THE HIGHLY AWARDED 850 SE

**THE 1995 VOLVO
FAST, VERSATILE**

THE SUPREMELY SAFE 850 GLT

THE SPACIOUS 850 ESTATE

**850 FAMILY...
AND VERY STYLISH**

THE ROCKET-LIKE 850 T-5R

You're looking at the latest version of the most awarded

Volvo ever.

The Volvo 850 has won numerous awards for design, style,

safety and all round excellence. Indeed over 40 awards internationally. Once you step into it, you'll know why.

For a start, it's truly luxurious. In the new SE version, you recline in a superb leather interior. Of course, alloy wheels, power windows, central locking, air conditioning and power mirrors are also standard features.

Handling? The Volvo 850 handles more like a sports sedan than the practical car it's supposed to be.

But no matter how advanced the new Volvos are, some things never change. Like our obsession with safety. The 850 has SIPS – our advanced side impact protection system, an award winning patented child safety seat in the rear arm rest and our state of the art safety body.

Our emphasis on quality workmanship is also still as high as ever. Our 850 manufacturing plant has received

the highest level of certification for quality in the world.

All this at a price below the luxury tax threshold. \$48,950* including automatic transmission. Quite an extraordinary feat considering its features. (Also available with manual transmission or as an estate).

**IT'S WON
EVERY AWARD
EXCEPT
"THE MOST
EXPENSIVE
CAR"**

THE NEW VOLVO 850 SE \$48,950*

Why buy a 4WD when you can get the handling, performance, space and beauty of a Volvo 850 Estate?

With optional twin child seats the 850 Estate can carry the same amount of people as your typical 4WD. But in luxurious comfort.

The 850 Estate can go all the places you'd probably go in a 4WD.

but it will get you there more quickly, more comfortably, than most of them. (Our Estates have achieved considerable prominence for their brilliant performances in the British Touring Car Championship)

And the Volvo 850 Estate comforts your family with a level of safety most 4WD manufacturers only dream about.

Safety features include driver's air bag, patented Side

Impact Protection System, passenger airbag and side protection air bags (GLT and T-5), ABS anti-locking brakes, and a state of the art safety body.

SPACE & PACE

**THE NEW VOLVO 850 ESTATE
FROM JUST \$48,950***

Volvo now offers a wide range of luxury estates, all in a design so stylish, an independent Italian

design jury voted the Volvo, 'The most beautiful Estate in the world'.

But that's not all Volvo has won. The new Estate has picked up a hoard of other trophies including, The Swedish Craft Award, and the prestigious Japanese MITI Award 'Good Design Grand Prize'.

There are four versions in the Estate line up, ranging from the GLE (priced below the luxury threshold at \$48,950*) to the high performance T-5 (0-100km/h in 7.4 seconds, top speed 240 km/h).

THE FIRST CAR IN THE WORLD WITH FOUR AIR BAGS

THE EXCITING VOLVO 850 GLT

The sporty 20 valve Volvo 850 GLT is one of the safest cars in the world.

Tens of millions of dollars have been spent designing its remarkable safety features.

All 850s come with Volvo SIPS. While many car makers are content to just have side door reinforcements, Volvo SIPS (Side Impact Protection System) goes much further.

The SIPS system actually diverts the crash impact

away from the side area, thereby reducing intrusion and the incidence and severity of injury.

In major accidents, it can be a life saver. And on top of that, all 850 GLTs come with both dual front air bags and side air bags.

Who needs side air bags? You do. Because 25% of all accidents are from the side.

Volvo's unique patented side air bags provide protection against chest injuries common in side

impacts. The air bag is fitted on the side of the back-rest so it is always alongside the

occupant regardless of seat position. (Four air bags are also standard in 850 T-5).

But the GLT isn't just a safe car, it's both exciting to drive and luxurious as well.

From its highly awarded European styling outside, to its 2.5 litre 20 valve DOHC engine, leather upholstery, cruise control and electronic climate control inside, the Volvo 850 GLT is all class.

Wild is an understatement.

The 850 T-5R is a bullet with wheels. Even faster than our race-going T-5, it does 0-100 in around 7 seconds. Out on the autobahn, the T-5R can power along at more than 245 kph.

And it handles more like a

THE WILDER SIDE OF VOLVO

THE NEW VOLVO 850 T-5R

All proving that the Volvo T-5R is sure to help you perform well in yet another race. The rat race.

The T-5R may be as fast as a cheetah, but it will also be as rare as one too.

Only 2500 will be built in the world. Only 25 are destined

Porsche than a Volvo.

The 850 T-5R is a drivers car as proved by race results: the 850 has performed superlatively in

for Australia.

They'll all come in a dramatic cream yellow scheme, gun metal grey Titan 7x17" spoked alloy wheels, deeply moulded front spoilers, lowered suspension, and ultra low profile 205/45 ZR P Zero tyres.

The tyres are about the only thing low profile about the T-5R.

both the British Touring Car Championship and the Bathurst 12 Hour.

Yet it has all the appointments you'd expect in a luxury European car. Leather upholstery, electrically operated seats, power moon-roof, climate control, central locking and a walnut inlaid dashboard, for starters.

OTHER RELATIVES IN THE VOLVO FAMILY.

Never before has Volvo been able to offer so much to so many.

THE
PRESTIGIOUS 960
FROM \$67,950*

In addition
to the highly

acclaimed 850 range, Volvo also has cars to suit a variety of tastes and budgets.

For those seeking refined prestige, may we introduce the new 960, the flagship of the Volvo range.

Its styling is distinctively elegant, yet underneath beats an engine of effortless power. (An all-alloy, 24 valve straight six delivering 150kw). And underneath this is a totally new suspension which gives superb handling and ride.

Add to that interior appointments that would put a limousine to shame, and you begin to see why the new

THE SUPERB 940 SEDAN
AND ESTATE. BOTH FROM
\$45,950*

960 is a sensation in Europe.

Then there's the Volvo 940.

THE
COMPACT 440
FROM \$34,950*

A delightful balance of space, style, commonsense and competitive pricing.

Elegant and roomy, the Volvo 940 also has the legendary Volvo safety standards, far exceeding many of our competitors.

And, recently introduced, the new Volvo 440, possibly the best value European car on Australian roads today.

Comfort, performance, and good handling all quickly make themselves apparent, once you jump into a Volvo 440.

But for all its space, the 440 is still a very compact car, so city driving and parking is a breeze.

And despite all this the 440 has a surprisingly modest price.

The 1995 Volvo family. Style, performance, handling, comfort and reliability. Not to mention safety standards that have been the envy of other car makers for over half a century.

Phone Volvo headquarters for more information on 008 812 433. Or ring your nearest Volvo dealer.

Then come in and experience one of Europe's finest motoring achievements.

The 1995 Volvo range.
