

VOLVO XC70

THERE'S MORE AROUND THE CORNER. THERE'S THE GREAT OUTDOORS. THERE'S THE DAILY ROUTINE. THERE'S RAIN, SNOW, SLEET, SUN, DUST AND DIRT. THERE'S YOU, YOUR FAMILY, YOUR FRIENDS AND A THOUSAND REASONS TO GET TO ANY PLACE YOU NEED TO WITH POWER, REFINEMENT, VERSATILITY AND STYLE. THEN THERE'S YOUR CAR. LIFE ISN'T ABOUT LIMITATIONS. IT'S ABOUT LIVING. THAT'S WHY YOU WANT TO DRIVE THE REFINED XC70.

In the space of a few hours, pristine mountain landscapes can be replaced by downtown traffic. Some cars might find such a journey traumatic. Not the XC70. Advanced technology such as Adaptive Cruise Control (at all speeds) ensures that wherever life takes you, your XC70 won't utter a single word of complaint.

You're invited to explore new roads and new destinations. Inside and out, the refined Volvo XC70 is designed around you as driver. Here, superior all-road and all-weather performance combines with iconic comfort and state-of-the-art supportive technology to encourage any escape. This is pure Scandinavian design that lives any way you choose.

A car with a mission – your mission.

We designed the XC70 with one single purpose – to empower you and your desire to drive. So we endowed it with numerous innovative features, like Hill Descent Control. Simply at the push of a button, this offers smooth, controlled and safe descents on steep, rough roads. The system controls braking on each wheel, allowing you to concentrate fully on steering. Away from the wilderness, Hill Descent Control also makes it easier to move off when towing a heavy trailer. The rest of the time you'll enjoy the benefits of an advanced chassis (with the option of Four-C active chassis technology) and Volvo's All-Wheel Drive (AWD) with Instant Traction™. You'll find that stability and handling together with 210 mm ground clearance are at your side – no matter the road, weather or mission at hand.

City Safety. Mastering the unexpected with laser precision.

Always expect the unexpected – nowhere is this more evident than in urban traffic. That's why the advanced low-speed collision avoidance system City Safety comes as standard in your Volvo. Utilising laser technology and active up to 30 km/h, this high-precision system keeps a lookout on the road 6–8 metres ahead. If a vehicle suddenly brakes in front of you and a collision is imminent, City Safety will intervene and brake automatically to help avoid or mitigate a collision. Very courteous in slow-moving city traffic – for you, your passengers, your insurance company and anyone in the car in front of you. Almost like a sixth sense tuned into the city. Sounds like simple common sense to us – which perhaps explains why you'll find it in a Volvo.

The meticulous attention to detail includes the road ahead.

This Volvo is intelligence at work. The Driver Support features contain advanced technology to help you deal with traffic the best possible way for you and other road users – including pedestrians. Radar and digital camera technology interacts with on-board intelligence (including your own, of course) to constantly monitor vehicles and pedestrians ahead, to help you keep a safe distance from other vehicles and to alert you if you are distracted or unintentionally weave out of your lane. A push of a button, and you can enjoy smooth cruising at all speeds – whether travelling in stop-and-go city traffic or crossing continents. And if there is a risk of collision the technology will warn you and – if you don’t react – apply full braking force to help prevent a collision. Having all this additional intelligence turns any journey or commute into an extrasensory experience. To see this supportive technology in action, please visit www.volvocars.com.au

At last, a car that can see the future.

Drive a Volvo and you'll experience insightful control. Here, supportive technology acts to redefine the pleasure of driving and even predict what's around the corner. For example, the Pedestrian Detection with Full Auto Brake is a Volvo world first that constantly scans the road ahead for pedestrians. If it detects pedestrians at risk, a heads-up display warning will flash and an alarm will sound while the brakes prepare to optimise braking performance. And if you don't react to the warning, full auto braking will be deployed to help keep the pedestrian out of harm's way. This is truly visionary technology for your support and another foresighted innovation by Volvo.

The perfect pace at any speed.

Relax and enjoy smooth cruising. The new generation Adaptive Cruise Control (at all speeds) goes beyond ordinary cruise control by automatically helping you maintain a safe distance to the car in front. Controlled by advanced radar and camera technology, the ACC detects slower moving vehicles ahead and adapts your speed accordingly. And that's at any speed – whether in heavy traffic queues or at open-road speeds (0–200 km/h). Combined with an automatic transmission, it can even help you tail the car in front from standstill, which can be very convenient in stop-and-go traffic. Having this additional functionality can help save you from the most boring parts of any journey or commute. In this way you can just find your perfect pace through traffic.

Drive the Volvo XC70 and the centre stage is yours. In the inside, there is nothing fussy – just clean Scandinavian design that manages to reduce stress and simplify the use of some very sophisticated on-board technology. The new Volvo Sensus driver-control interface and the latest Multi Media technology (including Bluetooth® handsfree) plus optional Volvo Navigation System (VNS) are neatly integrated and viewed on the dashboard screen. The highly adjustable seat and steering column will help you find your perfect driving position quickly and easily. Each seat is an extremely comfortable example of ergonomic excellence – a Volvo hallmark.

The elegant simplicity of modern Scandinavian design is well represented throughout the luxurious cabin and versatile luggage areas of the Volvo XC70. Here you'll find more comfort for passengers, more storage for personal effects, more load space for luggage, and more safety for you and anyone who shares the ride. Innovations include integrated two-stage child-booster seats in combination with belt load-limiters and extended Inflatable Curtains and laminated glass available all around. What's more, the Volvo XC70 can air itself out before you get in to further improve the interior atmosphere, automatically close the vents to protect you from outside pollution, and claim cabin air so free of allergens, that it's recommended by the Swedish Asthma and Allergy Association. And for anyone travelling in the back seat, the new Rear Seat Entertainment System (RSE) with integrated 8" screens will entertain for hours. Sophisticated ambient interior lighting at the front sets the stage as it highlights the interior's modern Scandinavian design. And with Volvo's real aluminium inlays and genuine leather upholstery at hand, the luxury is also world class.

The sweetness of control.

In a Volvo, there's no doubt who's in command. Everything – from the ergonomic seat design to the advanced driver-control interface – has been created with one single purpose: to give you, as driver, the best imaginable support for an inspiring and relaxed drive. To achieve this, control is essential. That's why we designed the new driver-control interface, Volvo Sensus, as an intuitive command centre. Complete control is at your fingertips. With an integrated scroll wheel on the steering wheel, you have full control of the car and all in-car entertainment, navigation, park assist and Bluetooth® communication systems – with both hands on the steering wheel. All information is neatly displayed on the in-dash 7" colour screen. And by adding Volvo's innovative front blind view camera, a revealing 180-degree field of view is displayed in the screen to help you negotiate blind intersections. Convenient, smart and definitely high-tech – never before has total control been so easy to achieve.

Premium Sound Multi Media at work. Please don't disturb.

There are moments that are yours only. For those rare occasions, we've designed the new Premium Sound Multi Media audio system. This audiophile system features twelve hi-fi loudspeakers and a state-of-the-art 5x130 W digital Class D amplifier. Sound reproduction is faithfully calibrated to the acoustics of your car's interior. Dolby® Pro Logic® II surround sound including centre loudspeakers creates an ambience of total presence – wherever you're seated. And should you be forced to make a stopover, just insert a DVD and save the day. The audio system and the brilliant 7" colour wide screen ensure enough amusement for those privileged to be travelling in your Volvo.

INNOVATED FOR YOUR ENJOYMENT, VOLVO SAFETY TECHNOLOGIES WILL PROTECT MORE THAN THE FUN OF DRIVING.

Across the world Volvo is synonymous with advanced safety technology. And with good reason, because few car makers can match our record of safety innovations and the commitment to safety that has guided us for more than 80 years. Of course, this makes us extremely proud. But we're not satisfied. Because we know what we want to achieve: zero accidents. This huge task calls for innovative thinking and a brand-new approach to the way we design cars. The good news is that we've already come a long way. For starters, our cars are more fun and engaging to drive than ever. And the technology needed is no figment of the imagination – some is already available in your Volvo. This means driving a Volvo today is like having a first peek at a very exciting automotive future – a future where passionate engineering and design do more to empower you as driver.

SMOOTH CRUISING AT ANY SPEED.

Adaptive Cruise Control (at all speeds) automatically maintains your set speed and distance to the vehicle ahead of you – whether you're driving on the highway or in slow-moving stop-and-go traffic.

ALL-ROAD STABILITY.

Volvo's All-Wheel Drive (AWD) with Instant Traction™ enhances driving stability and traction in all weathers, in all seasons and on all roads.

COLLISION AVOIDANCE AT ALL SPEEDS.

Collision Warning with Full Auto Brake (CWFAB) warns you if you're too close to the vehicle in front – at all speeds – and brakes the car automatically if a collision is imminent.

PEDESTRIAN DETECTION.

Using radar and camera technology, Pedestrian Detection with Full Auto Brake can also detect pedestrians in front of your car and brake automatically if needed – a Volvo world first.

LOW-SPEED COLLISION AVOIDANCE.

City Safety – the world's first standard-fitted collision avoidance and mitigation technology – brakes your car automatically if you're about to run into a slower moving or stationary vehicle at speeds up to 30 km/h.

EYES IN THE BACK.

Park assist and park assist camera let you know what's going on behind your car when reversing.

PERSONAL GATEKEEPING.

Inspired by fighter aircraft technology, the Intelligent Driver Information System (IDIS) can help reduce your workload in stressful situations.

STAYING ALERT.

Driver Alert Control (DAC) alerts you if your driving behaviour shows signs of drowsiness or distraction and suggests a break.

AN EYE ON THE BLIND SPOT.

The Blind Spot Information System (BLIS) helps you detect vehicles entering your blind spot.

RAINPROOF.

Water-repellent side windows improve vision in the rain, and a rain sensor automatically engages the wipers if it begins to rain or if water splashes onto your windscreen.

SECURE CONNECTION.

Personal Car Communicator (PCC) enhances your personal security and convenience after you've parked your car.

POSITION CONTROL.

Lane Departure Warning (LDW) warns you if you drift out of lane.

EXHILARATING COMFORT.

Ergonomic design in seats and the driver's environment makes you relaxed and helps you maintain your concentration on driving.

STAY ON TRACK.

Volvo's Dynamic Stability and Traction Control (DSTC) anti-skid system improves handling and safety in a wide range of challenging situations.

ON-ROAD ENLIGHTENMENT.

Active Bending Lights (ABL) with Dual Xenon technology expands your vision range when driving in the dark and provides considerably improved illumination around bends.

SEE AROUND CORNERS.

When parking or exiting a narrow lane, the front blind view camera helps you discover what's approaching from the right and the left.

DESIGNED TO CATCH THE LIGHT BRILLIANTLY, A VOLVO ALSO REFLECTS A PROMISE.

Our journey towards a better environment started back in the early 70s. Then we were among the first car makers to acknowledge the environmental downside of cars and to do something about it. Since then we have been constantly innovating to reduce the environmental impact of our cars – all the way from product development and manufacturing to driving and recycling.

One of our biggest challenges is to reduce CO₂ emissions, which contribute to climate change. Our response is the technology and innovations developed within our DRIVE environmental program. For example, today we offer one of the premium segment's strongest ranges of low CO₂ alternatives. And consistently utilising innovative powertrain technology together with advanced aerodynamics, low friction technology and lightweight materials, DRIVE is an important step towards zero emissions.

In the near future we will be introducing new technology such as plug-in hybrid vehicles that will further reduce CO₂ emissions and can be charged from a standard wall socket. And we're heavily engaged in the development of electric vehicles – a technology that will dramatically reduce the environmental footprint of our cars and make them even more fun to drive. Fact is, we have already launched our first electric car – the Volvo C30 Electric – and more exciting news is on the way.

FRESH CABIN AIR.

Continuously monitoring the incoming air and shutting out carbon monoxide, ground-level ozone and nitrogen dioxide, Volvo's Interior Air Quality System (IAQS) helps ensure that the air you breathe in the car is cleaner than the air outside when driving in heavy city traffic.

85% RECYCLABLE.

To help minimise its total environmental impact, every Volvo is designed to facilitate recovery and recycling at the end of its useful life.

CLEANER EXHAUST.

Fast responding after a cold start, Volvo's advanced emission control eliminates between 95 and 99% of carbon monoxide, hydrocarbons and nitrogen oxides from petrol engine exhaust gases. The Volvo turbodiesels feature a particulate filter that removes about 95% of the particles from the diesel exhaust gases.

FROM 104 G CO₂ PER KM.

Our most eco-progressive engine alternatives, the CO₂ optimised Volvo DRIVE Start/Stop, are designed for best-in-class fuel efficiency – for minimum emissions and maximum style.

BRAKE FOR ENERGY.

For most of the engines, the battery is fed with extra power every time you brake. Smart and fuel-saving.

GREEN AT THE RED LIGHTS.

To further reduce fuel consumption and CO₂ emissions by up to 8% when driving in town, several engines feature Volvo's new Start/Stop technology.

ALLERGY-APPROVED INTERIOR.

Clean Zone Interior Package (CZIP) provides cabin air that is so clean it is recommended by the Swedish Asthma and Allergy Association.

HEALTHIER INTERIOR MATERIALS.

All our upholstery and interior textiles are tested for specific allergy-inducing or harmful substances. And several interior metal details are tested with regard to contact allergies.

BIOETHANOL FOR LOWER FOSSIL CO₂ EMISSIONS.

Running on E85 bioethanol in a Volvo Flexifuel, you can significantly cut your greenhouse gas emissions. Because bioethanol is a renewable fuel, the carbon dioxide emissions from combustion are already part of the ecosystem and won't contribute to greenhouse gas levels in the atmosphere.

FUEL-SAVING DESIGN.

To reduce energy loss from air and roll resistance, we utilise advanced aerodynamic design, lightweight materials and low-friction technology. Together with state-of-the-art engine technology, this lowers your CO₂ emissions and helps you travel further on less fuel.

Your Volvo XC70 starts here.

The engine you choose will define a major part of the experience ahead. All of these petrol and diesel engines deliver instant power and smooth running while state-of-the-art technology makes the most of every micro-drop of fuel. Which engine is going to start you up? Find out more about the engines at www.volvocars.com.au

3.2 AWD

254 CO₂ g/km | **10.6** l/100 km | **179** kW | **320** Nm | **Euro 5**

This state-of-the-art 179 kW in-line six-cylinder petrol engine is designed to elevate your driving experience to new levels of driving harmony and comfort. Its character is both responsive and relaxed – advanced engine technology provides high torque in all driving situations and efficient overtaking. The balanced nature of this power source also helps reduce fuel consumption and CO₂ emissions – brake energy regeneration and adaptive valve train technology optimise efficiency. Volvo's all-wheel drive with Instant Traction™ and the six-speed Geartronic automatic perfectly complements this sophisticated engine.

D5 AWD

188 CO₂ g/km | **6.9** l/100 km | **158** kW | **440** Nm | **Euro 5**

High demands on refinement and pure efficiency? Volvo's high-performance 2.4-litre five-cylinder turbo diesel with fuel-saving brake energy regeneration may be just for you. Sequential twin turbochargers ensure immense power across the rev range – max torque 440 Nm is at your disposal from low revs. There are always ample resources for quick overtaking, especially between 80 and 120 km/h. The smooth engine character contributes to harmonious driving on the open road as well as in the city. And whenever you're in the mood for more sport, the D5 AWD is ready to play. Six-speed Geartronic automatic with sports mode – for ultimate dynamics, come with Volvo's all-wheel drive with Instant Traction™.

Equip your own Volvo XC70.

The impressive standard equipment level reflects our core belief that functionality and beauty go everywhere together. For more information about the equipment, please contact your Volvo dealer or visit **www.volvocars.com.au**

XC70

Includes:

40/20/40 split rear seat | Aluminium decor inlays | Aluminium wheels | All-Wheel Drive (AWD) | Belt reminder all positions | Bluetooth® handsfree with Audiostreaming | Cargo compartment load rails including four sliding hooks | City Safety | Cup holders, tunnel console | Driver and passenger side airbags | Dynamic Stability and Traction Control (DSTC) | Electronic parking brake | Four aluminium attachments in cargo side panel | Frontal airbags | Front and rear skidplate | High Performance Multimedia Sound System with 7" colour screen | Inflatable Curtains (IC) | Leather seat upholstery | Lockable load space under load floor | Power Operated Tailgate | Remote control central locking | Roof rails XC | Side Impact Protection System (SIPS) | Temperature gauge, outer | Textile floor mats | Trip computer | Whiplash Protection System (WHIPS)

Exterior styling accessories

Includes:

Erakir 19" | Roof spoiler | Side scuff plates

Colour your Volvo.

When it comes to the appearance of your Volvo, the choices of exterior colour and wheels are probably your most important design decisions. For more exterior styling options and to build your new Volvo online, please visit **www.volvocars.com.au**

614 Ice White

426 Silver Metallic

477 Electric Silver Metallic

493 Caper Green Metallic

702 Flamenco Red Metallic

484 Seashell Metallic

472 Oyster Grey Metallic

498 Caspian Blue Metallic

700 Twilight Bronze Metallic

452 Black Sapphire Metallic

019 Black Stone

Please note: It's not possible to reproduce exact original shades in printed matter. Please ask your dealer to show you samples.

WANT A DYNAMIC TOUCH? If stylish and sporty looks get your pulse racing, this may be the Volvo XC70 for you: Perforated Leather Offblack upholstery in Anthracite Black interior with Crossed aluminium centre stack and door panel inserts, a leather-clad steering wheel, Charcoal and a leather-clad gear knob, Charcoal. Exterior colour Ice White with colour-matched roof spoiler, side scuff plates and Erakir 19" Diamond cut/Anthracite matt aluminium wheels.

OR MODERN LUXURY? Some people prefer sophisticated, timeless elegance. If that sounds like you, your new Volvo XC70 can look like this: Leather Soft Beige upholstery in Sandstone Beige interior with Classic wood centre stack and door panel inserts plus illuminated instep plates. Leather/Classic wood steering wheel, Soft Beige and Leather/Classic wood gear knob, Soft Beige. Exterior colour Flamenco Red Metallic and Zephyrus 18" Diamond cut/Anthracite matt aluminium wheels.

EXTERIOR DESIGN. The XC70's muscular yet lean design characteristics can both seduce and deceive. Its seductive nature is obvious. Horizontal lines give the car a wide, low look while the vertical design qualities have been emphasised to create a tough, rugged and stable impression. As for deceptive, we were referring to load capacity.

And in the case of the XC70, this is anything but lean. The XC70 is also a blank page on which you can write your own personal signature by adding side scuff plates, aluminium crossbars, a roof spoiler or any one of many other eye-catching touches.

Side scuff plate
The matt aluminium finish side scuff plates add an extra touch of attitude to the Volvo XC70 – perfectly matching the design of the sill and other XC70 exterior styling details.

Aluminium crossbars
An aerodynamic design element that complements the roof rails and the design of your Volvo. These aluminium crossbars also allow you to exploit the roof's load-carrying capacity to the full.

Roof spoiler
The stylish roof spoiler enhances the sporty lines of your Volvo estate and is colour-coordinated with the body.

EXTERIOR DESIGN Aluminium wheels

Diamond cut/Anthracite matt

Please note: Not all wheels can be combined with all engine variants. Please talk to your Volvo dealer for more information.

IMAGINE YOUR NEW INTERIOR. Crafted according to your requirements, the interior of your Volvo can take on any number of personalities. Choose between two interior colours – Anthracite Black and Sandstone Beige – and different upholstery variants. Pick the interior that suits you and add the finishing touch with the interior trim, steering wheel, gear knob and floor mat of your choice. After all, you're probably going to spend a lot of time here. Find your next interior at **www.volvocars.com.au**

Ergonomic design Developed in cooperation with ergonomic specialists to provide generous support for the body during hours of driving, the seats in the Volvo XC70 are among the most comfortable in the automotive world. Multiple adjustment possibilities and adjustable lumbar support make it easy to find the perfect driving position.

Perforated leather

This exclusive upholstery is designed for use with the ventilated seats. The seating surfaces in perforated leather enhance climate comfort while providing an elegant and sporty character.

Leather

The seating surfaces are made of a hide quality that's comfortable, durable and has a coarse grain pattern. Like all Volvo leather, it's organically tanned and ages beautifully.

Lane Departure Warning (LDW)

Blind Spot Information System (BLIS)

City Safety

Dynamic Stability and Traction Control (DSTC)

Active Bending Lights (ABL)

Safety

SAFETY Preventive

Adaptive Cruise Control (at all speeds)

Helping the driver to keep a safe distance from vehicles in front at all speeds up to 200 km/h, this third-generation ACC is a supportive partner for a more relaxed driving experience on any journey. In slow-moving city traffic, the ACC stop and go function automatically adapts your speed to the vehicle in front. From standstill, a press of a button or the accelerator is all it takes to make your car smoothly tail the vehicle in front. At speeds over 30 km/h, just select the desired speed and the minimum time gap to the vehicle in front. When the radar sensor detects a slower vehicle in front, the speed automatically adapts to that vehicle. And when the road is clear, the car resumes the selected speed. If ACC is disengaged and a vehicle in front comes too close, the distance alert function activates a warning light in the lower section of the windscreen to help you keep the proper distance.

Collision Warning with Full Auto Brake and Pedestrian Detection

Statistics show that in 50% of the rear end collisions the driver at fault doesn't brake at all. Active at all speeds above 4 km/h, this third-generation collision avoidance technology can warn you if you're too close to a vehicle in front or if there are pedestrians in your path. If you don't react and a collision is imminent, full auto-braking is engaged to help you avoid or mitigate an impact. Within a range of 150 metres, a radar sensor behind the grille and a digital camera behind the windscreen continuously monitor the distance to the vehicle in front of you. During daylight it can also

detect standing or moving pedestrians. If a pedestrian unexpectedly steps out in front of your car or if a vehicle suddenly brakes (or is stationary) and Collision Warning senses that a collision is likely to happen, it will alert you to act with a flashing warning light on the windscreen along with an audible alarm. Moreover, this technology supports driver-initiated braking by pre-charging the brakes to quickly prepare for panic braking and help reduce the reaction time. If you don't react to the warning and a collision is imminent, the car immediately brakes with full braking force.

Driver Alert Control (DAC)

Up to 90% of all traffic accidents are caused by driver distraction. Driver Alert Control is a unique technology that can help alert a tired or distracted driver at speeds over 65 km/h. Using signals from a digital camera to monitor the road ahead along with data from steering wheel movements, DAC can compare erratic behaviour to your normal driving style. If DAC detects that your driving behaviour shows signs of drowsiness or distraction, you receive an audible warning. At the same time, a message is displayed on the instrument panel suggesting it might be time for a break.

Lane Departure Warning (LDW)

At speeds over 65 km/h, Lane Departure Warning can help prevent single-vehicle road departures as well as collisions caused by temporary distraction. This function uses a digital camera to register the lane markings and help monitor the car's position on the road. If you weave out of your lane, LDW will alert you with an audible signal. If you intentionally cross a lane marker using the direction indicators, LDW is not activated.

Blind Spot Information System (BLIS)

BLIS uses rear-facing cameras installed in the door mirrors to keep a lookout on either side of the car. As a vehicle enters your blind spot, this function can alert you with a lamp built into the front door post – left and right. Together with the door mirrors, this helps you assess the feasibility of a lane change. BLIS is activated once the car exceeds 10 km/h and reacts to almost any type of vehicle from a motorcycle upwards, day or night.

City Safety

City Safety collision avoidance technology is a Volvo world first standard feature for safer urban driving. At speeds up to 30 km/h, this laser-based technology can sense if a vehicle within 6–8 metres ahead of you is stationary or is moving more slowly. If City Safety senses an impending collision, the brakes are pre-charged to act faster on your response. And if you don't brake, City Safety automatically applies the brakes and switches off the throttle to help mitigate the effects of a collision. If the difference in speed between your car and the vehicle in front is 15 km/h or less, City Safety can even help you avoid a collision. City Safety is activated when you start the car.

Dynamic Stability and Traction Control (DSTC)

By helping to prevent fishtails, spinouts and rollovers, stability control technology like DSTC has been described as one of the most vital safety advances of the past decade. At the core of DSTC, a gyroscope senses the car's direction and compares it with steering wheel movements as well as the actual rotation of the car's wheels. DSTC is able to detect a potential skid and help counteract this by reducing the engine's power output or braking on one or more wheels.

Intelligent Driver Information System (IDIS)

To help avoid distractions during critical driving situations, IDIS constantly analyses your driving and will delay secondary information from the car or one of its on-board systems when it detects intense steering, braking or acceleration. As soon as things calm down, the phone call or the delayed information is presented. IDIS can be set up to let phone calls through in all driving situations.

Adaptive brake light

Active at speeds above 50 km/h, the adaptive brake light can sense the difference between normal and panic braking. If there is a panic situation, all the brake lights will flash at a rate of four times per second. Once your speed slows to below 10 km/h, the lights stop flashing and hazard lights flash instead.

Active Bending Lights (ABL)

In addition to improving illumination by about 230 % using Dual Xenon light technology, the Active Bending Lights give a 90% boost to your vision round bends at night. Controlled by microprocessors, the motorised lamps turn up to 15 degrees in either direction when driving – reliably lighting up your chosen path. The adaptive function automatically disengages during daylight.

Volvo's interactive safety technologies

Whiplash Protection System (WHIPS)

Restraint technologies

Inflatable Curtain (IC)

SAFETY Protective

Volvo's interactive safety technologies

In a Volvo, safety is about interaction. Because it's not the number of safety features that determines how safe a car is; it's how well they seamlessly interact to help protect the occupants in the event of a side collision.

IN A FRONTAL COLLISION the patented frontal structure will yield to help absorb and disperse crash energy. The compact powertrain is designed to help optimise deformation. Inside the car, safety belts interact with the collapsible steering column and dual-stage airbags to further help protect the occupants. A lower cross member helps protect occupants in an oncoming car with lower positioned bumpers.

IN A ROLLOVER the robust safety cage and the reinforced roof structure together with the safety belts and belt pre-tensioners will help protect the occupants. If the car has been first hit from the side, the Inflatable Curtain (IC) deploys to provide additional head protection.

IN A SIDE IMPACT Volvo's unique Side Impact Protection System (SIPS) helps distribute the crash forces across the car's body, away from the occupants. The side airbags in the front seats help protect the chest and hip, while the Inflatable Curtain (IC) adds head protection.

IN A REAR IMPACT the rear deformation zones will help absorb crash energy. The fuel tank is designed to remain well protected in front of the rear axle. The head restraints help protect the neck and spine, and Volvo's unique Whiplash Protection System (WHIPS) cradles the front seat occupants in a controlled manner to help prevent whiplash injuries.

Whiplash Protection System (WHIPS)

Integrated in the front seats, Volvo's WHIPS cradles the occupant to help reduce the risk of whiplash injury (one of the most common types of traffic injury and often the result of a low-speed rear impact collision). The function is activated by a collision of sufficient force from behind. Independent research has shown that WHIPS is one of the most effective systems in the world and can reduce the risk of long-term injuries by 50%.

Side Impact Protection System (SIPS)

SIPS is a unique Volvo safety system that has been developed to help protect the occupants in the event of a side collision. The steel framework of the car – including the front seats – is designed and reinforced to help displace the impact of a side collision away

from the occupants to other parts of the car body and help prevent intrusion into the cabin. The extremely strong side structure is built up with ultra-high strength steel and softer grades of steel to help withstand a severe side impact – even with a larger vehicle. The Inflatable Curtain (IC) for all the outboard occupants and the front seat side airbags interact to provide further protection. In the rear seat, the combination of extended IC and Volvo's integrated two-stage booster cushion with progressive safety belt load limiters helps protect children.

Restraint technologies

In a collision, Volvo's restraint technologies interact to help reduce the impact. The **safety belts with pre-tensioners** activate within a few thousandths of a second in the event of a collision and tighten the belt to help keep the occupants securely restrained. The front seat safety belts then release a little so that the driver and passenger are cushioned by the airbags in a controlled manner. Helping to optimise protection, the **dual-stage airbags** adapt the level of inflation, depending on the force of the collision. The driver's airbag also interacts with the deformation of the collapsible steering column.

Side airbags in the front seats help reduce the risk of serious injuries in a side collision. The **Inflatable Curtain (IC)** helps protect the heads of both front and rear outboard occupants. It also stays inflated for several seconds to provide prolonged protection for subsequent impacts. And to help protect children in the rear seat, IC interacts with the two-stage integrated booster cushions and the belt load limiters.

Energy-absorbing frontal structure

Volvo's patented frontal structure with its sizeable deformation zones in different kinds of steel will yield to help absorb crash energy. The compact powertrain is designed to help optimise deformation. The unique geometry of the frontal structure and longitudinal steel struts in the doors helps disperse crash energy away from the front to the rear of the car, further reducing the strain on the occupants. A steel strut under the dashboard further helps keep the cabin intact.

Protection of unprotected road users

To help reduce the risk of serious injuries to unprotected road users, the front of the vehicle is gently rounded, the headlamps are integrated flush with the body, and the bonnet is energy-absorbing to act as a crumple zone.

Personal Car Communicator (PCC)

Power retractable door mirrors with ground lighting

SAFETY Child safety

Power child safety lock

The power child lock enables you to conveniently lock the rear doors and rear power windows from the driver's seat and prevent them from being opened from the inside.

SAFETY Security

Personal Car Communicator (PCC)

PCC is an advanced remote control that combines keyless drive with two-way communication with your Volvo. Keep the PCC with you and the car unlocks automatically as you pull the door handle. Start the engine by pressing a button on the dash, lock the car by pressing a button in the door handle. Later in the day, if you're wondering whether you've locked the car, PCC can tell you, no matter where you are. On your return to the car – within a radius of 60 to 100 metres – pressing the PCC information button will give you a current report on its lock and alarm status.

Power retractable door mirrors with ground lighting

At the touch of a button, these door mirrors can be folded flat against the car, where they are less likely to get damaged after you've parked. They also fold or unfold automatically every time you lock or unlock the car. The integrated ground lighting is activated with the remote control or with the PCC. Besides enhancing security to and from your car at night, this is also convenient when getting in and out.

Approach and Home Safe Lighting

Activated with the remote control or Personal Car Communicator, Approach Lighting provides a warm reception on a dark night. It consists of interior and side lights – ground lighting too, if you choose it. Home Safe Lighting is activated with the headlight stalk as you leave the car and it provides a similar courtesy when exiting your car. This feature includes a dipped beam from the headlight to accompany you to your door.

Lockable floor

To further foil smash-and-grab burglaries, the closed tailgate – simply by means of its design – overlaps and seals the compartment hidden under the cargo floor. To keep this private storage area inaccessible to other users of the car, e.g. during valet parking, you can include the tailgate when setting your private locking preferences.

360° laminated windows

Laminated glass in all windows turns an attempted smash-and-grab into a time-consuming ordeal. It also enhances sound comfort in the cabin and contributes to UV protection. This option also includes water-repellent glass in the front side windows for improved visibility in wet weather.

Ergonomic design

Integrated coat hanger

Allergy-tested upholstery

Adjustable lumbar support

Multiple adjustment possibilities

Front pocket

Ventilated front seats

Power front seats

Power glass sunroof

Electronic Climate Control (ECC)

Front centre armrest, multifunctional

► Sunglass holder

Comfort

COMFORT Seats

Ventilated front seats

The ventilated front seats make long journeys and hot days much more comfortable. This function works by drawing air through the perforated leather upholstery in both the cushions and seat backs.

Power front seats

Find your perfect driving position with push-button ease. The driver's seat also incorporates a memory function that stores three separate seat and door mirror settings connected to a specific remote control – a feature that's appreciated when the car has several drivers. To facilitate parking, the door mirror on the passenger side tilts automatically when reversing.

Heated seats, front and rear

Adjustable in three settings, heated seats for the driver and front seat passenger add to comfort on those cold mornings. And to enhance comfort for friends in the rear seat, this convenience is also available for the outer rear seat positions.

COMFORT Climate

Power glass sunroof

This makes the interior feel extra light and airy. It opens and closes at the touch of a button. If the sun is too strong, just close the built-in sunshade. The sunroof can also be closed together with the side windows using the central locking remote control.

Electronic Climate Control (ECC)

Electronic Climate Control (ECC) maintains the cabin temperature you choose and can be set independently for the driver and front passenger. Further contributing to your health and comfort, the optional humidity sensor helps ensure that the cabin air has an appropriate level of humidity for the outside climate.

Interior Air Quality System (IAQS)

Volvo's IAQS continuously monitors incoming air and will, if necessary, temporarily close external air vents to shut out carbon monoxide, ground-level ozone and nitrogen dioxide. Meanwhile, an active carbon filter protects the occupants from other harmful gases and unpleasant odours. This helps ensure that the air you breathe in the car is cleaner than the air outside when driving in heavy city traffic and tunnels.

Clean Zone Interior Package (CZIP)

CZIP comprises a series of modifications to further improve the interior atmosphere. Materials are chosen carefully to avoid harmful fumes and surfaces are smooth, so they're easy to clean. On days when it's at least 10°C outside, opening the car by remote triggers a 60-second ventilation cycle. This results in cabin air approved by the Swedish Asthma and Allergy Association.

COMFORT Storage

Front centre armrest, multifunctional

The central aisle of the cabin incorporates several facilities. Two cup holders are concealed by a roll-top cover. There's a handy storage space beneath the armrest, and special recesses for small items. Folding back the upper part of the armrest provides a convenient table for the rear seat passengers. The armrest also features an AUX input and a USB port to connect your MP3 player to the car's audio system.

► Sunglass holder

Fitted in place of any of the entry handles in the front, this holder keeps your glasses or sunglasses within reach.

Volvo Sensus driver-control interface

► **Park assist camera, rear**

► **Front blind view camera**

Volvo Navigation System (VNS)

Bluetooth® handsfree system

Tech & Sound

TECH & SOUND Driver's Support

Volvo Sensus driver-control interface

Volvo's new driver-control interface allows you to conveniently explore the hi-tech features of your car and personalise them to suit your needs. All information is displayed on a high resolution 7" screen. A push of the MY CAR button in the centre console gives you access to all system settings such as IDIS, City Safety, ACC, Collision Warning with Full Auto Brake and Pedestrian Detection, Driver Alert System, BLIS, light, door mirrors, climate, central locking and audio. The 7" screen which can also display the VNS navigation system, phone, park assist camera, DVD etc. Everything is conveniently controlled using the ergonomic steering wheel controls – so you can keep your attention on the traffic and your hands on the steering wheel.

Rain sensor

Once activated, the rain sensor can start the windscreen wipers as soon as it begins to rain or if water splashes onto the windscreen. For your convenience, it can also automatically adapt the intermittent windscreen wiper function. Its sensitivity can be adjusted via a ring on the wiper stalk.

► Park assist camera, rear

To further add to your convenience when reversing, the rear park assist camera helps display what's going on behind your car. The system uses the integrated driver's information screen and a digital camera discretely located over the numberplate. On-screen guiding lines provide extra assistance for smooth parking.

Park assist, rear

► Park assist, front

Activated when you engage reverse gear, rear park assist helps you when reversing into tight spaces. The audio system is turned down and a pulsating sound from the rear loudspeakers becomes a continuous tone as you approach an obstacle. Front park assist performs a similar function at the front of the vehicle – alerting you via the front loudspeakers. The remaining distance is also shown display on the centre console colour display.

► Front blind view camera

Allowing you to see around corners, this new camera is located in the grille to give you a 180° field of vision for the area in front of your car. Activate the camera with a push of a button, and you'll get a split-image view on the 7" integrated driver's information screen. Very convenient in tight exits with limited visibility and while parking. Only available in combination with High Performance Multi Media or Premium Sound Multi Media.

Power Parking Brake

The Power Parking Brake (PPB) makes moving off from steep gradients easier. Once depressed, the PPB control lever automatically releases as the car pulls away.

Automatically dimmed inner rear-view mirror

This is a mirror that automatically adjusts to deflect the headlamp beams of the car behind you. When there's no light to dazzle you, it automatically readjusts to its normal setting. It can be supplemented with an integrated compass.

Power-foldable rear head restraints

Perfect for improving rear visibility when reversing, these are activated by the touch of a button. The head restraints fold forwards so that rear seat passengers notice and raise them again when entering the car.

TECH & SOUND Communication

Volvo Navigation System (VNS)

Volvo's GPS-based VNS navigation system is totally integrated with your car. It offers both voice guidance and graphic navigation all the way to your destination. The VNS system utilises the integrated 7" driver's information display and is easily controlled from the steering wheel or a remote – you can keep both hands on the steering wheel and your attention on traffic. In some areas you can also set your destination using voice control. Extremely swift and precise, the VNS features a hard disk drive containing maps for Australia and New Zealand.

Bluetooth® handsfree system

Bluetooth® technology enables a mobile phone to be connected wirelessly to the infotainment system in your Volvo. Once configured for a mobile phone, the system automatically recognises your phone as you enter the car. And as you climb in and out of the car, the system automatically allows you to switch freely from the phone to the handsfree system and back again.

The High Performance Multi Media and Premium Sound Multi Media audio systems include an integrated Bluetooth® handsfree system, allowing you to conveniently operate your phone using the buttons on the steering wheel or the centre console keypad. Phone information is shown in the centre console Multi Media display. And if you choose an RTI navigation system, you can make your calls using voice control. What's more, you can stream music from your mobile phone or a media player and listen to it through the car's audio system.

Available as an accessory for the Performance audio system.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Volvo Car Corporation is under licence. Other trademarks and trade names are those of their respective owners.

TECH & SOUND Audio

High Performance Multi Media system

Above the crisp sound reproduction of the High Performance audio components, this audio level provides an full 7" integrated Multi Media colour screen. This transforms your Volvo to a complete platform for the latest in in-car entertainment, communication and navigation technology. For example, you can watch DVD films when the car is stationary and add Volvo's new integrated Rear Seat Entertainment (RSE). Bluetooth® and USB/iPod® connectivity further adds to the versatility of this system.

Premium Sound Multi Media system

We designed this top-of-the line audio and infotainment system to give you a superior listening and communication experience. This 5x130 W system features twelve high-fidelity loudspeakers and MultEQ sound processor technology by Audyssey Laboratories that optimises the sound reproduction for the interior acoustics. Dolby® Pro Logic® II surround sound helps tailor a well-balanced audio experience for each occupant. And to give you access to advanced in-car entertainment, communication and navigation technology, this system also connects with most media formats and players and features an integrated 7" Multi Media screen. For example, you can watch DVD films or terrestrial TV broadcasts when the car is stationary while enjoying a full-size aural experience. And for more fun in the rear seat, you can add Volvo's new integrated Rear Seat Entertainment (RSE).

Dolby, Pro Logic, and the double-D symbol are registered trademarks of Dolby Laboratories.

Premium Sound loudspeakers

The twelve high-end loudspeakers in the Premium Sound system are powered by a 5x130 W digital amplifier. There are three separate drivers – woofer, midrange and tweeter – in each front door. In the rear doors there is a similar set-up with a woofer and tweeter. And for even better bass sound reproduction, there's an optional 260-watt subwoofer. Each speaker has its own crossover filter to harmonise with the others. The latest generation Dolby® Pro Logic® II surround sound uses the centre loudspeakers (woofer and tweeter) and a sound processor to recreate authentic sound with a strong sense of presence for everyone in the car. The digital class D amplifier features new technology to provide extremely high efficiency, enabling it to generate maximum audio power from the least amount of current.

260 W subwoofer

Take full advantage of the natural acoustics in this spacious Volvo with the additional subwoofer. Two 6.5" bass speakers in a ported enclosure provide distinctive bass reproduction at all volumes. The subwoofer system is mounted under the load compartment floor. It's out of sight, but you'll know it's there (260 watts of extra bass is hard to miss).

Rear seat audio console

Sharing the experience doesn't necessarily mean everybody wants to listen to the same music. Incorporating sockets for personal headphones, the rear seat audio console allows passengers to adjust their own volume and choose between musical sources, songs or playlists.

TECH & SOUND Entertainment

Rear Seat Entertainment (RSE) dual screen

► Rear Seat Entertainment (RSE) with dual DVD players

For more fun on long journeys, the remote-controlled RSE system will entertain for hours. Dual 8" screens smartly integrated in the front head restraints and the system is fully integrated with the in-car Multi Media technology. The passengers can see the same movie or play the same game on both screens, or choose to view a film on one screen and play games on the other. Sound is provided via the car's audio system or headphones. The RSE system can be controlled from both the rear and front seats. External players, USB units and game consoles are easily connected via outlets in the front centre armrest. By adding digital TV, rear seat passengers can also watch terrestrial TV on the move. The RSE dual screen system is only available in combination with High Performance Multi Media or Premium Sound Multi Media. Available as accessory, there's also an RSE system with dual DVD players and dual 7" screens smartly integrated in the front head restraints. Each DVD player is conveniently operated by a rear seat passenger.

MP3 compatibility

There are a number of ways in which to enjoy MP3 music files in your Volvo. The CD player is compatible with a variety audio media formats. If you'd like to connect your personal MP3 player to the audio system, there's a standard auxiliary audio input in the front centre armrest. Volume is conveniently controlled from the steering wheel, centre console or rear seat audio console. There's also a USB port that allows you to fully integrate your iPod®, MP3 player or USB device with the audio system. Playlists, songs and artists are clearly displayed in the centre console, while your player is charged at the same time.

iPod is a trademark of Apple Computer Inc.

Audio streaming

The integrated Bluetooth® technology allows wireless communication and streaming of music files. Simply connect your Bluetooth® compatible mobile phone to your audio system and enjoy the music files stored in your phone. Songs and artists are shown in the integrated colour screen.

Volvo XC70

ACCESSORIES

EXTERIOR STYLING:

Side scuff plates are a sill trim in a unique design produced for XC70. This gives the car an attractive and exclusive presence.

Roof spoiler.

19" Erakir wheels.

CHANCE FAVOURS THE PREPARED.

Part beast, part beauty and all business, the Volvo XC70 has capabilities beyond the conventional, luxury with few rivals, and safety without peer. In terms of sheer athleticism, this is probably the sportiest Volvo ever built. With a shared enthusiasm for life and adventure, Volvo XC70 owners aren't afraid of getting dirty. Naturally, we recommend the rubber floor mats, the rear seat cover and the cargo compartment mats. There is also a complete dirt protector that can protect everything from the bumper to the seat backrests including the floor and the sides of the rear cargo area.

CARGO COMPARTMENT MATS:

A practical, waterproof, and reversible mat with textile on one side, and plastic on the other. The mat has an appealing design and blanket-stitching all around.

DIRT COVER, FULLY COVERING:

A practical cargo space protector that covers the floor and side walls of the cargo area, plus the rear of the rear seats. Made from durable, dirt-resistant vinyl.

LOAD CARRIER:

A specially designed transport system for loads on the roof. The load carriers are two swept aluminium profiles and feet with fully covering black plastic covers.

REAR SEAT COVER:

To use the rear seat space as an extra loading area, there's a durable seat cover specially designed for your Volvo. Quickly fitted, this helps protect the upholstery if you need to carry a messy load.

DETACHABLE TOWBAR:

Designed specifically for your Volvo, the locally sourced towbar meets Australian standards and requirements. Easy to remove and fit when required.

CARGO COMPARTMENT DIVIDER/CARGO SHELF/ CARGO BASKET:

Using this unique accessory creates a very versatile load compartment in your Volvo. The accessory consists of a textile net that is fitted on two rods made of aluminum. These can be attached in seven different positions on the attachment panel. The lower rod can be attached in the floor rail's hooks. The possibility of attaching several nets means you can easily adapt the cargo compartment to suit your own particular needs. Note: The car must be fitted with an attachment panel.

PARK ASSIST CAMERA (FRONT BLIND VIEW):

Allowing you to see around corners, this new camera is located in the grille to give you a 180° field of vision for the area in front of your car. Activate the camera with a push of a button and you'll get a split-image view on the 7" integrated driver's information screen. Very convenient in tight exits with limited visibility, and while parking. Only available in combination with High Performance Multi Media or Premium Sound Multi Media.

REAR SEAT ENTERTAINMENT (RSE):

RSE is the ultimate entertainment system for passengers in the rear seat. The RSE consists of an integrated DVD player in the front main unit, two independent 8" widescreen monitors mounted in the front head restraints, a remote control and two sets of independent, wireless IR headphones. The system's AUX input makes it possible to connect extra equipment, such as game consoles, iPod®, MP3 player, video cameras, laptops or even another portable DVD player.

POD BOX:

To meet your various load needs, there's a range of aerodynamic Volvo roof boxes – from 320 litres up to 520 litres – comprising the most advanced function and design.

PORTABLE NAVIGATION GARMIN:

The Garmin nüvi® is sleek and stylish, yet loaded with really smart navigation features and convenient functions. Enjoy the bright multi-touch display, the voice-activated navigation, 3D views, lane assist and many other great features. With the Garmin nüvi, you get an easy-to-use, intelligent portable navigation of award-winning design. The Garmin nüvi comes preloaded with full-coverage Australian and New Zealand mapping and it's the perfect choice for you who want to make the most of your Volvo driving experience. nüvi is a trademark of Garmin Ltd.

Performance

PERFORMANCE Chassis/Steering

Continuously Controlled Chassis Concept (Four-C)

The Four-C active chassis provides a choice of three distinctive driving modes – Comfort, Sport or Advanced. Whichever you choose, this technology monitors the car, road and driver 500 times per second, simultaneously adjusting each shock absorber to maintain optimal handling. At the heart of Four-C is Volvo's semi-active suspension with continuously controlled Monroe-Öhlins shock absorbers. Furthermore, Four-C interacts with the DSTC system, engine, brakes and steering to promote your chosen handling style.

Comfort This chassis mode isolates the car's occupants from irregularities in the road surface. This setting prioritises flexible damping for smooth and gentle body movement and exceptional comfort. It's ideal for slippery or uneven roads.

Sport For a sportier experience, this setting prioritises slightly stiffer damping and acts faster. This results in more decisive body movement, precise handling and good ride comfort. Perfect for active driving.

Advanced This is the high performance mode. This setting stiffens the dampers for maximum road contact – directly communicating the road surface to the driver. Prioritising immediate feedback rather than comfort, the advanced setting increases the range of driving dynamics.

All-wheel drive with Instant Traction™

The advanced Haldex® AWD technology with Instant Traction™ helps increase driving stability and traction on all road surfaces. It has an electronic management system that constantly monitors the speed of the wheels, the throttle, engine torque, engine speed and the brakes. As driving conditions change, wheels with the best grip get the most power. When a tyre loses traction, power is reduced to that wheel and instantly transferred to the more sure-footed wheels.

Chassis

The car's all-road capability is based on generous ground clearance (210 mm), a low centre of gravity and an advanced chassis. The rigid body enables the Multi-link rear and McPherson spring strut front suspensions to give well-balanced handling with a high level of comfort on all roads. The front and rear suspensions also interact to provide stable braking and smooth steering. In a curve, the rear wheels have a slight steering facility for added stability and steering response.

Speed-dependent steering

Speed-dependent and progressive power steering uses sophisticated, speed-sensitive technology to regulate the amount of power assistance a driver needs. At motorway speeds, steering is firmer and more immediate. When parking or in slow traffic, steering is light and effortless. There's a choice of three settings allowing you to choose a suitable level of road feel or steering sensitivity.

Hill Descent Control

Hill Descent Control offers a smooth and controlled hill descent on steep, rough roads. Simply push the Hill Descent Control button and the vehicle will descend using the brake system to control the speed of each wheel so that you can concentrate fully on steering. Hill Descent Control also makes it easier to move off when towing a heavy trailer.

PERFORMANCE Transmission

Brake energy regeneration

To further optimise fuel efficiency and performance in all driving conditions, all engines feature Volvo's intelligent brake kinetic energy regeneration. As soon as you brake or release the accelerator while a gear is engaged, the alternator harnesses the car's kinetic energy and feeds it into the battery to reduce fuel consumption by an extra 2–3%. And when you accelerate, the alternator decouples to free the engine for maximum performance when you need it.

Six-speed Geartronic automatic transmission

For the best of two worlds, there's the six-speed Geartronic – a responsive automatic that's ideal for relaxed driving, tough conditions or towing. This also allows manual gear shifting so you can maintain a lower gear to bring up the revs or for the added assistance of engine braking. In the D5, this automatic also features a sports mode for more active driving – it shifts more responsively to your throttle movements.

Care by Volvo.

Make the most of your Volvo experience.

It's built into your Volvo – the care for you and your loved ones. And it's also there for you during all the time you own it. Care by Volvo is a family of services to help you make the most of your Volvo experience. These services reflect a set of values shared by the entire Volvo organisation, values that make your satisfaction and safety a top priority. Whatever your needs during your Volvo ownership, there is a smooth and considerate solution.

Volvo Car Insurance.

As with our cars, we want to ensure our Volvo Car Insurance lives up to the expectations of Volvo owners in every way. It is what you would expect from Volvo.

Benefits include:

- New car replacement*
- Genuine Volvo Parts*
- Choice of Repairer
- Maximum No Claim Bonus protected
- Rental car following theft
- Attached Trailer and Caravan Cover
- Cover for authorised Volvo loaned service vehicles

Options available:

- Removal of excess for windscreen claims;
- Rental or loan car following an accident;
- Agreed Value;

*Subject to availability

This is a summary of the benefits available under Volvo Car Insurance. We do not advise you whether the insurance is appropriate for your personal objectives, financial situation or needs. To decide if it is appropriate for you, ask for a copy of the Policy Document and Product Disclosure Statement listing the full benefits and limits to cover. Please see your Volvo Dealer for a quotation.

This insurance is issued by Allianz Australia Insurance Limited AFS Licence No. 234708, ABN 15 000 122 850 (Allianz). In arranging this insurance Marsh Pty Ltd, AFS Licence No. 238983, ABN 86 004 651 512 and authorised dealers act as agents of Allianz and not as your agent.

Volvo Car Financial services.

Choosing the right vehicle and finding the right financial package has been made easier with Volvo Car Financial services. As you would expect, we have a flexible range of financial products, tailored to make your life easier.

Whether you're a private purchaser or you're choosing av Volvo for business, we have a wide range of flexible finance and lease products. After all, the right car needs the right financial package to complement your lifestyle.

Please contact your local Volvo dealer for more information on the individual finance products available, you can find your local dealer at: www.volvocars.com.au

Important Notice:

1. Volvo Car Financial Services is a registered business name of Macquarie Leasing Pty Limited ABN 38 002 674 982 (ML) who is the financier of these products. ML is not an authorised deposit-taking institution for the purposes of the Banking Act 1959 (Cth), and ML's obligations do not represent deposits or other liabilities of Macquarie Bank Limited ABN 46 008 583 542. Macquarie Bank Limited does not guarantee or otherwise provide assurance in respect of the obligations of ML.

Volvo New Car Warranty.

Every new Volvo is covered by our comprehensive three-year warranty giving you peace of mind for a full three years and unlimited kilometers. Please contact your local Volvo dealer for full new car warranty terms and conditions.

Volvo Extended Warranty.

Volvo Car Extended Warranty is designed for additional peace of mind. Volvo Car Australia offers an additional 12 or 24 month's extended warranty after the expiry of the original 3 year new car warranty (must be purchased within new car warranty period).

Please contact your local Volvo dealer for full Extended Warranty terms and conditions.

Volvo Roadside Assistance.

Volvo Roadside Assistance is not just there to get you going again if your car breaks down. It's also there for more human mistakes like running out of fuel or locking your keys inside the car. In the unlikely event that your Volvo encounters a mechanical breakdown, you can benefit as a Volvo owner from our complementary Volvo Roadside Assistance Program, which gives you total peace of mind 24 hours a day, every day, Australia-wide.

The Volvo Roadside Assistance program is valid for the length of the manufacturer warranty or Extended Volvo Roadside Assistance Program.

VOLVO SERVICE 2.0*

FREE SOFTWARE UPDATES ARE JUST THE BEGINNING

In today's cars there are many computers and just like with desktop computers, their software should be updated from time to time.

So, in the interest of providing the best service possible, we've developed Volvo Service 2.0, where your Volvo software is updated free of charge as part of a routine Volvo scheduled service. This means that your Volvo systems (which are unique to your vehicle) will always be optimised for top performance.

Free software updates are just the tip of the iceberg. Volvo Service 2.0 ensures you'll always have your vehicle serviced by a Volvo-certified technician, using Volvo methods and Volvo Genuine parts.

You'll be offered 12 months free roadside assistance and a complimentary exterior wash. In fact, we'll even provide you access to an alternative transport solution while your vehicle is being serviced.

For more information on the many benefits of Volvo Service 2.0, just call us on **1800 786 586**, go to <http://www.volvocars.com.au> or visit your nearest Volvo dealer.

VOLVO SERVICE 2.0* ALSO INCLUDES:

VOLVO ASSISTANCE:

For peace of mind, every Volvo service comes with a complimentary roadside assistance package, covering you for 12 whole months.

ALTERNATIVE TRANSPORT:

It's not easy being without a car, that's why Volvo Service 2.0 offers you alternative transport solutions while your vehicle is being serviced.

CONDITION CHECK:

We will perform a health check of your Volvo and provide you with a check list, with a focus on safety features, while we are servicing your Volvo.

VOLVO–CERTIFIED TECHNICIAN:

Using only technicians trained by Volvo, to work on Volvo cars, a Volvo Service 2.0 service ensures your Volvo is placed in the most qualified hands.

CAR WASH:

After we've finished fine tuning your car on the inside, Volvo Service 2.0 will fine tune it on the outside thanks to a complimentary exterior car wash.

DEALER FOLLOW–UP:

With Volvo Service 2.0, your service doesn't end when you drive out of the centre. We'll also call you a couple of days afterwards to check things are still running smoothly.

* Volvo Service 2.0 and all its benefits as set out herein, including the offer of free software updates, may only be accessed from authorised Volvo dealers at the time of your vehicle's scheduled servicing and is available for a period of six years from the date of a vehicle's first registration.
