YUKON & YUKON XL

2009

YUKON

GMC

THERE'S NO SUBSTITUTE FOR EXPERIENCE.

When you're engineering and building full-size SUVs, experience counts – and no one's experience runs deeper than GMC's. We've been in the truck business for over a century, and we've been advancing the state of the art in full-size SUVs for more than 70 years. Today, we engineer our Yukon lineup with serious performance capabilities so they can handle off-road challenges and tough towing assignments with ease – and that's just our starting point. We also place a high priority on other attributes. Like versatility. Driver and passenger comfort. Efficiency. And, of course, safety. Today's Yukon family also offers the widest range of choice available in the full-size SUV segment, including our supremely luxurious Denali models and the world's most advanced full-size SUV, the extraordinarily efficient Yukon Hybrid. The professional grade Yukon and Yukon XL. Drive one, and feel the difference experience makes.

*Rating is for Yukon, Yukon XL 1500 and Yukon Hybrid. Five-star rating is for driver and front-passenger seating positions in the frontal crash test and for the front and rear seating positions in the side-impact crash test. Models tested with standard side-impact head curtain air bags. U.S. government ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (NCAP) (safercar.gov).

GMC

THE STRENGTH OF YUKON, NOW AVAILABLE IN GREEN.

A full-size, full-strength SUV that's as fuel-efficient as some mid-size cars? It's not just possible, it's here, thanks to the visionary engineering of GMC. Yukon Hybrid's high-tech two-mode hybrid system includes advanced technologies like a 300-volt nickel-metal hydride Energy Storage System (ESS), an advanced Electronically Variable Transmission (EVT) and a regenerative braking system. It's capable of running at speeds of up to 50 kilometres per hour in zero-emission electric-only mode, and the electric assist also helps optimize the efficiency of the 332-horsepower 6.0-litre V8 engine when it's required. The result? A full-size Yukon with uncompromised performance, a trailer rating of up to 2812 kg (6200 lb.) – and better city fuel efficiency than much smaller vehicles like the Volkswagen Passat and Ford Fusion, even when they're equipped with four-cylinder engines.* Yukon Hybrid. Capability and efficiency, together at last.

*Based on Natural Resources Canada's 2008 Fuel Consumption Guide Ratings.

HYBRID

ACTIVE FUEL
MANAGEMENT**MODE 1.**

Mode 1 of Yukon Hybrid's two-mode hybrid system comes into play at lower speeds when the transmission is operating in its first and second-gear range. In this mode the vehicle can run on electric power, engine power or a combination of the two. Yukon Hybrid's sophisticated Hybrid Optimizing System (HOS) always selects the power source(s) which will propel the vehicle most efficiently.

MODE 2.

At higher speeds, where gasoline engines operate with greater efficiency, Yukon Hybrid switches into Mode 2. In this mode the gasoline engine is the primary power source, with the electric motor supplying extra torque when the HOS determines that added performance is required. The electric motor also optimizes the effectiveness of the Yukon Hybrid engine's Active Fuel Management® system, as it allows the engine to operate more often in its more fuel-efficient 4-cylinder mode.

ABOVE AND BEYOND.

From their smallest details to their most dramatic breakthroughs, Yukon Denali and Yukon XL Denali represent GMC's highest achievement in the art of the SUV. There's awesome power under the hood, in the form of an advanced 403 horsepower Vortec 6.2L V8 engineered to run flawlessly on gasoline, E85 ethanol or any combination of the two. Other highlights include a smooth-shifting, six-speed automatic transmission with Driver Shift Control mode, AutoRide™ suspension and full-time all-wheel drive. Yukon Denali is even distinguished in its appearance, with unique headlights, chrome-finished 20-inch aluminum wheels and, of course, the Denali signature upper and lower bright honeycomb grilles.

New for 2009 is available side blind zone alert which uses radar beams to sweep adjacent lanes of traffic. It then provides a visual warning in the exterior rear-view mirror to alert you to vehicles entering the blind zone on either side of your Denali.

THE LAP OF LUXURY.

On the inside, the Yukon Denali and Yukon XL Denali epitomize the best in contemporary upscale styling, with premium materials, finely textured surfaces and subtle chrome accents. Both models feature spacious seating for up to eight with elegant tone-on-tone leather appointments. The driver and front-passenger seats are heated and cooled for four-season comfort, and heated second-row bucket seats are also standard equipment. For the convenience of your passengers, every Yukon Denali model is equipped with rear-seat audio and climate controls, and a rear DVD entertainment system is available. Yukon Denali also excels at transporting gear, with outstanding cargo capacity, a power rear liftgate with remote control and the cutting-edge convenience of standard power release fold-and-tumble second-row seats. Who knew the lap of luxury could be so accommodating?

The sophisticated instrument panel greets the driver in Denali models, highlighted by a heated, leather-wrapped steering wheel with wood accents. Shown with available integrated DVD navigation system.

YUKON XL DENALI, shown with standard Nuance leather-appointed seating surfaces in Ebony.

ENGINEERING THAT RAISES THE BAR.

With their rigid, computer-designed frames, abundant V8 power and impressive trailer ratings, Yukon and Yukon XL possess all the capability you expect in a full-size GMC sport-utility vehicle. There's even an available Yukon XL 2500 model engineered to make light work of the toughest jobs. But that's only part of the story. As a result of GMC's innovative engineering, Yukon and Yukon XL also overachieve in terms of driver and passenger comfort, safety, fuel efficiency and sheer driving pleasure. In the process, they set a higher standard for every other SUV maker in the world.

YUKON XL 2500, shown in Silver Birch Metallic.

BIG-TIME COMFORT.

On the inside, Yukon and Yukon XL are stylish, roomy, quiet and extremely comfortable vehicles. Supportive seating for up to nine occupants is available on Yukon models and standard on Yukon XL, and the power release fold-and-tumble second-row seats available on SLT models make entry and exit a breeze for third-row passengers. The tri-zone climate control system allows the driver, front passenger and rear passengers to maintain their own preferred temperatures. Yukon and Yukon XL also offer available heated seats in both the first and second rows.*

*Outboard seating positions only.

The available DVD entertainment system entertains your rear passengers with a flip-down 203 mm (8 in.) LCD colour monitor. New for 2009, a third-row DVD entertainment system is also available on Yukon XL models.

YUKON XL SLT, shown in Light Titanium with available equipment.

AS CHANGEABLE AS YOUR NEEDS.

When you have a large load to carry, Yukon and Yukon XL are at their very best. With a full quota of passengers on board, Yukon can accommodate 479 litres of gear behind the rear seat, while Yukon XL can handle a massive 1297 litres. To create additional cargo space for even bigger loads, the second- and third-row seats both fold away easily, and the third-row seat can be removed. So configured, Yukon's maximum cargo capacity is 3084 litres and Yukon XL's is a vast 3891 litres. Both interiors are also designed to pass the ultimate test: carrying 4' x 8' sheets of building material.

YUKON XL SLT INTERIOR, shown in Ebony with 3rd-row removed and 2nd-row partially folded.

DESIGNED FOR CONFIDENT CONTROL.

In Yukon's driver's seat, you'll enjoy a sense of ease and confidence that is derived directly from the interior's thoughtful design. All around you are large expanses of tinted glass that offer an excellent view of your driving situation. Clear, easy-to-read analogue gauges provide the information you need at a glance, with additional data available from the standard multi-function Driver Information Centre. Then there are Yukon's switches and controls, all logically designed and positioned precisely where you expect them to be. You'll soon find yourself making many adjustments almost intuitively, without ever taking your concentration off the road ahead.

The available Rearview Camera System displays a wide-angle view of the area behind your Yukon any time the transmission's reverse gear is engaged. The image appears on the interior rear-view mirror or on the DVD navigation system screen when so equipped.

YUKON SLT INSTRUMENT PANEL, shown with available equipment.

POWER – AND THE POWER OF CHOICE.

With a range of available Generation IV Vortec V8 engines paired with efficient six-speed automatic transmissions, Yukon has the muscle to tackle virtually anything you can throw at it, including trailers weighing up to a whopping 4355 kg (9600 lb.)*. A 320 horsepower** Vortec 5.3L V8 with fuel-saving Active Fuel Management is standard on two-wheel-drive Yukon and Yukon XL 1500 models. A FlexFuel version of the Vortec 5.3L V8 capable of running on E85 ethanol fuel is standard on 4x4 models and available on two-wheel-drive models. For added power, Yukon XL 1500 SLT models offer an available 366 horsepower Vortec 6.0L V8 with Active Fuel Management and Variable Valve Timing (VVT). Yukon XL 2500 models are equipped to handle the heaviest loads, with a specially tuned version of the Vortec 6.0L V8 under the hood generating 352 horsepower and 382 pounds-feet of torque. At the top of the line, both Denali models offer sparkling performance thanks to an awesome 403 horsepower Vortec 6.2L V8 with VVT and E85 FlexFuel capability. Best of all, not only are these advanced Vortec V8s powerful, they use some of the industry's latest technology to enhance their fuel efficiency. It's an irresistible combination.

*Yukon XL 2500 2WD models.

**320 horsepower on Yukon. 310 horsepower on Yukon XL.

Yukon is offered in a choice of attractive models. To help you find the one that's just right for you, some of the major features that differentiate one Yukon model from another are listed below.

**YUKON SLE
YUKON XL SLE**

The following features are standard on SLE models:

- 5.3L Vortec V8 engine
- GM Oil Life Monitoring System
- 6-speed transmission
- Autotrac™ transfer case (4x4 models)
- 4-wheel disc brakes with ABS
- StabiliTrak™ electronic stability control system with Proactive Roll Avoidance
- Traction control
- Rear locking differential
- Trailering Equipment Package
- 17" Sport bright aluminum wheels
- Tire pressure monitoring system
- Heated, power exterior mirrors
- Black roof rack side rails
- Black assist steps
- Remote vehicle starter system
- Front 3-passenger 40/20/40 divided bench seat with power 6-way driver's seat adjuster
- 2nd-row, 3-passenger 60/40 divided bench seat with armrest and cupholders
- 3rd-row, 3-passenger 50/50 split bench (Yukon XL)
- Driver Information Centre
- Tri-zone manual climate controls
- Bluetooth® connectivity
- Dual frontal and side-impact head curtain air bags
- AM/FM stereo with MP3-compatible CD player, auxiliary input jack and 6 speakers
- XM Satellite Radio™
- OnStar® and 1 year of the Safe & Sound Plan

**YUKON SLT
YUKON XL SLT**

SLT models include the equipment of SLE models plus the following features and upgrades:

- Fog lights
- Black roof rack cross bars
- Ultrasonic rear park assist
- Leather-appointed seating surfaces
- Power 6-way driver's seat adjuster
- Centre floor console with storage and cupholders
- Power adjustable brake and accelerator pedals
- Tri-zone automatic climate controls
- Universal home remote transmitter
- In-dash 6-disc CD changer
- Bose® premium 9-speaker sound system with subwoofer
- Rear-seat audio controls and two headphone jacks
- OnStar with 1 year of the Directions & Connections Plan

**YUKON DENALI
YUKON XL DENALI**

Denali models include the equipment of SLT models plus the following features and upgrades:

- 403 hp FlexFuel 6.2L Vortec V8 engine with VVT
- Full-time all-wheel drive
- AutoRide suspension with automatic rear level control
- Trailering Heavy-Duty Cooling Package
- Denali-specific grille
- Power rear liftgate
- 20" chromed aluminum wheels
- Power sunroof
- Colour-keyed assist steps with chrome inserts
- Rainsense™ automatic windshield wipers
- Body-colour heated power exterior rear-view mirrors with power folding feature, auto-dimming driver's side mirror, integrated turn signals and passenger-side reverse tilt
- Chrome roof rack side rails with body-coloured end caps
- Heated wood and leather-wrapped steering wheel
- Auto-dimming interior rear-view mirror
- Heated and cooled power 12-way front bucket seats with perforated leather appointments and driver's 2-position memory function
- 2nd-row, leather-appointed reclining bucket seats
- 3rd-row, 3-passenger 50/50 divided bench seat
- Power release fold-and-tumble 2nd-row seating
- Bose 10-speaker luxury sound system

ONSTAR

OnStar* uses advanced communications technology to enhance your safety, security and convenience. OnStar Advisors

can provide a wealth of information and perform a variety of diagnostic services. They can also provide assistance in an emergency. No wonder more than 5 million people have become OnStar subscribers and over 29 million calls are made each year on the built-in voice activated, hands-free system. OnStar and 1 year of the Safe & Sound Plan are standard on Yukon SLE models. Yukon SLT, Yukon Denali and Yukon Hybrid come standard with OnStar and 1 year of the Directions & Connections Plan. See your dealer for more information on plans and services.

*OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Statement and details and system limitations.

XM SATELLITE RADIO

Now with 130 crystal-clear digital channels to enjoy, XM Satellite Radio has revolutionized mobile

entertainment as we know it. XM offers the most commercial-free music channels of any radio provider, with genres that span everything from decades to dance, rock to rap and country to classical. XM also features news, talk and comedy channels, all available from coast to coast, and as the exclusive satellite radio broadcaster of the NHL, XM is a must-have for sports fans. XM Satellite Radio is standard on all Yukon and Yukon XL models.† Ask your dealer for more information.

†Available in 10 Canadian provinces and the 48 contiguous United States. Monthly subscription sold separately after 3 trial months.

ENJOY A TECHNICAL ADVANTAGE.

Leading-edge technologies enhance every aspect of the Yukon model range, from their ride comfort to their trailer-towing capability and from their braking performance to their crash worthiness. The features described on these pages are just a few of the many advanced systems that make up these exceptional SUVs.

FIVE-STAR CRASH TEST RATING

Yukon was awarded the U.S. government's highest rating – five stars – for its performance in frontal and side-impact testing.*

HYDROFORMED COMPONENTS

High-tech fabrication process results in strong, lightweight, precision-formed front frame sections.

SAFETY CAGE

Liberal use of high-strength steel reinforcements helps provide excellent occupant protection in impacts and rollovers.

WIDE TRACK DESIGN

Wide front and rear track dimensions enhance Yukon's stability and ride quality.

TIRE PRESSURE MONITORING SYSTEM

Automatically alerts you via the Driver Information Centre when a tire requires inflation.

DUAL-STAGE FRONTAL AIR BAGS

Deploy with reduced force in low-speed frontal collisions to help protect the driver and front passenger.**

PASSENGER SENSING SYSTEM

Automatically disables the passenger-side air bag, based on weight and pressure, if the seat is empty or occupied by a child or small adult.**

SIDE-IMPACT HEAD CURTAIN AIR BAGS

Roof-mounted air bags provide protection in side impacts. Large air bags on each side protect the first-and second-row occupants. Models equipped with third-row seats also feature additional side curtain air bags for the protection of third-row passengers.**

AUTOMATIC LIGHT CONTROL

Turns your exterior lighting system on and off automatically, as ambient lighting conditions require.

COIL-OVER-SHOCK FRONT SUSPENSION

Delivers linear ride and handling characteristics on all road surfaces.

RACK-AND-PINION STEERING

Provides precise and responsive control and enhanced on-centre feel (1500 models).

STABILITRAK

Standard on all models. Helps reduce lateral skids and incorporates hardware and software to mitigate potential rollover situations. Includes full-function traction control.

FULLY BOXED FRAME

Stiff frame provides a strong platform for Yukon's systems and is engineered for superior crash protection.

FRONT SAFETY BELT PRE-TENSIONERS

Automatically pull the driver and outboard front passenger safety belts snug when a collision is detected, for improved protection.

SAFETY-FOCUSED FRONT SEATS

Include energy-absorbing pans between the frame and cushion and high-strength seatbacks that resist collapsing in rear impacts.

*Rating is for Yukon, Yukon XL 1500 and Yukon Hybrid. Five-star rating is for driver and front-passenger seating positions in the frontal crash test and for the front and rear seating positions in the side-impact crash test. Models tested with standard side-impact head curtains air bags. U.S. government ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (NCAP) (safercar.gov).

**A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. Refer to the vehicle Owner's Manual and child safety seat instructions for more information.

**A NEW LEVEL OF CONFIDENCE**

It isn't only the performance, value and safety of the 2009 Yukon and Yukon XL that will fill you with confidence. Yukon's are also backed by the best coverage in Canada:

- 3-year/60,000 km New Vehicle Limited Warranty*
- 5-year/160,000 km Powertrain Component Limited Warranty, with \$0 deductible on repairs and the warranty is fully transferable at no charge*
- 5-year/160,000 km Courtesy Transportation*
- 5-year/160,000 km 24/7 Roadside Assistance*
- 6-year/160,000 km rust-through perforation coverage*
- 8-year/130,000 km coverage on catalytic converters and powertrain control modules (PCMs).*
- 8-year/160,000 km coverage on specific hybrid components on the Yukon Hybrid model.*

*Whichever comes first. Conditions and limitations apply, see dealer for details.

OTHER OWNERSHIP PRIVILEGES AND PROGRAMS:†

- **GM Protection Plan (GMPP)** – the only extended service plan backed by the resources and commitment of General Motors. GMPP may be purchased at the time of sale or subsequently during the New Vehicle Limited Warranty period
- **GM Goodwrench Service** – with GM-certified technicians and GM-approved parts, nobody knows your GM vehicle better.

† Conditions and limitations apply.

TO HELP YOU PURCHASE A NEW VEHICLE

- **GMAC Express Credit Application** – a convenient way to get pre-approved credit toward the purchase of your next GM vehicle
- **GMAC Purchase Financing** – on the spot financing at your GM dealership**
- **The GM Card** – eligible cardholders may be able to redeem up to \$3500 on GM Card® Earnings toward the Total Purchase Price down payment on selected vehicles. For more information on The GM Card please call 1-800-461-3279.†

† Conditions and limitations apply. **Subject to eligibility.

INFORMATION RESOURCES

You can find more information about these programs from your GM dealer, or at these information centres:

- The GM website at gm.ca
- The GM Customer Communication Marketing Centre at **1-800-GM-DRIVE** (1-800-463-7483 or 1-800-263-3830 for TDD users)
- For information about GMAC visit gmac.ca or call **1-800-616-4622**.

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

TRADEMARKS

The marks appearing in this brochure including, but not limited to: General Motors, GM, the GM emblem, the GM Canada website address, GMC, Denali, Yukon, Yukon XL, Z71 and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Active Fuel Management, Autotrac, AutoRide, Rainsense, Solar-Ray, StabiliTrak and Vortec are trademarks of General Motors Corporation and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

MAKE IT UNIQUELY YOURS.

Quality GMC Accessories give you a great opportunity to take your new Yukon's style, comfort and capability to even higher levels. GMC Accessories are the only accessories that are integrated into the process of designing your vehicle, ensuring excellent fit, finish and functionality. Only GMC Accessories are backed by GM's 3-year/60,000 km New Vehicle Limited Warranty.* They can also be included in your new-vehicle finance agreement through GMAC. Ask your dealer for a complete list of the GMC Accessories available for Yukon. Or visit gm.ca

*Whichever comes first, when permanently installed by the dealer at the time you purchase your new vehicle.

AVAILABLE YUKON ACCESSORIES INCLUDE:

- 20" and 22" wheels
- Hitch-mounted ski carrier
- Hitch-mounted bike carrier
- Tail light guards
- Chrome recovery hooks
- Tubular running boards
- Chrome fuel door
- Front fascia extension
- Moulded hood protector
- Trailer hitch cover
- Moulded splash guards
- Side-window weather deflectors
- Hard cargo carrier
- Chrome grille
- DVD player-overhead portable.

- 1 – Gross Vehicle Weight Rating (GVWR) includes vehicle, passengers, equipment and cargo.
 2 – Payloads are approximate and will change with the addition of optional or aftermarket equipment. Consult your dealer or equipment supplier for details.
 3 – Trailer Weight (also called Trailer Towing Capacity) is the weight of a trailer, its load or contents plus any other weight added to the tow vehicle. Many trailer towing applications require optional equipment. Maximum trailer weights require the optional heavy-duty cooling package (option K5L) if not already equipped. For more information on trailer towing, ask your sales consultant or go to gm.ca

YUKON AND YUKON XL PREFERRED EQUIPMENT GROUPS

Yukon and Yukon XL offer the following popular upgrades to the SLE and SLT for even more convenience, comfort and performance.

PEG 1SB adds the following options to the SLE: Premium cloth reclining front bucket seats with centre floor console – fog lights – Bose 9-speaker premium sound system – rear-seat audio controls – roof rack cross bars

PEG 1SD adds the following options to the SLT: Full-feature leather-appointed front bucket seats with power 10-way seat adjusters and power 2-way lumbar adjusters – second-row heated seats (outboard seating positions) – auto-dimming interior rear-view mirror – exterior rear-view mirrors include power foldaway, remote control, heated, driver-side auto-dimming feature, reverse-tilt, side-entry illumination and integrated turn signals

- S – Standard. 0 – Optional individually or in combination with other optional equipment.
 *OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Statement and details and system limitations.
 **Turn-by-turn Navigation availability impacted by some geographic/cellular limitations, advisor-assisted routing available.
¹ All-season tires may not satisfy winter tire requirements in all regions of the country. Tires specifically designed for severe winter conditions and marked with the "winter tire" symbol may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.
³ – Included with Z71 suspension.
⁴ – Requires leather-appointed full-feature front bucket seats.
⁵ – Third row is vinyl when leather-appointed seating is specified. Note: The trim features indicated reflect only a portion of the total content of each trim level. See your sales consultant for complete listings, current availability and compatibility.
⁶ – Yukon XL 1500 models produce 310 hp @ 5200 rpm and 335 lb.-ft. of torque @ 4400 rpm.

STANDARD & OPTIONAL FEATURES

Note: Use only GM-approved wheel/tire combinations. See dealer for details.

Canada 

FORWARD THINKING.

General Motors continues to invest in technologies that reduce greenhouse gas emissions and lessen the dependence on petroleum. Beyond today's hybrids and alternative fuel solutions, GM is developing game-changing technology with the upcoming Volt plug-in electric car and a test fleet of zero-emissions Hydrogen Fuel Cell Vehicles already on the road.

GM also demonstrates its commitment to environmental sustainability by the way it produces this brochure. Research has told us that people like you continue to value printed brochures. So GM prints them on Forest Stewardship Council-certified paper. The goal is to protect wildlife habitat, ensure clean water and to keep forests healthy.

It's just one more way that GM integrates green thinking into every aspect of its activities. Just like you.

For more information about the scope of GM's green initiatives, visit greenbydesign.gm.ca

GMC is a brand of General Motors of Canada
the Official Vehicle Partner of the Vancouver
2010 Olympic and Paralympic Winter Games.
