

Q50

2015

 INFINITI.

IN OBSESSION

Be driven by desire. Revel in it, and reveal the sensory delights of luxury focused on feel. The Infiniti Q50 is designed for these delights. It delivers them with high-performance intensity and state-of-the-art originality. Luxury has found its future. Time to indulge.

IN SECONDS

Velocity has a special kind of magic. The moment you're launched forward, you can feel from the inside out engineering that accelerates emotion, with power and efficiency. It's so much more than movement.

INFINITI DIRECT RESPONSE HYBRID® doesn't ask you to choose between efficiency and exhilaration. Capable of achieving 7.5 L/100 km (38 mpg) highway,² it also delivers 360 horsepower with heart-pounding immediacy.

ACCELERATION SWELL transforms mechanical power into emotional excitement. Precise engine tuning unleashes torque over a broader rev range, and sustains g-forces over a longer period. The feeling of acceleration is shaped to increase the faster you go.

BACKUP COLLISION INTERVENTION^{1,3} is a visionary technology that extends your awareness and your confidence. It scans the area behind your car, and—as you back up—can warn you if it detects a vehicle or large objects. It can even brake for you to help you avoid it.

BLIND SPOT INTERVENTION^{®1,4} helps inspire confidence by using radar to watch carefully for danger where you can't see. If it detects a vehicle in the blind spot area, it warns you, and can intervene to help you avoid a collision.

U.S. instrumentation shown.

What are you seeking? What feeling are you waiting for? As you take hold of the steering wheel, no matter what experience you anticipate, the Q50 amplifies it. It's designed to become what you desire.

DIRECT ADAPTIVE STEERING™¹ expands your sense of control behind the wheel, and your relaxation on the road with a digitally enhanced steering connection—allowing for an unprecedented level of handling customizability and filtering out unwanted vibration.

INFINITI DRIVE MODE SELECTOR matches the way your vehicle performs to your conditions, your needs and even your mood with the simple flip of a switch.

IN ANTICIPATION

U.S. instrumentation shown.

Your every touch has power. The greatest response and the tightest connection can come from a momentary contact, the lightest touch of a fingertip. Discover how technology designed in the right way can transform your gestures into influence.

INFINITI INTOUCH™⁵ integrates your digital life, including apps, in a system that responds naturally to your touch. Touch, tap, swipe to navigate email, stream music, catch up on social media and more.

INFINITI INTOUCH™ NAVIGATION^{1,5} offers a more intuitive 3-dimensional view and simple interface for increased ease and confidence, helping you expertly find your location and your destination, even in crowded city settings.

IN AWAKENING

Visionaries don't just see the world with greater accuracy, they dream of new experiences that never were before. Take hold of a singular vision of luxury that owes nothing to conventions that have preceded it, and everything to your total sensory delight.

LED HEADLIGHTS are designed to complement the sculpted design of the Q50 and create a dramatic flair that will turn heads. They also turn to shed light on where you're steering, helping heighten visibility as you manoeuvre.

HIGH BEAM ASSIST¹ automatically dims your high beams as oncoming vehicles approach. Extend courtesy, increase safety, savour convenience catered for you.

OBJECT OF ATTRACTION

2015 INFINITI Q50

AMBIANCE

A welcoming and evocative space is measured by its ability to stir your emotions.

6 COUNTRIES | .48 MILLIMETRES

MATCHLESS MATERIALS Glide your hand across the armrest, and your fingertips seem to recognize the instinctively rewarding feel. This is purely intentional. We took one-and-a-half years, surveying people all over the world to quantify the most pleasing tactile feel, then created the perfect materials to match it. With tension and texture that match the depth and spacing of the ridges in your fingerprint, it imbues the surfaces you'll engage most with the perfect touch.

INVITING YOU IN We use light to not only make you feel more secure, but to make you feel like an honoured guest. Welcome Lighting responds with a push of a button on the key fob and gently illuminates the puddle lights as you approach. Then, as you get closer, the interior lights are illuminated. This choreographed sequence ends with the Start/Stop Button, pulsing as though with a heartbeat—inviting you to bring your Q50 to life and building anticipation for the road ahead.

EVERY BREATH FRESHER AND CLEANER Even the invisible is never overlooked. The Advanced Climate Control System^{1,6} features the innovative Plasmacluster[®] air purifier, which actively produces positive and negative ions that help prevent odours from sticking to interior materials and even helps suppress mold and viruses. It works in concert with the Grape Polyphenol Filter, which helps remove up to 99.5% of allergens from the air coming in from the outside.

ABUNDANT SPACE The interior of the Q50 was designed to emphasize both the rewards of spaciousness and the feeling of space. Its low, wide stance help maximize head and hip room for all passengers. Interior elements like the roof and windshield pillars were shaved and shaped to give a more open feeling. The backs of the supportive front seats give rear passengers more legroom. What's more, a wide trunk opens up to the large luggage compartment for easy access.

POWER

Exceptional build quality, fuel efficiency and output can be measured with instruments or graphs, but the true excellence of Infiniti engines is in the feeling unleashed as you drive.

360
HP

7.5
L/100 KM
HIGHWAY²

3.5-LITRE V6 ENGINE WITH INFINITI DIRECT RESPONSE HYBRID^{®1}
A combined system power of 360 horsepower responds to your call with thrilling immediacy, while it achieves a surprising 7.5 L/100 km (38 mpg) highway.² It transitions from all-electric mode to full-power hybrid mode, with an intensity and organic response that defies everything you think about hybrids.

328
HP

8.1
L/100 KM
HIGHWAY²

3.7-LITRE V6 GASOLINE ENGINE¹ Its robust design, exceptional power-to-weight ratio, advanced technology and fuel efficiency have won it acclaim from critics and fans alike. Benefitting from Variable Valve Event and Lift (VVEL[®]) technology, it adjusts on the fly to make the most of every breath and every bit of fuel, resulting in a stirring 328 horsepower while achieving 8.1 L/100 km (35 mpg) highway²

PERFORM

Unleashing the intelligence and intensity of Infiniti Direct Response engineering, the Q50 frees you to drive precisely the way you desire.

32

PERFORMANCE
SETTINGS

AN ELECTRIFYING CONNECTION There are more than 30 ways to dial in the driving dynamics of your Q50. Direct Adaptive Steering™¹—a world's first in automotive technology—gives you an unprecedented level of customization by using electronics and next-generation digital systems to streamline the steering mechanism. Not only can it make driving more relaxing by filtering out unwanted vibration you feel in the steering wheel, it allows you to tailor the steering sharpness to get precisely the response you desire.

EFFICIENT INVIGORATION No hybrid design is quite like it, and none can match its emotional intensity. The 50 kW electric motor and cutting-edge lithium ion batteries of the Infiniti Direct Response Hybrid®¹ are powerful enough to allow you to maintain cruising speed in all-electric mode. When not needed, the 3.5-litre V6 gasoline engine is turned off and completely disconnected, maximizing mechanical efficiency. And yet, it responds to your call for power with a stirring intensity.

CONTROL WITHOUT COMPROMISE When conditions are ideal, Intelligent All-Wheel Drive¹ sends 100% of the power to the rear wheels for more sporty response and performance. But it also constantly monitors wheelspin, throttle position and vehicle speed, and can divert up to 50% of the available power to the front wheels to help enhance traction and control when conditions are less than optimal.

MORE RESPONSIVE BRAKING The agile performance of the Q50 is made all the more predictable with large brakes, featuring opposed-piston calipers.¹ The extra bite they take shaves speed quicker and with greater confidence.

LIGHT ON ITS FEET These stunning 19-inch alloy wheels¹ heighten both the looks and performance of the Q50. Lightweight, thanks to both material and design, they help reduce unsprung weight. That reduction of mass makes driving more exciting by allowing the suspension to be more finely tuned and by making the handling of the Q50 more responsive and more nimble.

AERODYNAMIC ADVANTAGE The upper and lower body of the Q50 direct the flow of air over, around and under the vehicle, turning it into an incredibly effective downforce generator. By minimizing the pressure under the car and the “suction” effect over it, the design achieves zero-lift at the front and rear. This helps reduce the effect of wind turbulence at higher speeds, and leaves you feeling more tightly in control and in touch with the road surface.

SHARPER SHIFTS When you flick the magnesium paddle shifter¹ for a lower gear, Downshift Rev Matching¹ blips the throttle to ready the engine for the new gear. It gives you the power of expert performance driving by delivering smoother downshifts for increased stability and more consistent engine power.

ASSIST/ENTERTAIN

Infiniti InSuite™ integrates a host of intuitive technologies to simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

8"

TOP

7"

BOTTOM

CUSTOMIZABLE DUAL TOUCHSCREENS

TECHNOLOGY WITH HUMANITY Infiniti InTouch™5 puts intuitive control of your vehicle’s systems, and access to a wide array of familiar apps right at your fingertips. The dual touchscreen interface allows you to set the climate control, do a Google® search, check your social media, or access a wide variety of comfort and convenience settings, all in the same elegant interface. And with the customization of Infiniti InTuition,™ it remembers your personal app selection, so you’ll always see the apps you’ve selected.

U.S. instrumentation shown.

A SMARTER WAY TO SEE The Adaptive Front lighting System¹ lights not just the way ahead, but around as well. It directs light toward corners by turning the headlights in coordination with steering input. What’s more, the Q50 offers the innovative High Beam Assist technology,² which automatically dims your high beams when oncoming traffic approaches at night.

SECURING YOUR SPACE Distance Control Assist^{1,7} employs radar to monitor the vehicle in front of you and helps you maintain a safe following distance. As your following distance becomes too short, the system can automatically engage the brakes as you release the gas pedal, and it can warn you if you need to brake. If your foot stays on the gas pedal while closing in on the other vehicle, it can push the pedal upwards to assist you in releasing it.

EASE IN TRAFFIC Intelligent Cruise Control (Full-Speed Range)^{1,8} allows you to choose your desired speed, and automatically slows your vehicle in slowing traffic, going all the way to a complete stop. Then, as traffic flow picks up, it re-accelerates your vehicle to your preset speed. This visionary innovation and the personalized convenience it offers is available with a simple touch of a button.

ALL-AROUND AWARENESS The Around View® Monitor with Moving Object Detection^{1,9} and Front and Rear Sonar System^{1,10} gives you exceptional awareness of your environment as you park. You’ll see a simulated 360° view from above, showing you clearly the objects detected around your car. And the system will even alert you to moving objects detected in your vicinity. It helps put you intuitively in touch with your surroundings, while simultaneously putting you at ease.

AUDITORY INDULGENCE The next-generation Infiniti Studio on Wheels® by Bose®¹ brings 14 individual speakers to bear in its powerful array—three of which are 10-inch subwoofers, which add palpable depth to every form of music. Their positioning and sound delivery is precision-engineered specifically for the interior of the Q50 to filter out noise and distortion, and to surround you with compellingly rich and realistic sound.

SPEAK YOUR DESIRE Infiniti Voice Recognition allows you to set a destination on the navigation system³; call a contact from your phone, play an audio track and much more—without lifting your hands from the wheel. The system recognizes a wide variety of commands, making your life that much simpler and more elegant.

U.S. models shown.

PROTECTION

The Infiniti Safety Shield® concept—our comprehensive approach to safety—layers technologies to help monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

ALWAYS LOOKING FOR DANGER Predictive Forward Collision Warning^{1,11} can warn you of a possible collision, even when the cause is ahead of your forward field of vision. It uses radar to continuously monitor and analyze the relative velocity and distance of not only the vehicle directly ahead of you, but of the vehicle in front of that one as well. If your closing speed on either exceeds safe limits, it provides an alert.

SENSES WHERE YOU CAN'T SEE The Blind Spot Intervention® System^{1,4} uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds. The system will even apply opposite side brakes to help you guide your vehicle back to the centre of your current driving lane.

STRONGER AND LIGHTER Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle's resiliency, it allows us to make the vehicle lighter overall.

MAINTAINING YOUR LANE The Lane Departure Warning System^{1,12} uses a camera to watch for departure from the traveling lane when you haven't signaled, and audibly warns you if it's detected. Then, if the drift continues, the Lane Departure Prevention System^{1,12} gently helps ease your vehicle back into the proper lane. What's more, Active Lane Control^{1,13} can help you stay centred in your lane when driving in a crosswind or on a slanted road.

REVERSE WITH GREATER CONFIDENCE A world's first from Infiniti, Backup Collision Intervention^{1,3} employs an advanced set of sensors to help detect vehicles approaching from either side as you back up. If a vehicle is detected, the system alerts you—first, a warning light appears, then an audible alarm sounds, followed by gas pedal-force feedback. The system can even intervene by automatically engaging the brakes to help avoid a collision.

U.S. model shown.

PREPARED TO PROTECT Under certain braking conditions, the Front-seat Pre-Crash Seat Belts¹ automatically tighten the front seat belts—helping restrain you and helping to maximize the effectiveness of the other occupant protection devices such as airbags.

HARM MITIGATED Forward Emergency Braking^{1,14} scans the area ahead of you looking for signs that an unavoidable collision might be imminent. If it detects a probable accident, the system warns the driver, and automatically engages the brakes and tightens the front seat belts to reduce speed and mitigate damage.

ENHANCED PROTECTION In the event of a collision, dual-stage front supplemental airbags of the Infiniti Advanced Airbag System adjust inflation rates based on the severity of the crash and seat belt usage. Also featured are front seat-mounted side-impact supplemental airbags and roof-mounted curtain side-impact supplemental airbags¹⁵

SELECTION

Hues that change in response to light and angle. Matching exterior and interior colours to reflect the distinctive energy and mood of the seasons. These are two ways Infiniti designs colour to evoke feeling, express character, and shape the emotional essence of a vehicle.

This brochure is intended for general descriptive and informational purposes only. It is subject to change and does not constitute an offer, representation or warranty (express or implied) by Infiniti a Division of Nissan Canada, Inc. Interested parties should confirm the accuracy of any information in this brochure as it relates to a vehicle directly with Infiniti a Division of Nissan Canada, Inc., before relying on it to make a purchase decision. Infiniti a Division of Nissan Canada, Inc., reserves the right to make changes, at any time, without prior notice, in prices, colours, materials, equipment, specifications, and models and to discontinue models or equipment. Due to continuous product development and other pre- and post-production factors, actual vehicle, materials and specifications may vary from this brochure. Some vehicles shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary. For additional information on availability, options or accessories, see your Infiniti Retailer or contact Infiniti a Division of Nissan Canada, Inc.

¹ Available on select models. ² 2015 Fuel Economy Estimates. Actual mileage may vary with driving conditions – use for comparison only. IMPORTANT: Starting with 2015 model year vehicles, the Government of Canada has mandated new fuel economy test methods to better approximate typical driving conditions and styles by adjusting city and highway ratings to account for air conditioner usage, cold temperature operation and driving at higher speeds with more rapid acceleration and braking. These new 5-cycle test methods result in higher fuel consumption ratings, are more representative of a vehicle's on road fuel consumption compared to the current (2-cycle testing) methodology, and can produce fuel consumption ratings that are 10 to 20 percent higher than the current ratings. 2015 vehicles do not consume more fuel than the comparable 2014 vehicle under the same driving conditions. For more information, please visit www.infiniti.ca/fuel2015. ³ Backup Collision Intervention will not detect every object, and speed limitations apply. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind before backing up. ⁴ The Blind Spot Warning/Blind Spot Intervention are not a substitute for proper lane change procedures. The systems will not prevent contact with other vehicles or accidents. They may not detect every vehicle or object around you. ⁵ Driving is serious business. Only use Infiniti InTouch Apps® services when safe to do so. Subscription Agreement required. Compatible smartphone required. Late availability. May require retailer service visit or software upgrade to activate. Not all app features are available for all models. Like any computer, processing speed may vary and system response delay or system reset may occur intermittently. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. Cellular network not available in all areas. Cellular network, apps, and services, including Google® services, are provided by independent companies not within Infiniti's control and may require subscription and owner consent to activate. Should provider terminate/restrict service, service may be terminated without notice or liability to Infiniti and/or its agents. Infiniti not responsible for any equipment or app replacement/upgrades. Terms and conditions of Subscription Agreement apply. ⁶ 48 mo. trial period starts on vehicle sale date; subsequently a paid subscription is required at the then current rate. Standard text rates and/or data usage may apply. See Retailer and www.infiniti.ca/InfinitiInTouch for details. ⁷ Distance Control Assist helps maintain a distance to the vehicle in front of you under certain conditions. Not a collision avoidance system. Failure to apply the brakes could result in an accident. ⁸ Intelligent Cruise Control is not a collision avoidance system or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. ⁹ Around View Monitor with Moving Object Detection cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicles speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle. ¹⁰ The Sonar System is a convenience, not a substitute for proper parking and/or backing procedures. Always check that it is safe to do so before moving vehicle. May not detect every object. ¹¹ Predictive Forward Collision Warning is intended to warn you before a collision occurs; it cannot prevent a collision. Speed & other limitations apply. See Owner's Manual for details. ¹² The Lane Departure Warning/Lane Departure Prevention operate only when the lane markings are clearly visible. Speed limitations apply. See Owner's Manual for details. ¹³ Active Lane Control cannot prevent accidents or loss of control. It is the driver's responsibility to be in control of the vehicle at all times. ALC may not detect the lane markers in certain road, weather or driving conditions. ¹⁴ Forward Emergency Braking cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. ¹⁵ Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents; see your Owner's Manual for more details. ¹⁶ Active Trace Control cannot prevent accidents or loss of control. It is the driver's responsibility to be in control of the vehicle at all times. ¹⁷ Driving is serious business and requires your full attention. Do not operate any devices connected to the auxiliary audio input jack or USB connection port while driving. iPod is a registered trademark of Apple Inc. All rights reserved. iPod not included. ¹⁸ XM® and SiriusXM® Satellite Radio is available in the 10 Canadian provinces and the 48 contiguous United States. Basic monthly subscription required and sold separately after trial period. NavTraffic®/SiriusXM® Traffic is available in select North American markets. In Canada, at time of printing, incident and flow data is available for 12 metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Toronto, Ottawa, Montreal, Quebec City, Hamilton, St. Catharines, Kitchener, Guelph, and London). Subscription sold separately after trial period. All subscriptions subject to customer agreement at siriusxm.ca/terms. All fees and programming subject to change. © 2014 Sirius XM Canada Inc. The Sirius, XM, and SiriusXM names and all related marks and logos are trademarks of Sirius XM Radio Inc. All other trademarks are the property of their respective owners. ¹⁹ Driving is serious business. Only use Infiniti Connection™ and Infiniti Connection Plus services when safe to do so. Services, including automatic crash notification and SOS, require an active subscription, and are dependent upon the telematics device being in an operative condition, its ability to connect to a wireless network, compatible wireless network availability, navigation map data, and GPS satellite signal receptions, the absence of which can limit or prevent the ability to reach Infiniti Connection Customer Care or receive support. Services require compatible 2G GSM/GPRS cellular network provided by independent cellular companies. ²⁰ Cellular network not available in all areas and/or available at all times. Cellular technology is evolving, and changes to cellular networks provided by independent companies are not within Infiniti's control. Like other devices that rely on 2G network coverage, once the 2G network is terminated, Infiniti Connection and Infiniti Connection Plus services will not function unless equipment replacements, upgrades, or alternative 2G network coverage are available at that time, which Infiniti cannot guarantee. Infiniti is not responsible for associated costs that may be required for continued operation due to cellular network termination (including equipment upgrades, if available, or roaming charges on alternative networks). Certain vehicle services, including Google® compatible services, provided by independent companies are not within Infiniti's control and are subject to change without notice or liability to Infiniti and its affiliates and agents. Complimentary 12 month subscription begins on your date of purchase. Subsequently, your credit card (if on file) will be charged at the then current subscription rate and your service will continue for 1 year periods under the terms of your Subscription Agreement, unless cancelled. Terms and conditions of Subscription Agreement apply. Standard text rates and/or data usage may apply to Infiniti Connection communications received by email or SMS/text message. ²⁰ Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Infiniti is under licence. ²¹ Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. ²² Brake Assist is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver's responsibility to be in control of the vehicle at all times. ²³ Vehicle Dynamic Control, which should remain on when driving except when freezing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. ²⁴ Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. ²⁵ Cargo and load capacity limited by weight and distribution. Always secure all cargo. ²⁶ With spare tire, cargo volume is 283 litres/10.0 cubic feet.

Enhance. Protect. Beautify.

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula One, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Infiniti is drawn to Formula One racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture of Formula One, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led them to four Formula One Constructors' World Championships in the last five years.

Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula One and Infiniti vehicles. This exchange of both technology and ideas includes input directly from our Formula One drivers—harnessing their supreme driving senses to ensure every future Infiniti vehicle is as dynamic as possible and ultimately, reinvigorating your drive.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti has now grown to include sedans, coupes, convertibles, crossovers and SUVs in its lineup and reaches

across 50 countries worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.
