Exterior

The Passat epitomises stylish practicality in both its sedan and wagon iterations.

With its long wheelbase and short front and rear overhangs the Passat hunkers low on the road and conveys an air of confidence and solidity. A markedly raked silhouette gives the Passat a lithe and dynamic character, while its prominent shoulder line stretches the vehicle to generate an impression of speed and athleticism.

From the front, that unmistakable Volkswagen face takes an evolutionary step forward, with trapezoidal headlights that connect to the tail lights via the shoulder line that sweeps across the wheel arches. Available on the Comfortline model and up are fog lights with static cornering lights that blend harmoniously into the Passat's face.

The Passat's distinctive tail light signature—composed of a waveguide contour augmented by two horizontal lines of LED light modules—defines functionality at its most stunning.

Engineering and design merge seamlessly in the Volkswagen Passat. This is functionality at its most stunning: sleek, stylish and dynamic.

Interior

The Passat's extensively redesigned interior features a host of equipment and premium details to present levels of comfort, convenience and functionality.

A multi-function steering wheel provides intuitive control of both drive settings and the multimedia interface, while an ergonomically focused driving position puts all controls at your fingertips at any time.

With a central analogue clock, a dash panel that slopes sharply downwards, touches of chrome and leather, and Keyless Comfort start function, the Passat has a premium appeal that was once the preserve of luxury saloons. With surprising space and functionality in the back—whether in sedan or wagon—the Passat's superior comfort levels keep pace with its expanded luggage capacity.

An exciting feature as part of the Optional R-Line package is Volkswagen's Active info Display[^]. This appealing 12.3" high-definition screen takes the place of traditional instrumentation behind the steering wheel displaying navigation and driver assistance information with superb clarity.

But that's not the only extra you get from the Optional R-Line Package. With mood-setting ambient interior lighting, a sporty trim throughout and progressive steering, the Passat Comfortline lives up to its performance potential inside and out.

Driver and passenger comfort is made a priority with Air Care 3-zone automatic climate control standard across the range. The system comprises wide air-band nozzles that allow the driver, front passenger and rear passengers to set their own preferred temperature independently. At the same time, an enhanced air filtration system improves cabin air quality, reducing dust and pollen.

Technology and Safety

Smart, intelligent and capable, the Passat is a car made for sophisticated drivers who delight in innovative technology.

It begins with the drivetrain. Every trip in your Passat, whether short or long, is a pleasure courtesy of the powerful and refined turbocharged TSI engine that works perfectly in tandem with the Passat's responsive Direct Shift Gearbox (DSG) to ensure smooth delivery of power to the road surface.

BlueMotion Technologies in every Passat, such as Brake Energy Recuperation and engine Stop/Start system help you travel further on one tank of fuel.

All Passats comes standard with a suite of safety features including Front Assist with City Emergency Brake (City EB)* using radar sensor integrated in the front of the vehicle to monitor traffic ahead, while Manoeuvre Braking*, front and rear assists the driver to avoid or reduce damage in a potential low speed impact by initiating emergency braking.

The Comfortline model features additional safety equipment such as Side Assist*; detecting vehicles that may be hidden in blind spots when changing lanes, Lane Assist*; monitoring the path ahead, recognising road markings and reacting should the Passat wander from its lane at over 65km/h, and Rear Traffic Alert*. If you're reversing from a parking space into traffic, Rear Traffic Alert* will sound an alarm and initiate emergency braking if an unseen vehicle approaches from the side. These features are also available on the 132TSI as part of the optional Driver Assistance package.
