2016

LX

## A NEW IDEA IS BORN

Before Lexus, cars tended to be one thing or another. Some delivered performance, but not comfort; safety, but not style. With the 1990 release of the LS 400, Lexus introduced itself as a challenger to the status quo, bringing luxury, performance, and technology together for the first time. Over the quarter-century of relentless innovation that followed, Lexus has written a story that is truly Amazing in Motion.

## 'YET' PHILOSOPHY

Opposites in harmony. This idea is the heart of the Lexus 'Yet' Philosophy, one of our guiding principles since we introduced the very first LS 400. It is why you are able to experience an exhilarating, powerful drive, yet with exceptional fuel efficiency. It is the epitome of luxury, yet with equally high environmental standards. It means surrounding you with the most advanced, yet elegantly intuitive, technology.

## OMOTENASHI

Anyone can deliver customer service. But only Lexus delivers *omotenashi* – the Japanese word for hospitality. More than simply fulfilling your requests, at the heart of *omotenashi* is anticipating your needs in advance and delivering service so exceptional it becomes an unexpected pleasure. This higher level of attention comes from an insightful understanding of your individual wants and needs, and a commitment to treating every customer as nothing less than a guest in our home. Like every car we build, we apply the same unrivalled standard to customer care.

## L-FINESSE

The philosophy of 'Yet' is also at the heart of the Lexus design philosophy, L-Finesse. The 'L' is for leading edge, and 'Finesse' is the attention paid to every single detail. It is this fusion of radical design concepts yet subtle refinements that surrounds you in the ultimate in both exterior and interior design.

## SIGNATURE

The new, yet already iconic, Lexus spindle grille boldly commands attention with its aggressive yet graceful lines. The dramatic curve of our L-shaped LED taillights appear to have been sliced out of the surrounding metal with purpose yet delicacy. Subtler in design yet equally powerful in effect are features like ambient lighting, which acts as much as a visual aid as a warm welcome, and interior instrumentation that perfects both classic and modern styling.

## TAKUMI

At Lexus, we never forget that our cars are driven by real humans in the real world. That's why the power of human touch and sight are integral to every step of our manufacturing process. This synergy of technology and craftsmanship comes together in the skilled hands and eyes of the *takumi*, or master craftspeople. To be a *takumi* is to have both exceptional technical expertise and sure senses honed by decades of rigorous experience. In other words, the flawless fit and finish of every Lexus, as well as your enjoyment and peace of mind, is literally in their hands.

## PERFECTED FORM

38 days, 67 labour-intensive manufacturing steps are required to create our *Shimamoku* - "striped wood" - steering wheel, a previously unimaginable work of art. Through a fusion of modern machinery and traditional craftsmanship, the end result pleases both the eye and touch.

## FLAWLESS FINISH

The *takumi* who work in the body stamping division think in microns. Running their hands over moulds and body pieces, they are able to detect the presence of a fleck of dust or a strand of hair. Their mission is to prevent the slightest imperfection from compromising the flawless quality of your Lexus.

## STITCHING DOJO

Those *takumi* chosen to stitch the dash of the new ES must undergo the most rigorous training, including a remarkable test of the utmost dexterity: to fold an origami cat in under 90 seconds using one hand - their non-dominant hand. Only those who demonstrate this obsessively developed skill are capable of rewarding you with craftsmanship of this highest order.

## HYBRID

With over 500,000 hybrid vehicles on the road and a greater selection than any other luxury manufacturer, hybrid is neither new nor novel to Lexus. Designing vehicles that deliver the most visceral performance, yet minimize environmental impact, hybrid is a core technology deep at the heart of Lexus. True to our 'Yet' Philosophy, Lexus Hybrid Drive combines an advanced electric motor and powerful yet efficient gasoline engine to deliver a perfectly balanced drive.

## SUSTAINABILITY

We lead the industry in more than just hybrid technology. With bio-plastics, made from plants such as bamboo, sugarcane, and soybeans, already used in the cargo area of the CT and in the seats of the RX, Lexus ensures its cutting edge innovations preserve our environment.

## LFA

Lexus engineers strove for a decade to create a world-class supercar. In 2010, the result was released: the LFA, a cutting edge machine capable of reaching 100 km/h in just 3.7 seconds. Translating power delivery, handling, and sound into instantaneous and potent sensory stimulation, it has come to represent Lexus, and defines the peak performance of its lineage, the F and *F SPORT* lines.

## F

Our F lineup epitomizes the pinnacle of our devotion to high performance and agenda-setting engineering. More than finely tuned handling, aggressive bodywork, and exceptional sporting interiors, these vehicles broadcast speed at every turn.

The 5.0-litre V8 of the IS F supplies track-worthy acceleration via an 8-speed Sport Direct-Shift Transmission that enables lightning fast manual shifts. Even at a standstill, the powerful, projecting form of the LF-CC conveys forward momentum.

## *F SPORT*

From seat design and suspension tuning, to advanced aerodynamics and bold styling, the powerful genes of the LFA live in every Lexus that wears the *F SPORT* badge. Like an injection of racing technology, these high performance packages supply better chassis rigidity, enhanced brakes, transmission, and more. Performance is a pillar of every Lexus model. The *F SPORT* package amplifies it.

## CUTTING EDGE SIMULATION

It may not have the stunning lines Lexus is known for, but we are just as proud of this machine as any vehicle we ever built. And just like our vehicles, we built it for you. The world's most advanced driving simulator puts a real driver, in a real Lexus, in real driving situations, but without the real consequences. By observing how drivers react to dangerous situations we can better develop technology that anticipates these dangers in order to help drivers react quickly to avoid them. At Lexus, a world without accidents isn't just a dream, it's a distinct possibility.

## LEXUS SAFETY SYSTEM-PLUS (LSS+)

True to innovative form, Lexus has raised its safety standards with Lexus Safety System+, an optional accessory package of automated driver-assist technologies. Introduced for select models in 2016, and available on each model by 2018/19, LSS+ helps protect against accidents by scanning for hazards and working to avoid them. With features like Pre-collision System,<sup>16</sup> Lane Departure Alert,<sup>29</sup> Automatic High Beam,<sup>31</sup> and Radar Cruise Control,<sup>22</sup> the integrated system helps prevent or mitigate collisions, assist drivers to keep within their lane, and enhance road safety during night driving. Whatever the speed, LSS+ enhances driver awareness, decision-making, and vehicle operations to deliver a safer, more engaging driving experience. Visit [lexus.ca](http://lexus.ca) for more details.

LEXUS SAFETY SYSTEM +

## LF-C2

The LF-C2 roadster signals a new frontier for Lexus. Its bold "Time in Design" styling allows light to caress its angled body and showcase different features depending on where one views it from. Amplifying this fusion of design and performance, the LF-C2 also features an open cabin to deliver an even freer sense of movement.

## LF-SA

The LF-SA 2+2 ultra-compact announces itself through a dynamic, muscular exterior, paired with nimble handling to create a sense of unbridled performance in even the most constricted urban environments. With a Stellar silver exterior finish that captures a spirit of space exploration, this new Lexus signals its ceaseless drive towards new horizons.

## THE STORY CONTINUES

Driving forward, the relentless innovation that defines the history of Lexus shows no signs of letting up. Experience this continuing revolution in the 2016 Lexus LX.

## THE LUXURY OF POWER.

Simply put, the Lexus LX 570 overdelivers. Every detail embodies the very best. Now with 8-speed automatic transmission, this luxurious vehicle also includes standard safety features such as Blind Spot Monitor,<sup>28</sup> Rear Cross Traffic Alert,<sup>30</sup> Lane Departure Alert,<sup>29</sup> plus standard luxury features such as Head-Up Display and Drive Mode Select.

## EVERY TRIP BEGINS WITH A MOMENT OF PAUSE.

With bold contours and details, the 2016 LX takes on an aggressive stance with its striking angles, while retaining its elegance with sophisticated features. The stunning spindle grille is framed by intelligent high beam lamps.<sup>27</sup> 20-inch aluminum alloy wheels, roof rails<sup>24</sup> and a roof-mounted rear spoiler complete the arresting LX picture.

**OUTER STRENGTH** A welded steel body and fully boxed ladder frame chassis unite to provide remarkable strength that eliminates flex and twist. The exterior mirrors, which are power adjustable and folding as well as auto dimming with puddle lamps, are also linked to seat memory. Plus, you'll enjoy chrome finished door handles and grille, LED Daytime Running Lights and fog lamps and Auto-Levelling LED Low and High Beam Headlamps with Automatic High Beam.<sup>31</sup>

## ALWAYS TRAVEL IN FIRST CLASS.

From the ergonomically advanced driver cockpit to the perforated premium leather, now available in Cabernet, its interior is an oasis of refined comfort. Four-zone independent climate control keeps passengers in perfect comfort as they enjoy the Dual Screen Rear Seat DVD Entertainment System.<sup>8,9</sup> Select from generous seating for 8 or multiple storage configurations thanks to power sliding 2nd row seats and power folding 3rd row seats.

**STAY COMFORTABLY CONNECTED** Always stay connected with two USB ports and wireless charging. Plus, the second row features manual sunshades and ventilated seats. So even your passengers can work, and play, in comfort.

**EVERYTHING AT YOUR FINGERTIPS** Driver comfort, control, and convenience that leaves nothing to be desired. A voice-activated navigation system,<sup>1</sup> sharp electroluminescent instrumentation and a backup camera.<sup>2</sup> Standard Head-Up Display projects key information like speed, gear, RPM, and audio onto the bottom of the windshield ahead. Also included is Drive Mode Select, so when you're in the driver's seat of the LX, you truly have it all.

**AUDIO, REFINED** The 19-speaker Mark Levinson<sup>®</sup> Reference Surround Sound Audio System<sup>3</sup> with 7.1-channel architecture<sup>4</sup> and in-dash, single-feed, six-disc DVD/CD player and integrated XM<sup>®</sup> Satellite Radio<sup>5</sup> are just the start of some beautiful music. You can now charge your devices wirelessly and have the choice of connecting with two USB audio inputs for iPhone/iPod<sup>®</sup> compatible music player or wirelessly with Bluetooth<sup>®7</sup>.

## ALL 383 HORSES ARE THOROUGHBREDS.

A 5.7 litre, 383 horsepower<sup>12</sup> 32 dual VVT-i V8 with an amazing 403 lb-ft of torque<sup>12</sup> tells you all you need to know about what power lies in wait under the LX hood. You'll feel raw power tempered by a seamless eight-speed sequential-shift transmission and an adaptive Variable Suspension system that makes adjustments every second of the drive.

**YOUR RIDE. YOUR STYLE.** The choice is yours with new Drive Mode Select, offering the driver various driving modes to match their preference. This includes Normal, ECO, Comfort, Sport S/S+ and Customize modes and 8-speed Auto Transmission, no matter how to hit the open road, you'll do it your way.

## YOUR ARMOURED CAR, IN SUV FORM.

The LX is enveloped with 360 degrees of safety. Ten standard air bags,<sup>19</sup> direct tire pressure monitoring,<sup>18</sup> Hill Start Assist Control (HAC),<sup>17</sup> Downhill Assist Control (DAC),<sup>17</sup> Trailer Sway Control, and Lane Departure Alert (LDA)<sup>29</sup> are just the start. From the tires up, the LX is stacked with innovative features to help keep you safe.

**THE SCIENCE OF SAFETY** You'll stay doubly protected with the standard Blind Spot Monitor,<sup>28</sup> which is rear-mounted radar that detects vehicles you can't see and lights an alert icon in your side mirror. Plus, Rear Cross-Traffic Alert<sup>30</sup> uses quasi-millimetre wave radar to help detect approaching vehicles and warns the driver via audio alert and side-mirror indicators.

**LIGHTS, IGNITION, ACTION** From its Low and High Beam Led Headlamps and Automatic High Beam<sup>27</sup> and rain-sensing wipers that de-ice, the LX keeps your view of the road free and clear.

**STEADY AS IT GOES. OR STOPS.** Fulltime 4WD with TORSEN limited-slip centre differential,<sup>23</sup> Vehicle Stability Control (VSC),<sup>14</sup> Variable Gear-Ratio Steering (VGRS), and Crawl Control ensure you have firm control over your progress. Electronic Brake Force Distribution (EBD)<sup>15</sup> provides optimal brake pressure at each wheel, especially as you apply the brakes through a curve.

## STANDARD LUXURY

### LUXURY AND CONVENIENCE:

Head-Up Display  
 SmartAccess with push-button Start/Stop<sup>20</sup>  
 Four-zone automatic climate control  
 Power-adjustable tilt-and-telescopic steering wheel  
 Multi-function, in-key remote entry system with rolling-code technology  
 HomeLink<sup>®</sup> universal transceiver<sup>26</sup>  
 Roof-mounted rear spoiler  
 Rear privacy glass  
 Second-row manual sunshades  
 Integrated backup camera<sup>2</sup>  
 Power moonroof  
 Driver Seat Memory System  
 Roof rails<sup>24</sup>  
 Adaptive Variable Suspension (AVS)  
 Active Height Control (X-AHC)  
 Power rear door  
 Running boards with built-in courtesy lights  
 Integrated tow-hitch receiver<sup>25</sup>  
 Intuitive parking assist  
 Wide-view front and side monitor<sup>10</sup>  
 Wallet-size smart card key  
 Steering wheel paddle shifters  
 Front console cool box  
 Rain-sensing wipers with de-icer

### SEATING AND TRIM:

Perforated premium leather seat surfaces  
 Heated and ventilated front seats  
 Heated and ventilated outboard middle-row seats  
 Heated wood and leather trimmed steering wheel  
 12-way driver (including lumbar) and 10-way front passenger (including lumbar) power-adjustable seats  
 Power-sliding, 60/40 split middle-row seat with 40/20/40 split seatback  
 Power-folding, 50/50 split third-row seats  
 Illuminated Lexus doorsill trim

### AUDIO, COMMUNICATIONS AND INSTRUMENTATION:

19-speaker Mark Levinson<sup>®</sup> Reference Surround Sound Audio System with 7.1-channel architecture and in-dash, single-feed, six-disc DVD/CD auto-changer<sup>3,4</sup>  
 Wireless Charger  
 Voice-activated navigation system<sup>1</sup> with Remote Touch Interface  
 12.3" high-definition TFT liquid crystal EMV display  
 Dual Screen Rear Seat DVD Entertainment System<sup>8,9</sup>  
 Electroluminescent instrumentation  
 Integrated XM<sup>®</sup> Satellite Radio<sup>5</sup>  
 2 USB audio inputs for iPhone/iPod compatible music player integration with audio system<sup>6</sup>  
 Bluetooth<sup>®</sup> audio profile for wireless integration of compatible music players with in-vehicle audio system<sup>7</sup>  
 Drive Mode Select with Normal, Eco, Comfort, Sport S/S+ and Customize modes

## STANDARD SAFETY AND SECURITY

### ACTIVE SAFETY:

Blind Spot Monitor<sup>28</sup>  
 Rear Cross-Traffic Alert (RCTA)<sup>30</sup>  
 Electronic Parking Brake (EPB)  
 Lane Departure Alert (LDA)<sup>29</sup>  
 Pre-Collision System<sup>16</sup>  
 Dynamic Radar Cruise control  
 Vehicle Stability Control (VSC)<sup>14</sup>  
 Electronic brake-force distribution (EBD)<sup>15</sup>  
 Smart Stop Technology<sup>21</sup>  
 Direct Tire Pressure Monitor System<sup>18</sup>  
 Full-time 4WD with TORSEN limited-slip centre differential<sup>23</sup>  
 Hill-start Assist Control (HAC)<sup>17</sup>  
 Downhill Assist Control (DAC)<sup>17</sup>  
 Variable Gear-Ratio Steering (VGRS)  
 Manual-locking centre differential  
 Crawl Control  
 Multi-Terrain Traction Control  
 Offroad Turn Assist  
 Trailer Sway Control  
 LED daytime running lamps  
 Bi-LED headlamps with dynamic auto-levelling  
 Intelligent High-Beam headlamps<sup>27</sup>  
 Headlamp washers  
 LED brake lamps  
 Power-folding, heated auto-dimming side view mirrors with puddle lamps

### PASSIVE SAFETY:

Driver and front passenger airbag system (SRS)<sup>19</sup>  
 Front seat-mounted side airbags<sup>19</sup>  
 Front and rear side curtain airbags<sup>19</sup>  
 Driver and front-passenger knee airbags<sup>19</sup>  
 Middle-row outboard seat-mounted side airbags<sup>19</sup>  
 Child Restraint System (CRS) tether anchor brackets for middle-row outboard seats<sup>19</sup>  
 Active front headrests<sup>11</sup>

### SECURITY:

Vehicle theft-deterrent system  
 Engine immobilizer system

## BODY AND DIMENSIONS

### OVERALL LENGTH

5,080 mm (200")  
With towing hitch

### WHEELBASE

2,850 mm (112.2")

### GROUND CLEARANCE

225 mm (8.9")

### WIDTH

1,980 mm (78.0")

### HEIGHT

1,910 mm (75.2")

### HEADROOM

(front/middle/rear)  
972/989/909 mm (38.3/38.9/35.8")

### LEGROOM

(front/middle/rear)

## SERVICE COMMITMENT

On top of enjoying the highest quality product, Lexus also delivers through a professional Dealer network, a unique and uncompromising level of after-sales service. First Class Service Concept. The highest level of professionalism and vehicle support ensure that Lexus ownership experience is as luxurious as the vehicles.

## WARRANTY

Our Lexus Warranty Comprehensive Coverage includes:

48 months/80,000 km

### **Hybrid-Related Components**

96 months/160,000 km (applies to battery control module, hybrid vehicle control module, hybrid battery and the inverter/converter)

### **Powertrain**

72 months/110,000 km

### **Corrosion Perforation**

72 months/unlimited kilometres

### **Major Emission Control Components**

96 months/130,000 km

Please see your Lexus Dealer for details. Lexus will even provide five days of alternate transportation if your vehicle is required to stay at the dealership for an extended period of time due to a warrantable condition.

## EXTRA CARE PROTECTION

Extend beyond the new vehicle warranty and enhance your peace of mind with Lexus Extra Care Protection.

## ROADSIDE ASSISTANCE

As a proud owner of a Lexus vehicle you won't have to worry about obtaining assistance when mishaps requiring Emergency Roadside Service or Mechanical Breakdown Towing are needed. Throughout Canada and the continental U.S., our Central Emergency Roadside Services Operator will always be there to ensure you receive prompt, efficient services from one of the many facilities qualified under our approved Roadside Assistance Program. Twenty-four hours a day, 365 days a year we will be there to help.

## LEXUS FINANCIAL SERVICES

Come talk to the experts whose exclusive business is financing and leasing Lexus vehicles. You'll find our interest rates fully competitive and our terms flexible - up to 72 months. Our online services conveniently allow you to confirm current rates and receive your credit approval in advance of selecting the Lexus that's right for you. For help, visit your Lexus Dealer or [lexus.ca](http://lexus.ca), or call 1-800-26-LEXUS.

### **LEXUS CANADA**

Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Some of the photography in this brochure features U.S. or overseas models, shown with optional equipment that may not be available in Canada. Your Lexus Dealer is the best source for up-to-date information.

Lexus, One Toyota Place,  
Toronto, Ontario M1H 1H9

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package. Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached. Lexus reminds you to place small children in CSA-approved car seats - in the rear seats, to always wear your seatbelts, and to drive safely.

**1.** The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System Owner's Manual for further details. **2.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. **3.** Mark Levinson is a registered trademarks of Harmon International Industries Inc. **4.** Continuous average power, all channels driven, at less than 01% THD; 20-20,000 Hz. **5.** Functioning Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. **6.** iPod® and iPhone® are registered trademarks of Apple Inc. **7.** Lexus tests certain Bluetooth® capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual capability. **8.** A single disc DVD player is standard on vehicles equipped with the dual-screen Rear-Seat Entertainment System. A separate DVD player or game system utilizing the centre console's video/audio inputs is required in order to use the split-screen function. **9.** Headphones are for passenger use only. Do not use while operating vehicle. **10.** The Wide-view Front and Side Monitor does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. **11.** Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. **12.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. **13.** FUEL CONSUMPTION RATING. These estimates are based on the Government of Canada's approved criteria and testing methods. The actual fuel consumption of the vehicle may vary. Refer to the Government of Canada publication EnerGuide Fuel Consumption Guide. **14.** Vehicle Stability Control (VSC) and if applicable Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your Owner's Manual for further details. **15.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **16.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your Owner's Manual for further information. **17.** DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. HAC is designed to help minimize backward rolling on steep ascents. These suggestions are not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. **18.** The Lexus Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your Owner's Manual for details. **19.** All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your Owner's Manual for further information/warnings. **20.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **21.** Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes to bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. **22.** Dynamic Radar Cruise Control was designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important cautions and instructions. **23.** TORSEN® is a registered trademark of Zexel Torsen, Inc. **24.** Roof rack capacity is 130 lb. Crossbars are not recommended for luggage. Please see your Owner's Manual for details. **25.** Before towing, confirm your vehicle and trailer are compatible, hooked up properly and you have any necessary additional equipment. If gross trailer weight is above 5,000 lb (2,268 kg), it is necessary to use a weight-distributing hitch with sufficient capacity. Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer-hitch manufacturer and vehicle Owner's Manual. The maximum amount you can tow depends on the total weight of any cargo, occupants and available equipment. **26.** HomeLink is a registered trademark of Johnson Controls. **27.** The Intelligent High Beam headlamps can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually change the high beams from on to off. Please see your Owner's Manual for details. **28.** Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are severe limits to the function, detection range and clarity of the monitor system. For a complete list of limitations and directions regarding use of the monitor system, please see your Owner's Manual. **29.** Lane Departure Alert is designed to read the lane markers of certain roads. If the vehicle approaches the outer limits of its lane, the system warns the driver that corrective action may be required. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. Please see your Owner's Manual for further information. **30.** Do not rely exclusively on the Rear Cross-Traffic Alert System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. For a complete list of limitations and directions, please see your Owner's Manual. **31.** Automatic High Beam feature can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually adjust the highbeams from on to off. Please see your Owner's Manual for details.
