Equipment.
Technical data.

The concept of the Caddy Life is soon explained. It is a car for all who want plenty of space. Who set store by functionality and quality. Who are often out and about and have other things on their minds besides cars. Because the Caddy Life goes along with everything and takes everyone along.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Life is all around you.

Everyone wants to join in. Collecting your son from school. Going on a Saturday shopping trip with the whole family. Taking both daughters to sport. Going with your husband to your grandchild's graduation party. With a friend to a record fair. A quick trip with your flatmates to the corner supermarket before it

closes. To an away match of your favourite football team. To the next match of your own team. To the victory celebration afterwards. A trip to the country. Or to nowhere in particular. Just do what is important and look after those who are important to you. In the Caddy Life.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

The Caddy Life offers one thing in particular – plenty of space. For everything in your life and for all who are part of your life. Partners. Marriage partners. Children. Good friends. Best friends. Pets. Cuddly toys. Because the Caddy Life adapts to your wishes. For mobility. For space. For safety. And for togetherness.

It is variable and full of ingenious solutions. Its high level of functionality makes it a practical companion for everyday life, and since functionality is not everything it is also in top form when it comes to design and equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Up-to-date technology, durability, robustness, economy and a high resale value. The impressive qualities of the Caddy Life will accompany you on every journey, whatever your destination. The Caddy Life benefits from decades of

experience in the construction of a wide variety of family cars. It clearly demonstrates Volkswagen's strengths in realising superior space concepts and developing innovative engines creating optimal performance and utilisation of fuel.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

**For all who like
making friends.**

Stop at your favourite shop on the way.
Lovely mirror in the window. Gilt
frame. 53 x 68 cm. Fits perfectly. In the
Caddy Life.

A first glance is an eye-opener.

More than usual. More than you expect. There are two large sliding doors each with a child-proof lock as standard and an opening width of 70 cm for ease of loading and entering the Caddy Life in tight parking spaces. In spite of its compact exterior dimensions, the interior is impressive and can easily be adapted for everything. After all, the Caddy Life is a car for both everyday trips and those that are out of the ordinary.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

A long day at school. A tired child.
A best friend – and another – and
another – and another. All on their
way home in the Caddy Life.

Here you can be in seventh place and still come first.

Many things are more fun when you have company. And this is something you can be sure of in the Caddy Life. With the 2-seater bench seat available as an optional extra for the second row of seats in the passenger compartment you have comfortable seating for seven. Large items of luggage can also be transported with ease as the 3-seater bench seat is split-folding, and can be folded down double. Plenty of space. Plenty of possibilities. Plenty of fun.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

A wallet. Two packets of tissues.
A mobile phone. Four lipsticks.
Seven keys. Plenty of pockets for
everything. In the Caddy Life.

A treat in store.

Everything is neat and tidy on your trip. This is assured by a well thought out storage compartment concept. A roomy drawer is to be found under the driver's seat. The centre console in the cab has a large storage compartment with lid, two cup holders at the front, and one at the rear. The side pockets in the front doors can hold a 1-litre bottle, and there is additional stowage space in the headlining above the windscreen. There are also large storage compartments in the sliding doors and in the footwell of the passenger compartment – so that everything is tidy and nothing is in the way.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Going on a trip together. Sharing the driving is thirsty work. Choose the most comfortable way to travel. In the Caddy Life.

Different drivers. Same comfort.

Your daughter has to go to the doctor. Your wife to work. Your friend to university. The Caddy Life is a model of adaptability. The steering wheel can be adjusted for height and rake. The driver's seat is height-adjustable and both front seats have an angle adjustment for the backrest. Every driver can therefore find the most comfortable sitting position with a perfect view of the instrument panel and traffic on the road – and the front passenger enjoys the same high level of comfort. The Caddy Life is simply a car for one and all.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

**Prepared for routine.
Ready for surprises.**

Shopping. Meeting old friends by chance. Inviting them for an evening meal. Big surprise. Even bigger shopping list. In the Caddy Life.

Sometimes you have big plans.

As large as life. Baskets and bags full of shopping. Travelling bags that have been packed and suitcases that can hardly be closed. It is all easily stowed in the Caddy Life. The 5-seater has a luggage compartment capacity of 750 litres (can be extended to 2,850 litres), and the 7-seater's payload of up to 603 kg means that heavy luggage can be carried with ease. There is only one thing that doesn't fit in the Caddy Life: restrictions.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

**It's taking part that counts.
When you can count everyone in.**

Four friends. Three free days. Sleeping bags have been packed. Tents and a map too. You are ready to go. In the Caddy Life.

For routine journeys. And for getting out of your routine.

Countless destinations. And four strong engines*: 1.9 litre 55 kW (75 bhp) TDI engine. 1.9 litre 77 kW (105 bhp) TDI. 1.4 litre 59 kW (80 bhp) petrol engine. 1.6 litre 75 kW (102 bhp) petrol engine. The diesel engines use unit injector technology and are available with DPF as an optional extra. Optimal utilisation of the fuel quantity is assured through direct injection. As a result, consumption and emission are reduced. This combination of performance and low consumption also applies to the petrol engines. For a perfect blend of driving enjoyment and economy.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

*Please refer to page 54 for information on fuel consumption and CO₂ emission.

The most exciting thing about the Caddy Life is that it makes sure nothing happens.

The Caddy Life accompanies you safely through the day. The electronic control systems ABS, TCS and EBC help in critical situations by intervening in the brake or engine management systems. An airbag for the driver and for the front passenger together with side airbags at the front afford protection from injury. ESP+ with a brake assist system and trailer stabilisation is available as an optional extra. This ensures safe roadholding in extreme driving situations – on motorways, on country roads, on tight bends, in town traffic, and on roads covered with wet leaves. Wherever you are, you can rely on the Caddy Life.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

No helmet. No elbow pads. No knee pads. Arrive home safely. In the Caddy Life.

New in the Caddy Life: EcoFuel, powered by natural gas.

The Caddy Life EcoFuel helps you to lower your fuel costs as it primarily uses natural gas which is more favourably priced than petrol or diesel. The innovative, 80 kW (109 bhp) 2.0 l engine* has been optimised for operation with natural gas and it burns this type of fuel very efficiently and economically. The steel natural gas tanks in the Caddy Life EcoFuel have a capacity of 26 kg. In addition, the vehicle has a petrol reserve of 13 litres. If the supply of natural gas has been used up, the Caddy Life EcoFuel switches over to petrol automatically. The combined amount of natural gas and petrol is enough to cover a distance of some 570 km.

*Please refer to page 54 for information on fuel consumption and CO₂ emission.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Everything is in it so that there is more in it for you.

Doing the weekly shopping. Taking the children to school. Visiting friends and relations. The Caddy Life EcoFuel helps you to do all this and enjoy many a pleasure trip. This Volkswagen has absolutely nothing to do with prejudices that are prevalent against natural gas vehicles: refined technology and a superior space concept make the Caddy Life EcoFuel a practical, versatile and outstandingly safe companion on each and every journey. The Caddy Life EcoFuel is full of advantages for you – offers plenty of space, and fits in with all your plans.

Economy

The Caddy Life EcoFuel lowers fuel costs.

Natural gas is more favourably priced than petrol and diesel, and the engine burns this type of fuel more economically and efficiently. This makes the Caddy Life EcoFuel a very thrifty vehicle – changing over is worthwhile.

Performance

The Caddy Life EcoFuel has a powerful engine.

The “quasi-monovalent” 2.0 litre engine in the Caddy Life EcoFuel has an output of 80 kW (109 bhp)* and a top speed of 169 kph. “Quasi-monovalent” means that the engine has been optimised for operation with natural gas.

Range

The Caddy Life EcoFuel can cover long distances.

The natural gas tanks have a capacity of 26 kg. This is enough for a distance of approx. 440 km. The 13 litre reserve supply of petrol extends your radius of action to approx. 570 km – hardly any other natural gas vehicle can equal this. The engine switches over to petrol automatically when the supply of natural gas has been used up.

Safety

The Caddy Life EcoFuel is tremendously safe.

The steel natural gas tanks have electro-magnetic valves with triple protection to prevent uncontrolled escape of natural gas in the event of an accident. The tanks themselves are extremely heat-resistant. They have proved to be almost indestructible in the innumerable tests carried out. The natural gas pipes are of course outside the passenger compartment. Fuel is therefore stored safely – and occupants have the best protection at all times during the journey.

Space

The Caddy Life EcoFuel offers plenty of space.

The space-saving underfloor natural gas tank system means that there is unrestricted room inside the vehicle. The 5-seater has a load compartment volume of up to 2,850 litres. Turning the Caddy Life EcoFuel into a 7-seater is child's play – a 2-seater bench can be supplied as a seating option for your children in the passenger compartment.

*Please refer to page 54 for information on fuel consumption and CO₂ emission.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

01 Gets in everywhere: multi-storey and underground car parks are open to the Caddy Life EcoFuel – without restrictions.

02 Loads of space: as a 5-seater the Caddy Life EcoFuel offers an impressive maximum load compartment volume of 2,850 litres.

03 Save in comfort: the cab and passenger compartment of the Caddy Life EcoFuel offer comfortable seating for up to seven.

04 Re-fuel with a flick of the wrist: a turn of 180° connects the filling device to the vehicle safely and securely.

Exterior equipment.

Steel wheels with full wheel trim, 6.0 J x 15

15" steel wheels with 195/65 R15 tyres.

Alloy wheels, 6.0 J x 15

15" cast aluminium wheels with 195/65 R15 tyres.

Heat-insulating windows and sliding window

Heat-insulating windows reduce heating up of the interior through sunlight. A sliding window is standard in the sliding door on the front passenger's side. An additional sliding window is available as an option in the sliding door on the driver's side.

Privacy windows

Windows with dark-tinted glass screen the interior from view.

Ventilation grille with mosquito net for window in sliding door

This practical grille is ideal for the Caddy Life Camper and is fitted in a matter of moments. It is secured and released on the inside via screw fasteners. The ventilation grille protects against mosquitoes and sunlight. It is only suitable for use when the vehicle is stationary and is stowed in a special case of its own during the journey.

Sliding doors to passenger compartment

The two sliding doors – one on the driver's and one on the front passenger's side – have an opening width of 70 cm.

Electric sunroof

The electric sunroof is fitted centrally above the passenger compartment and has a power limiter and sun blind. A sliding roof with additional controls is also available as an option for the cab.

"Exterior" appearance package

The bumpers, lateral door handles and door mirrors are colour-keyed.

Interior equipment.

Partial leather trim

The partial leather trim package includes a leather-covered steering wheel, gear lever knob, gear lever gaiter and handbrake lever.

 standard

 optional extra

 special equipment¹

¹Please refer to page 56 for information regarding special equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Interior equipment.

“Interior” appearance package

Depending on the seat upholstery colour selected, the colour of the vents in the instrument panel, floor mat edging, interior door panel trim and centre console cloth trim is either blue or red.

Centre console

The centre console contains a storage compartment with lid and two cup holders at the front; and one cup holder, two vents and a 12 V socket at the rear.

Storage compartment on driver's and on front passenger's door

Both the driver's and the front passenger's door have a storage compartment designed to take a 1-litre bottle.

Cup holders

Two front cup holders are integrated in the centre console for easy access, and a further cup holder at the end of the centre console in the passenger compartment.

Drawer

There is a roomy drawer under the driver's seat.

Pockets in sliding doors

Pockets are also located in the sliding doors to the passenger compartment.

Instrument panel

There is a compartment with lid and document clip, and an open compartment on the instrument panel.

Pockets in passenger compartment

Two additional storage compartments in the footwell of the first row of seats in the passenger compartment complete the storage compartment system. If the vehicle is equipped with a detachable tow bar as an option, the detachable ball head is stowed in one of the compartments.

Roof storage space

A roomy storage tray extends across the entire width of the vehicle.

Net pockets

Two practical net pockets on the left and right of the passenger compartment provide convenient stowage space for small items. If a net partition for the luggage compartment is supplied as an optional extra, the attachment points are next to the net pockets.

 standard

 optional extra

 special equipment¹

¹Please refer to page 56 for information regarding special equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Interior equipment.

Pockets in load compartment

Additional pockets are located on both sides of the load compartment. A 12 V socket is fitted on the left-hand side.

Driver's seat

The driver's seat is height-adjustable.

Stowage bags in load compartment

The practical stowage bags in the load compartment can be hung up and taken down again as required. They provide plenty of stowage space for items needed during the journey. In addition, they darken the interior and therefore also offer protection from the sun.

3-seater bench seat in passenger compartment

The 3-seater bench seat is in the first row of the seats in the passenger compartment.

Variable passenger compartment (1)

The 3-seater bench seat can be folded down 2/3 and 1/3.

Variable passenger compartment (2)

The 3-seater bench seat can also be double folded 2/3 and 1/3. This means that when the seats have been folded together, they can again be folded forwards.

Second row of seats in passenger compartment

There is room for an additional 2-seater bench seat in the second row of seats providing comfortable seating for seven.

Double-folding 2-seater bench seat

When folded down, the 2-seater bench seat can again be folded forwards to increase the luggage compartment capacity in a matter of moments.

 standard

 optional extra

 special equipment¹

¹Please refer to page 56 for information regarding special equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Interior equipment.

Luggage compartment

The load compartment capacity on the 5-seater is 750 litres and can be extended to 2,850 litres. Depending on the engine version and number of seats, the payload can be a maximum of 640 kg.

Airbags

The airbag system includes airbags for the driver and front passenger and side airbags at the front as standard. The deactivator for the front passenger's airbag is in the open glove compartment.

ESP

The electronic stabilisation programme ESP+ with brake assist system and trailer stabilisation is available as an optional extra.

Safety equipment.

Fog lights

The fog lights are integrated in the bumper.

Control unit for door mirrors

The control unit is located on the driver's door.

Door mirrors

The door mirrors are heated and electrically adjustable. The size and shape of the mirror on the driver's side differs from that on the front passenger's side.

ISOFIX child's seat mounting points

The ISOFIX child's seat mounting points are under a zip on the outer seats of the 3-seater bench seat. They enable child's seats to be firmly secured to the vehicle structure.

Parking distance warning

Four sensors in the rear bumper and an acoustic warning buzzer give help when reversing into a parking space.

Lashing eyes

There are four lashing eyes to secure the load in the load compartment.

 standard

 optional extra

 special equipment¹

¹Please refer to page 56 for information regarding special equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Operating equipment.

Light + Sight package

The rear view mirror recognises via a photocell when headlights are too bright and dims automatically. A rain sensor registers the amount of rain on the windscreen and regulates the windscreen wipers. A light sensor switches the vehicle's lights on automatically when it gets dark (twilight, tunnels etc.).

Multi-function steering wheel

The 3-spoke steering wheel enables the radio, telephone and navigation system to be operated without taking your hands from the wheel. It is offered in conjunction with the DSG shift function on the steering wheel.

Mobile phone fixture/provision for mobile phone with Bluetooth

A mobile phone fixture incl. a "Nokia 6021" can be ordered as an option (see illustration). Provision for a mobile phone (incl. hands-free facility) can be ordered without a mobile phone. Please contact your local Volkswagen Dealer or refer to www.zubehoer-service.de for details of the current range of adapter cradles suitable for various types of mobile phones.

R 110 radio

The R 110 radio in the Caddy Life has four loudspeakers, each with an output of 20 watts. The name of the station is displayed via RDS. Traffic information via traffic programmes is switched on automatically.

RCD 300 radio

As for R 110 radio. In addition: a diversity aerial for better reception, and an MP3 compatible CD drive. The radio is available with an external CD changer as an option.

RCD 500 radio

As for RCD 300 radio. In addition: an integral MP3 compatible 6-disc CD changer. An external CD changer and six loudspeakers are also available as optional extras.

RNS 300 Radio Navigation System

The RNS 300 Radio Navigation System with arrow navigation and text display. This system is MP3 compatible and enables audio CD and navigation functions to be used simultaneously. An external CD changer and six loudspeakers are also available as optional extras.

RNS 500 Radio Navigation System

The navigation system with colour display and voice directions uses data from a navigation DVD which includes map material for most countries in Europe. The drive can also play audio CDs. On request, two additional loudspeakers can be supplied – on the left and right at the rear of the passenger compartment. An external CD changer is also available as an optional extra.

standard

optional extra

special equipment¹

¹Please refer to page 56 for information regarding special equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Operating equipment.

CD changer

The CD changer available as an option is operated via the radio and fitted under the cover in the centre console.

AUX-In

As an option, an AUX-In connection is available for the open glove compartment. This enables equipment such as an MP3 player or portable CD player to be connected to a car radio with changer control. Sound reproduction for portable equipment connected to the RCD 300 and RCD 500 radios or the two Radio Navigation Systems is via the speakers of the built-in radios.

Loudspeakers

Four standard loudspeakers in the cab deliver good sound. The RCD 300 and RCD 500 radios available as options can, on request, be fitted with two additional loudspeakers at the rear of the passenger compartment, on the left and right.

Illustration shows optional extra at extra charge.

Climatic and heated seats

The semi-automatic air conditioner has infinite temperature control. Heating is available for the driver's and for the front passenger's seat as an optional extra; the temperature settings can be adjusted separately for the two front seats.

Multi-function display

This shows the driver data for driving time, average speed, average consumption, current consumption, range and distance covered. It can be accessed via the operating lever for the windscreen wipers. An outside temperature display is also included. At low temperatures, it gives an acoustic and visual ice warning.

Cruise control

As of a speed of approx. 30 kph, the speed required can be set and is kept at a constant level automatically.

Double clutch gearbox (DSG)

The innovative 6-speed double clutch gearbox (DSG) available for the TDI (77 kW) assures seamless acceleration: engine power continues to be transmitted to the gearbox without interruption between gear-changes. This results in significantly better driving dynamics. Manual or automatic gear-change can be selected.

Vents

Two vents on the centre console ensure good ventilation in the passenger compartment.

standard

optional extra

special equipment¹

¹Please refer to page 56 for information regarding special equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Operating equipment.

Electric front windows

With power limiter and convenience circuit. This enables both front windows to be opened and closed simultaneously via radio wave remote control.

Extendible loading surface

The extendible loading surface makes for extremely easy loading and unloading. When extended, the outer edge of the surface has a maximum load capacity of approx. 80 kg.

Anti-theft warning system with interior monitoring

The anti-theft warning system with back-up horn is activated via a door contact or movement sensor in the interior; the tow-away warning via a tilt sensor.

Tailgate

With heated rear window and wiper.

Side vent windows

A pair of manual vent windows is offered as an option for the rear of the passenger compartment.

Rear wing doors

The roof-high rear wing doors with windows are divided 2/3 to 1/3.

Luggage compartment cover and net partition

The folding luggage compartment cover screens the luggage area from view and can be ordered as an option for the 7-seater. A net partition available as an optional extra keeps the load under control even during sudden braking manoeuvres. The net partition can be rolled together when not required.

Roof flap

The practical roof flap enables bulky luggage to be carried with ease. The flap has two gas-filled struts for easy opening and closing, and also provides more light and better ventilation.

12 V socket

There is a 12 V socket in the passenger compartment, on the centre console. A second socket is located on the left-hand side of the load compartment.

Tow bar

Depending on the engine version the trailer load varies from 1,035 kg to a maximum of 1,500 kg. A fixed tow bar is available, also a detachable and a lockable tow bar.

The detachable tow bar is not available for the Caddy Life EcoFuel.

 standard

 optional extra

 special equipment¹

¹Please refer to page 56 for information regarding special equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Special model Caddy Life Camper.

Caddy Life Camper

Up to five persons can go on spur-of-the-moment trips in the Caddy Life Camper camping vehicle: a package with an awning and electric sliding roof can be ordered as an option. A removable cool box (volume of 7 litres) is available – also a folding table plus two folding chairs and a stowage bag.

Sleeping area – Caddy Life Camper

A sleeping surface measuring 1.10 m x 2.0 m can be set up in the sleeping area and, when not in use, stowed in the luggage compartment. The interior can be darkened using a combined system of stowage bags and fabric curtains.

Volkswagen Genuine Accessories.

“DVD Voyager 4” multimedia kit

Experience a drive-in cinema in your own vehicle: the DVD tablet player integrated in the 7" TFT display plays DVDs, CDs and MP3s. The system can easily be secured to the head restraints. The “DVD Voyager 4” is also suitable for use as a DVD player outside the vehicle and can be connected to a television – during trips, in hotels, or at home.

Basic carrier with surfboard holder

For the convenient transport of up to two surfboards. Includes two mast holders and two tensioning straps, and can be fitted easily and quickly on the basic carrier.

Basic carrier with ski and snowboard holder

For the safe transport of up to six pairs of skis or up to four snowboards. The holder is lockable and has a practical pull-out function for ease of loading and unloading.

Cycle carrier for the tailgate

Can transport a maximum of three bicycles. Made of anodised aluminium profile bars, with fasteners. Pre-assembled and therefore very easy to fit. Does not impair tailgate opening function. Net weight 13 kg. Carrying capacity 45 kg.

Interior cycle carrier

The modular interior cycle carrier for two bicycles is fitted quickly and easily to the lashing eyes in the luggage compartment. To use the carrier, the bench seat has to be double folded forwards. The interior cycle carrier consists of a basic carrier, plus one short and one long holder.

 standard

 optional extra

 special equipment¹

¹Please refer to page 56 for information regarding special equipment.

Please contact your local Volkswagen Commercial Vehicle Dealer for details of the standard equipment and optional extras applicable in your country.

Volkswagen Genuine Accessories.

Luggage net

This prevents light loads and luggage from slipping in the load compartment. Securing hooks on the net enable it to be fastened to the standard lashing eyes.

Luggage compartment insert

This flexible, made to measure insert has an approximately 5 cm high rim to protect the load compartment from moisture and dirt. When not in use, the insert can be rolled up to save space.

Bobsy GO child's seat plus ISOFIX

This child's seat has a 5-point harness and locks securely into special mountings. It assures a high level of comfort and safety for infants up to 15 months of age or weighing up to 13 kg.

Caddy Life EcoFuel (5/7-seater) and Caddy Life Camper EcoFuel (5-seater)

Consumption¹ and CO₂ emission with natural gas (H gas), natural gas (or petrol) tank contents approx. 26 kg/35.6 m³ (or approx. 13 litres)

2.0 l natural gas engine (80 kW)	urban	extra-urban	combined	CO ₂ emission combined
	8.2 kg/100 km	4.7 kg/100 km	6.0 kg/100 km	157 g/km
	12.1 m ³ /100 km	6.8 m ³ /100 km	8.8 m ³ /100 km	157 g/km

¹ The data given here in kg/100 km is for information purposes only.

When L gas is used, large fluctuations in the quality of the fuel can result in differing figures for performance and, in particular, for fuel consumption.

The figures listed here for fuel consumption and CO₂ emission have been established in accordance with the measuring method stipulated (the version of directive 80/1268/EEC which is currently valid). These figures do not refer to a particular vehicle and do not constitute part of the offer but are purely for comparison purposes between the various types of vehicle.

In addition to the fuel efficiency of a vehicle, driving behaviour as well as other non-technical factors play a role in determining a vehicle's fuel consumption and CO₂ emission. CO₂ is the main greenhouse gas responsible for global warming.

Fuel consumption and emission figures are determined in accordance with the version of EU directive 80/1268/EEC which is currently valid.

Note in accordance with directive 1999/94/EC: a guide on fuel consumption and CO₂ emission which contains data for all new passenger car models is available free of charge at every point of sale in the European Union and, for prospective buyers in Germany, at DAT Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Strasse 1, 73760 Ostfildern.

Weights.

Engine	Output (kW)	Gross vehicle weight (kg)	Unladen weight with driver (kg) ¹ from – to	Payload (kg) from – to	Axle load limit front/rear (kg)	Trailer weight braked, 12%/8% gradient (kg)	Trailer weight unbraked (kg)	Gross train weight, 12%/8% gradient (kg)

¹ Additional equipment may alter the unladen weight of the vehicle in which case the payload, performance, fuel consumption and CO₂ emission are affected.

Tow bar is not available.

Roof load limit/trailer nose weight: 100 kg/75 kg.

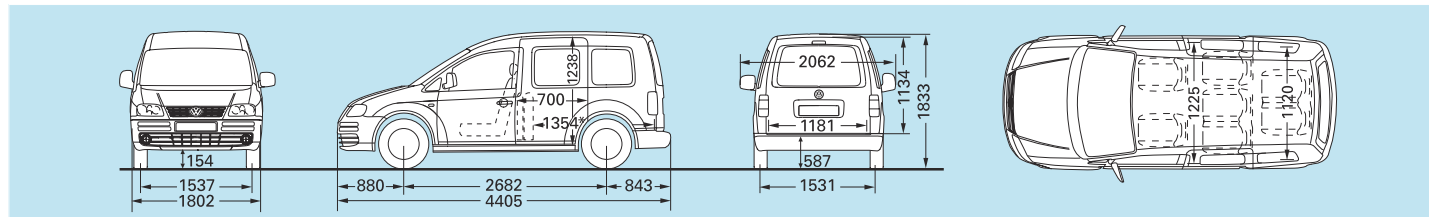

Dimensional drawings.

Caddy Life 5-seater/Caddy Life EcoFuel 5-seater

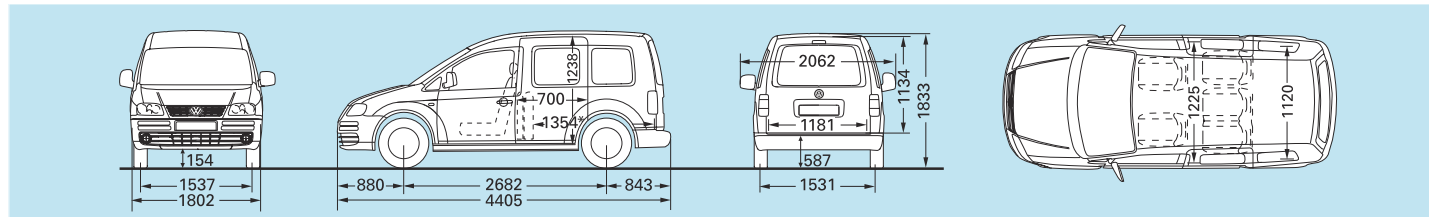

load compartment, volume	750/2,850 l (behind 1st row of seats, with cover/with 1st row of seats double folded forwards, without cover)	
lateral sliding doors, width/height	700/1,108 mm	* measured on floor, with 1st row of seats double folded forwards (without seats in 2nd row)
tailgate, width/height	1,181/1,134 mm	
turning circle	11.1 m	

Caddy Life 7-seater/Caddy Life EcoFuel 7-seater

load compartment, volume	190 l (up to upper edge of seat backrest with 2nd row of seats upright)	
lateral sliding doors, width/height	700/1,108 mm	* measured on floor, with 1st row of seats double folded forwards (without seats in 2nd row)
tailgate, width/height	1,181/1,134 mm	
turning circle	11.1 m	

Caddy Life Camper/Caddy Life Camper EcoFuel

load compartment, volume	350/500 l (below sleeping surface/above sleeping surface with net partition [optional extra])	
lateral sliding doors, width/height	700/1,108 mm	* measured on floor, with 1st row of seats double folded forwards (without seats in 2nd row)
tailgate, width/height	1,181/1,134 mm	
turning circle	11.1 m	

The height measurements listed here can differ by approx. ± 50 mm depending on equipment.
The vehicle drawings are not to scale.

Some of the vehicles shown are equipped with optional extras at extra charge. Decoration contained in the illustrations is not included in the standard specifications. The data given here on specifications, appearance, technical data and operating costs of the vehicles is in accordance with the information available at the time of going to print. All details of equipment and technical data are based on the features of the German market. Subject to change without notice. The product name Caddy is used by Volkswagen Commercial Vehicles with the approval of Caddie S.A. TD¹® and DSG® are registered trademarks of Volkswagen AG in Germany and in other countries.

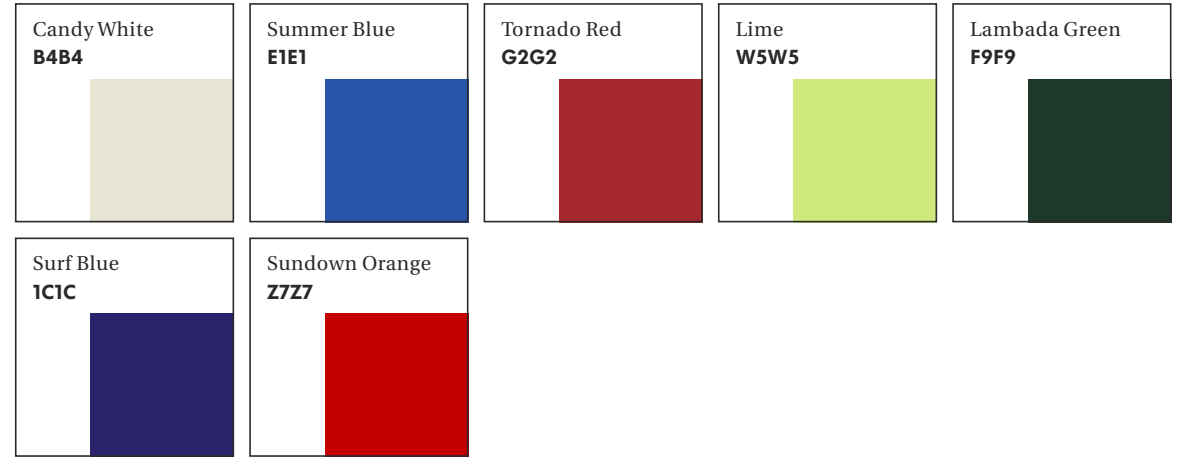

If vehicles are ordered with options classified as “special equipment” this can lead to longer delivery periods.

Take-back and recycling of end of life vehicles
VOLKSWAGEN meets the challenges of modern society and takes them into consideration in all new products of the VOLKSWAGEN brand. This naturally also applies to protection of the environment and resources. All new VOLKSWAGENS can therefore be recycled in an environment-friendly way and can be returned in EU countries free of charge, subject to fulfilment of national legislation.

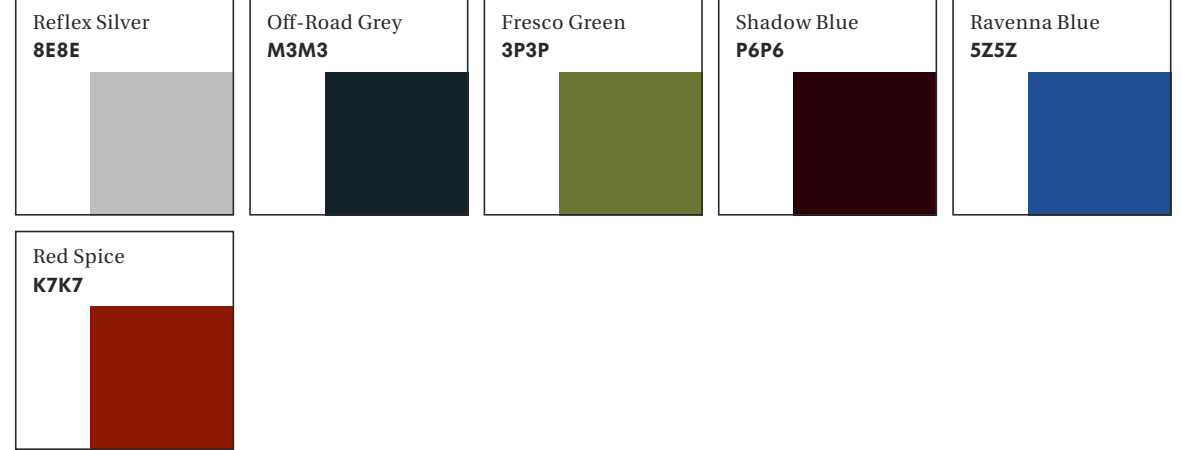

Please contact your local Volkswagen Dealer for details concerning the take-back and recycling of end of life vehicles or refer to www.volkswagen.de.

Paint finishes.

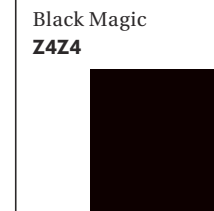

Solid paints

Metallic paints*

Pearl effect paints*

Seat upholstery.

*Available at extra charge.

The illustrations on these pages can only be regarded as a general guide as the printing process cannot render the colours with absolute accuracy.
