

**Innovation
that excites**

NISSAN NAVARA

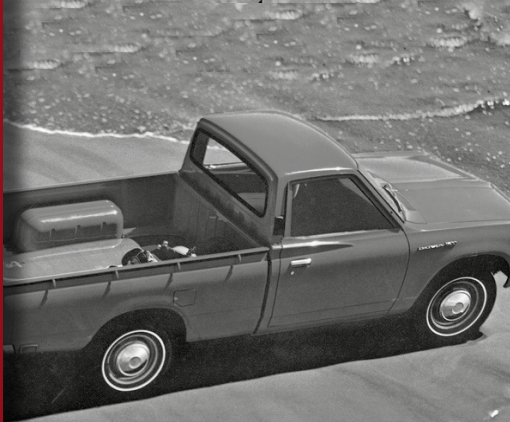

ST-X Dual Cab model shown with optional sunroof.

**OVER
80
YEARS OF TOUGH**

As long as there's an adventure on the horizon, Nissan will be out there leading the way. With 14 million Nissan Pickup owners blazing trails in 180 DIFFERENT countries around the world, the legacy of reliability and innovation powers on.

Overseas model shown in all images.

THE NISSAN NAVARA

Nissan have a long history of building strong, dependable pickups. With each new model the boundaries of innovation have been pushed, providing you with everything you need to get the job done. And now it's time to experience the next generation Navara. It combines a tough, working pedigree, with premium ride comfort, smart technologies, and sleek, modern styling. All of which means you can step from a day on the job to weekend activities without missing a beat.

THE PICKUP YOU CAN TRUST, RIGHT DOWN TO ITS CORE

Don't let the sleek exterior of the Nissan Navara fool you. Underneath, it's as tough as they come. Its full-length, fully boxed ladder frame provides solidity and strength you can rely on. With generous ground clearance; approach and departure angles plus a lateral tilt angle of up to 50 degrees, you'll have the confidence to tackle any challenge. And thanks to the steel double-wishbone front suspension and underslung rigid 5-link rear suspension*, you're sure to experience a smooth and comfortable ride on the road, and off it.

**ANGLE OF
APPROACH**
33.2 Degrees*

**ANGLE OF
DEPARTURE**
28.2 Degrees#

**GROUND
CLEARANCE**
228 MM#
(rear axle)

FULLY BOXED. FULLY CAPABLE.

Enclosed on all four sides, the fully boxed ladder frame is reinforced in strategic areas with high-tensile strength steel for improved structural rigidity. Stronger than conventional steel, it provides increased torsional stiffness, offering a marked improvement over traditional steel C-section frames. All of which ensures it performs impressively in the toughest driving conditions. In addition, all cross members are welded, not riveted, which helps resist flexing and increases durability. This sturdy frame underpins the entire drive line, ensuring the Nissan Navara stays on track no matter what the conditions.

*Only available on Dual Cab Pickup variants.

#Figures based off unladen Dual Cab ST-X 4WD with no accessories fitted.

CLIMB, CRAWL AND POWER YOUR WAY THROUGH

NISSAN INTELLIGENT MOBILITY

Seems like every adventure comes with its own special gear. In the Nissan Navara you're equipped to keep on going, no matter the conditions.

Shift-on-the-fly 4 Wheel-Drive

The Nissan Navara's 4WD system is electronically controlled via an easy to reach rotary switch on the dash. At your command is the shift-on-the-fly 4WD system that switches between 2WD and high range 4WD (4H) with the twist of a dial at speeds of up to 100 km/h. The vehicle must not be reversing or turning when 4WD is engaged. You can also select low range 4WD (4LO) for mud or sandy terrain. Switching from 4H to 4LO must be done when stationary and whilst in 4LO, speeds should not exceed 50km/h.

Only available on 4WD models.

4-Wheel Active Brake Limited Slip (ABLS)

Active Brake Limited Slip (ABLS) individually controls each of the four wheels to optimise traction in challenging conditions. ABLS is designed to simulate the advantages a limited slip differential provides. The biggest advantage of ABLS is that it works on all four wheels, not just the two primary drive wheels.

Only available on 4WD models.

Electronic Locking Rear Differential

When 4WD isn't enough, push the button to activate the electronic locking rear differential, which delivers equal power to both rear wheels to boost traction and help keep you moving forward.

Available on SL, ST and ST-X 4WD Models.

Hill Start Assist and Hill Descent Control

Tackling hilly terrain? Now you can do it with more confidence and control. Hill Start Assist can help keep you from rolling backwards when you're accelerating up a hill from a stop. And Hill Descent Control helps you maintain steady speed and braking, so you remain in control on steep grades.

Only available on ST-X 4WD model.

5-link Rear Suspension

Load up tools, your family or grab a few mates. Experience the smooth and comfortable ride that's as capable, loaded, towing or off-road as it is smooth on the paved road.

Only available on Dual Cab Pickup variants.

Dual-rate Rear Spring System

Ready for anything...
Stage 1: The low spring rate provides a comfortable ride in unladen/light payload conditions
Stage 2: The high spring rate ensures no compromise in posture or ride & handling quality when tackling higher payloads

Only available on Dual Cab Pickup SL / ST / ST-X variants.

ST-X Dual Cab model shown.

ST-X Dual Cab model shown.

DEVOURS ROADS, SIPS FUEL

The sign of a truly modern ute? One that shows how power, acceleration and fuel efficiency cannot just coexist, but thrive. The Nissan Navara offers two engines that do just that, thanks to advanced technology that helps squeeze the most performance out of every drop of fuel. SL, ST and ST-X variants are powered by an advanced twin-turbo diesel engine, with a small turbo to get you moving and a larger one to keep you going strong.

	2WD		4WD

TOWS ANYTHING, ANYWHERE

Of course the boat can come along. Because capable towing is engineered right into the Nissan Navara, starting with its full-length, fully boxed ladder frame. Add to that heavy-duty components, including braking and cooling systems, plus plenty of power and low-end torque, and you're ready to pull some serious weight. Up to 3,500kg braked towing capacity* for all variants. The Nissan Navara is ready for almost any job you can think of.

[^]Available on SL, ST and ST-X models only. [~]Available on RX and DX models only. [†]Figures tested in accordance with ADR81/02 (combined test). Figures stated for the purposes of comparison amongst vehicles only. Actual fuel consumption depends on factors such as traffic conditions, vehicle condition, how you drive and any accessories fitted. *Towing capacity is subject to towbar/towball capacity. The capacity may be reduced if a non-genuine Nissan towbar is fitted.

WEIGH UP YOUR OPTIONS

With a range of cabin and body configurations, the Nissan Navara can meet the needs of any business. Whatever vehicle you choose, you're sure to find one that suits both your work and play requirements.

DX Single Cab cab-chassis shown with optional Nissan Genuine aluminium tray, ST-X King Cab pickup shown and ST-X Dual Cab pickup shown.

LOAD IT UP

The ample tray in the Nissan Navara gives you loads of carrying options to carry absolutely anything and everything for work and play. All Dual and King Cab pickup models feature a long, deep and wide rear cargo bed, giving you a huge and versatile load space. The ST-X Dual and King Cab model features an ingenious 2 Channel Utili-track™ system to make loading faster and easier. This system includes two channels and four heavy-duty forged aluminum cleats that lock anywhere along the channel so you're ready to roll with even the trickiest load firmly secured.

ST-X Dual Cab model shown.

RIDE FIRST CLASS EVERY DAY

Even in the toughest conditions, the Nissan Navara delivers luxurious interior comfort. Every seat is spacious and comfortable. In the front, the fatigue-reducing all day comfort seats create a neutral posture that improves blood flow to make long rides considerably more pleasant. In the back, passengers will enjoy plenty of legroom plus their own air conditioning vents located behind the centre console. And if you'd rather opt for a little fresh air, there's the press button sunroof* and a rear power sliding window.†

STORE IT. HIDE IT. LOCK IT. LOVE IT.

A thoughtfully designed, flexible interior with lots of storage is as important for work as it is for play.

STORAGE.

Oversized pockets located in the driver and passenger doors offer ample, easy-to-access storage.

Cup and bottle holders have your water bottle always in reach.

*Available as an option on ST-X Dual Cab 4WD models only. †Not available in Single Cab variants. ST-X Dual Cab 4x4 automatic with optional leather accented seat trim model shown.

NISSAN ADVANCED DRIVE-ASSIST DISPLAY INNOVATION THAT'S RIGHT IN FRONT OF YOU

With so much going on around you, it's crucial you keep sight of what's important. The Navara Advanced Drive-Assist Display* (ADAD) serves up all the driving information you need in one place. From fuel economy to song tracks and turn-by-turn navigation*, the intuitive 3D depth and tilt design lets you take it all in at a glance. Which helps you spend more time with your eyes where they belong - on the road.

AROUND VIEW® MONITOR* 360° VIEWS MAKE PARKING EASIER THAN EVER

DON'T BUMP YOUR HEAD

In Drive, the display gives you both a front and overhead view, so you know just how far to pull up, without going too far.

COMPLETE THE PICTURE

Located under your side mirrors, these cameras help round out your virtual 360° bird's-eye view, whether you're in Drive or Reverse.

SWITCH ANGLES AGAIN AND AGAIN

In Drive or Reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the kerb.

EYES IN THE BACK OF YOUR HEAD

In Reverse, the display helps you see what's directly behind you, while the overhead view helps with smaller objects that might be hidden below your window.

NISSAN  INTELLIGENT MOBILITY

SMART TECH YOU NEED

Nissan Intelligent Key® with remote keyless entry* allows you to lock and unlock the doors without taking the key out of your pocket. Once you're inside the Nissan Navara, you can take control of your environment with a few smooth moves - everything just seems to be in exactly the right spot.

Smart technologies such as: Satellite Navigation#, Bluetooth® Audio Streaming, Reversing Camera† and Advanced Drive-Assist™ Display^ work seamlessly to put you in full control. And a cleverly designed, flexible interior with loads of storage makes it easy for both work and play.

SATELLITE NAVIGATION#
3D mapping on an 8" integrated colour display touch screen keeps you on track whether it's for work or play.

REVERSING CAMERA†
Reversing Camera helps you avoid any hard to see obstacles.

APPLE CARPLAY® & ANDROID AUTO®
Apple CarPlay® and Android Auto® takes your phone functions and puts them on your in-car display, allowing for a safer and smarter drive.

AROUND VIEW® MONITOR*
The Around View® Monitor provides you with a 360° view of the car.

*Available on ST-X models only.
^Available on SL, ST, ST-X models only.
†Available on ST and ST-X models only.
#Available on all pick-up variants. RX pickup model features a camera located within the Rear View Mirror.
Reversing camera and sensors are a driver assistance device only and should not be used as a substitute for safe driving practices. Always check surroundings before moving your vehicle.
Overseas model shown.

NISSAN INTELLIGENT DRIVING

SURROUND YOURSELF WITH CONFIDENCE

Wouldn't it be smart if you had all the confidence you need for every part of your drive? Nissan provides a comprehensive approach to safety that guides the engineering and development of every vehicle we make. They keep an eye on your vehicle's systems and the surroundings, assist in handling unexpected situations and work to help keep you safe in the unfortunate event of an accident. It's our way of looking out for you.

MONITOR

Smart technologies are designed to help monitor conditions. The reversing camera* and rear sensors* help you notice what's directly behind the vehicle – or what you might have missed – for added peace of mind.

RECOVER

Whether you need to hit the brakes hard or manoeuvre around an unexpected obstacle, standard technologies help you respond to a potentially harmful situation.

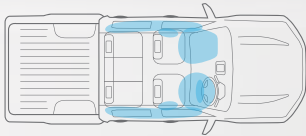

PROTECT

Nissan's Zone Body Concept helps absorb the impact and protect the passenger compartment during a collision. It features a high-intensity cabin structure with crossmembers and reinforcements, front and rear crumple zones, and an energy-absorbing steering column.

With a maximum five-star ANCAP safety rating across the range.

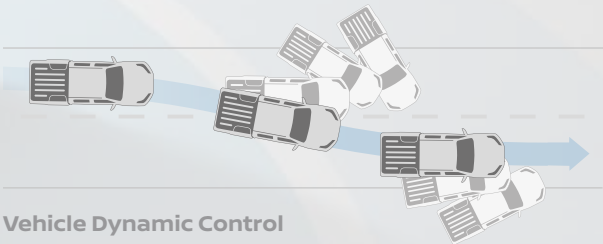

*Available on all pick-up variants. RX pickup model features a camera located within the Rear View Mirror. Reversing camera and sensors are a driver assistance device only and should not be used as a substitute for safe driving practices. Always check surroundings before moving your vehicle.
^Available on ST-X only.

7 STANDARD AIRBAGS

7 Standard Airbags. Two in the front, two side-impact air bags mounted in the front seats, two side-impact curtain air bags mounted in the roof plus the Nissan Navara has an air bag for the driver's knees.

Vehicle Dynamic Control helps you maintain your steered path.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brakeforce Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back. Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

SUPERIOR SINGLE CAB COMFORT

The Single Cab has the longest tray of all Navara body styles. So you can lug around work gear from Monday to Friday and all your weekend gear as well. It comes with a powerful diesel engine that doesn't give up, and an interior that doesn't withhold any of the comforts of its dual cab cousins.

DX Single Cab cab-chassis shown with optional Nissan Genuine aluminium tray.

KING CAB RULES

If you need flexibility with a more secure storage space, a more generous load area and occasionally carry mates around, you need a Nissan Navara King Cab. You can fold down the back seats for a couple of extra workmates. Or fold them up and carry around heaps more stuff. Plus, keep it all secure behind those wide-opening, easy-access rear doors. For extra flexibility, choose either a pickup or a cab chassis.

ST-X King Cab 4x4 automatic model with optional leather accented seat trim shown.

DX/RX

DX Powertrain options

Available in 120kW 2.3L single turbo diesel engine:
Single Cab Chassis 4WD 6MT

^{**} GVM = Gross Vehicle Mass. GVM is the maximum laden mass of a motor vehicle.
[~] Kerb mass = unladen mass of vehicle with full fuel, excludes tray body for Cab Chassis vehicles.
^Δ Payload is the GVM minus the Kerb mass. The kerb mass does not include passengers, luggage, cargo, any accessories fitted or any towball download (as appropriate). Payload is distributed across both the front and rear axles, never exceed the GVM or the axle limits.
[∞] Figures tested in accordance with ADR81/02 (combined test). Figures stated for the purposes of comparison amongst vehicles only. Actual fuel consumption and CO² emissions depends on factors such as traffic conditions, vehicle condition, how you drive and any accessories fitted.
[†] Towing capacity is subject to towbar/towball capacity and vehicle laden condition. The capacity may be reduced if a non genuine Nissan towbar is fitted. The permitted download is directly related to the laden mass of vehicle.
[#] Gross Combined Mass with braked trailer.
[‡] Leather accented features and upholstery may contain synthetic material.

that excites**

NISSAN INTELLIGENT MOBILITY

Nissan Intelligent Mobility guides everything we do. At Nissan, we use new technologies to transform cars from mere transportation. Together the journey is more confident, connected, and exciting. Whether it is cars that share the task of driving or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today.
