

GIULIA

HIGH REGARD

With every milestone, respect for Alfa Romeo has grown exponentially over its 100+ year history. Giulia was introduced in 1962, ushering in a revolutionary street version of Alfa Romeo's successful racetrack formula, combining extreme power with lightweight technology. Today's Giulia elevates this legacy in every respect.

Quadrifoglio shown in Rosso Competizione Tri-Coat

Engineered “luck”

It is a badge born over one hundred years ago that still stands for something totally original today: the Alfa Romeo marque represents a passion for motoring unlike any other. With racetrack wins at Mille Miglia, Targa Florio, 24 Hours of Le Mans and countless milestones along the way, a century-long motorsport history comes through loud and clear on any vehicle produced by this iconic brand.

Since 1923, the very top performing Alfa Romeo vehicles have been distinguished by the Quadrifoglio emblem — a four-leaf clover inlay within a white triangle. It's a good-luck tradition started by the legendary Alfa Romeo factory driver Ugo Sivocci in 1923, whose original hand-painted clover within a white square adorned his winning car at Targa Florio that year. Weeks later, Sivocci tragically lost his life in a vehicle that was missing his good luck charm. From that point on, every Alfa Romeo performance car would bear the four-leaf clover on a white triangle instead of a square — with the missing corner symbolizing the loss of Sivocci.

Now, the Giulia Quadrifoglio is the latest Alfa Romeo to demonstrate the brand's unique and innovative approach to design. It is the point of convergence between a love for the most cutting-edge technology and a strong instinct to inspire emotions. Today, Alfa Romeo is writing a new chapter in its history, introducing a future where, once again, the driver is at the centre of the design.

A return to F1

This is a Formula 1 comeback story that restores the standing of one of the greatest names in motorsport history. Now, the legendary Alfa Romeo Quadrifoglio badge will appear on a Sauber C37, as it has on the brand's top performance cars since 1923. The iconic four-leaf symbol returns to the highest level of racing to show the world the continuing strength and success of the Alfa Romeo philosophy.

It demands the constant search for excellence; first applied to racing, then transferred in its entirety to the brand's production cars. Over one hundred years later, the legend continues.

The intrinsic value of AWD

Giulia's available Q4 All-Wheel-Drive (AWD) system combines the advantages of AWD with the performance and driving pleasure of rear-wheel drive. Under normal conditions, the Q4 AWD system sends 100% of the engine torque to the rear axle. When necessary, the system can automatically transfer up to 60% of the torque to the front axle thanks to the Active Transfer Case (ATC). It continuously monitors road conditions to deliver ideal torque distribution, maximizing grip and performance.

DNA

ALFA DNA DRIVE MODE SELECTOR Alfa DNA Drive Mode Selector and Alfa DNA Pro Drive Mode Selector (exclusive to Quadrifoglio) instantaneously adapt the behaviour of the vehicle to the selected driving mode:

- **RACE** activates the overboost function for increased torque limits and allows for maximum pedal response for ultimate sport driving (Quadrifoglio only)
- **DYNAMIC** delivers sharper throttle response, enhanced steering feedback and performance shift-mapping for sporty on-road driving
- **NATURAL** is a comfort setting for a perfect balance in daily driving
- **ADVANCED EFFICIENCY** is an eco-saving mode engineered for maximum fuel efficiency; on Quadrifoglio, it includes cylinder deactivation

CARBON FIBRE DRIVESHAFT The ideal power-to-weight ratio of Giulia is the product of lightweight, high-tech materials, such as carbon fibre for the driveshaft and aluminum for the engines, suspension systems, hood,* doors and roof.* These elements enhance Giulia's overall balance, providing excellent precision and performance — delivering exceptional handling even in extreme conditions.

*Carbon fibre hood and roof on Quadrifoglio.

PATENTED ALFA LINK™ SUSPENSION Giulia excels at high-lateral acceleration by forming a near-perfect footprint, thanks to its front double-wishbone suspension. Its semi-virtual steering axis guarantees rapid, accurate steering. The rear suspension uses a 4¹/₂-link system — patented by Alfa Romeo — representing the best combination of lateral grip and comfort level, even on rugged road surfaces.

DUAL EXHAUST Beyond creating a sporty rear view on Giulia, these Chrome tips are part of a comprehensive exhaust system which delivers the signature Alfa Romeo exhaust note.

50/50

The latest evolution of Giulia began with an innovative architecture that's characterized by a longitudinal engine framework. The design emphasizes precise placement of lightweight materials to help achieve near-perfect 50/50 weight distribution across the front and rear axles.

Designers gave Giulia an organic design for timeless character. Its optimized balance and seductive Italian design are highlighted with a long hood and front fender proportions.

Underlying strength

Peeling back its exquisite outer layer reveals much about Giulia. The innovative, aluminum, 280-horsepower, 2.0L Direct-Injection I-4 Turbocharged engine and, on the Quadrifoglio, the 505-horsepower, 2.9L Twin-Turbocharged V6 engine are excellent examples of how engineers strategically placed ultralight materials within Giulia's architecture. Brakes, doors, fenders and suspension components, plus front and rear door frames, are all made of aluminum. The carbon fibre driveshaft, roof and rear spoiler are important weight-saving components in its near-perfect 50/50 weight distribution story. Giulia boasts exceptional torsional rigidity for greater comfort and excellent handling.

Built to conquer

What sets Giulia Quadrifoglio apart? Plenty. Beyond its iconic clover badge, you'll find a leather-wrapped steering wheel with a Red push-button start that offers precise control, as its 2.9L Twin-Turbocharged V6 engine fuels thrill rides with 505 horsepower and 443 lb-ft of torque. You'll hear a distinctive exhaust note from the dual-mode quad exhaust, and you'll feel the difference a turn of a knob can make with the Alfa DNA Pro Drive Mode Selector. For Quadrifoglio, it features the Race mode, for one-with-the-road performance, while the carbon fibre active aero front splitter adds another level of control. Comfort gets personal —14-way front power seats offer 4-way lumbar and power adjustable bolsters, all wrapped up in Alcantara®/performance leather.

Quadrifoglio shown in Black leather and Alcantara® with Red accent stitching

Feeds the competitive spirit

Ti Sport stirs up the adrenaline with athletic talents that reward drivers at every turn. Its flat-out performance exceeds the high expectations its fierce cladding suggests: sport front and rear fascias, coloured calipers, available 19-inch Dark 5-hole aluminum wheels and all-season performance tires help deliver on a visual promise. Playing to the crowd, Ti Sport features aluminum interior accents, Performance Sport leather seats and aluminum sport pedals. Its flat-bottomed steering wheel brings mounted audio controls, aluminum steering column-mounted paddle shifters and a push-button start to the ride.

Ti Sport shown in Black Performance Sport leather trim with Dark Grey accent stitching

A talent for effortless style

With Ti Lusso, Giulia steps up its Italian propensity for high style. This is a performance sedan whose competitive side extends to creature comforts. It offers amenities that both anticipate and surprise in a way that treats every occupant as a distinguished guest. Materials are thoroughly vetted; craftsmanship is vigorously scrutinized to a degree that makes its superiority plain to even the most discerning drivers. For those lucky enough to travel in a Ti Lusso, every sense will be rewarded.

This is distinctive Italian craftsmanship that puts high luxury at ease. Materials are selected to be in full harmony with each Giulia model and to uphold a long tradition of skillful artistry, including the finest Italian leather with meticulous accent stitching. Look forward to Cannelloni design seats, featuring front power 12-way adjust (including 4-way lumbar and driver memory), luxury leather-wrapped steering wheel, leather-wrapped dash with accent stitching and leather-trimmed interior accents. Genuine Light Walnut Wood or Dark Grey Oak Wood accents complete the rich, natural feel.

Like having an extra set of eyes on the subject, drivers get a better view of what lies behind thanks to the rear back-up camera² with dynamic grid lines, standard on every Giulia. Screens also display settings, radio and other essential information.

HARMAN KARDON® PREMIUM AUDIO SYSTEM

Designed to provide concert-like sound, the available 900-watt, 12-channel class-D amplifier and Logic 7® sound technology distribute clear sound through a system of 14 premium speakers and a subwoofer. It's quality sound that resonates with everyone. Available.

harman/kardon®

A WIDER VIEW Alfa Romeo's fabled racing history was built on communication among driver, crew and car. Today's Giulia communicates instantly with a standard 6.5-inch or available 8.8-inch integrated widescreen Information and Entertainment System, intuitively accessed through its central display rotary controller.

Life uninterrupted

DON'T HOLD THE PHONE: KEEP GOING ABOUT YOUR DAY (OR NIGHT) WITH THE INTUITIVE AND INDISPENSABLE FEATURES OF APPLE CARPLAY — THEY ONLY ADD TO THE PLEASURE OF DRIVING GIULIA.

APPLE CARPLAY^{3*} COMPATIBILITY This is smarter iPhone[®] integration, so you will experience your favourite features through your dashboard. With Siri,⁴ all you have to do is ask — catch up on calls and messages, get directions from Apple Maps or request a song through Apple Music. The system lets you browse music or discover nearby gas stations, parking, restaurants and more. Plus, Maps helps to predict where you're headed. Standard.

IT USED TO BE THAT YOU DIDN'T WANT ANYONE TELLING YOU WHERE TO GO OR WHAT YOU COULD LISTEN TO ... BUT ANDROID AUTO[™] WILL DEFINITELY MAKE YOU RETHINK ALL THAT.

ANDROID AUTO³ INTEGRATION For those who know and love Android,[™] Google[™] goes with you thanks to navigation⁹ and "OK Google" voice detection; you'll also hear your favourite Google Play music and get voice-guided navigation⁹ from Google Maps. Stay focused and productive while on the road with voice controls⁵ that allow you to make calendar appointments, set timers, reply to emails and messages — and more. Standard.

Invaluable insight

PARK-SENSE® REAR PARK ASSIST SYSTEM² is standard on all Giulia models. When the vehicle is in Reverse, this system uses sensors to provide audible and visual warnings to help detect nearby objects in the rear pathway. Assists with manoeuvring in tight spaces at parking speeds. Front Park Assist² alerts the driver with audible and visual warnings when objects come in close proximity to the front of the vehicle. Available on Giulia/Giulia Sport and standard on all other models.

HILL START ASSIST (HSA) SYSTEM The standard system aids the driver during drive-off manoeuvres when the vehicle is on a slope, maintaining and releasing the brake pressure and accommodating vehicle drive-off.

LANE DEPARTURE WARNING (LDW)² Drivers benefit from this available feature that emits an audio and dash-light visual warning when detecting inadvertent lane departure, reminding the driver to stay the course.

DYNAMIC STEERING TORQUE (DST) Electronic Stability Control (ESC)⁶ directs the Electric Power Steering (EPS) to produce optimal stopping stability. It provides greater stability in certain braking and dynamic situations, like a different adherence of each wheel.

FULL-SPEED FORWARD COLLISION WARNING (FCW) PLUS² This available system provides autonomous braking and can bring the vehicle to a full stop when a frontal collision is imminent (standard on Quadrifoglio).

AIR BAG SYSTEM⁷ Giulia features a standard comprehensive system that includes driver and front-passenger dual advanced air bags⁷ and supplemental front seat-mounted side air bags⁷ (pelvic-thorax).

REAR BACK-UP CAMERA² Like having an extra set of eyes on the subject, drivers get a better view of what lies behind thanks to the rear back-up camera² with dynamic grid lines, standard on every Giulia.

ADAPTIVE CRUISE CONTROL PLUS WITH FULL STOP (ACC Stop)²

This available system helps drivers maintain a safe distance from the vehicle ahead and, under certain traffic conditions, can bring Giulia to a full stop without driver intervention.

ANTI-SLIP REGULATION (ASR) AND TRACTION CONTROL SYSTEM (TCS)

The standard ASR limits the spin of the driving axle during a driver torque request in the event the adherence limit is reached, optimizing vehicle traction. The standard TCS limits the wheelspin of a single drive wheel by applying brake torque to the wheel while an equivalent amount of torque is transferred via the differential to the other wheel, providing the vehicle the torque required to drive away.

ALFA STEERING TORQUE (AST) The AST functionality takes advantage of the integration with the ESC⁶ system and the electric steering wheel in order to increase the safety level of the vehicle. Thanks to the AST system, in dangerous situations like braking on a surface with different grip, the ESC⁶ system orders the activation of additional torque on the steering wheel.

BLIND-SPOT MONITORING² This available system has dual ultra-wideband radar sensors that aid the driver when changing lanes, and when trailing vehicles are in the blind spot, via an illuminated sideview mirror icon (standard on Quadrifoglio).

REAR CROSS-PATH DETECTION² This available system is activated anytime the vehicle is in Reverse. It lets the driver know vehicles are crossing behind with illuminated icons on the sideview mirror, as well as an audible chime (standard on Quadrifoglio).

Interior Accents

A close-up image of a carbon fibre material with a complex, woven, and checkered pattern in shades of black and dark grey.

Genuine Carbon Fibre (Quadrifoglio, Ti Sport Carbon)

A close-up image of an aluminum surface with a fine, parallel, diagonal brushed metal texture in a greyish-blue color.

Aluminum (Giulia Sport, Ti, Ti Sport)

A close-up image of a light-colored wood surface with a horizontal grain pattern, showing natural wood texture and color variations.

Light Walnut Wood (Ti Lusso)

A close-up image of a dark grey wood surface with a horizontal grain pattern, showing a more uniform and darker color than the light walnut wood.

Dark Grey Oak Wood (Ti, Ti Lusso)

A close-up image of a solid black surface with a fine, horizontal, brushed metal texture.

Black (Giulia, Giulia Sport)

1. Based on manufacturer testing. Actual results may vary. Drive responsibly. Always obey the rules of the road. 2. This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. 3. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Apple CarPlay requires a compatible iPhone connected via USB cable to the Uconnect system. Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 (Lollipop) or higher. Data plan rates may apply. 4. Requires an iPhone with Siri. Certain features are not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. 5. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth-compatible phone. 6. No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 7. The Advanced Front Air Bags in this vehicle are certified to the Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 8. Requires SiriusXM Satellite radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca. 9. Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations.
