

The all-new Carnival

Movement that inspires

THE FAMILY WILL LOVE IT TOO

Is it a sculpted, luxurious object of desire? A solid, practical family vehicle?
A showcase for the latest in simple, yet thorough, driver assistance technology?
Or a remarkably roomy and relaxing space for up to eleven people?
The new Kia Carnival is all of these things, and more.

With an infinitely adaptable interior and easy access from every angle, the Carnival puts you in total control. It can take a large group of family or friends as far as the roads can reach, with ample space to accommodate the gear for adventurers, the tools of artisans or furniture to bring home from the store.

From the futuristic headlamps embedded into the tiger-nose grille, to the broad, dramatic stripe of the rear tail lamps, fresh details establish a luxurious new design vernacular among people movers. Sleek body lines serve an aerodynamic purpose, while the expansive windows and dual sunroof complement the cabin's feeling of openness.

Graceful, sophisticated lines bring a touch of charm to any driveway. But everything about the Carnival is engineered with flexibility in mind. Power sliding rear doors can be activated with the touch of a button and, if your arms are full, the rear hatch automatically closes and locks just by walking away with the remote in your possession.

A blue Ford E-Series minivan is parked in a city street at dusk. The vehicle is positioned in the foreground, angled slightly towards the right. It has a license plate that reads "KKA 0812". The background features a modern building with large glass windows and a covered entrance. A white car is blurred in the background on the right, suggesting motion. The scene is lit with warm, ambient light from the street and building, creating a calm urban atmosphere.

A BRIGHT SPOT IN THE HEART OF THE CITY

Venture in and out of cities in a spacious bubble of calm. Sliding doors make for quick entries and exits, and a puddle lamp shows you where you're stepping after dark. The same technological advances that keep the interior so quiet on the highway also help shut out city noises to create a calming oasis of comfort.

A COMPANION FOR PICTURESQUE MOMENTS

Travelling with the whole family, and maybe a few friends too, is one of those life events that makes for lasting memories. The Carnival is hard to beat when it comes to intimate adventures, offering comfortable seating, plenty of space, lots of light, and the connectivity to keep you in touch with the rest of the world.

CONTROL IS THE NAME OF THE GAME

Carnival's upscale and sophisticated interior puts the driver in command by enabling quick choices with minimal distraction through the use of steering wheel controls, or by tapping on the intuitive center-console screen.

8 Seats

INDIVIDUAL COMFORT FOR EVERY SINGLE SEAT

With firm, welcoming seats, enviable headroom, and tasteful materials, the Carnival comfortably accommodates every individual occupant. From the ways the doors slide to how the seats can be adjusted and moved, the interior is engineered to make the ride a joy for everyone inside.

7 Seats

11 Seats

SURROUNDED BY SCREENS THAT SAY JUST ENOUGH

Information technology has changed driving forever. But rather than being bombarded by a seemingly infinite amount of data, the Carnival presents everything on a need-to-know basis, filtering out what's not absolutely necessary. The cockpit is designed and engineered to help you focus on the key information while your mind stays on the road and what's around you.

A. 4.3-inch TFT-LCD cluster

The supervision cluster helps you stay focused and informed, with data like remaining distance to empty and fuel consumption, navigation cues, and outside temperature.

B. 8-inch infotainment and navigation system

The pinchable, zoomable, high-resolution display presents navigation and audio information, as well as the rear-view monitor and parking guidance system. Voice controls are integrated, and the customizable screen can be split into two views at once.

C. Smartphone wireless charger

Now with up to 15W of electric power, the charging pad in the Wireless Charging Tray bin lets you charge compatible mobile phones wirelessly. The indicator shows orange while charging and turns green when charging is complete.

WHERE FIRST-CLASS IS IN THE 2ND ROW

While the Carnival is notably roomy, the second-row VIP lounge seats, part of a 7-seat layout, may just offer the most indulgent rear-passenger space on the roads today. With soft, high-quality materials and executive-class treatment, the seats also feature heating and ventilation.

A. VIP lounge seats

Second-row VIP lounge seats give passengers a first-class experience, with exceptional flexibility and simple-to-operate power-adjustment.

B. VIP lounge seat switches

Separate buttons adjust recline, seat base, and extendable leg rest. A central button engages relaxation features, while one-touch relaxation and return buttons are located at the top for instant comfort at your fingers.

C. Relaxation mode

In Relaxation mode, the seatback reclines, the front of the seat base tilts upward, and the leg support lifts and extends. All to help you stretch out and relax.

THE VERSATILITY TO HANDLE WHATEVER THE FUTURE BRINGS

It's hard to think of a more accommodating and flexible interior than this. Seating options let you fit up to eleven people, while some or most seats can be removed to make way for cargo. You can even turn the walk-in (non-reclining) 2nd row seat to face backward, so occupants can see each other while they talk, limousine-style.

Smart power sliding doors

Power tailgate auto-close

A. Remote one-touch power doors & liftgate

Power sliding rear doors offer easy entry and exit for rear occupants. Along with the power tailgate, all doors can be closed and locked with one smart-key button as you walk away.

B. Multi-function free mode seat

For the 8-seat model, the 2nd row seat can be removed and turned to face the 3rd row seat. Or turn and fold the center seat only to create a shared table.

C. Luggage mode

For 7- or 8-seat models, the 2nd row seat can be removed, and a lever lets you fold down the 3rd row seat to accommodate cargo. For 11-seat models, the 4th row can fold to fit larger items like suitcases or golf bags.

LESS VIBRATION, LESS FUEL
AND ALL THE POWER YOU NEED

The quieter gasoline and diesel engines of the new Carnival offer significant fuel savings though improved cooling and reduced friction. The 8-speed automatic transmission offers smooth gear changes, with more gear ranges to achieve the perfect balance of economy and power.

Drive mode selector
The Carnival adapts to the way you want to drive. Push the Drive Mode button beside the shifter to cycle between the fuel-conserving Eco mode, the responsiveness of Normal mode, the exhilaration of Sport mode, or the adaptability of Smart mode, which adjusts according to how your driving style varies over the course of a normal day.

Paddle shift levers
Access more torque sooner, and choose your own shift points for the 8-speed automatic transmission. You can do it all without taking your hands from the steering wheel thanks to the levers conveniently mounted right at your fingertips.

Safe Exit Assist (SEA) with Power Sliding Door

If you attempt to open the power sliding door as a vehicle approaches from the rear, SEA will keep the door locked and sound a buzzer for one second, so you can check for traffic and try opening it again once it is safe.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA)

Rear corner radars detect the presence of cross traffic, from the right or left, in the lane the Carnival is backing into. If a vehicle is detected, and audible and visual warnings go unheeded, emergency braking is applied automatically.

Surround View Monitor (SVM)

When maneuvering in confined spaces, multiple cameras give you a zoomable, 360° overhead view around the vehicle, so you can steer and park with confidence.

Parking Distance Warning (PDW)

For utmost confidence and peace of mind when maneuvering into and out of tight spaces, PDW uses ultrasonic sensors mounted on the front and rear bumpers to warn you of any nearby obstacles.

A

WE'VE THOUGHT OF EVERYTHING TO KEEP YOU READY FOR ANYTHING

Building on an ingeniously integrated new platform, the Carnival uses technological advances, some incremental and others substantial, to better protect you in a collision, and to help you avoid situations that can lead to collisions in the first place. In short, it's always on the lookout for the safety of you and your occupants.

B

C

D

E

A. 3rd generation platform

The new 3rd generation platform standardizes the arrangement of steering, chassis, powertrain, and cabin floor, resulting in a more spacious cabin and improved aerodynamics, handling, stability and collision safety performance. The Carnival benefits from advances made across the entire range of Kia vehicles.

B. Smarter body and chassis materials

New applications of stronger, more formable steel in crucial areas helps the body and chassis better disperse collision forces to improve occupant protection. Higher torsional rigidity delivers an impressive level of handling responsiveness and ride smoothness.

C. Airbag system

To help protect occupants and potentially reduce injuries in the event of a collision, seven airbags are offered (driver, driver's knee, front passenger, two front-side, and two side-curtain).

D. Vehicle Stability Management (VSM)

For enhance safety, VSM continuously monitors road conditions and automatically controls the steering and brakes when the road gets bumpy.

E. Hill-Start Assist Control (HAC)

When you're at a standstill on an incline, HAC prevents you from rolling backward by gently applying the brakes for up to two seconds while you move your foot from the brake pedal to the accelerator.

SOMETIMES THE BEST DESTINATION IS THE JOURNEY ITSELF

Group travel can be an adventure all in itself. The new Carnival applies decades of technological know-how and advancements to improve the ride for everyone, including those who need help getting in and out, kids with short attention spans, and people who just need a chance to unwind and recharge. In a world of all for one, the Carnival is one for all.

PERSONALIZATION

Your vehicle is your family's home away from home and your pride and joy. So you decide what needs to be on board. The Carnival offers a wide range of features, from elementary to high-tech, and colors and finishes for a comfortable ride in style, so that you feel at home while exploring the world that awaits you.
