

Corolla

A woman with long dark hair, wearing a brown patterned dress, is captured mid-jump on a trampoline. The scene is set outdoors at sunset, with a warm, golden light illuminating the sky and the surrounding trees. The woman's hair is blowing in the wind, and she has a joyful expression. The background shows a line of trees and a wooden fence, suggesting a park or a rural setting.

OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

The world's favourite small car, reimagined.

Experience the sophistication, the excitement, and most of all the fun that can only be had in the world's most popular small car. In a Corolla, your road ahead can be one great adventure.

Corolla has been completely redesigned according to the principles of Toyota's New Global Architecture (TNGA) for an even more

pleasurable drive. With an advanced design platform that incorporates outstanding improvements to both body structure and chassis, this is a vehicle that benefits not just from a broader stance for increased stability and advanced independent rear suspension, but also a lower centre of gravity that ensures your ride is smoother and more effortless than ever before.

With Corolla's sharp looks, you'll also move sharply off-the-line thanks to either a 2.0L Dynamic Force petrol engine, or our latest in Toyota Hybrid technology. Both Corolla Hatch and Sedan are also filled with the latest tech and state-of-the-art safety features, delivering a fresh world of thrilling possibilities.

This page and front cover: Corolla Hatch ZR Hybrid and Corolla Sedan ZR shown

An aerial photograph showing a winding asphalt road that curves through a dense green forest. In the background, a rugged mountain range with layered rock formations is visible under a clear sky. The lighting suggests late afternoon or early morning, with long shadows and warm tones on the rocks.

Hybrid technology, that's future forward.

The Corolla Hybrid delivers impressive acceleration and enviable fuel efficiency, with the ability to travel up to 1024km¹ for Hatch and 1194km¹ for Sedan on one tank. In addition, it provides a calmer, more responsible driving experience than ever before.

With Corolla Hybrid, even greater fuel efficiency now means no compromise on serious power.

Toyota has led the way in hybrid technology for over 23 years. And as we continue to drive the future of mobility, it's easy to see why millions of drivers worldwide have made the switch.

The Hybrid System

Four Key Benefits

Toyota Hybrid's latest technology gets you moving powerfully and smoothly every time. Enjoy an uncompromising drive with responsive, dynamic performance.

Quiet

The quieter and calmer experience in a Toyota Hybrid is proven to deliver one of the most satisfying and enjoyable drives on the road, with no compromise on vehicle responsiveness. It's why millions of hybrid drivers choose never to go back to petrol-only engines once they've made the switch.

Reliable

Toyota's Hybrid System offers the reliability and quality you can always expect from Toyota. Tested and trusted for over 23 years – so no matter where you go, you'll have peace of mind in every drive.

Powerful

Experience an uncompromising drive in a Toyota Hybrid with responsive, dynamic performance. You get impressive off-the-line torque that gets you moving powerfully and smoothly every time.

Starting off

The electric motor is used primarily and power stored in the battery is used to turn the motor.

Full acceleration

Power is provided by the petrol engine in addition to the electric motor. Output is maximised for acceleration.

Braking and deceleration

The electric motor functions as a generator to recharge the battery by itself. No fuel is used, so there are minimal CO₂ emissions.

Normal driving

A mix of petrol and electric is used for best economy, depending on the conditions. The battery is recharged where possible.

At rest

With the car brought to a stop, the petrol engine cuts off. The system automatically avoids idling to conserve fuel and reduce CO₂ emissions.

Toyota Safety Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our ongoing pursuit of creating ever safer cars, now and into the future, we developed Toyota Safety Sense² (TSS). A suite of active safety features designed to help support safe driving and help protect you and your passengers.

Corolla features the latest TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Corolla TSS features differ on all models and grades, please visit toyota.com.au for vehicle and specification information.

Lane Trace Assist

When driving on highways and freeways, Lane Trace Assist uses a camera to detect lane markings when cruise control is active. It is designed to alert you and provide steering assistance to help avoid drifting, and keep you centred in your lane.²

Pre-Collision Safety (PCS) system with pedestrian and daylight cyclist detection

Pre-Collision Safety system with pedestrian and daylight cyclist detection is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS is designed to assist the driver where there is a likelihood of frontal collision with cars and pedestrians during day or night, or cyclists during the daytime. PCS includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision appears to be unavoidable automatic braking to help mitigate impact.²

Road Sign Assist (speed signs only)

Road Sign Assist was developed to help recognise certain road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display.²

Active Cruise Control

Active Cruise Control is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.²

Lane Departure Alert with steering assist

Lane Departure Alert with steering assist is designed to help prevent vehicles drifting from their lane by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane. It may also apply additional steering force if needed to help you stay in your lane.²

Automatic High Beam

Using a camera to sense either approaching headlights or the tail lights ahead, Automatic High Beam is designed to help you maintain safe and considerate driving by switching between high and low beam as needed.²

The fine edge of inspiration

Buckle up. The time has come for you to experience the next level of sophistication and excitement as you head out on the road to life's great adventures.

The advanced design platform incorporates improvements to the overall body structure

and chassis, including independent rear suspension and a lower centre of gravity to ensure a more inspired driving experience.

Corolla Hatch not only looks sharp, but it's also sharp off-the-line, powered by either a 2.0L Dynamic Force petrol engine or the latest

Toyota Hybrid technology. It's filled with the latest tech and state-of-the-art safety features to deliver a fresh world of thrilling possibilities.

Stunning all the way through

Step inside Corolla Hatch and elevate your senses.

The thoughtfully crafted interior with contrasting trim flows effortlessly throughout. This modern look and finish is accentuated by a spacious, minimalist layout featuring elegantly styled ornamentation.

Newly designed front seats hold firm, created to help minimise stress and heighten your overall comfort. On Hatch ZR, there's a choice of luxurious black or red leather accented trim to choose from.

The dual-zone climate control air conditioning on all Corolla Hatch Hybrid, SX and ZR models will keep you cruising in maximum comfort, whatever the weather. And thanks to the new design principles of Toyota's New Global Architecture, all passengers will appreciate generous legroom and headroom.

Designed for maximum convenience, the smart entry and smart start system on all Corolla Hatch Hybrid, SX and ZR models means you can get in and get going with your key still in your pocket or bag.

A seamless world of innovation

All the instrumentation and controls in Corolla Hatch have been designed to promote a blissfully intuitive experience.

The 8" colour touchscreen display incorporates the latest Toyota infotainment features including Bluetooth®³ connectivity, voice recognition, Siri®⁴ Eyes Free, reversing camera and the myToyota⁵ app to connect with your smartphone for live weather updates, travel and traffic information and more. On Hatch SX and ZR and optional on Ascent Sport models, satellite navigation⁶ with SUNA™⁷ traffic channel is available. In addition, experience seamless connectivity with Apple CarPlay®^{8,9} and Android Auto™^{8,10} (speak to your Dealer about device compatibility).

On Hatch ZR models, the 7" Multi Information Display (MID) and Head-Up Display interact seamlessly with the colour touchscreen display to provide directions and key driving information right where you need it, so you can keep your eyes on the road.

Hatch SX and ZR models also feature a wireless phone charger.¹¹ Hatch ZR features 8-speaker JBL®¹² premium audio.

The Blind Spot Monitor² (BSM) on Hatch SX and ZR is designed to help detect other vehicles that are approaching the blind spot of the outer mirrors and alerts the driver with indicators on the outer mirror surface.

- A Auto-dimming rear view mirror – Hatch ZR only

- J Apple CarPlay®^{8,9} – ZR model shown. For illustrative purposes only
- K 7" Multi Information Display – Hatch ZR only

A stylish expression of power

Beyond being totally re-engineered, Corolla Hatch has also been completely reinvigorated to deliver a thrilling drive with a choice of either a powerful petrol engine or advanced Toyota Hybrid technology.

The 1.8L latest generation Corolla Hybrid engine is even more responsive, delivering impressive off-the-line acceleration and a smooth driving experience, as well as enviable fuel efficiency.

The 2.0L 4-cylinder Dynamic Force petrol engine delivers a significant boost in performance and

response. It features Toyota's latest thinking to reduce engine weight yet increase power to a hefty 125kW and peak torque of 200Nm.

The direct shift Continuously Variable Transmission (Auto CVT) offers enhanced acceleration, fuel efficiency and quietness. The continuously variable steel belt transmission is combined with a highly efficient gear transmission. Its innovative 'launch gear' provides thrilling acceleration off-the-line, then delivers an incredibly smooth and quiet drive by integrating and adapting to different vehicle and

driving characteristics. Plus you can engage manual gear selection should greater response and control be required.

For perfectly tuned performance, Active Cornering Assist (ACA) uses sensors and actuators to control the force through the driving wheels and braking system to help ensure excellent cornering control and fully utilise the grip of the tyres.

Colours that reflect you

Go bold, or keep it simple. It's your call. The Corolla Hatch features a range of distinctive colours, as well as two-tone options on ZR grade. Paint styles with some shades include solid, crystal pearl, metallic and mica metallic for added presence on-road.

Stylish and sophisticated Corolla Sedan

The aerodynamic lines of Corolla Sedan elegantly express all of its refinement and attention to detail. More than just dynamic on the road, it's a fresh dimension of style that delivers a strong, self-assured presence of modern prestige. The raised engine hood and deeply sculptured bumper corners on Corolla Sedan create a strong 3-dimensional appearance. The wide grille combines with the headlamps and trapezoid bumper structure to express movement while always presenting a strong, solid stance on the road. On the ZR, the Bi-Beam LED headlamps will light the way on the darkest nights.

Space to spare

When you're seated inside the Corolla Sedan the first thing you'll notice right away is the sense of space. This is a stylish, four-door sedan that has been created not only to accommodate the driver with ease, but your passengers as well.

The inside cabin build is robust and durable, so it's ready for everyday drives as well as friends, family and pets. The impressive 470L boot capacity accommodates golf clubs to groceries. Instrument panels in front of the driver are slim and streamlined, while maintaining excellent navigation and visibility.

The Corolla Sedan comes with standout interior features. Starting with the Ascent Sport, split fold rear seats and a broad range of Toyota Safety Sense² features come as standard. Move up to the SX where satellite navigation and Blind Spot Monitor are added. On the top of the range ZR, heated front seating with premium interior trim and a Head-Up Display round off the impressive interior package.

Innovative instruments

The data you receive while you drive can make all the difference. The 4.2" Multi Information Display (MID), or 7" on SX and ZR models, shows a selection of essential vehicle detail right where you need it. On Corolla ZR variants, a Head-Up Display shows various driving related items and warnings in your field of view on the windshield glass, allowing you to focus on the road and reduce eye movement.

The Corolla Sedan also has multimedia features that include Apple CarPlay[®],⁹ and Android Auto,[™],^{8,10} (speak to your Dealer about device compatibility) as well as features that allow for Siri[®] Eyes Free functionality to assist you with setting reminders, looking up phone numbers, checking appointments, the weather and more.

SX and ZR also feature satellite navigation⁶ with SUNA[™],⁷ traffic channel which helps to ensure effortless travel and the ability to update and guide according to live traffic conditions. Wireless phone charging¹¹ is also a convenient addition to SX and ZR models, and smart entry and smart start system functionality come standard on all Ascent Sport hybrids, SX petrol and hybrids and ZR petrol Corolla Sedan models.

Safety by design

You can drive with confidence knowing the Corolla Sedan is equipped with advanced safety features and technology.

There are seven SRS airbags to help protect the driver and passengers, while Anti-lock Braking System (ABS) helps prevent wheel lock-up and skidding, and Vehicle Stability Control (VSC) helps counteract any oversteer or understeer when cornering. Traction Control (TRC) automatically controls engine output or applies the brakes to any wheel that's skidding on slippery surfaces or where there's variable grip. Emergency Brake Signal (EBS) alerts trailing vehicles if you're forced to make a sudden stop.

In addition to all of this, you'll have the added benefits of a number of Toyota Safety Sense² (TSS) technologies: Lane Trace Assist, Pre-Collision Safety system with pedestrian and daylight cyclist detection, Road Sign Assist (speed signs only), Active Cruise Control, Lane Departure Alert and Automatic High Beam.

The Toyota Advantage

When you join the Toyota family, you get so much more than a new car feeling. You get a lifetime of benefits keeping you moving now and well into the future.

Discover your Toyota lifetime of advantages at toyota.com.au

Discover the freedom of Toyota Access¹⁸

Toyota Access puts you in complete control when buying a new car, with lower monthly repayments.¹⁹ Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance. To discover Toyota Access for yourself, visit toyota.com.au/toyota-access

Capped price servicing²⁰

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to 5 years or 75,000km, whichever occurs first (including Toyota Genuine parts, labour and fluids). For the full benefits, consult a Toyota Dealer or visit toyota.com.au/advantage

Toyota Warranty Advantage

Every new Toyota is built to exceptional standards, and from 1 January 2019, Toyota vehicles are backed by a 5-year/unlimited kilometre warranty.²¹ If your vehicle is properly serviced and maintained per its Warranty and Service Book, we'll extend your engine and driveline warranty for an additional 2 years,²² giving you peace of mind for years to come. In the event of a claim covered by warranty, you are covered by a 60-day money back guarantee and 7 years emergency assistance including expenses related to car hire, towing or even accommodation if required. For more information, visit toyota.com.au/owners/warranty

Your battery goes further²³

The hybrid battery used by Toyota requires no maintenance, charges automatically while you drive and never needs to be plugged into a power supply. From 1 January 2019, Toyota Hybrid batteries are backed by a 5-year/unlimited kilometre warranty. Complete an annual hybrid battery health check according to Toyota specifications during routine maintenance, and we'll extend your hybrid battery warranty to 10 years.

Finance to get you going

If you need a little help, Toyota Finance²⁴ can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first 3 years, use of Toyota Genuine Parts, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.²⁵ For more information, visit toyota.com.au/insurance

Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Roadside Assist²⁶ is never more than a phone call away. Available 24 hours a day, 7 days a week, our technicians are there to help you get back on the road. For more information, visit toyota.com.au/insurance/roadside-assistance
