Prepare for the next

TOYOTA

toyota.com.au

Oh what a feeling!

There's a spirit that runs through Toyota. It's a feeling of achievement. It pushes us. Inspires us.

— It's what saw us mass produce the first dedicated hydrogen fuel cell vehicle, the Mirai, and what will see us define the very future of movement. Our Japanese founders called it 'Kaizen,' but we simply call it 'continuous improvement.' A relentlessness to always move forward, never settle for good enough.

And here's the exciting part, this feeling of achievement is yours to experience. Life changing moments, just waiting to be told. Whether it's the thrill of experiencing the latest in technology, venturing somewhere completely new or simply spending more time with your family. That sense of achievement, whatever form it comes in, will be a feeling you never forget.

This is a journey for which we don't know the destination, but looking back at how far we've come, it's safe to say tomorrow looks exciting beyond imagination.

“

*We are a group of passionate perfectionists
who can't let well enough alone...*

That's Toyota.

That's the spirit.

*And that's our contribution to the world.
We will be the best we can.*

*And we will help as many as
we can to be the best they can...*

— Eiji Toyoda

A yellow Toyota C-HR is parked on a city street. The car is positioned in the lower-left to center of the frame, angled slightly towards the right. It has a bright yellow upper body and a black lower body. The background is a multi-story brick building with large windows. The scene is lit with warm, golden-hour light. On the right side of the image, there is a vertical text overlay.

The future takes shape

With its striking angular shape tracing a unique diamond design, C-HR looks like no other compact SUV. Its crisp lines flow effortlessly throughout, so even when it's standing still, C-HR answers the artistic goal of its chief designer to always appear as if it's moving.

More than just good looking, its sleek athleticism is enhanced by advanced aerodynamics and technology, creating a compact SUV that's sophisticated, sexy and built for any action or adventure.

When it's time to drive into the future, C-HR is ready to take you there.

Koba model shown

A fresh expression of style

Whichever way you look at it, C-HR expresses style and class beyond the traditional compact SUV. With its sleek yet powerful front end, meaningful stance, unique diamond-inspired design and tapering roofline, it's uncompromising in every aspect and angle.

To further accentuate its dynamic appearance, contemporary touches including hidden rear door handles, rear spoiler and angular rear tail lamps are an integral part of the design, forming a stylish union.

With a choice of 15 colour options, including unique separate roof tones on Koba, you can match your drive to suit your taste. Eye catching 18" machine-finished alloy wheels are standard on Koba, and 17" silver alloy wheels are fitted on standard grade C-HR.

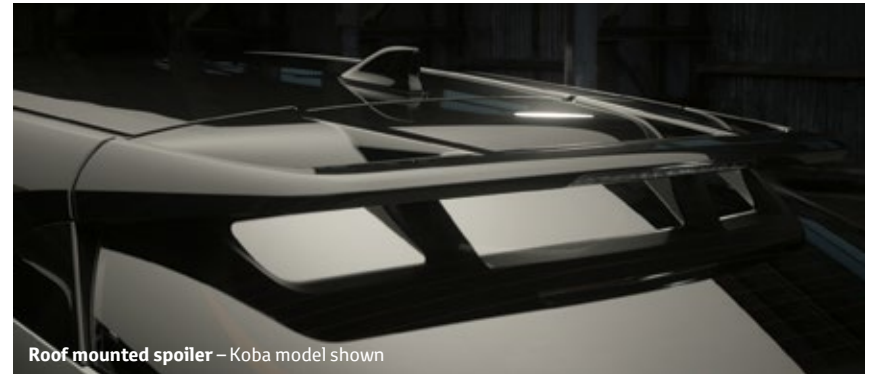

You'll also be able to stay aware of what's around you with electrically retractable side mirrors. On every C-HR, unique puddle lamps will illuminate the space beneath the doors whenever the doors are unlocked.

Up front, LED Daytime Running Lamps (DRLs) show the way from within the stylish projector housing they share with the headlamps. These are fitted as halogen headlamps with Automatic High Beam¹ on C-HR or as LED headlamps on Koba. When it's time to turn corners, LED sequential front turn signals on Koba light in sequence from the centre out to also turn heads.

More than just cool, the tinted privacy glass on Koba rear and rear side windows helps reduce the impact of sunlight as well as enhancing the already stylish C-HR lines.

A detailed view of the driver's side interior of a Toyota C-HR. The steering wheel is black with a silver Toyota logo in the center and blue backlit controls on the spokes. Behind the wheel, the instrument cluster features two analog gauges with blue dials and a central digital display showing the 'TOYOTA C-HR' logo. The center console has a large infotainment screen displaying the Toyota logo, with physical buttons for 'AUX', 'HOME', 'APPS', and 'MEDIA' on either side. The dashboard and door panels have a dark, textured finish with blue ambient lighting accents.

Step into style

Inside you'll discover a seamless and expansive space that encourages whoever's behind the wheel to remain focused on an exceptional driving experience.

The unique diamond design theme also continues inside C-HR, extending to the shape of crucial instruments and controls, as well as the roof headliner, seat trim, door sills and speaker grilles. Contemporary touches on Koba include the on-style ambient blue mood lighting and cool blue backlighting on the instrument panel and controls. With sleek black detailing throughout, the C-HR is every bit as premium inside, as it is on the outside.

Designed to impress

The carefully planned C-HR interior is an oasis of designer space and comfort.

Well-thought-out storage space and cup holders carry both your essential needs and precious possessions with ease, plus the 60/40 split fold rear seats add even greater storage and load carrying flexibility.

The Toyota New Global Architecture (TNGA) seats combine exceptional comfort and style for any journey, long or short, and are finished in soft touch fabrics, with these featuring a leather accented trim in Koba C-HR. The sculptured front seat design also provides the necessary lumbar and side support to match C-HR's enviable cornering performance.

From the inside out, one look tells you C-HR is styled and designed to perform like no other compact SUV.

Smarter style

C-HR brilliantly combines beauty and brains, featuring the best of Toyota's premium technology to make every journey as effortless and comfortable as possible.

You can walk up and hop straight into the Koba C-HR with smart entry and start that allows keyless entry and engine ignition.

Automatic dual-zone air conditioning is fitted as standard with multiple vents to keep the cabin cool. Koba includes Nanoe® Air Conditioning Technology² which sends moisture rich negative ions into the cabin, helping reduce odours and allergens (such as pollen) and providing occupants with moisturising benefits to hair and skin on long journeys.

On Koba, the front seats are also heated, with three separate settings across two heated zones, to keep you feeling as good as C-HR looks.

With the 4.2" colour Multi Information Display (MID), a broad range of driving functions and information is at your fingertips.

The intuitive menu system allows the driver to switch between details such as fuel consumption, trip information, vehicle data, drive mode, Lane Departure Alert¹ (LDA) and more.

The 6-speaker audio system features a 6.1" colour touchscreen display for easy control, as well as displaying the reversing camera,³ which along with the front and rear parking sensors,³ helps you park safely. The system also includes satellite navigation⁴ and Toyota Link,⁵ which allows you to enjoy a range of travel services and real time information updates.

If a driver approaches from behind with their high-beam on, the auto-dimming rear view mirror will automatically tint to help reduce the headlight glare.

The C-HR park brake is operated by a switch, freeing up interior space and improving ease of use.

Responsive to your every move

Get in, grip the wheel and get ready. The C-HR driving experience is every bit as stunning for a compact SUV as its looks, which is just what you'd expect from a vehicle designed by a chief engineer with a passion for motor racing.

The high rigidity tensile steel body and chassis combined with class leading suspension underpin the C-HR's exceptional driving dynamics, whether you choose a 2WD or AWD C-HR.

AWD C-HR comes equipped with Continuously Variable Transmission (auto CVT), whilst 2WD C-HR is available with your choice of 6-speed manual transmission or auto CVT. Manual transmission features intelligent Manual Transmission (iMT), which controls the revs when starting off to make it almost impossible to stall, and also helps make smoother gear changes by matching engine speed to wheel speed.

The C-HR also enjoys a higher ride aspect, so you can easily see around you. This is the compact SUV that's certain to get noticed.

Turbo-charged brilliance

Every C-HR is equipped with the highly advanced 4-cylinder 1.2L turbo-charged petrol engine. With its 16-valve DOHC with Variable Valve Timing with intelligence (VVT-i), it delivers all the power you'd expect from a larger normally aspirated engine. Plus it provides peak torque at significantly lower RPM, leading to even greater acceleration response on the open road.

It also features reduced engine noise, making it more comfortable around town and its greater efficiency makes it perfect for the demands of urban traffic.

C-HR drivers can also use the Multi Information Display (MID) to select between ECO, NORMAL and SPORT driving modes, depending on their preference for performance or fuel economy. On auto CVT equipped C-HRs, in SPORT mode, the transmission is tuned to simulate gear changes and further enhance an already exceptional driving experience. By selecting the M-mode (manual), the driver can take precise control over seven 'simulated' gears, to enjoy driving with the extra response usually provided by a manual.

Toyota Safety Sense

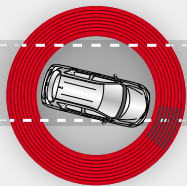

At Toyota, we constantly strive to create a safer driving environment for everyone. That's why we developed Toyota Safety Sense (TSS),⁶ a multi-feature active safety package designed to support safe driving and help protect you and your passengers.

TSS incorporates Lane Departure Alert, Pre-Collision Safety system,

Automatic High Beam and Active Cruise Control.

With automated pre-collision warning and braking at its core, TSS aims to recognise specific hazards and help avoid certain collisions, providing greater reassurance to the driver and extra protection for passengers across a varying range of driving speeds and conditions.

Lane Departure Alert¹

Lane Departure Alert (LDA) is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane.

Pre-Collision Safety system¹ with pedestrian detection⁷

Pre-Collision Safety system (PCS) with pedestrian detection uses Forward Collision Warning (FCW) to help alert you to imminent frontal collisions. During braking, Brake Assist (BA) can apply additional force, and if the driver has not applied the brakes, Autonomous Emergency Braking (AEB) can activate and help mitigate the impact.

Automatic High Beam¹

Using a camera to sense either approaching headlights or the taillights ahead, Automatic High Beam (AHB) aims to help maintain safe and considerate driving by switching between high and low beam as needed.

Active Cruise Control¹

Active Cruise Control (ACC) is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help maintain a set distance.

A high-angle, black and white photograph of the front interior of a car. The driver's side airbag is fully deployed from the steering wheel. The passenger side airbag is also deployed from the center console. The rear passenger area shows a deployed side airbag. The seats are upholstered in a dark material with light-colored stitching. The dashboard and center console are visible in the background.

Safety is never out of style

Overseas model shown

With C-HR, you can add safety to an already impressive list of features. Apart from the surrounding protection of seven SRS airbags, every C-HR is equipped with Toyota's latest safety technology and thinking, including Toyota Safety Sense⁶ (TSS), a multi-feature active safety package to help keep you out of harm's way.

On the open road, Vehicle Stability Control (VSC) manages the braking and engine output to help counter oversteer or understeer when cornering. Electronic Brake-force Distribution (EBD) will balance the brake force between different wheels to compensate for different loads or when cornering.

When starting on an uphill incline, Hill-start Assist Control³ (HAC) will prevent rollback by applying and briefly holding the brakes to make it easier for the driver to apply power. On uneven or slippery surfaces, Traction Control (TRC) will automatically control wheels that are spinning and losing grip, helping you maintain directional control.

When reversing out of a blind car space, Rear Cross Traffic Alert³ (RCTA) can help warn you of vehicles approaching from either side and crossing behind you.

The side mirrors are also heated to clear condensation and include Blind Spot Monitor³ (BSM) to alert the driver of vehicles in the blind spot alongside.

Versatility to match the destination

C-HR model shown

No matter where your journey takes you, the C-HR is equipped to get you there in premium comfort and style.

For increased comfort, whether you are driving to work in the city or to the beach for a surf, C-HR is equipped with advanced pitching control to help stabilise the driver's vision over bumpy terrain. C-HR's advanced engine reads the wheel speeds, and applies the appropriate torque, ensuring the smoothest ride possible.

C-HR

- 1.2L turbo petrol engine (85kW, 185Nm)
- Continuously Variable Transmission (auto CVT) or intelligent Manual Transmission (iMT)
- 17" alloy wheels
- Halogen headlamps

Complement your active lifestyle with the following rugged and tough accessories, including front underrun, side underrun and rear underrun.

The Toyota Advantage

Every Toyota gives you a lifetime of advantages. That's what makes it a Toyota. You'll enjoy legendary Toyota value from the moment you drive away, and you'll continue to appreciate the quality, safety and innovation that's engineered into each model, every day you drive.

Discover the full range of products and services and find your nearest Dealer at toyota.com.au

Discover the freedom of Toyota Access¹³

Toyota Access puts you in complete control when buying a new car, with lower monthly repayments.¹⁴ Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance. To discover Toyota Access for yourself visit toyota.com.au/access

Capped price servicing¹⁵

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to five years or 75,000km, whichever occurs first (including Genuine parts, labour and fluids). For the full benefits consult a Toyota Dealer or visit toyota.com.au/advantage

We've got your back

Every new Toyota is built to exceptional standards, backed by a three year/100,000km warranty,¹⁶ giving you the peace of mind to feel confident for years to come. In the unlikely event that you need them, every Toyota Service Centre is committed to providing any warranty repairs you may need. They have the technology, the tools, and the skilled personnel to keep your Toyota in excellent condition.

Finance to get you going

If you need a little help, Toyota Finance¹⁷ can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first three years, use of Toyota Genuine Parts, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.¹⁸ And our Factory Approved Extended Warranty Insurance also provides benefits, for more information visit toyota.com.au/insurance

Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Extra Care Roadside Assist¹⁹ is never more than a phone call away. Available 24 hours a day, seven days a week, our technicians are there to help you get back on the road.
