NISSAN NP300 NAVARA

Overseas model shown.

As long as there's an adventure on the horizon, Nissan will be out there leading the way. With 14 million Nissan Pickup owners blazing trails in 180 DIFFERENT countries around the world, the legacy of reliability and innovation powers on.

80 YEARS OF TOUGH

Overseas model shown in all images.

INTRODUCING THE ALL-NEW NISSAN NP300 NAVARA.

We've been building strong, dependable pickups over many generations. And at every step, we've pushed the boundaries of innovation to deliver what you need to get any job done. Now it's time to experience the excitement of the next generation Navara. Where heritage of tough meets premium ride comfort, smart technologies, and sleek, modern styling. Taking you from a day on the job straight to a night on the town without missing a beat. The all-new Nissan NP300 Navara. The legacy of innovation and reliability powers on.

Overseas model shown.

CLIMB, CRAWL AND POWER YOUR WAY THROUGH.

Seems like every adventure comes with its own special gear. In the all-new Nissan NP300 Navara you're equipped to keep on going, no matter the conditions.

Shift-on-the-fly 4 Wheel-Drive

At your command is a shift-on-the-fly 4WD system that switches between 2WD and high range 4WD (4H) with the twist of a dial at speeds of up to 100 km/h. You can also select low range 4WD (4LO) for mud or sandy terrain.

Only available on 4WD models.

Electronic Locking Rear Differential

When 4WD isn't enough, push the button to activate the electronic locking rear differential, which delivers equal power to both rear wheels to boost traction and help keep you moving forward.

Electronic Locking Rear Differential is available on ST and ST-X models.

Hill Start Assist and Hill Descent Control

Tackling hilly terrain? Now you can do it with more confidence and control. On an incline, Hill Start Assist can help keep you from rolling backwards when you're accelerating up a hill from a stop. And Hill Descent Control helps you maintain steady speed and braking, so you get back down a steep grade more safely.

Only available on ST-X 4WD model.

3.5 Tonne Braked Towing Capacity

Whether you're looking to pull a heavy load at work, or for a weekend away, the all-new Nissan NP300 Navara makes it easy. All of our diesel engine models can muster up the grunt to pull a massive 3,500kg braked towing capacity.

Towing capacity is subject to towbar/towball capacity. The capacity may be reduced if a non-genuine Nissan towbar is fitted.

5-Link Rear Suspension

Load up your family or grab a few friends and experience the smooth and comfortable ride of the all-new Nissan NP300 Navara. With double wishbone front and 5-link rear suspension it is as capable and comfortable off-road as it is on road. So go ahead and detour with confidence.

Only available on Dual Cab Pick-up variants.

2 Channel Utili-Track™ System

The innovative cargo restraint system includes two channels and four heavy-duty forged aluminium cleats that lock anywhere along the channel to allow you to load and secure your cargo in countless ways.

Available on ST-X model only.

Overseas model shown.

RIDE FIRST CLASS EVERY DAY.

In the all-new Nissan NP300 Navara you'll find unexpected comfort and space from every seat. The fatigue reducing all day comfort front seats help create a neutral posture to improve blood flow and make those long rides a lot more comfortable. Plus, dual-zone climate control[^], means you and your front passenger can both keep things cool or warm. And if you'd rather opt for a little fresh air, the rear power sliding window^{*} and sunroof^{*} offer just that with a push of a button.

[^]Available on ST-X model only. ^{*}Not available in DX model and Single Cab variants. Overseas model shown.

DEVOURS ROADS, SIPS FUEL

The sign of a truly modern pickup? One that shows how power, acceleration and fuel efficiency cannot just coexist, but thrive. The all-new Nissan NP300 Navara offers just that – the technologically advanced turbo engines help you squeeze the most performance out of every drop of fuel.

SINGLE TURBO [~] DIESEL ENGINE 120kW POWER • 403Nm TORQUE			TWIN TURBO [^] DIESEL ENGINE 140kW POWER • 450Nm TORQUE
