 LEXUS

IF AT FIRST YOU DO
SUCCEED, STILL TRY,
TRY AGAIN.

2015

RX

350
450h
F SPORT

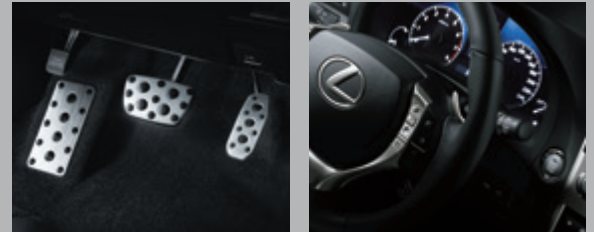

After launching the world's first luxury crossover to critical acclaim, there's been no place for the Lexus RX to go but further up. A look at the 2015 RX shows the continuing dedication to that pedigree. Choose from the 270-hp¹³ six-speed RX 350, the performance-tuned eight-speed RX 350 *F SPORT*, or the RX 450h – featuring 295^{11,13} total system net horsepower and the fuel efficiency of a compact car.

ONLY GREYHOUNDS CHASE IT.

Behind the boldly aggressive attitude lies boldly aggressive performance. The 270-hp¹³ 3.5-litre V6 in the *F SPORT* is mated to a paddle-shifted eight-speed transmission – quite literally putting power at your fingertips. The performance-tuned suspension is justly worthy of the *F SPORT* moniker, as are track-inspired interior finishes.

LEATHER ACCENTS

Exclusive *F SPORT* styling includes leather-wrapped steering wheel and shift knob, and perforated black leather sport seats with contrast stitching.

ALUMINUM DETAILS

Aluminum pedals and scuff plates are a stylistic nod to *F SPORT* racing roots at legendary Fuji Speedway.

MUTE THE WEATHERMAN.

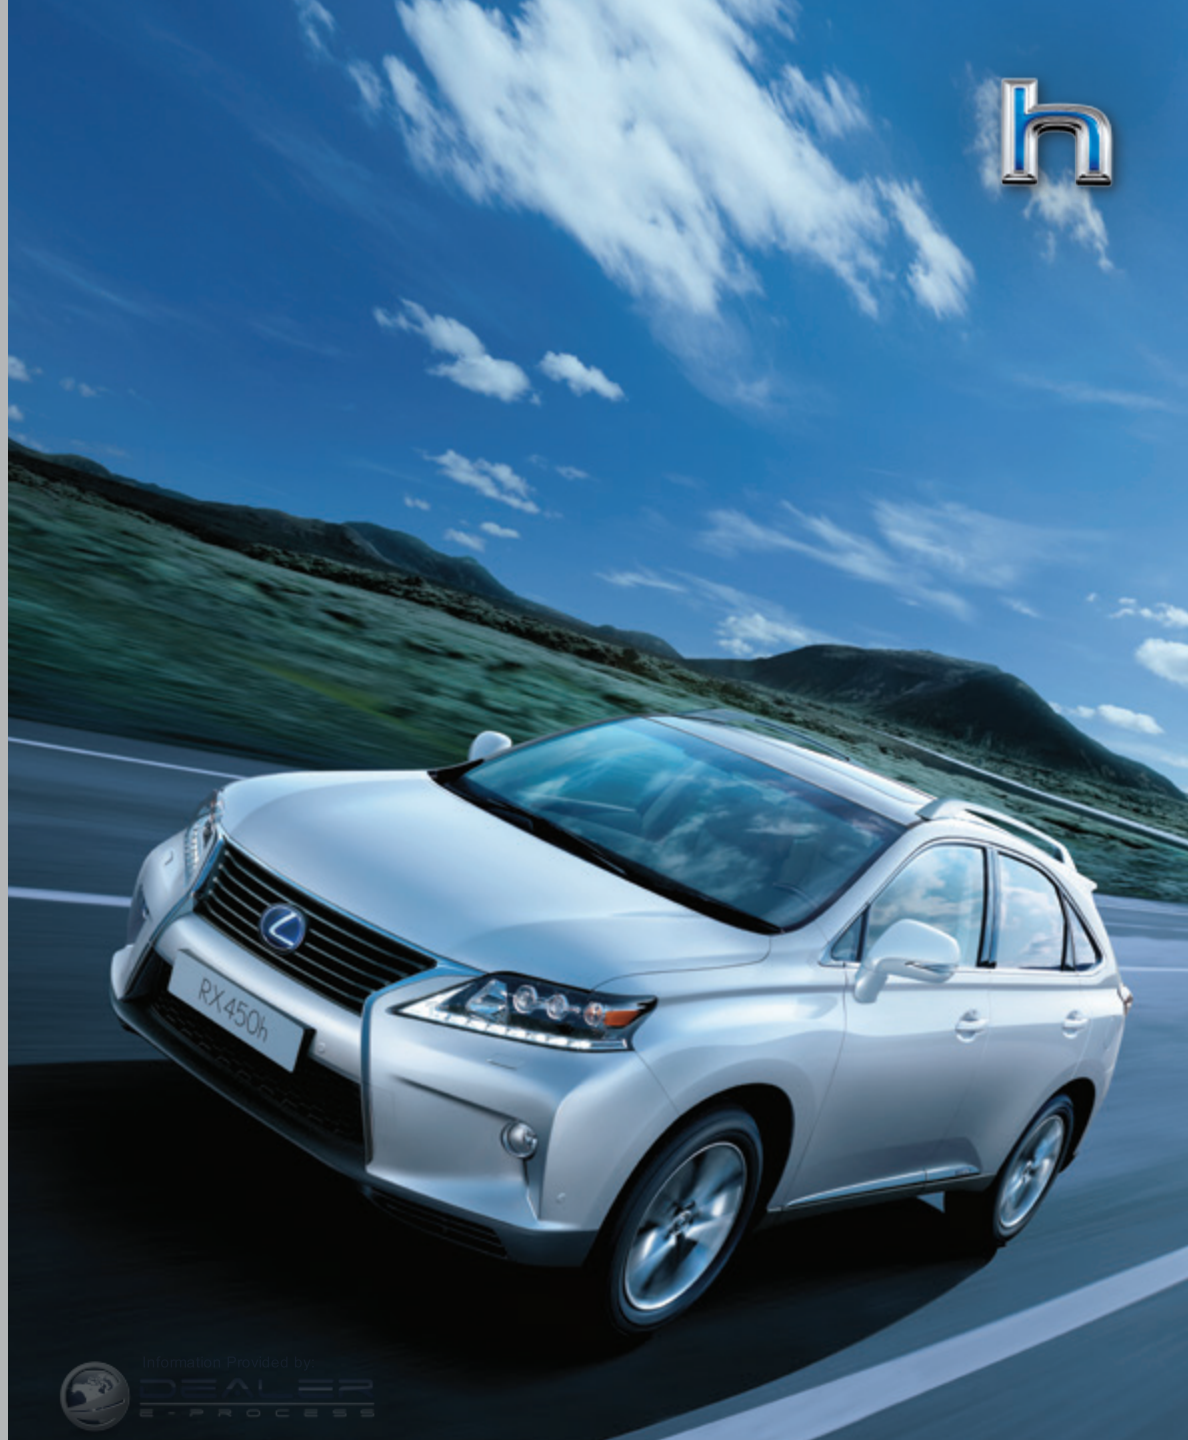

Active Torque Control All-Wheel Drive (AWD) is a high-tech system that delivers exceptional grip. Under normal conditions, engine power is directed to the front wheels to maximize fuel efficiency. But whenever sensors detect traction loss, up to 50% of power will be reallocated from front to rear wheels to help maintain grip.

BE KIND TO
MOTHER NATURE
WHILE YOU PUNISH
THE ROAD.

With innovation based on over 10 years of real world experience, the technology inside a Lexus RX 450h is as reliable as it is remarkable. Count on its Lexus Hybrid Drive System to deliver 295^{11,13} total system net horsepower and the fuel efficiency of a compact car. Plus, it produces nearly 70% fewer smog-forming emissions than a comparable gasoline or diesel vehicle.¹²

FIFTEEN MORE SURROUND SOUND SPEAKERS THAN YOUR OLD "HAPPY PLACE."

The 2015 RX boasts innovative technologies that keep you both safe and luxuriously comfortable. Like available 15-speaker Mark Levinson® Surround Sound Audio³ and available remote-linked opening windows and moonroof. And for peace of mind, the available Blind Spot Monitor²³ to help avoid potential collisions.

REAR ENTERTAINMENT

Available dual-screen Rear-Seat Entertainment System^{8,9} (with wireless headphones) enables two video sources to be viewed at the same time.

REMOTE TOUCH

Easily navigate menus with the available Remote Touch display control. Ergonomically-designed with intuitive at-your-fingertips selection, the Remote Touch control is accessible to both the driver and front passenger.

AIRBAGS

The RX is equipped with dual-stage front, knee and side airbags for the driver and front passenger, and side airbags²⁰ for the rear outboard passengers. Also included are roll-sensing side-curtain airbags²⁰ that cover the length of the cabin.

KEY FEATURES & SPECIFICATIONS

LUXURY AND CONVENIENCE:

- SmartAccess with push-button Start/Stop²¹
- Power-adjustable tilt-and-telescopic steering wheel
- Multi-function, in-key remote entry system with rolling-code technology
- HomeLink® universal transceiver⁴
- Retractable tonneau cover
- Auto-dimming inside rearview mirror
- Compass
- Driver Seat Memory System
- Power rear door
- Roof-mounted rear spoiler
- Rear privacy glass
- Backup camera²
- Power moonroof
- Roof rails
- Blue accented logos and badges (RX 450h)

SEATING AND TRIM:

- Perforated leather seat surfaces
- Heated and ventilated front seats
- Heated leather and wood-trimmed steering wheel (RX 450h)
- 10-way power-adjustable driver and front passenger seats (including lumbar)
- Leather-wrapped steering wheel and shift knob
- Reclining and sliding rear seat (40/20/40 split fold-down)
- Espresso bird's-eye maple wood trim (with Parchment or Saddle Tan interior)
- Ebony bird's-eye maple wood trim (with Light Grey or Black interior)

AUDIO, COMMUNICATIONS AND INSTRUMENTATION:

- 12-speaker Lexus premium sound system
- 7-inch Lexus Display Audio System
- USB and auxiliary minijack audio input for iPod/iPhone® and music player integration with audio system⁶
- Bluetooth® audio profile for wireless integration of compatible music players and automatic phonebook synchronization⁷
- Electroluminescent instrumentation
- Steering wheel-mounted audio, phone and display controls
- Organic LED multi-information display in gauge cluster
- Integrated XM® Satellite Radio⁵
- Driving Modes with Normal, Sport, ECO and EV (RX 450h)
- Voice-activated Navigation System with Remote Touch¹ (RX 450h)

ACTIVE SAFETY:

- Smart Stop Technology²²
- Vehicle Dynamics Integrated Management (VDIM)¹⁶ (RX 450h)
- Vehicle Stability Control (VSC)¹⁶
- Electronic brake-force distribution (EBD)¹⁷
- Blind spot monitor²³ (RX 450h)
- HID headlamps with dynamic auto-levelling
- LED brake lamps
- LED daytime running lamps
- Intuitive parking assist (RX 450h)
- Electronic controlled braking (RX 450h)
- Direct Tire Pressure Monitor System¹⁹
- Water-repellent front-door glass
- Variable-intermittent windshield wipers with de-icer
- Integrated fog lamps
- Power-folding auto-dimming side view mirrors
- Headlamp washers

PASSIVE SAFETY:

- Driver and front-passenger airbag system (SRS)²⁰
- Front seat-mounted side airbags²⁰
- Front and rear side curtain airbags²⁰
- Driver and front-passenger knee airbags²⁰
- Child Restraint System (CRS) tether anchor brackets for rear outboard seats
- Active front headrests¹⁰

SECURITY:

- Vehicle theft-deterrent system
- Engine immobilizer system
- Tool kit
- First aid kit

LEXUS GENUINE ACCESSORIES:

- Block heater
- Bodyside mouldings
- Cargo liner
- Hood deflector
- Paint protection film
- Roof rack crossbars²⁵
- Towing hitch platform²⁴
- Towing hitch receiver²⁴
- Trailer hitch ball – 1 7/8" ²⁴
- Trailer hitch ball – 2" ²⁴

LEXUS CANADA

Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Some of the photography in this brochure features US or overseas models, shown with optional equipment that may not be available in Canada. Your Lexus Dealer is the best source for up-to-date information.

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package. Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached. Lexus reminds you to place small children in CSA-approved car seats - in the rear seats, to always wear your seatbelts, and to drive safely. **1.** The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System Owner's Manual for further details. Navigational systems in some vehicles are available with bilingual capability. **2.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. **3.** Mark Levinson is a registered trademark of Harmon International Industries Inc. **4.** HomeLink is a registered trademark of Johnson Controls. **5.** Functioning Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. **6.** iPod and iPhone are registered trademarks of Apple Inc. All rights reserved. **7.** Lexus tests certain Bluetooth® capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual capability. **8.** A single disc DVD player is standard on vehicles equipped with the dual-screen Rear-Seat Entertainment System. A separate DVD player or game system utilizing the centre console's video/audio inputs is required in order to use the split-screen function. **9.** Headphones are for passenger use only. Do not use while operating vehicle. **10.** Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. **11.** Maximum output indicates engine plus HV battery output. **12.** The Lexus Hybrids have nearly 70% fewer smog-forming emissions compared against similarly equipped conventional gasoline power vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements. **13.** Ratings achieved using the required regular unleaded gasoline with an octane rating of 91 or higher. **14.** FUEL CONSUMPTION RATING. Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. **15.** The RX 450h is not designed to be driven off-road. **16.** Vehicle Stability Control (VSC) and if applicable Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your Owner's Manual for further details. **17.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **18.** HAC is designed to help minimize backward rolling on steep ascents. These suggestions are not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. **19.** The Lexus Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your Owner's Manual for details. **20.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your Owner's Manual for further information/warnings. **21.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **22.** Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes to bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. **23.** Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are severe limits to the function, detection range and clarity of the monitor system. For a complete list of limitations and directions regarding use of the monitor system, please see your Owner's Manual. **24.** Before towing, confirm your vehicle and trailer are compatible, hooked up properly and you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer-hitch manufacturer and vehicle Owner's Manual. The maximum amount you can tow depends on the total weight of any cargo, occupants and available equipment. **25.** Roof rack capacity is 130 lb. Crossbars are not recommended for luggage. Please see your Owner's Manual for details.
