*My morning is a ritual that boosts creativity for the day ahead.
Driving slowly along familiar roads, the process reminds me of the
way the drip of coffee over time produces a cup of pure flavour.*

*No two days are alike.
Each is made unique by the people I meet,
the weather and the season.
Every day it is important to challenge myself.*

Overseas model shown in Dark Rose trim.

*I always try to keep in mind a bigger picture of my place in life.
For instance, my cooking goes on a plate, which is taken to the table.
The table is part of the restaurant, which is part of the city.*

*What's important to me isn't recipes in a book,
it's the recipes I carry in my head that I've created
using my own senses.*

*Encounters aren't chance events.
Each day, I actively seek to find something new in life.
Sometimes, my mind drifts far away.*

*Searching without limits is the road to enriching moments.
Every time I find a thing I'm looking for, my world shines.*

There are still unknown lands to explore, with different sensations and tastes to experience. I want to continue my journey, to touch true sophistication, one discovery at a time.

RX CONCEPT

Drive into the future. The RX pioneers a fresh blend of Lexus luxury with sporting performance for a fast changing world.

The fourth generation RX was conceived as ‘The Progressive Luxury SUV’, actively embracing the pioneering spirit and values forged by previous generations of RX, then projecting them into the future. Driven by the desire to challenge the status quo and be dramatically different, ‘Progressive Luxury’ shapes a fresh expression of Lexus luxury to exceed expectations of what an SUV can be. One that embraces life with style, performance with pleasure, passion with perfection, in a truly leading-edge package.

The RX immediately captivates with its dynamic presence, presenting an eye-catching face to the world.

The sleek strong proportions of a large SUV create the base for exhilarating sporty driving performance and intuitive predictable handling, together with exceptional ride comfort.

The smart integration of advanced technologies embodies the values RX drivers hold close, contributing to outstanding fuel efficiency and giving an active edge to driving control and peace of mind, stimulating driving pleasure every time you get behind the wheel.

[DISCOVER MORE ABOUT THE RX](#)

RX Sports Luxury model shown with Noble Brown trim.

RX Sports Luxury model shown with Noble Brown trim.

The RX stays true to the progressive values embedded in its DNA, while anticipating and meeting the changing needs of an active lifestyle. Creating a fresh definition of the 'Progressive Luxury' began with the RX's core dimensions, extending the wheelbase to create a strong platform for the outstanding stability at the heart of exciting sporty performance.

At the same time, it enables the luxury of a spacious cabin in which to shape fresh design innovations and seamlessly integrate advanced technologies that actively enhance the driving experience.

The RX's 'Progressive Luxury' is dramatically expressed in the bold exterior styling, at once assertive and captivating, that exudes individuality in its powerful presence.

It is affirmed by refinements to the engine and chassis that further extend performance limits and enhance the luxurious ride comfort, to create an exhilarating driving performance.

Your driving pleasure deepens with the legendary Lexus attention to detail in the elegant interior, a refined blend of advanced technology and sophisticated craftsmanship, so that each feature is intuitive to use and provides excellent utility.

DESIGN

‘Seductive strength’ expresses an active and energetic attitude, fusing a powerful presence with intelligent seductiveness.

The RX’s design concept of ‘seductive strength’ fuses the powerful essence of an SUV with intelligent seductiveness to take the evolution of RX DNA to a higher level. This evolution is expressed in the bold proportions of the long wheelbase and large aluminium wheels of the lower body, and a sleek elegant cabin silhouette created without compromising the spacious cabin. The front face radiates both sharpness and power, emphasised by the contrasting thin sharp upper section and bold thick lower section of the signature spindle grille.

In the cabin, the ‘premium touch’ of a luxury SUV is fused with ‘advanced’ RX DNA, realising an interior space with a fresh

configuration that is spacious yet snug. Even as the driver’s space has a separate cockpit-like feel, the openness of the design helps the driver and front passenger stay connected. The longitudinal design motif, which flows from the colour head up display* across the meter hood to the centre console, visually expresses movement from the display zone to the operation zone. Together with the integration of advanced technologies and an intelligent functional layout which takes into consideration the driver’s movement, it realises a cockpit space that enables the driver to concentrate on driving.

[DISCOVER MORE ABOUT THE RX](#)

*Head-up display applicable to Luxury +EP2, F Sport and Sports Luxury only.

EXTERIOR

The bold yet sleek proportions fuse strength with seductiveness. Sharp functional components blend seamlessly with the sensual body, creating a strong design that exudes incisive elegance.

[DISCOVER MORE ABOUT THE RX](#)

INTERIOR

The subtle use of refined materials, including metal, wood and leather accents, creates a tasteful contrast that highlights the rich qualities of each, while blending together in the elegant ambience of the cabin.

3

PERFORMANCE

The RX embraces a passion for sporty performance, fusing exhilarating power with intuitive control to boost your driving pleasure.

To realise the exhilarating pleasure of emotional driving performance, the RX pursued a sporty driving experience in which driver input and vehicle response become one. Bringing this experience to life began with an extended wheelbase and large wheels to create an extremely stable platform. The engine mount and subframe structure were refined to significantly reduce vibration and enhance the structural rigidity of the body, contributing to the excellent cornering characteristics and a sharp steering feel that responds quickly and accurately to the driver’s input.

A choice of 2.0-litre turbo, 3.5-litre V6 engine or hybrid system generates the robust responsive power at the heart of sporty performance.

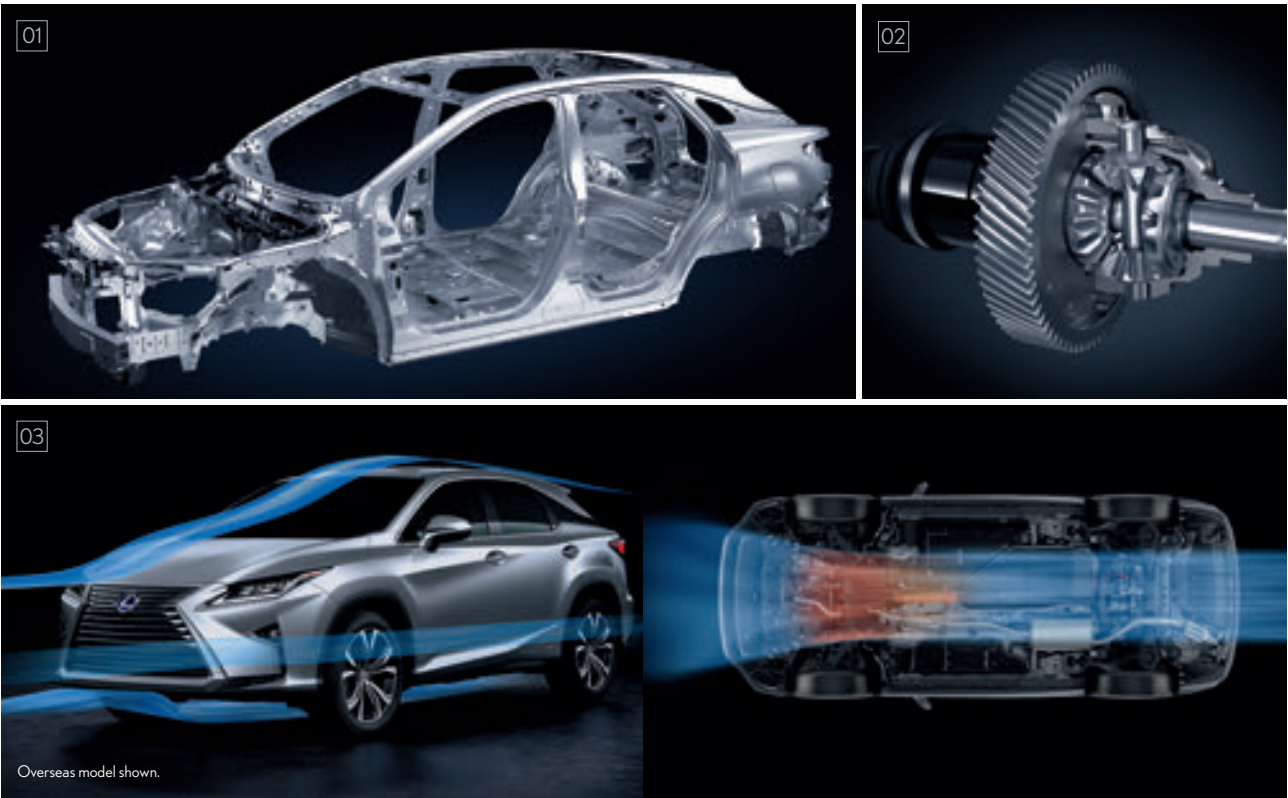

The RX 200t delivers silky smooth performance courtesy of a 6-speed automatic transmission and a 2.0 litre turbocharged 4-cylinder engine producing 175kW and 350Nm of torque. As for the RX 350, it’s powered by an 8-speed transmission and a highly intelligent 3.5 litre V6 capable of producing 221kW and 370Nm of torque.

The RX 450h on the other hand, boasts a highly innovative combination of both performance and economy, featuring a 3.5 litre V6 Atkinson-cycle hybrid that smoothly delivers a surprising 230kW courtesy of a Continuously Variable Transmission (CVT).

DISCOVER MORE ABOUT THE RX

PERFORMANCE

01 / Chassis

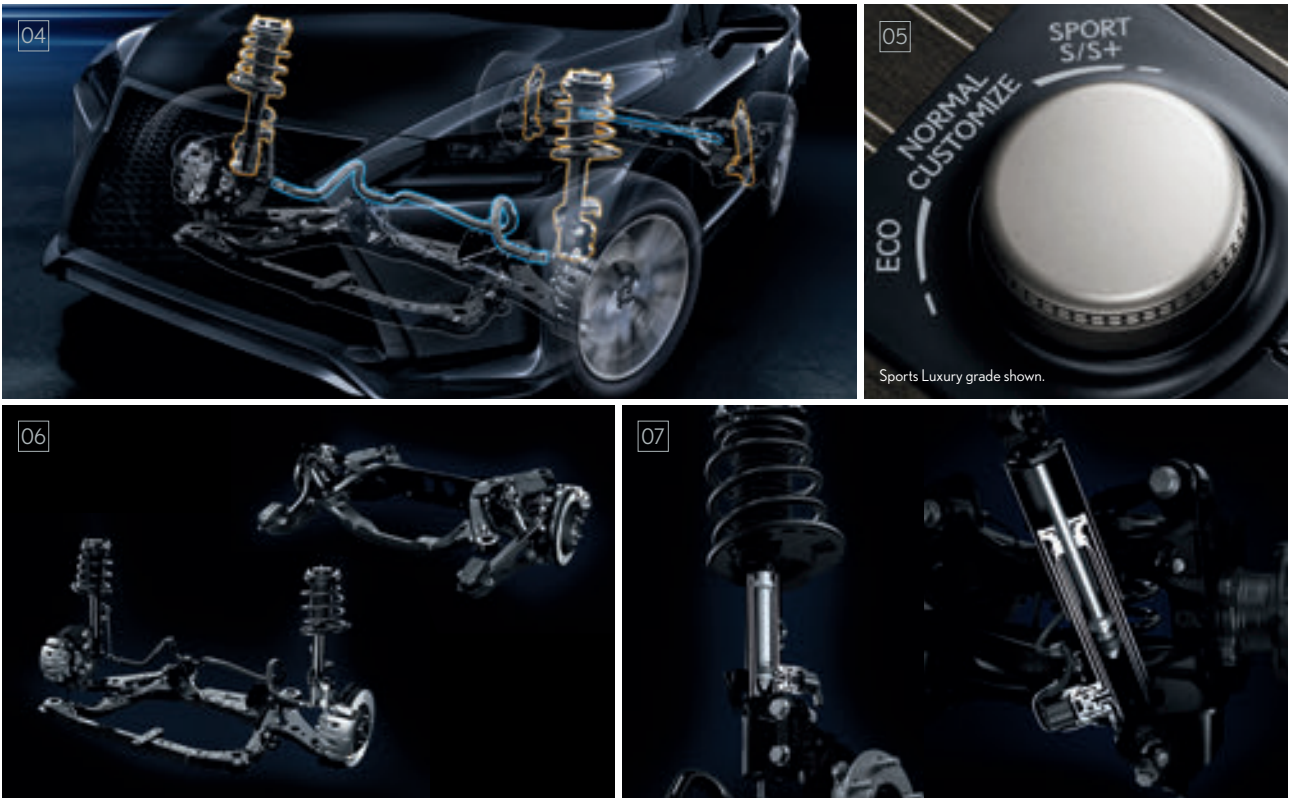

The foundation for the RX's exhilarating performance and responsive sporty handling is a lightweight, high rigidity body structure. It is made from hot-stamp, high tensile steel and aluminium, with strategically positioned reinforcements, using innovative production technologies including laser screw welding and body adhesives. Optimising the engine mounting helps minimise engine movement for quicker engine inertia response. It also isolates engine vibration, enhancing the luxurious ride comfort.

02 / Preloaded differential

This innovative differential preloads torque under light loads or low rotational speed, contributing to highly precise steering for excellent straight-line stability and for acceleration performance.

03 / Aerodynamics

A comprehensive approach to aerodynamics contributes to quiet comfort in the cabin, fuel-efficient performance, low sensitivity to wind turbulence, and excellent handling stability, even during high-speed driving. Optimising the body design, including the bumpers, rear spoiler and corner fins, is complemented under the body by a flat floor, engine and lower arm covers, spats on all four wheels, and aero stabilising fins.

04 / Shock absorbers

Careful refining of each shock absorber component optimises damping force, that helps to smooth minor road inputs and absorb larger jolts, maintaining a supple feel for agile handling, together with excellent ride comfort.

05 / Drive mode select

Drive mode select provides integrated control of multiple systems to let you tune performance to suit your driving style. On vehicles with AVS, you can select and change between Normal, Eco, Sport S and Sport S+ modes. In addition, Customise mode enables drivers to set their preferred performance settings for the powertrain, AVS, Electric Power Steering (EPS) and air conditioning.

06 / Front and rear suspension

The MacPherson strut front suspension and trailing-arm double wishbone rear suspension contribute to the excellent stability and steering response, heightening driving pleasure.

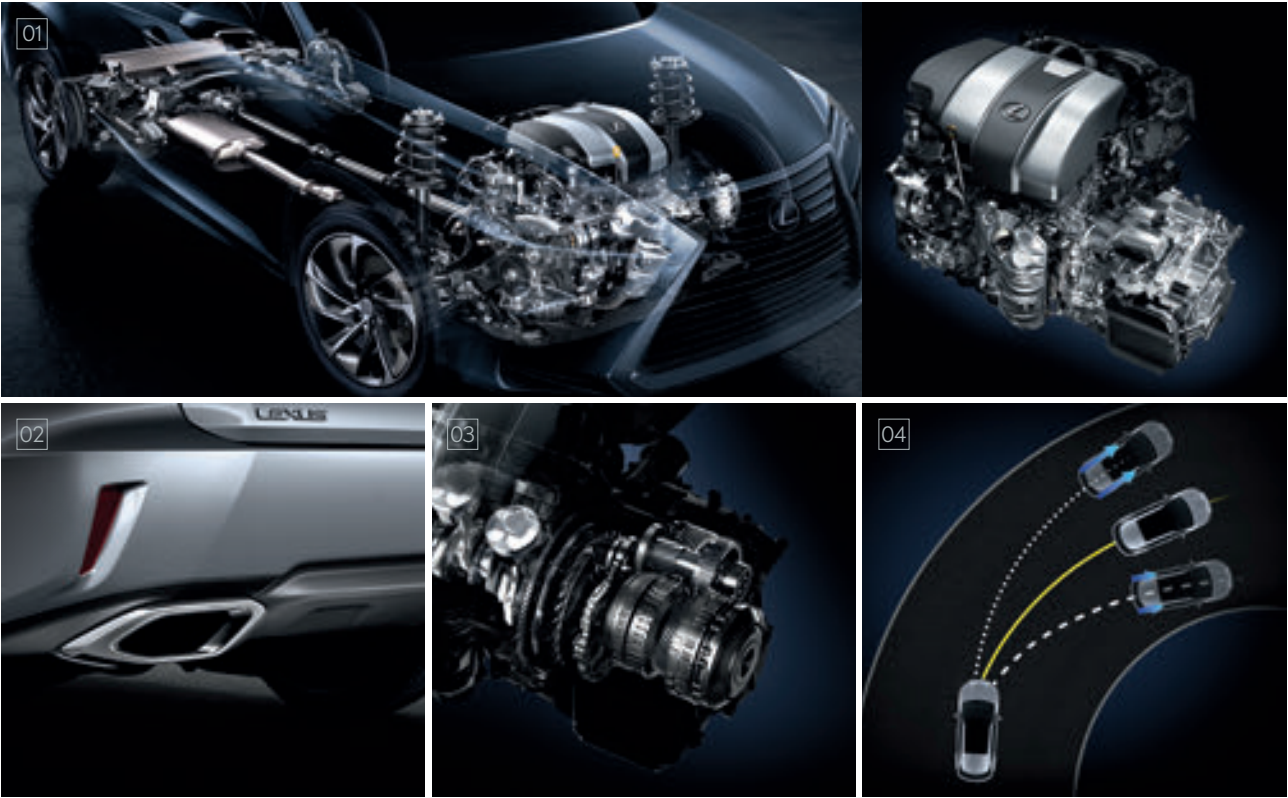

Optimising the individual components, including the coil springs, stabilisers, and shock absorbers, realises luxurious ride comfort, even on long drives.

07 / Adaptive Variable Suspension system (AVS)

AVS optimally controls the damping force of the shock absorbers on all four wheels in response to driver input and road surface conditions, contributing to the excellent ride comfort and handling.

[DISCOVER MORE ABOUT THE RX](#)

PERFORMANCE

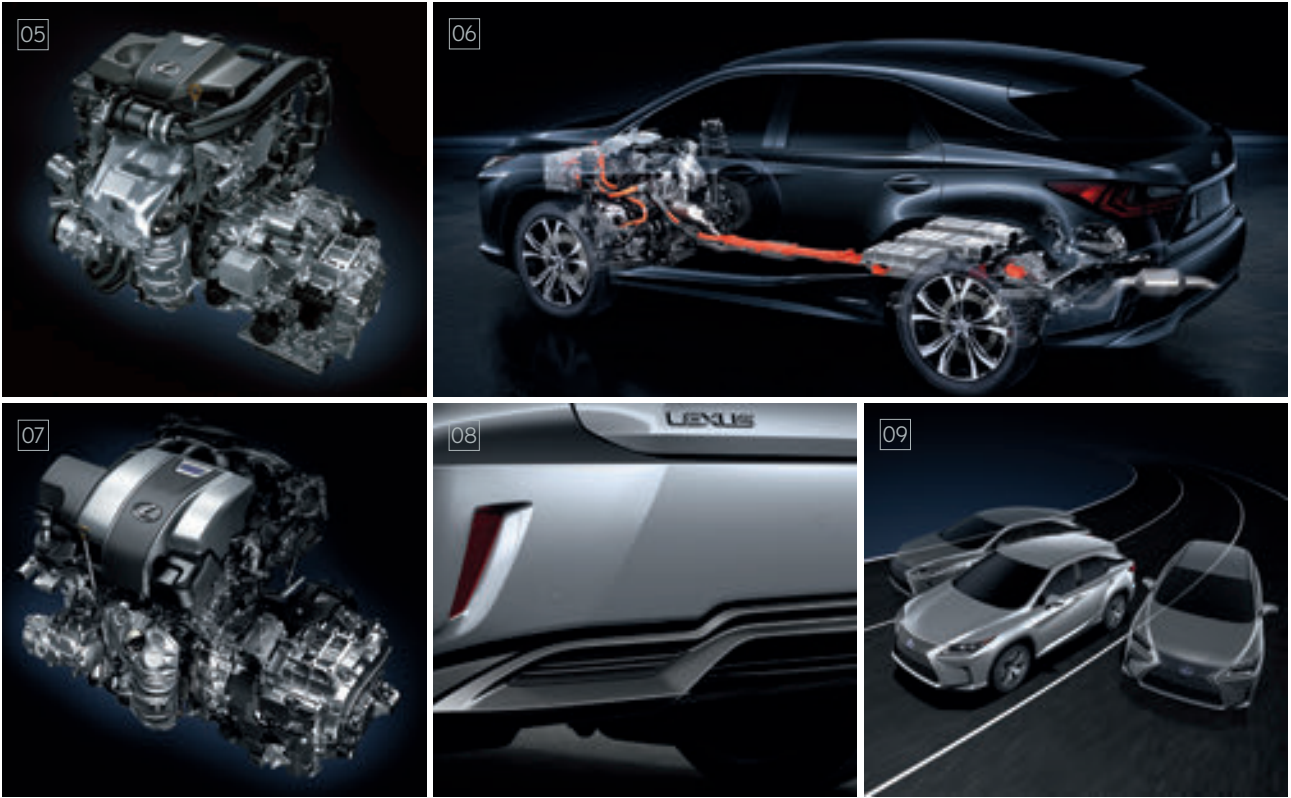

01 / 3.5-litre V6 petrol engine
The V6 Atkinson Cycle engine with Dual VVT-i (Intake side: VVT-iW) generates exhilarating driving performance balanced by excellent fuel efficiency. The innovative D-4S fuel injection system features both direct and port injectors, to realise excellent output, torque and fuel efficiency, while complying with strict emission standards.²

02 / Dual exhaust pipes
The dual exhaust pipes help to realise high power output. The design of the dual diffusers and integration of the baffles into the rear bumper accentuate the expression of sporty power.

03 / 8 Super ECT
For RX 350, the super intelligent 8-speed automatic transmission delivers smooth starting and acceleration performance, together with excellent fuel economy, contributing to the dynamic driving performance and showcasing the RX's distinctive power and smoothness under various conditions.

04 / Dynamic Torque Control AWD
The electronically controlled system in RX 350 continually varies distribution of drive power to the rear wheels, switching from front-wheel drive to AWD to realise handling stability to suit the driving conditions, especially while cornering, together with excellent fuel economy.

05 / 2.0-litre direct injection turbocharged engine
This engine combines a compact, high-efficiency, twin scroll turbocharger with an Atkinson Cycle engine with VVT-iW to deliver exhilarating driving performance and excellent fuel efficiency. The innovative D-4ST features both direct and port injectors, to help realise excellent torque responsiveness, and fuel efficiency.¹

06 / Hybrid system
For dynamic driving and reduced environmental input, Lexus Hybrid Drive intelligently combines the power of a highly efficient 3.5-litre petrol engine with electric power from a high-output motor.

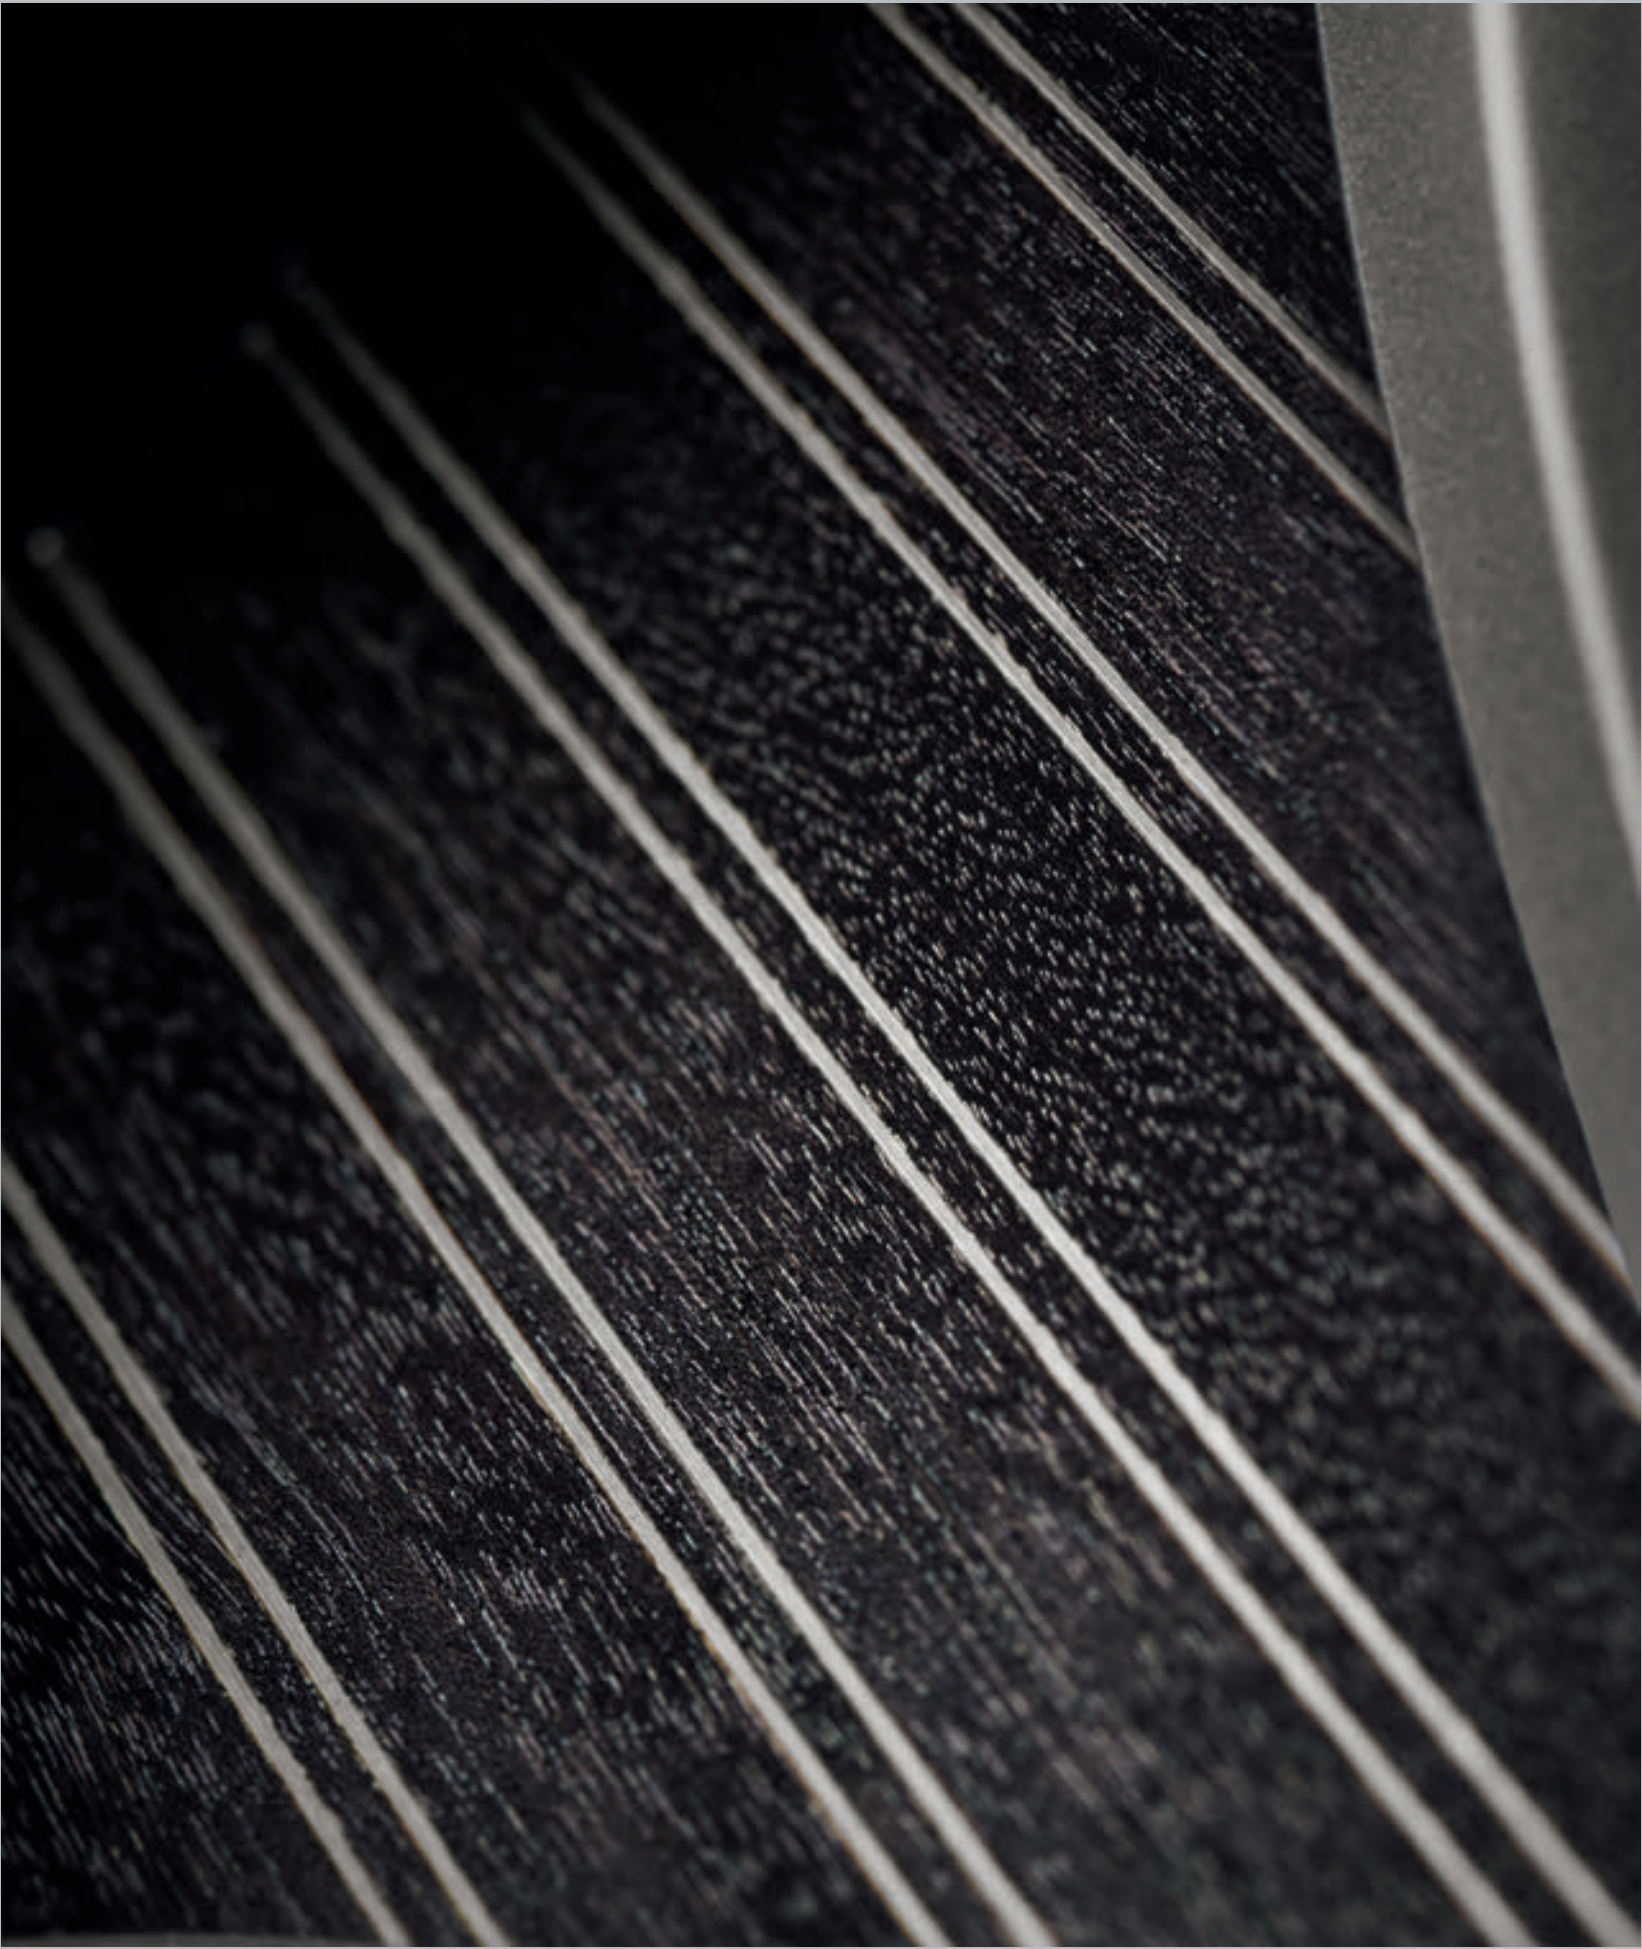

07 / 3.5-litre V6 hybrid engine
The V6 hybrid Atkinson Cycle engine features Dual VVT-i and advanced D-4S fuel injection system to deliver exciting performance with outstanding drivability, excellent fuel efficiency, and reduced emissions.²

08 / Metallic cover
The metallic cover of the lower rear bumper contributes to the excellent aerodynamics, with clean lines that communicate a subtle yet distinctive identity suitable for a hybrid.

09 / Electric four-wheel drive (E-Four)
In RX 450h, E-Four uses a rear motor that operates independently from the front motor to optimise distribution of front and rear drive force. In addition, it features slip and yaw rate feedback controls, for excellent vehicle stability in a wide range of driving conditions.

1 VVT-iW: Variable Valve Timing-intelligent Wide.
D-4ST: Direct injection 4-stroke petrol engine Superior version with turbo.
2 D-4S: Direct injection 4-stroke petrol engine Superior version.
VVT-i: Variable Valve Timing-intelligent.

EPISODE

4

FEATURES

The RX anticipates the future with refined features that blend advanced technology and incisive design with Lexus quality.

A closer acquaintance with the RX reveals its core values are embedded in every facet, deepening the feeling of pleasure that grows each time you drive. The sharp and powerful face which integrates energy-efficient LED 3-eye projector-type headlamps¹ with L-shaped LED units, and signature Lexus arrowhead-shaped LED DRL (Daytime Running Lamp) illumination, is matched by distinctive LED rear combination lamps that wrap around the side. A large rear spoiler accentuates the flowing design, and further enhances aerodynamics for sporty driving. The thoughtful convenience of illuminated door handles and the touchless power back door provide an introduction to Lexus luxury even before you get in.

Inside the spacious cabin, the sophisticated features show the future of luxury in the confident provision of refined functionality, outstanding comfort and personal pleasure. The renowned Lexus quietness has been enhanced for relaxed conversation, and provides an excellent ambience for the premium audio system. Advanced technologies are harnessed to display information in the meters and colour head up display² and the ability to customise your own environment through the Dual Zone Air-conditioning with Lexus Climate concierge and intuitive controls of the Remote Touch Interface.

[DISCOVER MORE ABOUT THE RX](#)

¹ LED 3-eye protector applicable to F Sport and Sports Luxury only.

² Head up display applicable to Luxury +EP2 F Sport and Sports Luxury only.

FEATURES / EXTERIOR

01 / LED 3-eye projector-type headlamps*

The futuristic design of the distinctive 3-eye, energy-efficient L-shaped LED lamps with integrated LED DRL creates a signature Lexus arrowhead-shaped illumination. The advanced LED turn signal lamps illuminate sequentially from the inner side to the outside of the headlamps.

02 / LED headlamps

The single Bi-LED headlamps switch between low and high beam to generate a bright light for excellent visibility at night, while reducing power consumption. The arrowhead-shaped LED DRL emits a subtle Lexus signature.

03 / LED front fog lamps

LED lamps integrated into the front bumper reduce power consumption while providing a bright beam, for safe driving in low visibility conditions.

04 / LED rear combination lamps

The distinctive L-shaped lamps wrap around the side in a deep-set curve, creating a wide signal and projecting a strong presence.

The wide LED sequential turn signal lamps* illuminate from the inner to the outer side of the lamp to intuitively convey the turn direction.

RX Luxury with Enhancement Pack model shown.

05 / Touchless power back door

The power back door automatically opens when a hand is held above the sensor in the Lexus emblem, enabling convenient hands-free opening when your hands are full or the door is wet or dirty.

06 / Rear spoiler

The large rear spoiler integrated into the top of the back door accentuates the flowing design and edgy sporty styling. The rear wiper is integrated into the spoiler, enhancing the clean lines.

07 / Door handles

The refined design displays a warm hospitality. The dynamic shape is easy to grip.

A brightened silhouette line and integrated foot area illumination on the handles guide you at night, then gently fade.

08 / Panoramic roof¹

The forward position of the panoramic roof enhances the feeling of openness and space in the cabin. It opens and closes, tilts up and down at the touch of a switch in the overhead console. The components were refined to reduce weight, contributing to fuel efficiency.

DISCOVER MORE ABOUT THE RX

FEATURES / INTERIOR

01 / Multimedia coordination function

The RX's seamless integration of advanced technologies supports the coordinated display of information from the multimedia systems on the large 12.3-inch Electro Multi-Vision (EMV)¹ display in the centre of the instrument panel and the 4.2-inch colour Thin Film Transistor (TFT) with a multi-information display in the meter cluster. For convenience, audio system information, incoming mobile calls, and some navigation on the EMV display can also be displayed on the multi-information display, and controlled using switches on the steering wheel.

02 / Colour head up display

The large colour head up display projects a range of frequently checked driving information and warnings on the lower windshield glass in the driver's line of sight, requiring only a movement of the eyes to see it.

03 / Meters

A subtle luxury touch is the design of the meters which fuses the simple functionality of 4-dial analogue meters with a hi-tech digital display. The large analogue speedometer and tachometer have three-dimensional meter faces for excellent visibility.

04 / S-FLOW control

The S-FLOW control measures the temperature setting, cabin temperature, outside temperature and direct sunlight.

It then optimises the control of the air conditioning airflow volume and vents, taking into account where occupants are sitting, to provide excellent comfort while enhancing fuel economy.

05 / Remote touch Interface

Simple operation that includes enter switches integrated on both sides and a back switch that lets users interact intuitively with the navigation and audio systems on the 12.3-inch EMV¹ display, for easy control of the systems.

06 / Overhead console LED lamp switches

Refined hospitality extends to intuitive operation of the front warm white LED dome lamp and silky white LED map lamps in the overhead console. Touch switches that detect finger proximity turn the appropriate lamp on or off.

07 / Mark Levinson audio system²

The Mark Levinson Premium Surround Sound System features 15 GreenEdge ultra-high efficiency speakers that generate outstanding output while significantly reducing energy consumption. The system also incorporates Clari-Fi technology which analyses the compressed digital music sources in real time and intelligently restores the high fidelity, no matter what the music source, creating rich low-range tones and beautiful mid to high-range tones for the enjoyment of occupants in every seat.

[DISCOVER MORE ABOUT THE RX](#)

FEATURES / INTERIOR

01 / Luggage space

The focus on creating a spacious cabin endows the RX with ample capacity to carry five people and their luggage. The power back door opens wide to provide easy access to a large luggage space that can accommodate four full-set golf bags or four suitcases, while carrying three passengers in the rear seats. A temporary stowage space behind the rear seats for the tonneau cover enables the luggage space to accommodate larger items.

02 / Power back door

Convenient controls for the power back door are set in the instrument panel and Electronic Key. Pressing twice on the additional closing switch located in the bottom of the back door closes and locks the door automatically. A memory function lets users set the opening clearance.

03 / Power folding rear seats*

Enhancing versatility and convenience, the rear seats can be reclined at the touch of a button integrated into each rear seat. They can also be folded flat or upright using switches in the rear seats and side of the luggage space.

04 / Wireless charger

This thoughtful charging tray in the centre console box enables wireless charging of batteries in Qi-compatible smartphones and electronic devices simply by placing them on the charger tray.

05 / Centre console box

Attention to detail refines the utility and convenience of this central storage space with a wide-opening lid and angled interior for easy access, and integrated LED light to make it easy to find items and use the integrated ports and power outlet.

06 / USB ports/mini jack/power outlets

Two USB ports, a mini jack and power outlet in the centre console box support plug-and-play use of electronic devices.

Additional power outlets are conveniently located in the centre cluster for the front seat passenger, in the back of the centre console box for rear seat passengers, and in the side of the luggage space.

07 / Rear door window sunshades*

Manual sunshades on the rear door windows give rear seat passengers convenient control over heat and light. Eliminating gaps between the shades and window trim helps to keep the sun from coming directly into the rear seats.

08 / Rear seats

The refined comfort of the rear seats is based on the spacious packaging that enables excellent seating posture and headroom, and a natural foot position for relaxed comfort. Seat recline and slide functions let passengers tailor their position to further enhance ride comfort.

EPISODE

5

SAFETY

Enhancing driving pleasure, the RX integrates advanced active control technologies to assist safe driving and give you peace of mind.

The RX brings the future to life where it matters most, contributing to your peace of mind. An integrated approach to active safety begins with refining the packaging to provide excellent visibility, including thin front pillars and careful positioning of the door mirrors. It is complemented by advanced technologies to actively assist driving control.

The Lexus Safety System+ integrates a Pre-Collision Safety system (PCS) with Pre-Collision Braking (PCB), Lane Keep Assist (LKA) with Steering Control, Automatic High Beam system (AHB) and All-Speed Active Cruise Control (ACC) to help assist safe driving.

Blind Spot Monitor (BSM)* with Rear Cross Traffic Alert (RCTA) and a panoramic view monitor† provide additional checks of your surroundings while getting in and out of parking spaces, helping to achieve a level of safety appropriate for a premium SUV. In the event of an accident, occupant protection is integrated into the core of the RX, with a high rigidity body structure designed to help disperse crash energy, and a high-strength body frame to help suppress distortion of the cabin. Inside the cabin, Supplemental Restraint System (SRS) airbags help reduce the impact to occupants in a collision.

[DISCOVER MORE ABOUT THE RX](#)

Prototype RX Sports Luxury model shown.

SAFETY

LEXUS SAFETY SYSTEM +

01 / Pre-Collision Safety system (PCS) with Pre-Collision Braking⁴

Utilising both a radar and a camera, the Pre-Collision Safety system with Pre-Collision Braking takes action whenever it perceives a possible impending collision.

First the driver hears a buzzer and sees a warning in the Multi-Information Display (MID) followed by the arming of the Pre-Collision Brake Assist to supplement braking effort. Finally, if a collision is deemed unavoidable, Pre-Collision Braking helps to reduce impact speed.

02 / Lane Keep Assist (LKA) with Steering Control⁴

LKA with Steering Control alerts the driver with a sensory alert using steering wheel vibration or a buzzer, and on the multi-information display if the system

judges the vehicle is about to cross the lane markings without using the turn signals, and assists steering to avoid lane departure.¹

03 / All-Speed Radar Active Cruise Control (ACC)

In addition to maintaining a constant speed, All-Speed Radar Active Cruise Control uses the radar and camera sensors to detect a vehicle driving ahead and maintains an appropriate distance between vehicles at all speeds.

04 / Automatic High Beam System (AHB)

AHB helps safe driving at night by instantly switching from high to low beam when the lights of an oncoming vehicle, or the tail lights of a vehicle in front, are detected.¹

05 / Blind Spot Monitor System⁴

When the sophisticated wave radar in the rear bumper detects vehicles in adjacent lanes that aren't visible in the door mirrors, the system activates a warning indicator in the relevant door mirror the moment a vehicle enters this blind spot.

06/ Rear Cross Traffic Alert (RCTA)⁴

To assist safe reversing, RCTA uses sophisticated wave radar in the rear bumper to detect approaching vehicles in difficult-to-see areas behind the vehicle. When an approaching vehicle is detected, RCTA alerts the driver using a buzzer and indicator in the relevant door mirror.

DISCOVER MORE ABOUT THE RX

07 / Adaptive High-beam System (AHS)*

When the system detects a vehicle in front, it disables/enables 11 independent LEDs in each headlamp to optimise light distribution, so that the high beams do not directly illuminate preceding or oncoming vehicles when driving at night. While AHS is activated, the low beams are always on.

08 / LED wide-angle cornering lamps*

Compact, bright and energy efficient, the LED wide-angle cornering lamps provide additional illumination in the direction of travel, to the side and above, enhancing pedestrian visibility when turning at intersections.

09 / Panoramic view monitor*

To help check the surroundings, the system shows a bird's-eye view of the vehicle on the multimedia display, using a composite image taken by cameras mounted on the front, sides, and rear of the vehicle. In addition, a see-through view provides an image as seen through the body, and enables a specific point to be selected and enlarged for a more careful check.²

10 / Drive-start Control

If an abnormal shift change from R to D, D to R, N to R, P to D, or P to R range is detected while accelerating, a warning is displayed in the multi-information display and power output is reduced to limit acceleration, helping to avoid a collision.

11 / SRS airbags

The RX features dual-stage SRS airbags (Front seats), SRS knee airbag (Driver's seat), SRS cushion airbag (Front passenger's seat) that supports seatbelt restraint by lifting the front edge of the seat cushion during a frontal collision, SRS side airbags (Front and outboard rear seats), and SRS curtain shield airbags (Front and rear door windows).³

¹ The system may not operate properly depending on the weather, road and vehicle conditions or other factors. Be sure to read the Owner's Manual carefully.

² The area the cameras can show is limited. Be sure to visually check your surroundings before you proceed.

³ The SRS airbags are supplemental devices to be used with the seatbelts. The driver and all passengers in the vehicle must wear their seatbelts properly at all times. Never install a rear-facing CRS (Child Restraint System) on the front passenger's seat. For a forward-facing CRS, it is recommended you use it in the rear seats. Please do not use accessories for the seats which cover the parts where the SRS side airbags should inflate. Such accessories may

prevent the SRS side airbags from activating correctly, causing serious injury (Lexus genuine seat covers are specifically designed for models equipped with the SRS side airbags. To find out about availability in your area, please enquire at your local dealer). The photo shows all the SRS airbags activated for display purposes only (the SRS side and curtain shield airbags only inflate on the side of the collision in an actual accident). For details on these and other important safety features, be sure to read the Owner's Manual carefully.

⁴ These are all driver assist features only and not a substitute for safe driving practices. Driver remains responsible at all times for safe driving.

6

F SPORT

Lexus F DNA injects the aggressive styling and an exhilarating performance edge of F SPORT driving into the RX.

Lexus created the exclusive F SPORT package to inject the thrill of sports performance into RX driving, with sports-focused refinements of the design, performance and features.

An aggressive F SPORT attitude is instantly projected by the large 20-inch aluminium wheels, and the exclusive front grille mesh and lower spoiler with integrated satin-finish chrome plated lower protector that visually lowers the stance. The satin-finish chrome plated lower rear bumper, black door mirrors, and discreet F SPORT emblem on the front fenders reinforce the distinctive premium sports SUV attitude.

In the driver's seat, the feeling of sports driving control is compelling and immediate. The extra support of the seat, dimpled leather accented steering wheel and shift lever knob, custom sports meters and displays, and drilled aluminium pedals give a sports edge to driving control.

F SPORT

01 / Sound generator*

Heightening the emotion and excitement of sports driving, the sound generator boosts the sound pressure level in the engine air intake at different resonant frequencies, to generate a thrilling F SPORT engine note when you accelerate.

02 / F SPORT front seats

The front sports seats are the product of an innovative 'integrated foaming' manufacturing process. They provide a blend of refined comfort with firm support and excellent holding performance for sports driving.

03 / F SPORT meters

Dynamically displaying sports performance, the exclusive F SPORT tachometer features a large silver ring with an illuminated needle, and a precision digital speedometer and shift position/drive mode select indicators in the centre.

04 / F SPORT multi-information display

The 8-inch colour Thin Film Transistor (TFT) multi-information display heightens the immediacy of your F SPORT driving experience by displaying a G sensor with steering angle, and accelerator opening and brake hydraulic pressure bars.

LEXUS
TAKUMI

The Lexus pursuit of perfection finds its finest expression in the master craftsmanship of the Takumi.

Every Lexus is based on an uncompromising approach to creating premium automobiles. Inspired by our 'Yet' philosophy, we seek innovation in every facet of engineering through a sophisticated fusion of seemingly incompatible ideas such as 'high performance yet high fuel efficiency'. In addition, unique Lexus styling is born of our L-finesse design language, a fine balance of 'Leading-edge' and 'finesse', so that every Lexus is not only captivating and luxurious, but also highly refined.

Finally, every individual Lexus model is also measured against a set of internal standards covering design, performance, specifications and equipment, to confirm it is distinctive and worthy of the Lexus emblem.

This pursuit of perfection is evident at every stage of the manufacturing process.

Every Lexus vehicle is created with a masterful skill and attention to detail inspired by both traditional artisanship and state-of-the-art engineering. For example, at the Tahara plant in Japan, precision components made using leading-edge digital technology are assembled and finished by master craftsmen called Takumi, whose technical expertise and sure senses are honed by decades of rigorous experience.

Having chosen your model, variant, options and colour, you now have a final opportunity to individualise your RX. Interior colours can be selected to portray an urbane, sophisticated identity or a more contemporary expression, depending on your own style.

As for the trims, they vary across the variants. Those for the Luxury variant are available in Black, Ivory, Noble Brown and Topaz Brown. The quilted seating design is contemporary and visually pleasing while being easy to the touch. The stylish design of the seats are further emphasised by the seatbacks' dark tone.

The F Sport offers three choices, from Dark Rose, a stunning White or Black. A clean, contemporary lateral quilting further highlights the shading of the sport design. Step into a Sports Luxury and you'll find a further four choices of trim colours.

The aesthetically pleasing semi-aniline seat trim is perforated with a quilted stitch on both seats and door trim giving the cabin a sense of seamless sophistication.

Next comes the 3D Film Ornamentation available on the Luxury. It features a glossy black at the base and a three-dimensional dynamic embossed pattern above it for eye-catching depth. Meanwhile, the F Sport features real aluminium, giving the cabin a modernistic, sharp-edged design.

Move onto the Sports Luxury and you'll find a world first in the variant's Laser Cut Ornamentation. The laser engraves a design into the surface of the wood to expose layers of aluminium beneath it, thereby creating a stunning aesthetic.

Lexus Australia reserves the right to vary and discontinue the current interior and exterior colours, trims and colour/trim/model combinations. Colours and trims displayed here are a guide only and may vary from actual colours due to printing/display process. See your Lexus dealer to confirm colour/trim/model availability when ordering your vehicle.

[BUILD AND PRICE YOUR LEXUS](#)

LEXUS OWNERSHIP SOLUTIONS

Lexus Ownership Solutions allows you to determine your finance costs and know the Guaranteed Future Value (GFV) of your vehicle from the outset. It offers you choice, control and certainty. In short, everything you'd expect from Lexus.*

How does Lexus Ownership Solutions work?

- You choose the deposit that best fits your needs.
- You choose your term.++
- You decide on the estimated kilometres you think the vehicle will have travelled at the end of the term (the End Odometer). The End Odometer will also include any kilometres already on the vehicle.
- Lexus Financial Services (LFS) then determines the GFV of your vehicle and calculates your monthly repayments with a final payment equal to the GFV. The GFV is the minimum value of your Lexus at the end of your finance contract. So, if you return your Lexus at the end of the term, LFS will pay you the GFV which will be put against the final payment (subject to fair wear and tear conditions and agreed kilometres being met).

The end of the term? Simply replace, retain or return.

At the end of your term you can choose to:

- Replace or sell your Lexus using the trade-in value or sale price to pay the remaining balance of your account.
- Retain your Lexus and simply pay the remaining balance of your account (including final payment).
- Alternatively, return your Lexus and, subject to fair wear and tear conditions and the agreed kilometres being met, we'll put the GFV towards the final payment on your account.

Choosing your deposit – what is best for you?

- With the flexibility of Lexus Ownership Solutions, you can choose the deposit that best fits your current needs.
- If, for example, you have funds tied up in other investments, you can choose to finance your new Lexus with a zero deposit.††
 - Alternatively, by using a larger deposit, you can lower your monthly repayments.
 - Better still, compared to other finance options over a similar term, Lexus Ownership Solutions can provide lower monthly repayments.***

Want more certainty?

With Lexus Ownership Solutions, you've got the reassurance that at the end of the term (subject to fair wear and tear and agreed kilometres being met) you'll never owe more than your vehicle's worth to LFS. In other words, you don't have to worry about what your vehicle will be worth in the future because you know its minimum value from the outset.*

What happens in the case of the unexpected?

If your vehicle incurs damage and does not meet the Fair Wear and Tear guidelines, LFS will give you the opportunity to have your vehicle repaired. Otherwise, LFS can organise the repairs and deduct the cost from your GFV. This adjusted GFV will then be the price that LFS will offer you if you return the vehicle at the end of your term. Of course, if you retain the vehicle, the condition doesn't matter, however, if you replace it or sell it privately, the condition will obviously impact your sale price.

So what does your accountant think?

Naturally, we think Lexus Ownership Solutions is an excellent, innovative way to put you in control of buying a new Lexus. That said, we suggest you seek independent advice to ensure Lexus Ownership Solutions is right for you.

Wouldn't it be great if Lexus Ownership Solutions was just the beginning?

Lexus' innovations and commitment to customer service extend well beyond Lexus Ownership Solutions. Once you purchase a new Lexus, you'll become a member of the Lexus Encore Privileges Programme and enjoy a host of exclusive benefits.†

For further details, simply visit your nearest Lexus dealer or see lexus.com.au/services/benefits/

FIND OUT MORE

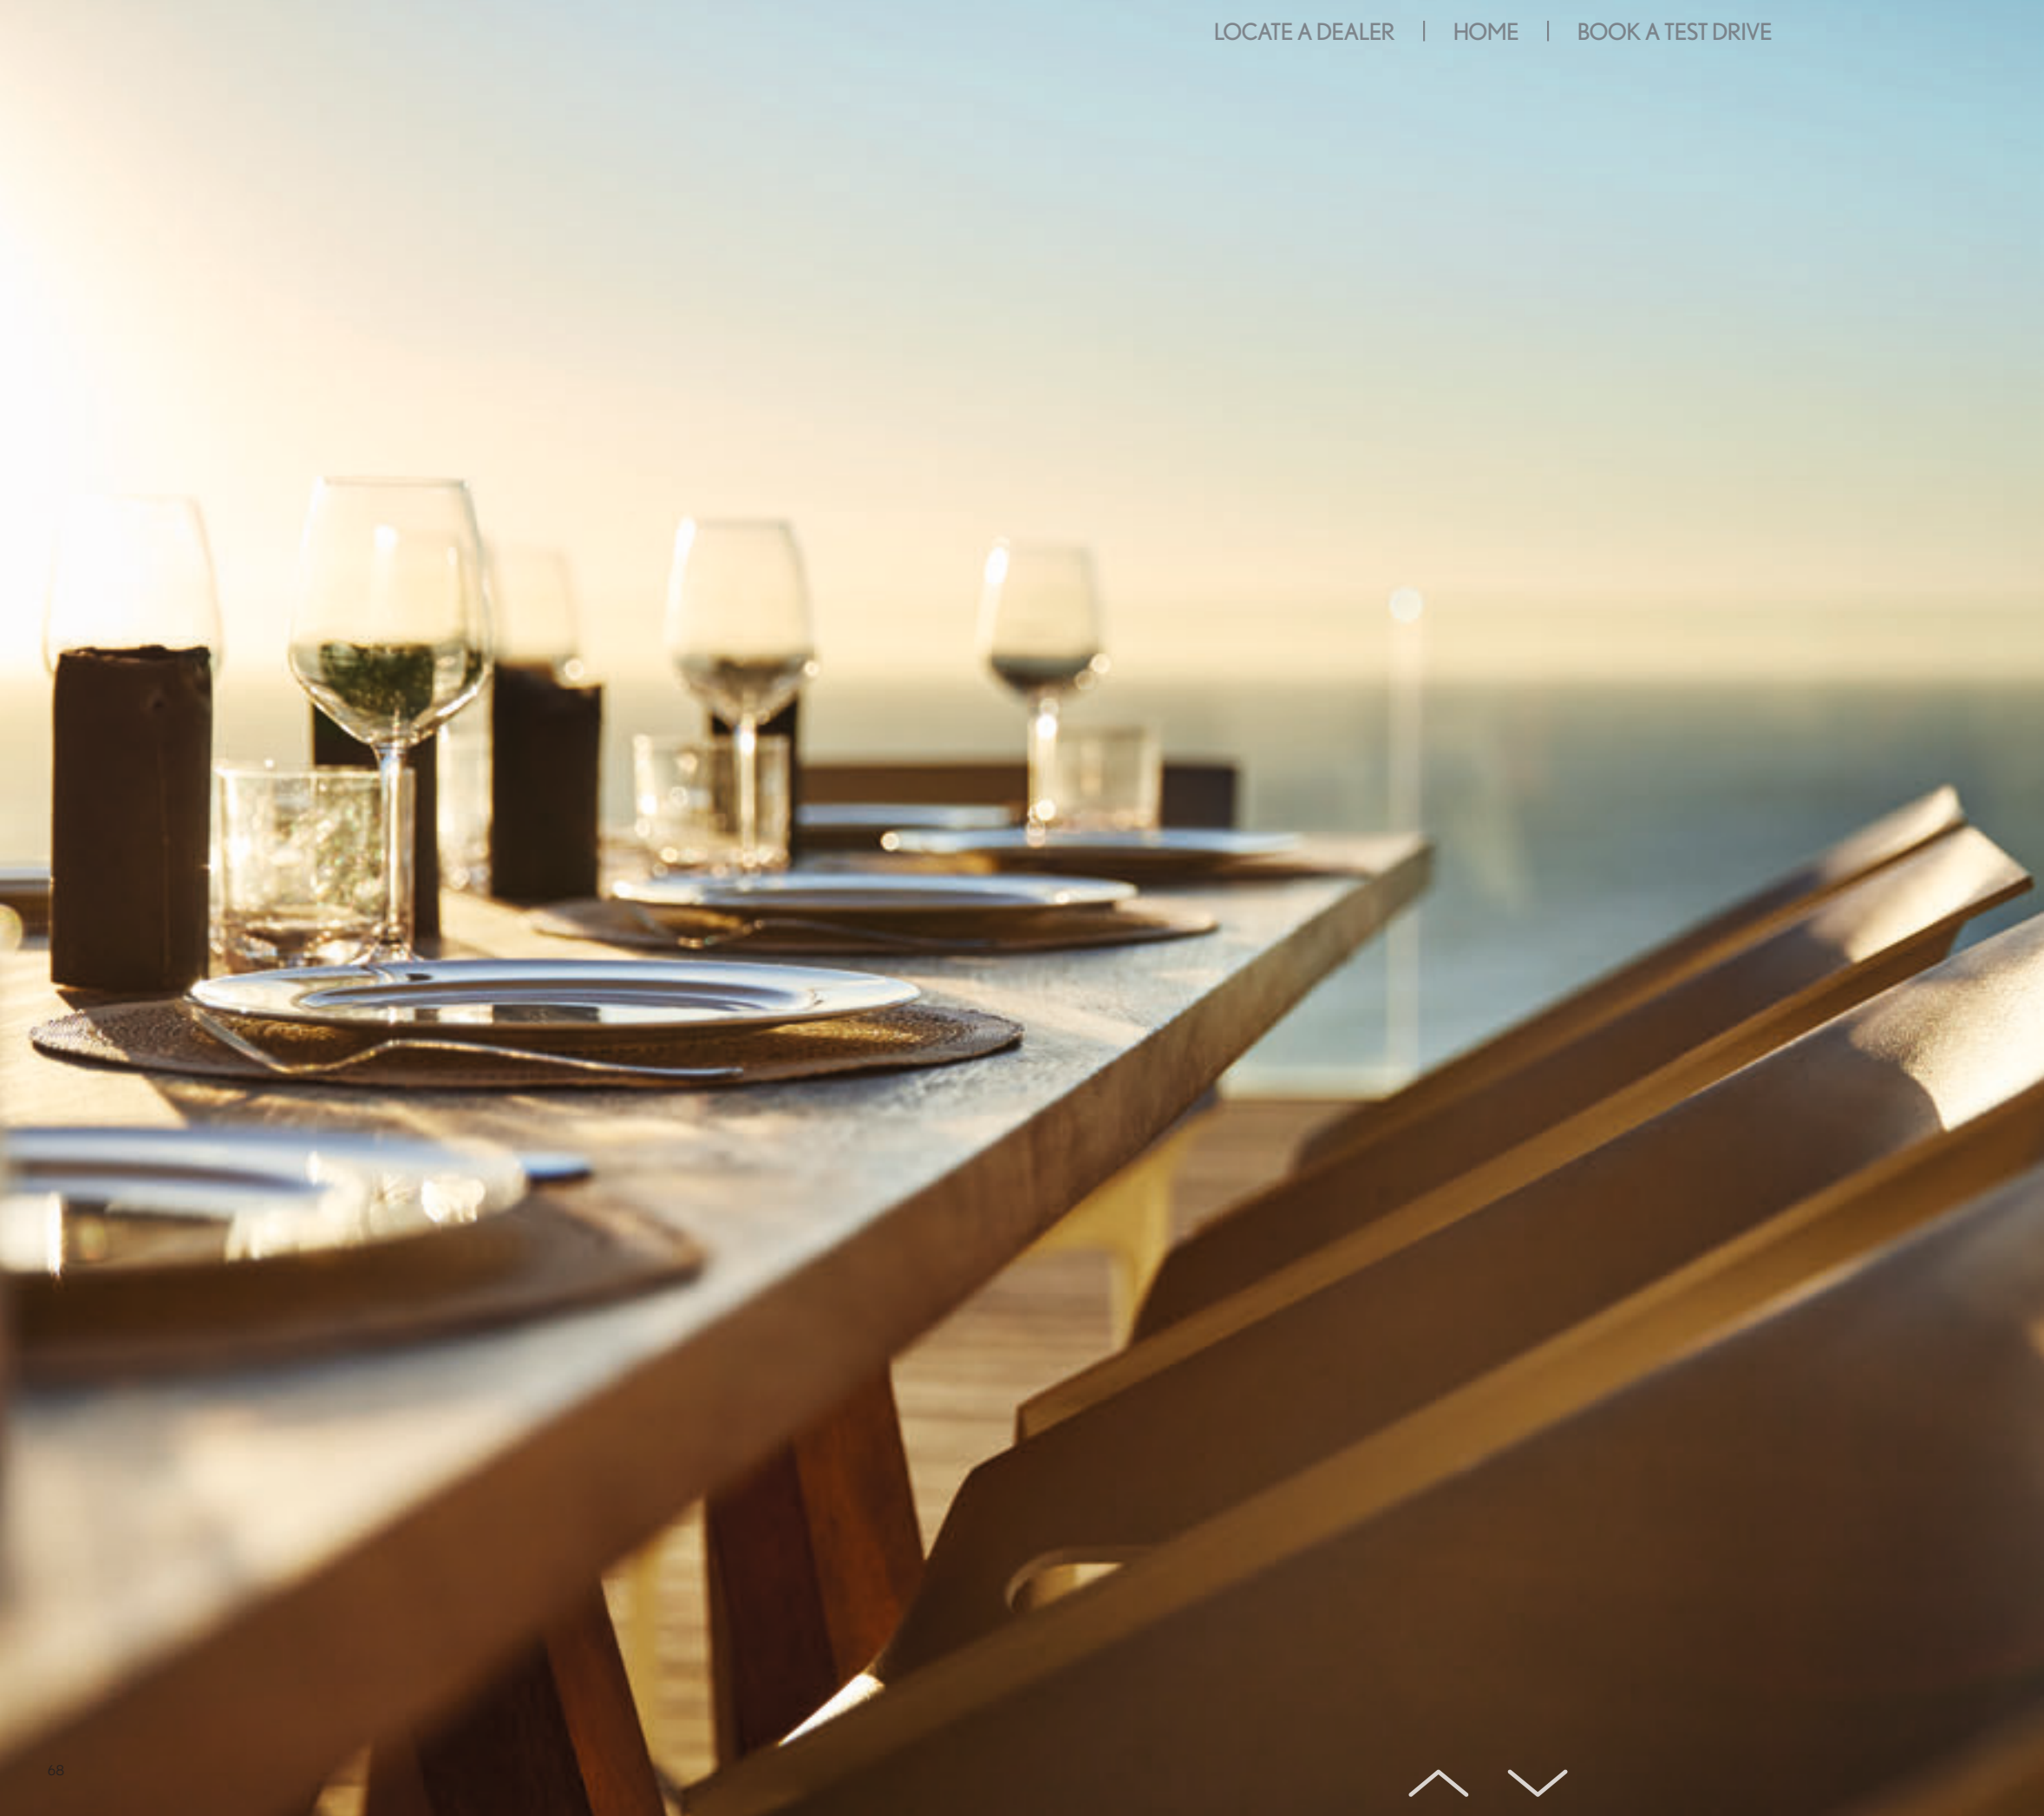

+ The Guaranteed Future Value (GFV) is the minimum value of your new or approved demonstrator Lexus at the end of your finance contract, as determined by Lexus Financial Services (LFS). If you decide to return your car to Lexus at the end of your term, LFS will pay you the agreed GFV which will be put against your final payment, subject to fair wear and tear conditions and agreed kilometres being met. The information provided is general in nature. You should seek your own financial advice to determine whether Lexus Ownership Solutions is appropriate for your individual circumstances. Terms, conditions, fees and charges apply. Lexus Ownership Solutions GFV products are available to approved customers of Lexus Financial Services, a division of Toyota Finance Australia Limited ABN 48 002 435 181, AFSL and Australian Credit Licence 392536.

++ Up to four years.

+++ Lower monthly repayments compared to similar term with no Guaranteed Future Value (GFV) or equivalent balloon final payment. Total interest charges will be higher if a GFV or balloon final payment is selected.

† Terms and Conditions apply.

THE BENEFITS OF ENCORE

The benefits of being a Lexus owner go far beyond the intrinsic pleasure of driving the vehicle. From the moment you're handed the keys, you'll also be welcomed to the Lexus Encore Privileges Program† – offering a range of exclusive initiatives that reaffirm our ongoing pursuit of perfection.

It all means you'll enter a world of benefits that extends to every corner of life. A world where everything's just that much easier and works that much more seamlessly. And a world where, should trouble ever find you, you can always find a helping hand.

Take our After Sales Service as an example. Both our technology and our technicians are at the forefront of automotive innovation. And our profound understanding of every single component of your Lexus means we can do more to ensure it's a pleasure to drive today, and in the long run. It's a world you've always belonged in. A privilege unique to Lexus drivers.

Silver service

Every aspect of your Lexus is built around your comfort and convenience, so it's fitting that when it's ready for a service, we'll come and pick it up from you and provide you with a complimentary loan car while we're inspecting. Plus, when we return your Lexus, it will have received a complimentary wash and interior vacuum.

Experience Lexus outside your vehicle

We're constantly striving to enhance the Lexus ownership experience. It's what we're known for. Our luxury events will be the perfect way to experience the Lexus lifestyle and network with other owners. Tickets may be limited, so be quick to secure your place.

Peace of mind

Wherever you are and whatever you're doing, you can relax, because with our Encore Privileges Programme, you have the 24-hour support of Lexus DriveCare.* We'll look after your car and, just as importantly, we'll look after you and your passengers.

See lexus.com.au/services/benefits for details.
