2013 LEXUS

 **LEXUS**
THE PURSUIT OF PERFECTION.

the 2013
CT

Vehicle shown with available equipment.

THE PURSUIT OF PERFECTION.

It is a philosophy that extends well beyond the confines of meticulously assembled sheet metal. An approach to the automobile not as a machine, but rather, an art form. Every curve, deliberate. Every detail, inspired. And where every aspect of the ownership experience is intended to be as rewarding and accommodating as the vehicles themselves. Because while there are certainly easier ways to build an automobile, pursuing perfection is the only way to create a Lexus.

With outstanding craftsmanship and innovation in every 2013 CT, you can experience the comfort of owning a true luxury vehicle, and enjoy all of life's perfect moments.

The world's first
LUXURY HYBRID SPORTBACK.

THE CT 200h

In addition to its unparalleled efficiency, exhilarating handling and convenient five-door design, the CT includes some of the most innovative thinking in the industry. Thanks to its advanced and proven Lexus Hybrid Drive Powertrain, the CT 200h delivers a combined city/highway rating of 4.6 L/100 km⁹ while emitting nearly 70% fewer smog-forming emissions⁸ than its gasoline or diesel competitors.

PRESENTING THE 2013 CT AND CT F SPORT HYBRIDS

Luxury vehicles that change all of the rules. With its bold design, driver focused interior, and performance suspension, the CT guarantees many moments of fun. Powered by the advanced and proven Lexus Hybrid Drive System, the CT rewards you with remarkable fuel efficiency. Want more? The CT F SPORT offers enhanced performance and exterior features for an exhilarating experience. And of course, being a Lexus, the CT abounds in luxury and attention to the finest details.

THE CT F SPORT

Offering the next level of performance and styling, the CT F SPORT features a more dynamic sport-tuned suspension for enhanced handling. As well as a bold exterior design that includes a distinctive mesh grille, larger rear spoiler, 17-inch wheels with a Dark Graphite finish and exclusive Ultrasonic Blue Mica and Ultra White exterior colour options. Inside, you'll find racing-inspired sport aluminum pedals, black leather trim with white perforations and a shift knob and F SPORT steering wheel trimmed in perforated leather.

Fewer gallons.
MORE Gs.

If not for its combined city/highway rating of 4.6 L/100 km,⁹ it would be easy to forget you're in a hybrid at all. Which is exactly the point. To help you attack corners with vigour, the CT wields a MacPherson strut suspension in the front and a fully independent double-wishbone suspension in the rear. And for even greater agility, the centre of gravity is lowered through centrally mounted hybrid components, low-set seating and the extensive use of lightweight materials like aluminum throughout.

Eye-raising innovations. But the sense of luxury
WILL COME AS NO SURPRISE.

While its fit and finish are as impeccable as you'd expect in a Lexus, the NuLuxe seating material offers more than just good looks. It weighs half as much as leather and its manufacturing process generates 65% fewer CO₂ emissions and no VOCs.

The placement and angle of the driver's seat, steering wheel, accelerator and brake pedal were precisely calculated to help position the driver's hip point as close to the CT's centre of gravity as possible. The result is a driving position that provides optimal comfort and a more dynamic driving experience overall. In addition to its optimized position, the front seats in the CT feature pronounced side bolsters engineered with internal wire framing for additional lateral support during high-G cornering. The driver's seat also includes power-adjustable lumbar support to help provide added comfort and reduce driver fatigue.

A CAR THAT CHANGES EVERYTHING.

The CT has already left quite an impression on the industry. But, make no mistake, it can have a similar impact on the driver. For example take the audio system. The speaker diaphragms are constructed with bamboo charcoal-based resin so they're not only lighter, they're thinner and stiffer which in turn makes them sound better. The amplifier in the available 10-speaker system provides a natural soundscape regardless of seating position through state-of-the-art sound imaging technology. To put both the 6-speaker or 10-speaker system to good use, compatible portable audio players can be connected and controlled through USB or Bluetooth.^{®5}

REMOTE TOUCH

The available Remote Touch functions similarly to a computer mouse, enabling you to easily move through logical menus of the CT's features. Ergonomically designed with a fingertip toggle pad, snap-to technology and buttons on either side, it's located centrally for you and your front passenger's comfort and convenience.

LEXUS NAVIGATION

The available voice-activated Hard Disc Drive (HDD) Navigation System¹ features standard voice recognition and an intuitive and ergonomic Remote Touch controller. This advanced system also includes a Backup Camera² that displays the rearview on the retractable navigation display when the CT 200h is in reverse.

BAMBOO SPEAKER DESIGN

Both the 6-speaker and available 10-speaker sound systems feature the world's first automotive speakers constructed with bamboo charcoal-based resin. As a benefit of this innovative design, the injection-moulded diaphragms are thinner, stiffer, lighter and offer a wider frequency range than conventional speaker diaphragms, resulting in additional sound clarity and more natural acoustics.

DRIVE MODE SELECT

Drive Mode Select enables you to customize the performance of your CT in four ways. In addition to Normal mode, EV runs on battery power alone for short distances and ECO optimizes systems for additional efficiency. In Sport mode, performance and steering feel are maximized, a tachometer gauge is displayed and the instrument panel illumination changes from blue to red.

Combining the performance characteristics of the CT with the capability required to master Fuji International Speedway, the F SPORT Package features front and rear lateral performance dampers developed by Yamaha, racing-inspired sport aluminum pedals and F SPORT badges and steering wheel. It also features bold design cues inside and out, including a distinctive front fascia, rear spoiler and exclusive Ultrasonic Blue Mica or Ultra White exterior colour.

In the lead before its wheels
EVER TOUCH THE PAVEMENT.

To learn more about the package or to configure your CT with individual F SPORT Equipment, please visit lexus.ca.

60/40 FOLDING REAR SEAT

A folding 60/40 split rear seat can accommodate cargo of multiple shapes and sizes. With both seats folded flat, the CT offers more than 900-litres (30 cu.ft.) of storage.

STORAGE COMPARTMENT

Components were strategically placed lower and closer to the car's centre of gravity, enhancing performance and creating enough room for an additional hidden storage compartment in the rear.

One more way IT EXCELS AT HANDLING.

Handling hairpins and S-curves isn't nearly as impressive if you can't also handle the day-to-day. Fortunately, the five-door sportback design of the CT provides the ultimate in flexibility and convenience. And, with the added versatility of a 60/40 split rear seat and secondary rear storage compartment with built-in organizer, getting on the road is as easy as it is fun.

To understand why it's so far ahead,
JUST LOOK WHERE IT BEGAN.

The CT wasn't only engineered to be the next great Lexus Hybrid, it was engineered to be the next great Lexus. Period. In fact, it was designed by the same chief engineer who brought us our finest vehicle to date – our flagship LS 600h L premium luxury hybrid sedan. While its sculpted front end introduces a new design direction for Lexus, the rigorous standards behind its manufacture remain unchanged: An exterior polished by hand. A dust free painting facility. And an exhaustive test drive over a variety of road conditions by a specialist thoroughly familiar with the CT – and all that its emblem represents.

WHIPLASH INJURY LESSENING (WIL) SEATS¹⁶

In the event of certain rear-end collisions, the front seatbacks in the CT are designed to push backward, allowing the occupant to sink into the seat. This can help to limit excessive head movement by reducing the space between the occupant's head and headrest, decreasing the severity of whiplash injury.

AVAILABLE BACKUP CAMERA

An available backup camera² system can display a wide-angle view of what the camera detects behind the vehicle on the available navigation screen or, in a section of the rearview mirror itself depending upon the option selected.

LED LIGHTING

The CT features up to 89 individual light-emitting diodes (LEDs). Among them, distinctive daytime running lights provide an aggressive appearance. And, striking in their own right, available low-beam LED headlamps use less energy, last longer and deliver better illumination than conventional bulbs.

THE DEALERSHIP EXPERIENCE

When you visit one of our dealerships, make yourself at home by helping yourself to a beverage and internet access.[†] When picking up your new Lexus, our associates will make the transition seamless. We can help you with everything from setting your favourite radio stations to connecting and transferring your compatible cell phone's contacts to the available Bluetooth[®] system on your vehicle. Rest assured your car will experience the finest treatment as well, with a complimentary car wash with every service.

CLUB LEXUS

A complimentary Club Lexus membership is offered to all new, pre-owned or leased Lexus owners. Club Lexus provides an exceptional compilation of services, offers, special events, and pertinent information that's of interest to Lexus drivers. You can also view your service history, the status of your factory warranty or Extra Care Protection (ECP) coverage, and the current status of your Lexus Financial Services (LFS) loan or lease. Sign up today and start taking advantage of all of the features at www.clublexus.ca.

LEXUS LIFESTYLE COLLECTION

Enhance your ownership experience even further with the "The Lexus Lifestyle Collection" Catalogue. Every year, Lexus assembles a wide range of brand name products that exemplify the finest design and craftsmanship in the world, which include designer luggage, Lexus apparel, stunning watches, Royal Doulton Glassware and much more. An exceptional item can be found for every driver.

To learn more about the various exclusive services that Lexus offers, please visit www.lexus.ca.

SERVICE COMMITMENT

On top of enjoying the highest quality product, Lexus also delivers through a professional Dealer network, a unique and uncompromising level of after-sales service: First Class Service Concept. The highest level of professionalism and vehicle support ensure that the Lexus ownership experience is as luxurious as the vehicles.

MAINTENANCE

We offer the first two scheduled maintenance services at no charge to you. The first service at 1,600 km will include a thorough vehicle inspection and a road test. The second inspection at 8,000 km will include a change of engine oil and oil filter.

EXTRA CARE PROTECTION

Extend beyond the new vehicle warranty and enhance your peace of mind with Lexus Extra Care Protection.

WARRANTY

Our Lexus Warranty Comprehensive Coverage includes:

- 48 months/80,000 km (includes tires).
- Hybrid-Related Components: 96 months/160,000 km (applies to battery control module, hybrid vehicle control module, hybrid battery and the inverter/converter).
- Powertrain: 72 months/110,000 km.
- Corrosion Perforation: 72 months/unlimited kilometres.
- Major Emission Control Components: 96 months/130,000 km.

Please see your Lexus Dealer for details.

Lexus will even provide five days of alternate transportation if your vehicle is required to stay at the dealership for an extended period of time due to a warrantable condition.

ROADSIDE ASSISTANCE

As a proud owner of a Lexus vehicle, you won't have to worry about obtaining assistance when mishaps requiring Emergency Roadside Service or Mechanical Breakdown Towing are needed. Throughout Canada and the continental U.S., our Central Emergency Roadside Services Operator will always be there to ensure you receive prompt, efficient services from one of the many facilities qualified under our approved Roadside Assistance Program. Twenty-four hours a day, 365 days a year, we will be there to help.

[†]Internet is available in most Lexus locations.

LUXURY AND CONVENIENCE

SmartAccess¹⁴ with push-button Start/Stop, smart key system
Dual-zone automatic climate control with interior air filter
Rear seat heater ducts
Tilt-and-telescopic steering wheel
Power windows with one-touch auto open/close
Retained accessory power for windows
Power door locks
Cargo lamp
Hybrid blue accented logos and badges
Cruise control
Multifunction, in-key remote entry system with rolling-code technology
Lexus Personalized Settings (LPS) to customize select electronic functions
Illuminated entry system with fadeout
Rear spoiler
Exterior glass with UV reduction
Carpeted floor mats
Tonneau cover

SEATING AND TRIM

NuLuxe trimmed interior
Leather-wrapped steering wheel and metallic shift knob with leather trim
8-way power adjustable (including lumbar) driver's seat
4-way power adjustable passenger's seat
Heated front seats
Fold-down rear seat (60/40 split)

AUDIO, COMMUNICATION AND INSTRUMENTATION

Lexus 6-speaker Premium Surround Sound System with Automatic Sound Levelizer (ASL)
In-dash, single disc CD player
Satellite roof-mounted fin antenna
Integrated XM[®] Satellite Radio³
USB and auxiliary iPod[®]⁴/MP3/Windows Media Audio (WMA) port
Bluetooth[®]⁵ technology
Steering-wheel-mounted audio, phone and display controls
Organic LED multi-information display
Electroluminescent instrumentation
Drive Mode Select with Normal, Sport, ECO and EV (Electric Vehicle) driving modes
Selectable blue or red instrumentation lighting
Selectable ECO driving indicator or tachometer
Outside temperature gauge

STANDARD SAFETY AND SECURITY FEATURES

ACTIVE SAFETY

Smart Stop Technology¹⁵
Four-wheel power-assisted disc brakes
Electronic Controlled Braking (ECB)
Four-sensor, four-channel Anti-lock Brake System (ABS)
Vehicle Stability Control (VSC)¹⁰
Traction Control (TRAC)
Brake Assist (BA)¹¹
Electronic Brake-force Distribution (EBD)
Direct Tire Pressure Monitor System¹²
Water-repellent front-door glass
Variable intermittent windshield wipers with mist function
Intermittent rear-window wiper with washer
Rear-window defroster with auto-off timer
Automatic on/off projector-beam headlamps with LED daytime running lights
Integrated foglamps
Power-adjustable, heated outside mirrors with puddle lamps and integrated turn indicators

PASSIVE SAFETY

Driver's and front passenger's dual-stage airbag system (SRS)¹³
Front seat-mounted side airbags (SRS)¹³
Driver's and front passenger's knee airbags (SRS)¹³
Front and rear side curtain airbags (SRS)¹³
Whiplash Injury Lessening (WIL) front seats¹⁶
Three-point seatbelts for all-seating positions. Pre-tensioners with force limiters for front seats and outboard rear seats
Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for front and outboard mounted rear-passenger seating positions. Emergency Locking Retractor (ELR) only for driver's seat and centre rear-passenger seating position
Height-adjustable front shoulder belt anchors
Child Restraint Seat (CRS) tether anchor brackets for rear outboard seating positions
Rigid body structure with front and rear crumple zones
Side-impact door beams and reinforcements in pillars and door sills
Impact-dissipating upper interior trim
Collapsible steering column
Collapsible brake and driver's footrest pedals
Vehicle Proximity Notification System

SECURITY

Vehicle theft-deterrent and engine-immobilizer system with in-key transponder
Front door handle touch sensor lock/unlock
Tool kit

OPTION PACKAGES

TOURING PACKAGE

- 17-inch 10-spoke aluminum alloy wheels with P215/45R17 tires
- Power moonroof with sliding sunshade
- Storage compartment with accessory power outlet (12 V)

PREMIUM PACKAGE

Includes Touring Package plus:

- Lexus 10-speaker Premium Surround Sound System with Automatic Sound Levelizer (ASL) and in-dash, single disc CD/DVD player⁶
- Leather seat surfaces
- Electrochromic (auto-dimming) outside mirrors
- Electrochromic (auto-dimming) inside rearview mirror with integrated backup camera² and digital compass
- Reverse auto-tilting outside mirrors
- Lexus Memory System to control power driver's seat (except lumbar) and outside mirrors
- Integrated garage door opener
- Rain-sensing intermittent windshield wipers with mist cycle

TECHNOLOGY PACKAGE

Includes Premium Package plus:

- Voice-activated HDD Navigation System¹ with remote touch
- Backup camera² in navigation display
- Leather-seat surfaces
- Electrochromic (auto-dimming) inside rearview mirror with digital compass
- Light Emitting Diode (LED) headlamps
- Headlamp washers
- (Delete storage compartment with accessory power outlet (12 V) and backup camera² in electrochromic inside rearview mirror)

F SPORT PACKAGE

Includes Premium Package plus:

- F SPORT 17-inch 10-spoke aluminum alloy wheels with F SPORT centre wheel ornament, P215/45R17 all-season tires
- Premium black leather with white perforations seat surfaces
- F SPORT scuff plates
- F SPORT-tuned suspension with front and rear lateral performance dampers
- Aluminum sport pedals with rubber inserts
- 3-Spoke F SPORT steering wheel
- F SPORT upper and lower grille inserts and rear spoiler
- Striated graphite metallic dash panel trim

PERSONALIZE YOUR LEXUS

- Block heater
- Cargo net
- Illuminated door sills

ACCESSORIES

- F SPORT 17-inch alloy wheels
- F SPORT lowering springs
- F SPORT sway bars

THE BEST WAY TO FINANCE YOUR NEW CT – EASILY, QUICKLY, AFFORDABLY.

• Lexus Financial Services does nothing but finance or lease Lexus vehicles; thus, we know financing and we know Lexus. • Our interest rates are fully competitive and our terms flexible (up to 72 months). • Since we offer Web services, you can: A: check out our rate; B: save time by getting credit approved on-line – before checking out the vehicle(s) of your interest. • Finally, one-stop shopping (at all Lexus Dealerships) saves you time. We invite you to visit us at lexus.ca or call us at 1-800-26-LEXUS.

LEXUS CANADA. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Your Lexus Dealer is the best source for up-to-date information.

Lexus invites you to join us in Club Lexus, a very exceptional compilation of services, offers, special events and pertinent information available only to Lexus owners. To register for Club Lexus, please visit lexus.ca or call 1-800-26-LEXUS.

1. The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System *Owner's Manual* for further details. Navigational systems in some vehicles are available with bilingual capability, XM NavTraffic® requires a monthly service fee and is designed to provide real-time traffic or alternative routes of travel. NavTraffic will only be available in Montreal, Vancouver and Toronto. Both Montreal and Vancouver will only have incident data and Toronto will have both incident and flow data. **2.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. **3.** Functioning Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. **4.** iPod is a registered trademark of Apple Inc. **5.** Lexus tests certain Bluetooth® capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual capability. **6.** A single disc DVD player is standard on vehicles equipped with the dual-screen Rear-Seat Entertainment System. A separate DVD player or game system utilizing the centre console's video/audio inputs is required in order to use the split-screen function. **7.** Maximum output indicates engine plus HV battery output. **8.** The Lexus Hybrids have nearly 70% fewer smog-forming emissions compared against similarly equipped conventional gasoline power vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements. **9. FUEL CONSUMPTION RATING.** Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. **10.** Vehicle Stability Control (VSC) and if applicable Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **11.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **12.** The Lexus Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **13.** All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your *Owner's Manual* for further information/warnings. **14.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **15.** Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes to bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your *Owner's Manual* for further details. **16.** Whiplash Injury Lessening (WIL) front seats can help reduce the extent of whiplash in certain types of rear end collisions. **17.** HAC is designed to help minimize backward rolling on steep ascents. These suggestions are not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details.

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package.

Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached.

Lexus reminds you to place small children in CSA-approved car seats – in the rear seats, to always wear your seatbelts, and to drive safely.
