See your path as you back up thanks to guide lines on the center display that help you safely maneuver into tight spaces.

## Immobilizer

Anti-theft technology prevents the vehicle from being operated by unauthorized people.

1 **Electronic Stability Control (ESC)** When ESC senses loss of traction, it helps restore stability by applying braking to individual wheels. 2 **Hill-start Assist Control (HAC)** HAC helps keep you from rolling back when stopped on an incline. The function is disengaged when you tap the accelerator. 3 **Parking Distance Warning-Reverse** Using sonar technology, this system warns you when coming close to objects while backing into parking spots.
