NISSAN PATROL

THE NISSAN PATROL

THE NEXT GREAT ADVANCE IN 4X4 HISTORY IS HERE.

For decade upon decade the Nissan Patrol has etched its way into the Australian psyche, through incredible versatility, capability, performance and an iconic ruggedness that, to this day, remains unparalleled. With such a strong foundation to build upon, the Nissan Patrol brings this off-roading juggernaut into the modern day and beyond, carrying with it not only a reputation but a refinement that has to be experienced to be understood. Make no mistake; the Nissan Patrol V8 is the most powerful 4x4 in its class*. With modern lines, innovative safety features, advanced technologies, unimaginable comforts and more, the Nissan Patrol brings sophistication and capability to a whole new level.

*Class refers to Upper Large SUV <\$100K VFACTS Market Segmentation.

OFF-ROAD CAPABILITY

The Nissan Patrol brings with it the technology, design and forethought needed to tackle almost any terrain. For instance the All MODE 4x4 technology allows the driver to switch between a range of different modes, including sand, on-road, rock and snow with the push of a button. Hill Start Assist and Hill Descent Control systems give the driver the utmost confidence to take the road less travelled. When that road gets that much tougher, the driver can engage the electronic rear differential lock with the push of a button. When it comes to the Nissan Patrol, capability is everything.

The Off Road Monitor supplies real-time information to the driver on steering angle, tyre pressure and compass.

ON ROAD. Get the most out of your on road experience.

SAND. Tackle sandy conditions with ease and confidence.

SNOW. Snow is no match for the Patrol.

ROCK. Adjust throttle characteristics to crawl over rocks with ease.

HILL DESCENT CONTROL. Ensure you command the downhill rather than the other way around with the advanced Hill Descent Control and do it all with the simple push of a button.

REAR DIFFERENTIAL LOCK. The electronic rear diff lock allows you to gain traction in even the toughest conditions with the simple push of a button.

4H. Stay on track despite the best efforts of slippery surfaces.

4L. Soft surfaces, mud, steep inclines, the Patrol can do it all.

HYDRAULIC BODY MOTION CONTROL MAKES ALL THE DIFFERENCE

The Hydraulic Body Motion Control (HBMC) suspension system has been implemented to ensure remarkably low body roll when powering through corners and provides better traction through rough terrain. HBMC plays both the role of shock absorbers and stabiliser bars, allowing for full wheel travel, meaning your wheels will stay firmly on the ground when you're off the beaten track. The HBMC system provides this balance and superior cornering by monitoring force and then distributing pressure to either the outer or inner double wishbone suspension system. This HBMC system delivers a smoother ride, safer cornering and overall enhanced stability.

Ti model in Desert Dune.

POWER AND PERFORMANCE

The Nissan VK56VD 5.6 litre V8 Direct Injection Gasoline (DIG) engine gives the Patrol power to overcome just about anything. The engine features Variable Valve Event and Lift (VVEL) technology and is capable of delivering 298kW of power and an exceptional 560Nm of torque. 3,500kg* of braked towing capacity delivers unrivalled practicality to the driver. A seven-speed automatic transmission ensures that the raw power of this incredible engine is put to good use.

*Towing capacity is subject to towbar/towball capacity and is based on the fitment of a Genuine Nissan towbar. Towing capacity figure described is a maximum figure. Actual towing capacity depends on the laden mass of the vehicle, driving conditions, fitment of any accessories or towing equipment limitations including the maximum towball download.

REFINING SAFETY ACROSS THE RANGE

The Nissan Patrol is serious about safety. Packed with the latest safety technology like Around View® Monitor (AVM)*, and front and rear parking sensors, the Nissan Patrol is designed to keep you and your passengers safe. In addition, Vehicle Dynamic Control (VDC) and Anti-lock Braking System (ABS) will keep you in control of the vehicle at all times. When engaged, VDC will ensure you maintain your intended path during emergency situations by applying individual braking pressure to each wheel in conjunction with the engine's ability to automatically reduce power. The Nissan Patrol range is equipped with six airbags including driver and front passenger front and side SRS airbags, as well as curtain airbags.

Ti-L model interior.

*AVM is a driver's aid only. It cannot completely cover blind spots, and may not detect moving objects. Always check surroundings before moving the vehicle.

NISSAN SAFETY SHIELD® PHILOSOPHY

^AVM is a driver's aid only. It cannot completely cover blind spots, and may not detect moving objects. Always check surroundings before moving the vehicle.

EMPOWER YOUR SAFETY IN THE NISSAN PATROL

The Nissan Patrol comes equipped with a huge array of technologies that will ensure your driving safety. Across the range, you'll find technologies like Tyre Pressure Monitoring System, Around View® Monitor^ and Hill Descent Control. Plus on the Ti-L, you'll find Intelligent Cruise Control, Blind Spot Warning, Forward Collision Warning and Lane Departure Warning and Prevention.

AROUND VIEW® MONITOR^

Leaving nothing to chance, the Nissan Patrol range comes with Around View® Monitor^ allowing drivers to get in and out of tight spots with ease by providing a simulated bird's eye view directly on screen.

FORWARD COLLISION WARNING

On the Nissan Patrol Ti-L model, you'll feel at ease with the Forward Collision Warning system (FCW). Using a front distance sensor, FCW will detect the risk of a forward collision and prompt the driver to brake with an alarm. When the system judges that a collision cannot be prevented, Intelligent Brake Assist (IBA) is activated to help the driver reduce the rear-end collision speed by applying the brakes.

BLIND SPOT WARNING

Smart technology like the innovative Blind Spot Warning and Intervention system detects vehicles in your blind spot and alerts you via an audible alarm. If, for instance you continue to change lanes and the car in your blind spot also continues to proceed, the system will initiate, gently braking one side of the vehicle, bringing your vehicle back to your original lane position, well out of harm's way.

REIMAGINING THE LOOK AND FEEL OF THE PATROL

The Nissan Patrol has been propelled into the future of modern auto design. Luxurious styling and sophisticated trimmings play a major part in the grand design. From modern lines, chrome door handles, black leather accented trim^{*}, sleek polished metal fittings and the ability to seat 7 in the Ti-L model, and up to 8 in the Ti model through a range of various configurations, the Nissan Patrol plays a dual role as both the beauty and the beast.

8" integrated colour display with touch screen.

INNOVATION AT EVERY TURN

Innovative technologies launch the Nissan Patrol firmly into the new age. Technologies that include the practical, the useful, and the almost indulgent. Technologies such as the Satellite Navigation System, Bluetooth® connectivity, 7-inch multi-format screens* in the second row, front DVD player, front 8-inch screen, push button start, climate control, music hard drive, Intelligent Key® with remote keyless entry and more.

8 INCH SCREEN. See it all with the 8" centre display.

SATELLITE NAVIGATION. Stay on track even when you're off the beaten path.

DVD PLAYER. A multi format DVD player will ensure you're entertained whenever and wherever you go.

SECOND ROW DVD SCREENS*. A 7" Multi Screen entertainment system* will keep all second row passengers firmly glued to their seats.

BLUETOOTH®. Stay connected with the Bluetooth® capabilities in the Nissan Patrol.

INSTRUMENT PANEL. The fine vision instrument display provides all of the driver's information needs in a stylish way.

*Ti-L model only.

A complete ownership experience to help you get the most out of your Nissan. It includes the following:

Ti Features

- VK56VD 5.6 litre VVEL V8 petrol engine with 298kW and 560Nm
- 7 speed automatic transmission with Manual Mode and Adaptive Shift Control (ASC)
- All MODE 4x4 with electronic 4WD selection
- Electronic rear differential lock and Limited Slip Differential (LSD)
- Hill Descent Control (HDC)
- Hill Start Assist (HSA)

- Front and rear ventilated disc brakes
- Driver and front passenger front and side airbags
- Curtain airbags all 3 rows
- Anti-lock Braking System (ABS) and Electronic Brakeforce Distribution (EBD)
- Vehicle Dynamic Control (VDC)
- Off road monitor
- Around View® Monitor (AVM)*
- Front and rear parking sensors
- LED rear combination lamp
- 18" alloy wheels
- Heated door mirrors with power adjustment/ folding & integrated indicator lights
- Cruise control
- Audio system with CD/DVD, AM/FM radio, MP3 and USB /iPod* connectivity with Bluetooth® audio streaming
- Satellite Navigation with 3D mapping and 8" integrated colour display with touch screen
- Traffic Monitoring System

- 6 speakers
- Bluetooth® handsfree phone system with steering wheel controls
- Tri-zone climate control air conditioning
- Intelligent Key™ with remote keyless entry
- 8 seat capacity
- 8-way power adjustable driver seat including height adjustment and lumbar support
- 6-way power adjustable front passenger seat
- Tyre Pressure Monitoring System (TPMS)
- Hydraulic Body Motion Control suspension (HBMC)
- Leather accented seat trim†
- Automatic headlights
- Electric glass tilt and slide sunroof
- Front fog lights
- Follow Me Home headlight function

Ti-L Features

All the features of the Ti plus/or:

- 7 seat capacity
- Driver's seat memory with two settings, including side mirrors and steering column position
- First row centre console cool box
- 13 premium BOSE® speakers
- Two rear 7" DVD entertainment screens
- Intelligent Cruise Control (ICC)
- Forward Collision Warning (FCW)
- Distance Control Assist (DCA)
- Intelligent Brake Assist (IBA)

- Lane Departure Warning and Prevention (LDW & LDP)
- Blind Spot Warning and Intervention (BSW & BSI)
- Xenon headlights
- Automatic headlight leveller
- Headlight washers
- Puddle illumination light
- Power operated tailgate
- Heated and cooled front seats
