Coin Pocket with Lid

Seatback pocket

Drink holder
& Trim pocket

6 SRS AIRBAGS

Together with the seat belts, airbags help protect occupants in a serious crash by absorbing and dispersing collision energy.

VEHICLE STABILITY CONTROL (VSC)

When traction is lost during cornering, automatic wheel braking and engine power reduction are applied to stabilize the vehicle.

HILL STARTING ASSIST CONTROL (HAC)

HAC temporarily applies the brakes in order to prevent the vehicle from rolling downhill when the driver switches from the brake to accelerator pedal.

ANTI-LOCK BRAKING SYSTEM WITH BRAKE ASSIST (ABS + BA)

The system automatically adjusts braking pressure between wheels to free lock up during hard braking or emergency stops.
