

SIMPLY CLEVER

ŠKODA

# ŠKODA OCTAVIA & OCTAVIA RS

The award-winning **ŠKODA Octavia** range has more value than ever before.

Sharing the very latest in Volkswagen Group technology, the entire Octavia range comes standard with **SmartLink Smartphone Connectivity**<sup>^</sup> and an impressive array of safety features including Front Assist with City Emergency Brake\*, Rear View Camera\* and Rear Parking Sensors.

With a range of Driver Assist technologies, the Octavia range also comes standard with **Adaptive Cruise Control**\*, allowing the vehicle to automatically brake and accelerate to maintain a pre-selected distance from the vehicle in front.

As ŠKODA drivers have come to expect, the Octavia is full of "Simply Clever" features and exceptional boot space, making it the perfect car for families who pack more into every day. Underpinned with exceptional quality, reliability and value, the ŠKODA Octavia has been recognised by Carsales as Australia's Best Family Car under \$30,000.

For added peace of mind, all ŠKODA vehicles now come with a standard **5 year/unlimited kilometre warranty**<sup>#</sup>. Conditions and exclusions apply.

<sup>#</sup>5 Year Warranty consists of 3 Year Factory Warranty and 2 Year Factory Extended Warranty. 5 Year/Unlimited Kilometre Warranty is available with private, general fleet and government vehicles only. Excludes rental vehicles, hire cars, taxis, courier vehicles, driving school vehicles, security vehicles, bus and tour vehicles which are subject to a 5 Year/150,000 Kilometre Warranty (whichever occurs first). Your rights under this warranty sit alongside the consumer guarantees under the Competition and Consumer Act 2010 which cannot be excluded. \*Safety technologies are not a substitute for the driver's responsibility of the vehicle. <sup>^</sup>SmartLink is compatible for selected apps with the latest smartphone versions of iOS and Android.

# ŠKODA Octavia

## INTERIOR

- High Quality Premium Seats
- Columbus Navigation System
- Multifunctional Steering Wheel
- Dual-zone Climatronic Air Conditioning

Octavia's **high quality interior** and ergonomic design will let you focus on the drive and enjoy the journey.

Depending on trim, your Octavia will either be equipped with air-conditioning or **dual-zone air-conditioning with humidity control**. Dual-zone allows the driver and front seat passenger to set different temperatures for optimal comfort while the humidity sensor directs air flow as required, to keep the windscreen fog free.

The car stereo, 8" Columbus Navigation System\* and trip computer are housed in one system that gives the driver access to the vehicle setup and comfort functions through a single device. The proximity sensor recognises when a hand is moving towards the touchscreen and brings up the function buttons ready to be used, while intuitive swiping and pinching movements allow the user to scroll menus and zoom into maps easily.

Columbus Navigation System also features **SmartLink™** – delivering a seamless connection between car and smartphone using **Apple CarPlay®** and **Android Auto™** interfaces. SmartLink enables you to control compatible apps from the infotainment display, whether it be listening to music on the smartphone connected or receive turn-by-turn directions; all of this is mirrored on Columbus display.

\*Included in the optional Tech Pack for Ambition; standard on the Style and RS.

~SmartLink is compatible for selected apps with the latest smartphone versions of iOS and Android.

Octavia Style trim shown

## SPACE

- More Leg Room
- Exceptional Luggage Space
- Clever Storage Solutions
- Longer Wheelbase

As ŠKODA drivers have come to expect, Octavia is full of "**Simply Clever**" storage areas and designs to offer solutions that fit your lifestyle.

With a longer wheelbase than the previous generation, rear passenger space has been further maximised, ensuring three adults can sit comfortably in the rear – a perfect environment for growing families. All rear passenger seats are fitted with ISOFIX fixtures as standard on all models.

A 1.5L bottle holder and a removable rubbish bin are "Simply Clever" features located on the door panel.

The optional tinted **Electric Sunroof** for the Sedan allows for greater freedom and space.

The optional **two-part panoramic sunroof** for the Wagon also features an electrically- adjustable sun blind cover.

The **multimedia holder** located in the centre console is not only a practical accessory but also a safe place for storing your iPod and mobile phone.

Overseas model shown; Octavia Style Wagon

Hidden within Octavia's sleek design is exceptional **luggage space**. The sedan boasts **568 litres** of space, all easily accessible through the large sedan boot opening. This phenomenal space becomes cavernous with the rear seats folded down, expanding to **1558 litres**. The wagon offers **588 litres** of space with seats up and **1718 litres** with seats down.

Further, Simply Clever features on the wagon version include an optional **automatic tailgate\***. For convenience, the boot can be controlled from four separate locations:

- via remote control
- from the centre console
- with an internal button on the boot
- and via an external soft-touch boot button.

\*Optional Extra on wagon

## EXTERIOR

- Bi-Xenon Headlights
- Adaptive Front Light System
- Cornering Fog Lights
- Timeless, European Design

Style model shown

With strong lines and sharp angles, the Octavia's design promises to remain timeless and elegant in years to come. Whilst the broad fascia brings a strong road presence, the streamlined side profile hides the cavernous space within.

Proudly wearing ŠKODA's black and chrome logo, the interplay of light and darkness continues throughout the exterior of the car. The strong, dynamic shoulder line is complemented by the unique flourish at the base of the window line; creating the shape of an aeroplane tail fin on the sedan hinting towards the advanced technology found inside.

The Octavia utilises the very latest in Volkswagen Group shared technology - the Modular Transverse Matrix (MQB). This initiative allows cars to be designed with a high degree of freedom, by using various structural modules not limited by class or body type.

The **Integrated headlight washers\*** ensure headlights are clean so visibility is maximised.

\*Available in the Sports Pack for Ambition; standard on the Style and RS

Activated upon unlocking and opening the door, the **Environment lights**† illuminate to help you see surroundings more clearly such as puddles.

Clear halogen headlights and broad fog lights can be upgraded to **Bi-Xenon Headlights with AFS\* (Adaptive Front Light System)** and **LED daytime running lights\***

\*Available in the Sports Pack for Ambition; standard on the Style and RS. †Standard on Style; included in optional Comfort Pack for RS.

# ENGINES

- 110TSI Petrol Engine
- 110TDI Diesel Engine

The Octavia presents lighter, more fuel-efficient engines including Volkswagen Group's new turbocharged **1.4 litre 110TSI engine**; delivering an impressive 250Nm of torque and a combined fuel economy of **5.2L/100km\*** (110TSI 7-speed DSG Wagon). That's up to 20% more fuel-efficient than the previous generation Octavia.

In addition to the 110TSI, a **110TDI diesel engine** is offered on the Style. The turbo-diesel 110TDI offers a strong 320Nm from a 2.0 litre engine, while remaining fuel efficient at a combined **4.7/100km\*** (110TDI 6-speed DSG Wagon).

A standard feature across both engine variants is Green Tech<sup>^</sup> – a technology allowing for further improvement in fuel economy through the "Start Stop" and Brake Energy Recuperation features.

\*Fuel consumption figures according to Australian Design Rule (ADR) 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, will in practice in the real world lead to figures which generally differ from those advertised. Advertised figures are meant for comparison amongst vehicles only. <sup>^</sup> Reactivation of "Start Stop" will not occur in certain conditions.

# INFOTAINMENT

- SmartLink Smartphone Connectivity
- Canton Sound System
- Columbus Navigation System
- USB Connection
- Proximity Sensor
- Trip Computer

Your car and smartphone are now in perfect sync. The **SmartLink™** system delivers a seamless connection between your car and selected apps from your smartphone using, **Apple CarPlay®** and **Android Auto™** interfaces. Whether you want to select and listen to music on your smartphone or receive turn-by-turn directions, selected apps are mirrored and can be controlled via the Octavia's infotainment unit.

**The all-new infotainment systems** on the Octavia are a significant step forward in the field of multimedia systems. All Octavias come with SmartLink, USB, SD card and aux-in socket as standard so you can play music from your mp3 player through the car's speakers. The USB will allow you to control the device through the car's touchscreen system, as well as, charge your device simultaneously.

Touch screen  
6.5" Bolero  
Radio

For those who love their music, the 8-speaker sound system can be upgraded to a premium, German **10-speaker Canton Sound System\***. Canton also adds a digital equaliser; sound level controls allowing optimisation for all or individual occupants; vehicle noise cancellation and, when added in combination with a Columbus satellite navigation, the ability to play Dolby 5.1 surround sound.

Touch screen  
8" Columbus  
Satellite  
Navigation

\*Available in the Tech Pack for Ambition, Style and RS. ~SmartLink is compatible for selected apps with the latest smartphone versions of iOS and Android.

# DRIVER ASSIST SYSTEMS

- Adaptive Cruise Control (ACC)
- Automatic Parking Assist
- Lane Assist
- Advanced Keyless Entry Including Smart Start (KESY)

An outstanding, technological advancement, standard on the entire Octavia range is **Adaptive Cruise Control (ACC)<sup>#</sup>** - an extension of the conventional cruise control system with advanced capabilities based on a radar sensor located on the front grille. When ACC is activated, the vehicle automatically brakes and accelerates to a speed and distance set by the driver. The dynamics of the ACC system can be individually varied by selecting one of the driving programs from the Driving Mode Selection.

Utilising the same radar sensor, the **Front Assist<sup>#</sup>** safety system monitors the area in front of the car at speeds above 30km/h. Using predefined algorithms, it decides whether these objects pose a potential risk of collision and alerts the driver if the distance to object is insufficient - initially with a tone and an alert on the multi-functional display; followed by a warning jolt of the brakes. If the driver doesn't respond, the car will brake itself - all the way to a standstill if needed, helping to avoid a collision or reduce the severity of the accident. It can be turned off by the driver via the touchscreen. For vehicle speeds below 30km/h, City Emergency Brake is designed to help a driver avoid a low-speed crash or to reduce its severity.

For those wishing to make both parallel parking and bay parking easier than ever, an **Automatic Parking Assist<sup>\*\*</sup>** can be added. With a press of a button, the system will begin searching for a parking space in a line of cars or other obstacles. When a suitable space is found (the car's length + 60cm is all the space needed), the car will steer itself into the space whilst the driver controls the pedals. This system will now also steer the car out of a line of cars from its parking space and with two presses of the same button, the car will search for and manoeuvre into a bay parking space.

**Lane Assist<sup>^\*</sup>** is a lane departure warning system that is designed to help reduce the likelihood of the vehicle leaving the road or crossing into an oncoming lane and therefore the risk of accident as a result of driver distraction or a lapse in concentration. Using a camera positioned within the rear-view mirror unit, it actively recognises lane markings and takes corrective action by gently steering you back on course. The system is also equipped with a warning tone and message in the multi-functional display for situations that require additional actions from the driver.

**Advanced Keyless Entry Including Smart Start<sup>\*</sup>** can be added to allow the driver to lock and unlock the car and start and stop the engine without having to insert or even handle the key. As long as the key is within 1.5m of the sensor, the system will work, and a number of simply clever features ensure you can check the lock, preventing you from locking the key inside and preventing unwanted access.

## SAFETY

- 5 Star ANCAP
- Multi-Collision Brake
- Passenger Protect Assist
- Rear View Camera
- Fatigue Detection
- Adaptive Cruise Control including Front Assist

The Octavia Ambition features **seven airbags** as standard, located at the front, front side, curtain and driver's knee area. With the inclusion of rear side airbags, the Style and RS models boast **nine airbags** as standard.

Standard across all variants, the **Rear View Camera**<sup>#</sup> gives a clear view of objects usually out of sight allowing the driver to manoeuvre with added confidence and safety. When in reverse the navigation display system reveals a real-time image display with superimposed graphic lines thanks to the camera built into the tailgate. **Rear Parking Sensors** also standard across the entire Octavia range.

The **Multi-collision Brake** feature has been designed to provide effective assistance for the driver in the moments after an accident. Multi-collision Brake triggers automatic controlled braking once an initial collision has been detected so as to reduce the intensity of further accidents after a collision and can help prevent follow-on collisions with oncoming traffic.

**Fatigue Detection**<sup>#</sup> monitors the movement of the driver through the steering wheel and if the driver begins to display signs of fatigue, the car will audibly alert the driver with a tone and show a break recommendation alert on the Maxi DOT.

Utilising the same radar sensor as Adaptive Cruise Control, the **Front Assist**<sup>#</sup> safety system monitors the area in front of the car at speeds above 30km/h. Using predefined algorithms, it decides whether these objects pose a potential risk of collision and alerts the driver if the distance to object is insufficient - initially with a tone and an alert on the multi-functional display; followed by a warning jolt of the brakes. If the driver doesn't respond, the car will brake itself - all the way to a standstill if needed, helping to avoid a collision or reduce the severity of the accident. It can be turned off by the driver via the touchscreen. For vehicle speeds below 30km/h, City Emergency Brake is designed to help a driver avoid a low-speed crash or to reduce its severity.

**Passenger Protect Assist**<sup>^</sup> uses information from the car's braking and electronic systems to recognise when there is a high chance of collision. If this is detected, the front seat belts will tighten and the sunroof (if equipped) and windows will close to help keep the car's occupants in the optimum position for airbag deployment and reduce items flying into the car. Drivers who prefer to desensitise the Passenger Protect Assist can change these settings on their touchscreen display.

<sup>#</sup>Safety technologies are not a substitute for the driver's responsibility for the vehicle

<sup>^</sup>Standard equipment on Style and RS

# ŠKODA Octavia Ambition

The **Ambition** version is offered with black fabric seat upholstery with matching coloured door panelling and dashboard. The interior is fitted with streamline grey finishes. The 6.5" touch screen Bolero infotainment system including SmartLink™ smartphone connectivity with Apple Carplay® and Android Auto™ is a standard feature on the Ambition.

## ŠKODA Octavia Style

The **Style** version is offered with black leather appointed seat upholstery\*. 8" touchscreen Columbus Satellite Navigation including SmartLink~ smartphone connectivity with Apple Carplay® and Android Auto™ and Dual-zone Climatronic Air-conditioning are standard features on the Style.

\*Leather appointed seat upholstery have a combination of genuine and artificial leather, but are not wholly leather. ~SmartLink is compatible for selected apps with the latest smartphone versions of iOS and Android

## SPORTS PACK

New Sports Pack now available on the Octavia Ambition

The **Sports Pack** offered on Ambition features black design elements including rear spoiler, mirror caps, fog lights and styling decals. Also included is a host of sport design features comprising of a 3-spoke sports steering wheel, 18" Turini black alloys and Bi-Xenon headlights with Adaptive Frontlight System.

<sup>^</sup>Not offered in combination with Sports Pack

# ŠKODA Octavia RS

RS Wagon shown with optional Black Pack

The **ŠKODA Octavia RS** uniquely combines a dynamic driving experience with all the characteristics of a practical family vehicle.

As with every Octavia, the RS will captivate you with its modern design. But its sleek looks are backed up with a sporty chassis and engine options to match. The 162kW turbocharged petrol engine and 135kW turbocharged diesel engine give the RS highly agile characteristics, yet result in lower fuel consumption without compromising overall performance. As a result, a combined consumption of 6.4L/100km\* for the 162TSI 6-speed Manual Sedan and 4.8L/100km\* for the 135TDI 6-speed DSG Sedan are achieved.

With a whole range of Driver Assist Technologies, the entire Octavia range comes standard with **Adaptive Cruise Control**<sup>^</sup> allowing the vehicle to automatically brake and accelerate to maintain a pre-selected distance from the vehicle in front.

Like the Octavia Style, safety is paramount for the RS with **nine airbags**, **fatigue detection**<sup>^</sup>, **rear view camera**<sup>^</sup> and **passenger protect assist** as standard.

The Octavia RS will fit your active lifestyle perfectly, and you won't need to forgo the everyday practicalities of life. Why park your dream of a sports car and settle for a family vehicle instead? The ŠKODA Octavia RS fits both roles perfectly.

<sup>^</sup>Safety technologies are not a substitute for the driver's responsibility for the vehicle. \*Fuel consumption figures according to Australian Design Rule (ADR) 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, will in practice in the real world lead to figures which generally differ from those advertised. Advertised figures are meant for comparison amongst vehicles only.

Octavia RS shown with optional sunroof

The Octavia RS can be easily identified by the **RS Badge** on the front grille as well as the sports expression enhanced by the **Bi-Xenon headlights with LED daytime running lights and black backfill**.

Vehicles shown with optional 18" Black Pack

The **RS logo** on the rear forms another distinctive detail of this sports model. Both the Sedan and Wagon feature a rear sports **Spoiler**, which increases the stability of the vehicle at faster speeds. Further enhancing the sporting pedigree of the RS are the **Dual integrated chrome exhaust tailpipes** and **Black rear diffuser**.

Octavia RS shown with optional 19" Black Pack

The **3-spoke multifunctional sports steering wheel** wrapped in perforated leather is adorned with an original **RS plaque**. The exceptional design goes hand in hand with advanced technology, represented by the **electromechanical, progressive power steering**. Based on the steering wheel position, the progressive steering reduces the need to move your hands around the wheel when cornering and increases comfort when parking. Furthermore, the **Extended Electronic Differential Lock system (XDL)** improves traction and reduces the tendency to understeer. Both these features are exclusive to the RS model.

The instrument panel in **RS design** has a clear white interface, equipped with the **high-resolution display**.

Unique to the RS, the **Door Sill Strips** accentuate the sporty character of the model, whilst adding to practicality.

The **Aluminium finish pedals** are yet another stylish addition of the RS design.

Along with the steering wheel, the **Sports leather package** is evident on the handbrake and gear lever, complemented with red stitching.

Standard on all RS models, the **Driving Mode Selection** adds a sporty note to proceedings. It is modifiable in accordance with the selected engine mode (normal/sport/eco/individual), enhancing the driving soundtrack, providing a full-throated response to every rev, gear and throttle blip.

# ŠKODA Octavia RS

The **RS** version is offered with a combination of black leather appointed\* and fabric seat upholstery. As part of Comfort Pack the RS is also available with black leather appointed seats upholstery\*. 8" touchscreen Columbus Satellite Navigation including SmartLink~ smartphone connectivity with Apple Carplay® and Android Auto™ and Dual-zone Climatronic Air-conditioning are standard features on the RS.

\*Leather appointed seat upholstery have a combination of genuine and artificial leather, but are not wholly leather. ~SmartLink is compatible for selected apps with the latest smartphone versions of iOS and Android.

Black roof rails (Wagon)	—	—	P

● standard ○ option — not offered P included in the package

\* Leather appointed seat upholstery have a combination of genuine and artificial leather, but are not wholly leather. †SmartLink is compatible for selected apps with the latest smartphone versions of iOS and Android.

# Octavia Sedan – Technical specifications

Model	110TSI MT/DSG	110TDI DSG
Engine type	turbocharged petrol engine, in-line, liquid cooling system, direct injection, DOHC, transverse in front	diesel engine with variable vane turbocharger, in-line, liquid cooling system, high-pressure direct injection system, DOHC, transverse in front
Cylinders/Displacement [cm <sup>3</sup> ]	4/1395	4/1968
Max. engine performance/revs [kW at rpm]	110/6000	110/4000
Max. torque/revs [Nm at rpm]	250/1500-3500	320/1750-3000
Fuel quality	Unleaded Petrol min RON 95	diesel
<b>Performance/consumption*</b>		
Maximum speed (km/h)	219	215
Acceleration 0-100km/h (s)	8.1 / 8.2	8.5
Consumption [l/100 km]*		
- combined	5.4 / 5.3	4.7
- urban	6.8 / 6.3	5.4
- extra urban	4.5 / 4.5	4.3
<b>Transmission</b>		
Driven wheels	Front wheel drive	Front wheel drive
Clutch	hydraulic single dry clutch disc with membrane spring, asbestos free	two coaxial wet multiple-disc clutch, electro-hydraulically operated
Transmission	Manual 6-speed / DSG 7-speed (Ambition) DSG 7-speed (Style)	DSG 6-speed
<b>Weights</b>		
Tare Mass [kg]	1219 / 1234	1316
Max. roof load [kg]	75	75
Max. trailer load w/o brakes [kg]	620	670
Max. trailer load with brakes [kg]	1500	1600
Max. downhill weight [kg]	75	75

<b>Body</b>	Sedan
Drag coefficient C <sub>w</sub>	0.301 (110TSI) / 0.297 (110TDI)
<b>Chassis</b>	
Front axle	MacPherson suspension with lower triangular links and torsion stabiliser
Rear axle	Torsion beam axle, trailing arms, coil springs (110TSI & 110TDI)
Braking system	hydraulic dual-diagonal circuit braking system vacuum assisted with Dual Rate system
- front brakes	disc brakes with inner cooling, with single/piston floating caliper
- rear brakes	disc brakes
Steering	direct rack-and-pinion steering with electro mechanic power steering
Wheels	7jx17" (Ambition) / 7.5jx18" (Style) / 7.5jx18" (110TDI)
Tyres	225/45 R17 (Ambition) / 225/40 R18 (Style) / 225/40 R18 (110TDI)
<b>Tank capacity (l)</b>	50

<b>Outside dimensions</b>	
Length (mm)	4659

# WELCOME TO CARE-FREE OWNERSHIP

ŠKODA Care is about making sure that same level of attention to detail remains long after you've made your purchase, making owning a ŠKODA as fantastic as buying one.

After getting behind the wheel of a ŠKODA, it's not hard to see why they're so beloved by their owners. Quite simply, ŠKODA vehicles are made to be driven and we want to keep your journey a long and happy one. And the way it works is simple. ŠKODA Australia provides a 5 Year/Unlimited Kilometre Warranty# across the entire range. Conditions and exclusions apply.

Every new ŠKODA vehicle includes a complimentary one year roadside assistance, from the warranty start date. The complimentary roadside assistance will subsequently be renewed on an annual basis for the second, third, fourth and fifth years, if the vehicle is returned to an Authorised ŠKODA dealer for scheduled maintenance (as per the ŠKODA service program) up to a maximum of five years.

ŠKODA Service Pricing

Buying a car is one thing, but owing a car is something else entirely. We're sure you'll want to know the costs of any service before you book it in. The cogs in our heads have been turning and we've come up with a solution we think is pretty clever. Our handy online service calculator can help you find the cost of your next service, scheduled to occur every 12 months/15,000 kms (whichever occurs first)^. No hidden expenses, no nasty surprises.

Genuine Parts

You don't have to be a genius (AKA a ŠKODA technician) to know that non-genuine parts aren't as good as using genuine ones. Our philosophy towards fixing your car is simple; the parts we use are identical to the parts used in the production of your car originally. Genuinely. And with a nationwide, two year, unlimited kilometre warranty on all genuine parts, peace of mind comes easily too. Exclusions apply, please visit [skoda.com.au](http://skoda.com.au).

Service Packs

Why worry about handling the payment of your services on an ad-hoc basis when you already know you need to get them annually? Conveniently, you can save time by pre-paying your servicing with a 3 Year/45 000km or a 5 year/75 000km ŠKODA Service Pack^ at any of our ŠKODA dealers. That way you can simply book a service time that suits you, and the costs are already covered. Your car, serviced at your convenience.

#5 Year Warranty consists of 3 Year Factory Warranty and 2 Year Factory Extended Warranty. 5 Year/Unlimited Kilometre Warranty is available with private, general fleet and government vehicles only. Excludes rental vehicles, hire cars, taxis, courier vehicles, driving school vehicles, security vehicles, bus and tour vehicles which are subject to a 5 Year/150,000 Kilometre Warranty (whichever occurs first). Your rights under this warranty sit alongside the consumer guarantees under the Competition and Consumer Act 2010 which cannot be excluded. ^ŠKODA Service Pack covers standard items as contained in each scheduled service interval only. Exclusions apply. For full terms and conditions please visit [www.skoda.com.au/skoda-care](http://www.skoda.com.au/skoda-care)

# ŠKODA CHOICE: PROTECT YOUR INVESTMENT

Enjoy a flexible finance solution that provides you with the assurance of knowing exactly what the minimum value<sup>2</sup> of your vehicle will be at the end of your term.

- ✓ Peace of mind knowing the minimum future value of your ŠKODA right from the start, so you know it will retain its value over time<sup>1</sup>
- ✓ Personally tailored solutions, based on your term and kilometre usage
- ✓ Opportunity to upgrade your ŠKODA to the latest model more often, enjoying the best innovations and new technologies

## At the end of your term, you can simply choose to:

### TRADE-IN

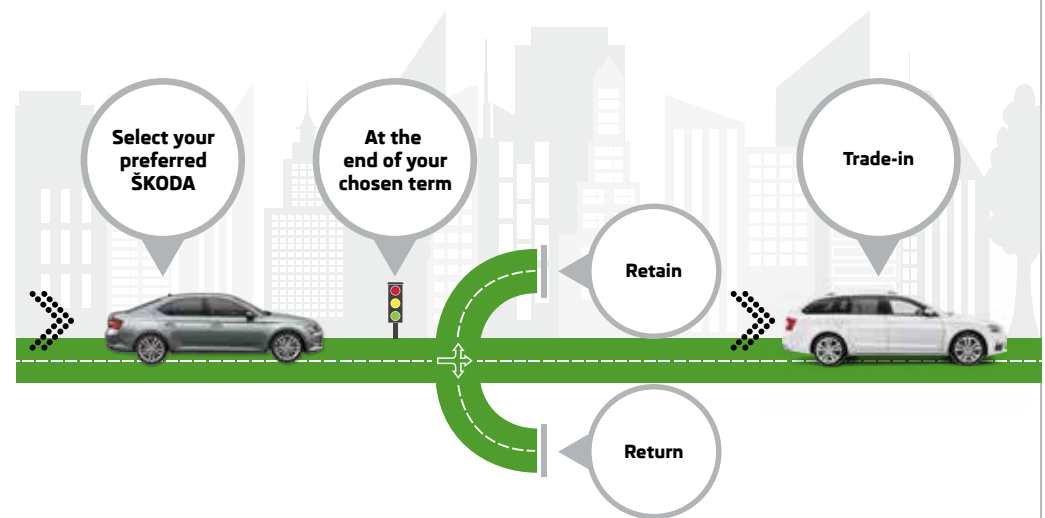

If you wish to trade-in your ŠKODA for a new vehicle, all you need to do is return it to the dealership. If the trade-in value is higher than the Guaranteed Future Value, you can use this equity towards your new vehicle.

### RETAIN

If you prefer to retain your ŠKODA, simply let us know. Provided that you also meet the relevant payment obligations under your contract, if we agree, you can purchase your vehicle outright for the Guaranteed Future Value price locked in at the start of the contract<sup>2</sup>. Then your ŠKODA is yours to keep, or you can choose to refinance your residual at the end of the term.

### RETURN

Simply return your vehicle to your ŠKODA dealership at the end of the term. If the vehicle meets the agreed requirements<sup>2</sup>, we will give you the benefit of the full Guaranteed Future Value amount.

For more information on our Guaranteed Future Value program, visit [www.skodafinancialservices.com.au/gfv](http://www.skodafinancialservices.com.au/gfv)

<sup>1</sup> The ŠKODA Choice Program consists of an option to require ŠKODA Financial Services to purchase your vehicle at the end of your ŠKODA Financial Services Chattel Mortgage, Consumer Loan or Hire Purchase for a value (known as the Guaranteed Future Value) determined by ŠKODA Financial Services and set out in your contract. The Guaranteed Future Value is not a representation by ŠKODA Financial Services as to the likely market value of your vehicle as at the end of your contract. The option is available on new and demonstrator ŠKODA vehicles for selected models only. Please verify with your dealership vehicles that are eligible for the program. <sup>2</sup> If vehicles are not returned in an acceptable condition, as defined in the terms and conditions or exceed kilometre restrictions the Guaranteed Future Value will be reduced. See the ŠKODA Choice Fair Wear and Tear Guide for more information on the required conditions and circumstances. The cost of the ŠKODA Choice Program is incorporated into the applicable interest rate. Please read the full terms and conditions. Please consider whether these products and services are appropriate for your circumstances. Before acting on any of the information on this page, please seek independent financial and tax advice. Full terms and conditions are available upon application. Available only to approved applicants of ŠKODA Financial Services. Subject to credit assessment. Fees and charges apply. Fleet, government, rental buyers, hire car and chauffeur companies are excluded. Available at participating ŠKODA dealers. ŠKODA Financial Services is a trading name of Volkswagen Financial Services Australia Pty Limited ABN 20 097 071 460. Australian Credit Licence 389344.

# ACCESSORIES

**ŠKODA Genuine Accessories** add style to your car while enhancing its utility. To get a full overview of our range of products, ask any authorised ŠKODA dealer for an accessories catalogue or download a brochure from [www.skoda.com.au](http://www.skoda.com.au)

**Detachable Tow Bar** (also requires tow bar wiring kit)

**Front Mud Flaps**

**Rear Mud Flaps**

**Bicycle Holder** for tow bar for 2 bicycles

**Dog Seatbelts**

It is noted that some accessories may have an effect on fuel efficiency. For a full range of genuine accessories, please refer to [www.skoda.com.au](http://www.skoda.com.au) or see your authorised ŠKODA dealer.

# Glossary

## **Anti-lock Braking System (ABS)**

When braking, sensors in each wheel measure the road speed. If one or more wheels start to lock, the ABS reduces brake pressure to those wheels. This prevents the wheels from locking during heavy or emergency braking and allows you to continue to steer the vehicle.

## **Anti-Slip Regulation (ASR)**

ASR is a switchable traction control system that prevents the front wheels from spinning under acceleration. When a difference in driving wheel speed is detected (e.g. due to differences in road surfaces), the system automatically reduces engine torque accordingly.

## **Electronic Brake-pressure Distribution (EBD)**

This sophisticated system provides an electronic means of regulating the ratio of front to rear brake pressure. The system automatically varies the settings according to driving and load conditions to ensure each wheel is braked to the optimum extent.

## **Electronic Stability Control (ESC)**

The ESC is made up of the ABS and ASR traction control systems. Simply put, it helps ensure that the vehicle goes where you steer it – even in extreme driving conditions. By constantly comparing the actual movement of the vehicle with pre-determined values, ESC will apply the brakes to individual wheels and automatically adjust the engine's power output to correct a problem the very moment it arises.

## **Adaptive Cruise Control (ACC)**

Adaptive Cruise Control (ACC) is an extension of the conventional cruise control system with advanced capabilities based on a radar sensor. When ACC is activated, the vehicle automatically brakes and accelerates to a speed and distance set by the driver.

If the Octavia approaches a slower vehicle, the ACC brakes the car to the same speed and maintains the pre-selected distance. Even when a vehicle pulls into the same lane in front of you or slows, your vehicle is automatically decelerated to the pre-selected distance. If the vehicle ahead moves out of your lane, the Octavia then accelerates up to the preset desired speed.

Deceleration of the vehicle may take place via intervention in the engine management system. If deceleration via engine torque is not sufficient, brake intervention takes place, braking the vehicle to a standstill if the traffic situation necessitates in vehicles equipped with a DSG transmission. ACC can be reactivated automatically by depressing the accelerator pedal. In vehicles fitted with a manual transmission, the system is automatically deactivated at speeds below 30km/h and the driver is prompted to take charge by visual and acoustic signals.

Note: Adaptive Cruise Control (ACC) cannot replace the driver's attentiveness. The driver is still legally responsible for the vehicle and must monitor the speed and distance in relation to other vehicles. The ACC system should not be used on winding roads or in adverse weather conditions such as heavy rain.

## **Brake Assist**

Brake Assist aids the driver during emergency braking by automatically increasing the brake pressure to a level exceeding the locking limit. Then, the ABS is quickly brought into the operating range, thereby enabling maximum vehicle deceleration.

## **Multi-collision Brake**

The multi-collision brake has been designed to provide effective assistance for the driver in the moments after an accident. Multi-collision brake triggers automatic controlled braking once an initial collision has been detected so as to reduce the intensity of further accidents after a collision and can help prevent follow-on collisions with oncoming traffic.

The triggering of the multi-collision brake is based on a collision being detected by the airbag sensors. The ESP control unit limits the deceleration of the vehicle by the multi-collision brake to a defined value and vehicle speed. The vehicle can still be controlled by the driver, even when automatic braking is taking place. The driver can interrupt the multi-collision braking at any time by accelerating or braking even more strongly.

## **Electronic Differential Lock (EDL)**

EDL improves driving and steering characteristics when accelerating on road surfaces where each wheel has a different degree of traction. The system operates automatically and is combined with the ABS system. Using the ABS wheel sensors, EDL monitors the speed of the individual driving wheels. When a difference in driving wheel speed is detected (i.e. when one wheel starts to spin due to differences in road surfaces, e.g. due to water or dirt) the system brakes the spinning wheel, transferring engine power to the wheel with the best traction.

## **Extended Electronic Differential Lock (XDL)**

XDL is an extension of the Electronic Differential Lock (EDL) function. When cornering, XDL responds to the load relief at the front wheel on the inside of a corner. The ESP hydraulics are used for the XDL to apply pressure to the wheel on the inside of the corner in order to prevent wheel spin. This improves traction and reduces the tendency to understeer. As a direct result of the one-sided and precise braking pressure, cornering is sportier and more accurate.
