

CUPRA FORMENTOR

MY23

Note: Overseas model shown, local specification may vary.

CUPRA FORMENTOR

The CUPRA Formentor combines all the benefits of a performance car with the qualities of an SUV. Ferociously powerful, the CUPRA Formentor is exhilarating driving at its best. With three petrol engines up to 228kW, the CUPRA Formentor delivers a high-powered thrust that will propel you towards the horizon. Enjoy your ride with the VZe variant's plug in hybrid engine. The plug-in hybrid 180kW engine in the VZe variant proves that electrification and performance are a perfect match. Use the electric-only 12.8kWh battery on shorter trips for emissions reduced and cost-effective travel. Let your CUPRA Formentor speak for you with the potent blend of performance styling and eye-catching detail. Here you'll find all the technical specifications so you can make an informed selection when choosing your next CUPRA Formentor.

TECHNICAL SPECIFICATIONS

Discover all the technical specifications by engine type, from emissions and consumption data; to performance statistics and transmission types.

Here you'll find all the technical aspects covered so you can make an informed selection when it comes to your CUPRA Formentor.

Overseas model shown.

Urban, L/100km	8.9	9.1	9.6	
Extra Urban, L/100km	5.9	5.7	6.5	
CO ₂ emission g/km	159	159	175	
Fuel tank capacity litres	55	50	55	

* The Start/Stop system is designed to reduce fuel consumption and CO₂ emissions. It achieves this by automatically switching off the engine while the vehicle is stationary and then starting it again automatically when the driver wants to drive off. There are certain operating conditions where the Start/Stop system is deactivated (e.g. during engine warm-up), please refer to the owner's manual for full operating information.

Please note figures are sourced from overseas data where equipment levels by model variant may vary.

** Fuel consumption figures according to ADR 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, will in practice in the real world lead to figures which generally differ from those advertised. Advertised figures are meant for comparison amongst vehicles only.
