accented interior, finished in a choice of F Sport Dark Rose or F Sport Black, an effect offset by Wedge Metal trims.

The look of opulence in Sports Luxury models is the result of a leather accented interior finished in your choice of Topaz, Ivory or Black. To complement such a look, accents have been crafted from Shimamoku woodgrain, with its wide grain and high lustre.

Beyond the choice of materials and metals are the tactile nuances which complement the feeling of luxury. Soft upholstery has been added to the armrests, imparting a soft caress close to your skin for added comfort. Two-tone door ornamentation provides added dimension to the contoured door trims.

Lexus Australia reserves the right to vary and discontinue the current interior and exterior colours, trims and colour/trim/model combinations. Colours and trims displayed here are a guide only and may vary from actual colours due to printing/display process. See your Lexus dealer to confirm colour/trim/model availability when ordering your vehicle.

OWNERSHIP SOLUTIONS

OWNERSHIP SOLUTIONS ALLOWS YOU TO DETERMINE YOUR FINANCE COSTS AND KNOW THE GUARANTEED FUTURE VALUE (GFV)* OF YOUR VEHICLE FROM THE OUTSET. IT OFFERS YOU CHOICE, CONTROL AND CERTAINTY. IN SHORT, EVERYTHING YOU'D EXPECT FROM LEXUS.

How does Ownership Solutions work?

- You choose the deposit that best fits your needs.
- You choose your term.**
- We agree on the estimated kilometres you think the vehicle will have travelled at the end of the term (the End Odometer). The End Odometer will also include any kilometres already on the vehicle.
- Lexus Financial Services (LFS) then determines the GFV of your vehicle. The GFV is the minimum value of your Lexus at the end of your finance contract. Your monthly repayments are then calculated based on the above information with a final payment equal to your GFV. Then, if you return your Lexus at the end of the term and satisfy the agreed terms and conditions, LFS will pay you the GFV which will be put against the final payment.

The end of the term? Simply replace, retain or return.

At the end of your term you can choose to:

- Replace or sell your Lexus using the trade-in value or sale price to pay the remaining balance of your account.
- Retain your Lexus and simply pay the remaining balance of your account (including final payment).
- Alternatively, return your Lexus and, subject to fair wear and tear conditions and the agreed kilometres being met, we'll put the GFV towards the final payment on your account.

Choosing your deposit – what is best for you?

With the flexibility of Ownership Solutions, you can choose the deposit that best fits your current needs.

- If, for example, you have funds tied up in other investments, you can choose to finance your new Lexus with a zero deposit.†
- Alternatively, by using a larger deposit you can lower your monthly repayments.
- Better still, compared to other finance options over a similar term, Ownership Solutions can provide more affordable monthly repayments.***

Want more certainty?

With Ownership Solutions you've got the reassurance that at the end of the term (subject to fair wear and tear and agreed kilometres being met) you'll never owe more than your vehicle's worth to LFS. In other words, you don't have to worry about what your vehicle will be worth in the future because you know its minimum value from the outset.

What happens in the case of the unexpected?

If your vehicle incurs damage and does not meet the Fair Wear and Tear guidelines, LFS will give you the opportunity to have your vehicle repaired. Otherwise, LFS can organise the repairs and deduct the cost from your GFV. This adjusted GFV will then be the price that LFS will offer you if you return the vehicle at the end of your term. Of course, if you retain the vehicle, the condition doesn't matter, however, if you replace it or sell it privately the condition will obviously impact your sale price.

So what does your accountant think?

Naturally, we think Ownership Solutions is an excellent, innovative way to put you in control of buying a new Lexus. That said, we suggest you seek independent advice to ensure Ownership Solutions is right for you.

Wouldn't it be great if Ownership Solutions was just the beginning?

Lexus' innovations and commitment to customer service extend well beyond Ownership Solutions. Once you purchase a new Lexus, you'll become a member of the Lexus Encore Privileges programme and enjoy a host of exclusive benefits.†

For further details, simply visit your nearest Lexus dealer or see www.lexus.com.au/services/benefits for details.

* Guaranteed Future Value (GFV) is the minimum value of your new or approved demonstrator Lexus at the end of your finance contract, as determined by Lexus Financial Services (LFS). If you decide to return your car to Lexus at the end of your term, LFS will pay you the agreed GFV amount which will be put against your final payment, subject to fair wear and tear conditions and agreed kilometres being met. The information provided is general in nature. You should seek your own financial advice to determine whether Lexus Ownership Solutions is appropriate for your individual circumstances. Terms and conditions, fees and charges apply. Lexus Ownership Solutions GFV products are available to approved customers of Lexus Financial Services, a division of Toyota Finance Australia Limited ABN 48 002 435 181, Australian Credit Licence 392536.

** Up to four years.

*** Lower monthly repayments compared to similar term with no Guaranteed Future Value (GFV) or equivalent balloon final payment. Total interest charges will be higher if a GFV or balloon final payment is selected.

† Terms and Conditions apply.

THE BENEFITS OF ENCORE

THE BENEFITS OF BEING A LEXUS OWNER GO FAR BEYOND THE INTRINSIC PLEASURE OF DRIVING THE VEHICLE. FROM THE MOMENT YOU'RE HANDED THE KEYS, YOU'LL ALSO BE WELCOMED TO THE LEXUS ENCORE PRIVILEGES PROGRAMME[†] - A RANGE OF EXCLUSIVE INITIATIVES THAT REAFFIRM OUR ONGOING PURSUIT OF PERFECTION.

It all means you'll enter a world of benefits that extends to every corner of life. A world where everything's just that much easier and works that much more seamlessly. And a world where, should trouble ever find you, you can always find a helping hand.

Take our After Sales Service as an example. Both our technology and our technicians are at the forefront of automotive innovation. And our profound understanding of every single component of your Lexus means we can do more to ensure it's a pleasure to drive today, and in the long run.

It's a world you've always belonged in. A privilege unique to Lexus drivers.

Silver service

Every aspect of your Lexus is built around your comfort and convenience, so it's fitting that when it's ready for a service, we'll come and pick it up from you and provide you with a complimentary loan car while we're inspecting. Plus, when we return your Lexus, it will have received a complimentary wash and interior vacuum.

Experience Lexus outside your vehicle

We're constantly striving to enhance the Lexus ownership experience. It's what we're known for. Our luxury events will be the perfect way to experience the Lexus lifestyle and network with other owners. Tickets may be limited, so be quick to secure your place.

Peace of mind

Wherever you are and whatever you're doing, you can relax because with our Encore Privileges programme, you have the 24-hour support of Lexus Drive Care. We'll look after your car and, just as importantly, we'll look after you and your passengers.

Well read

You can stay abreast of all things Lexus from the comfort of your own home, with our Lexus Magazine delivered right to your door. It'll keep you updated on all aspects of luxury living and covers everything you need to know about the cars that are leading the world.

See lexus.com.au/services/benefits for details

[†] Terms and Conditions apply.

^{*} Full DriveCare details and conditions are available in your Lexus DriveCare wallet or you can phone 1800 253 987. Lexus Australia reserves the right to change, without notice, any benefits specified. Benefits should be confirmed at the time of ordering with your authorised Lexus dealer. THIS BOOK IS PRINTED ON GREEN PAPER

The Lexus book you are reading has been produced using HannoArt Satin. A premium coated paper representing a level of craftsmanship that is without peer. This environmentally responsible paper is manufactured using low environmental impact FSC® certified pulp and is certified carbon neutral by The Carbon Reduction Institute.^ Sappi, the manufacturers of HannoArt, place high importance on delivering an environmental and sustainable operation. They operate under world's best practice ISO 14001 EMS and EMAS certification and eliminate harmful by-products by using Totally Chlorine Free (TCF) pulp. HannoArt is archival, so like our vehicles, it's made to stand the test of time. As a company that strives to lessen its impact on the environment in every way possible, Lexus believes that choosing our paper wisely is one more step we can take in preserving our planet.

^ Calculations encompass carbon emissions from seedling to printer. For full details please visit www.kwdoggett.com.au
