

LEXUS

RX

ALL-NEW 2016 LEXUS

A NEW IDEA IS BORN

Before Lexus, cars tended to be one thing or another. Some delivered performance, but not comfort; safety, but not style. With the 1990 release of the LS 400, Lexus introduced itself as a challenger to the status quo, bringing luxury, performance, and technology together for the first time. Over the quarter-century of relentless innovation that followed, Lexus has written a story that is truly Amazing in Motion.

'YET' PHILOSOPHY

Opposites in harmony. This idea is the heart of the Lexus 'Yet' Philosophy, one of our guiding principles since we introduced the very first LS 400. It is why you are able to experience an exhilarating, powerful drive, yet with exceptional fuel efficiency. It is the epitome of luxury, yet with equally high environmental standards. It means surrounding you with the most advanced, yet elegantly intuitive, technology.

OMOTENASHI

Anyone can deliver customer service. But only Lexus delivers *omotenashi* – the Japanese word for hospitality. More than simply fulfilling your requests, at the heart of *omotenashi* is anticipating your needs in advance and delivering service so exceptional it becomes an unexpected pleasure. This higher level of attention comes from an insightful understanding of your individual wants and needs, and a commitment to treating every customer as nothing less than a guest in our home. Like every car we build, we apply the same unrivalled standard to customer care.

L-FINESSE

The philosophy of 'Yet' is also at the heart of the Lexus design philosophy, L-Finesse. The 'L' is for leading edge, and 'Finesse' is the attention paid to every single detail. It is this fusion of radical design concepts yet subtle refinements that surrounds you in the ultimate in both exterior and interior design.

SIGNATURE

The new, yet already iconic, Lexus spindle grille boldly commands attention with its aggressive yet graceful lines. The dramatic curve of our L-shaped LED taillights appear to have been sliced out of the surrounding metal with purpose yet delicacy. Subtler in design yet equally powerful in effect are features like ambient lighting, which acts as much as a visual aid as a warm welcome, and interior instrumentation that perfects both classic and modern styling.

TAKUMI

At Lexus, we never forget that our cars are driven by real humans in the real world. That's why the power of human touch and sight are integral to every step of our manufacturing process. This synergy of technology and craftsmanship comes together in the skilled hands and eyes of the *takumi*, or master craftspeople. To be a *takumi* is to have both exceptional technical expertise and sure senses honed by decades of rigorous experience. In other words, the flawless fit and finish of every Lexus, as well as your enjoyment and peace of mind, is literally in their hands.

PERFECTED FORM

38 days, 67 labour-intensive manufacturing steps are required to create our *Shimamoku* - "striped wood" - steering wheel, a previously unimaginable work of art. Through a fusion of modern machinery and traditional craftsmanship, the end result pleases both the eye and touch.

FLAWLESS FINISH

The *takumi* who work in the body stamping division think in microns. Running their hands over moulds and body pieces, they are able to detect the presence of a fleck of dust or a strand of hair. Their mission is to prevent the slightest imperfection from compromising the flawless quality of your Lexus.

STITCHING DOJO

Those *takumi* chosen to stitch the dash of the new ES must undergo the most rigorous training, including a remarkable test of the utmost dexterity: to fold an origami cat in under 90 seconds using one hand - their non-dominant hand. Only those who demonstrate this obsessively developed skill are capable of rewarding you with craftsmanship of this highest order.

HYBRID

With over 500,000 hybrid vehicles on the road and a greater selection than any other luxury manufacturer, hybrid is neither new nor novel to Lexus. Designing vehicles that deliver the most visceral performance, yet minimize environmental impact, hybrid is a core technology deep at the heart of Lexus. True to our 'Yet' Philosophy, Lexus Hybrid Drive combines an advanced electric motor and powerful yet efficient gasoline engine to deliver a perfectly balanced drive.

SUSTAINABILITY

We lead the industry in more than just hybrid technology. With bio-plastics, made from plants such as bamboo, sugarcane, and soybeans, already used in the cargo area of the CT and in the seats of the RX, Lexus ensures its cutting edge innovations preserve our environment.

LFA

Lexus engineers strove for a decade to create a world-class supercar. In 2010, the result was released: the LFA, a cutting edge machine capable of reaching 100 km/h in just 3.7 seconds. Translating power delivery, handling, and sound into instantaneous and potent sensory stimulation, it has come to represent Lexus, and defines the peak performance of its lineage, the F and *F SPORT* lines.

F

Our F lineup epitomizes the pinnacle of our devotion to high performance and agenda-setting engineering. More than finely tuned handling, aggressive bodywork, and exceptional sporting interiors, these vehicles broadcast speed at every turn.

The 5.0-litre V8 of the IS F supplies track-worthy acceleration via an 8-speed Sport Direct-Shift Transmission that enables lightning fast manual shifts. Even at a standstill, the powerful, projecting form of the LF-CC conveys forward momentum.

F SPORT

From seat design and suspension tuning, to advanced aerodynamics and bold styling, the powerful genes of the LFA live in every Lexus that wears the *F SPORT* badge. Like an injection of racing technology, these high performance packages supply better chassis rigidity, enhanced brakes, transmission, and more. Performance is a pillar of every Lexus model. The *F SPORT* package amplifies it.

CUTTING EDGE SIMULATION

It may not have the stunning lines Lexus is known for, but we are just as proud of this machine as any vehicle we ever built. And just like our vehicles, we built it for you. The world's most advanced driving simulator puts a real driver, in a real Lexus, in real driving situations, but without the real consequences. By observing how drivers react to dangerous situations we can better develop technology that anticipates these dangers in order to help drivers react quickly to avoid them. At Lexus, a world without accidents isn't just a dream, it's a distinct possibility.

LEXUS SAFETY SYSTEM-PLUS (LSS+)

True to innovative form, Lexus has raised its safety standards with Lexus Safety System+, an optional accessory package of automated driver-assist technologies. Introduced for select models in 2016, and available on each model by 2018/19, LSS+ helps protect against accidents by scanning for hazards and working to avoid them. With features like Pre-collision System,¹ Lane Departure Alert,² Automatic High Beam,³ and Radar Cruise Control,⁴ the integrated system helps prevent or mitigate collisions, assist drivers to keep within their lane, and enhance road safety during night driving. Whatever the speed, LSS+ enhances driver awareness, decision-making, and vehicle operations to deliver a safer, more engaging driving experience. Visit lexus.ca for more details.

LEXUS SAFETY SYSTEM +

LF-C2

The LF-C2 roadster signals a new frontier for Lexus. Its bold "Time in Design" styling allows light to caress its angled body and showcase different features depending on where one views it from. Amplifying this fusion of design and performance, the LF-C2 also features an open cabin to deliver an even freer sense of movement.

LF-SA

The LF-SA 2+2 ultra-compact announces itself through a dynamic, muscular exterior, paired with nimble handling to create a sense of unbridled performance in even the most constricted urban environments. With a Stellar silver exterior finish that captures a spirit of space exploration, this new Lexus signals its ceaseless drive towards new horizons.

THE STORY CONTINUES

Driving forward, the relentless innovation that defines the history of Lexus shows no signs of letting up. Experience this continuing revolution in the all-new 2016 Lexus RX.

LUXURY HAS A NEW EDGE.

When you create the first-ever luxury SUV, you get to rewrite the rules. From the chiseled exterior to the elegant interior, the newly designed fourth-generation RX enhances the premium values pioneered by the model's previous generations. The alluring looks hint at the characteristic exceptional performance and agile handling you unleash when taking the wheel. And this year, Lexus introduces the RX 450h *F SPORT*, delivering a powerful bite with minimal environmental bark. Call it a mark of good breeding.

EVEN ITS SHADOW DRAWS STARES.

From top to bottom, the RX lures drivers and passengers alike. Teasing at the performance beneath the hood is a bold exterior of dynamic lines that frame the assertive spindle grille before building into strongly flared fenders. The seductive strength brought out by the curves make one want to discover what it feels like in action.

DESIGN CUES Incorporated into the gleaming athletic appearance, stylish L-shaped premium LED headlights, premium LED rear combination tail lamps, and floating C-pillars highlight the continuity this all-new RX redesign has with its Lexus pedigree.

SIDE MIRRORS A side glance will tell you a lot with adjustable folding exterior mirrors featuring puddle lamps and integrated signals. An auto-dimming surface keeps you eagle-eyed, reducing the glare from the headlights of other cars.

AVAILABLE TOUCH-FREE BACK DOOR Anticipating your needs before you start your car, the hands-free power back door opens by simply passing your arm over the Lexus badge. You don't even have to set down your load or balance on one foot, allowing intuitive ease of movement before you even set foot inside.

EVERY ELEMENT, REFINED.

Discovering the redesigned interior of the RX is as much an exploration as an open road excursion. Exploring the stunning cockpit design reveals a meticulously hand-stitched dash and excellent finishes that accent each finely-appointed corner. The seductive innovation in the details presents an exquisite experience, as a whole and to the discerning eye.

IMMERSIVE AUDIO/VISUAL With Bluetooth^{®5} and USB capability, the 12-speaker 8-inch display incorporates Auto Sound Levelizer (ASL), integrated XM[®] Satellite Radio,⁶ and, standard on the RX 450h and optional on the RX 350, voice-activated HDD navigation system with Remote Touch. Heighten the thrilling performance of the RX with the equally impressive available 12.3-inch colour display screen and organic TFT multi-information display.

8-WAY POWER ADJUSTABLE SEATS Both front seats provide lumbar support and are dressed in perforated leather that is both heated and ventilated. A memory system also remembers driver preferences for unquestioned comfort. A heated leather-sheathed power tilt & telescopic steering wheel offers audio controls for the available 15-speaker Mark Levinson[®] system,⁷ plus a leather-wrapped shift knob. A backup camera⁸ with Back Guide Monitor complements the available colour Head-Up Display, our largest ever.

HEATED REAR SEATS You might find yourselves fighting to sit in the back. With standard heated rear seats complemented by increased legroom comparable to the LS, the RX sports no lack of luxury. Available power rear folding seats and rear door manual sunshade offer even more customizability with which to outfit your ride. The RX 450 hybrid also offers an available immersive rear entertainment system with wireless headphones to give new meaning to the term "drive-in theatre."

DON'T EVEN HAZARD A GUESS.

Like a rugged all-around athlete, the complete redesign of the RX features enhanced safety technology to offer peak performance in both offensive and defensive capacities.

FINELY-TUNED SENSORS For heightened attention when your eyes are on the road ahead, rear-mounted radar detects the vehicles you can't see, while an alert icon appears in your side mirror.⁹ And when your attention is directed behind you, Rear Cross-Traffic Alert²⁰ detects and notifies if a vehicle is approaching while you back up.

8 STANDARD AIRBAGS The comprehensive safety features of the RX include Front Seat Mounted Side Airbags, Driver Knee Airbag, Front Passenger Seat Cushion Airbag, Side Roll-Sensing Curtain Airbags (RSCA), and Rear Seat Side Airbags.¹⁰

AVAILABLE SAFETY Designed to reduce crash speed and damage, Pre-Collision System¹ warns you of a potential impact and readies the brakes for evasive manoeuvres. Available Lane Departure Alert² is designed to warn a driver when the vehicle begins moving out of its lane. Also available is Automatic High Beam,³ ensuring optimum nighttime visibility.

MORE THAN ENOUGH FORCE TO LEAVE AN IMPRESSION.

The all-new redesign of the 2016 RX is far more than appearance, with a 3.5L V6 engine¹¹ that unleashes increased output. Enhancements in noise reduction, road noise, vibration, and bump suppression, the RX achieves new levels beyond the current model, helping focus your driving pleasure on the robust power at your disposal.

HORSEPOWER With 295 hp and 267.7 lb-ft of torque on the RX 350 and 308 hp and 247.1 lb-ft of torque on the RX 450h,¹¹ the 2016 RX is as generous with power as it is with the dust it kicks up.

DRIVE MODE SELECT Improved acceleration and steering find their versatility in Drive Mode Select, offering various driving modes to match your preference, including ECO, Normal, Sport S, and Sport S+. For the first time, the last selected mode is memorized when you start your car, tailoring your drive to your desire.

DRIVE WITH AN
EXCLAMATION POINT.

An upgrade with the *F SPORT* package injects the RX crossover with a stiffer suspension and a more assertive display of power. With an even more stylish exterior enhanced by engaged driving feedback, every drive moves you like little else can.

20-INCH ALLOY WHEELS In addition to wheels, the front grille, steering wheel, shift knob, seats, and scuff plates all augment the feeling of high performance that is the signature of *F SPORT*.

LEATHER SEATS Standard on the RX 450h and optional on the RX 350 are seats sheathed in premium natural leather. Sitting idly becomes as rich a sensory experience as hitting the accelerator.

FORWARD-THINKING IN EVERY REGARD.

Even as the RX was given a complete redesign, we balanced the innovation with designs on conservation. With Lexus' advanced hybrid technology, the RX 450h delivers enhanced fuel efficiency and clean emissions without compromising on performance. New for 2016, the RX hybrid can be upgraded with an *F SPORT* package.

ADVANCED HYBRID Conscientiousness for the environment need not include skimping on luxuries, like the standard 12.3-inch LCD display.

11.6-INCH ENTERTAINMENT SYSTEM The rear seats take on the excitement of the driver seat with an available immersive entertainment system that includes HDMI input and wireless headphones.¹²

STANDARD LUXURY

LUXURY AND CONVENIENCE:

- Smart Key System for all doors¹³
- Push button start
- Heated leather-wrapped power tilt & telescopic steering wheel with audio controls (RX 350)
- Leather-wrapped shift knob (RX 350)
- Heated wood power tilt & telescopic steering wheel with audio controls (RX 450h)
- Wood and leather-wrapped shift knob (RX 450h)
- Cruise Control⁴
- Dual-zone automatic climate control
- Dust, pollen, deodorizing air filter
- Auto-dimming rearview mirror
- Backup camera with Back Guide Monitor⁸
- Garage door opener
- Rear privacy glass
- Under cargo area storage compartments and cargo lamp
- Illuminated entry with fadeout
- Auto-dimming power-adjustable and retractable folding heated side view mirrors with integrated signal lamps and puddle lamps
- Power moonroof
- Roof mounted spoiler
- All door handle touch sensor lock/unlock
- Power rear door with jam protection
- Front and rear splash guards
- Front and rear aluminum scuff plates
- Electric windshield

SEATING AND TRIM:

- Perforated leather seats
- 8-way power adjustable heated and ventilated driver and front passenger seats with 2-way power lumbar support (RX 350)
- 10-way power adjustable heated and ventilated driver and front passenger seats with 4-way power lumbar support (RX 450h)
- Driver seat memory system
- 40/20/40 split heated rear seats with slide, recline, fold down centre armrest, and rear seat remote release in cargo area
- Rear seat heater ducts
- Silver painted roof rails
- Dual exhaust pipe (RX 350)

AUDIO, COMMUNICATIONS AND INSTRUMENTATION:

- Voice-activated HDD Navigation System with Remote Touch¹⁴ (RX 450h)
- 12 speaker Lexus Premium Audio System
- Bluetooth^{6,5} and MP3 audio capability
- Integrated XM[®] Satellite Radio⁶
- Auto Sound Levelizer (ASL)
- Satellite Roof Mounted Fin Antenna
- 8" high definition TFT liquid crystal display (RX 350)
- 12.3" high-definition TFT liquid crystal Electro Multi Vision display (RX 450h)
- 4.2" colour TFT multi-information display
- Tachometer
- Compass
- 2 USB ports
- 12V auxiliary power outlets (2 front and 2 rear)
- Analog clock

STANDARD SAFETY AND SECURITY

ACTIVE SAFETY:

- Blind Spot Monitor⁹
- Auto-levelling headlamp system with headlamp washers
- Variable intermittent rain-sensing wipers
- LED daytime running lights
- Automatic headlamp system
- LED low and high beam headlamps
- LED fog lamps
- LED brake lamps
- Direct Tire Pressure Monitor System¹⁵
- All-position vertically-adjustable headrests

PASSIVE SAFETY:

- Dual stage driver and passenger airbag Supplemental Restraint System (SRS)^{10,16}
- Front seat mounted side airbags¹⁶
- Driver knee airbag¹⁶
- Front passenger seat cushion airbag
- Side Roll-Sensing Curtain Airbags (RSCA)¹⁶
- Rear seat side airbags¹⁶
- Front passenger occupancy classification indicator
- Front seatbelt pre-tensioners and force limiters
- Rear outboard seatbelt pre-tensioners and force limiters
- Active front headrests with whiplash protection¹⁷
- Front seatbelt anchor height adjusters
- Anchor points for child restraint seats

SECURITY:

- First aid kit
- Anti-theft system
- Engine immobilizer

STANDARD SPECIFICATIONS

CURB WEIGHT

- RX 350 2,020 kg/4,453 lbs
- RX 450h 2,150 kg/4,740 lbs

ENGINE TYPE

- RX 350 > 3.5 litre, 6-cylinder, aluminum alloy block, DOHC, 24-valve, intake: Variable Valve Timing with intelligence Wide (VVT-iW), exhaust: Variable Valve Timing with intelligence (VVT-i)
- RX 450h > 3.5 litre, 6-Cylinder, aluminum alloy block, DOHC, 24-Valve, Dual Variable Valve Timing with intelligence (Dual VVT-i), heavy duty battery, Lexus Hybrid Drive, Atkinson cycle, cooled Exhaust Gas Recirculation (EGR) System, EV mode

HORSEPOWER

- RX 350 295 hp at 6,300 rpm¹⁸
- RX 450h 308 hp (Total System Net Horsepower)¹⁸

TORQUE

- RX 350 267.7 @ 4,700 rpm¹⁸
- RX 450h 247.1 @ 4,600 rpm¹⁸

TRANSMISSION

- RX 350 > 8-speed automatic, Super Electronically Controlled Transmission (Super ECT), Drive Mode Select
- RX 450h > Automatic, Continuously Variable Transmission (CVT), Sequential Shift mode, Drive Mode Select

TIRES

- RX 350 > P235/65R18 tires, mud and snow tires, temporary spare
- RX 350 (optional) > P235/55R20 tires, mud and snow tires, temporary spare
- RX 450h > P235/55R20 tires, mud and snow tires, temporary spare

FUEL TANK CAPACITY

- RX 350 72.5 litres/19.2 gallons
- RX 450h 65.0 litres/17.2 gallons

FUEL ECONOMY ESTIMATES

- (City/Hwy/Combined)
- RX 350 12.2/8.9/10.7 L/100 km¹⁹
23/32/26 L/ mpg
- RX 450h 7.7/8.2/8.0 L/100 km¹⁹
37/34/35 mpg

CHASSIS

FRONT SUSPENSION

- RX 350 > Independent MacPherson Gas Struts with Coil Springs and Stabilizer Bar
- RX 450h > Independent MacPherson Gas Struts with Coil Springs and Stabilizer Bar

REAR SUSPENSION

- RX 350 > Independent Double Wishbone Type with Coil Springs and Stabilizer bar
- RX 450h > Independent Double Wishbone Type with Coil Springs and Stabilizer bar

OPTIONAL SUSPENSION

- Adaptive Variable Suspension with S+ mode

STEERING

- Electric power steering

BRAKES

- RX 350 > Electric Parking Brake, Front Ventilated Disc Brakes, Rear Discs, Antilock Braking System (ABS), Brake Assist (BA), Electronic Brake Force Distribution (EBD)
- RX 450h > Electric Parking Brake, Front Ventilated Disc Brakes, Rear Discs, Antilock Braking System (ABS), Brake Assist (BA), Electronic Brake Force Distribution (EBD), Integrated Regenerative Braking System, Electronically Controlled Hydraulic Braking System (ECB2)

AERODYNAMIC DRAG COEFFICIENT

- 0.34

BODY AND DIMENSIONS

OVERALL LENGTH

- 4,890 mm (192.5")

WHEELBASE

- 2,790 mm (109.8")

SERVICE COMMITMENT

On top of enjoying the highest quality product, Lexus also delivers through a professional Dealer network, a unique and uncompromising level of after-sales service. First Class Service Concept. The highest level of professionalism and vehicle support ensure that Lexus ownership experience is as luxurious as the vehicles.

WARRANTY

Our Lexus Warranty Comprehensive Coverage includes:

48 months/80,000 km

Hybrid-Related Components

96 months/160,000 km (applies to battery control module, hybrid vehicle control module, hybrid battery and the inverter/converter)

Powertrain

72 months/110,000 km

Corrosion Perforation

72 months/unlimited kilometres

Major Emission Control Components

96 months/130,000 km

Please see your Lexus Dealer for details. Lexus will even provide five days of alternate transportation if your vehicle is required to stay at the dealership for an extended period of time due to a warrantable condition.

EXTRA CARE PROTECTION

Extend beyond the new vehicle warranty and enhance your peace of mind with Lexus Extra Care Protection.

ROADSIDE ASSISTANCE

As a proud owner of a Lexus vehicle you won't have to worry about obtaining assistance when mishaps requiring Emergency Roadside Service or Mechanical Breakdown Towing are needed. Throughout Canada and the continental U.S., our Central Emergency Roadside Services Operator will always be there to ensure you receive prompt, efficient services from one of the many facilities qualified under our approved Roadside Assistance Program. Twenty-four hours a day, 365 days a year we will be there to help.

LEXUS FINANCIAL SERVICES

Come talk to the experts whose exclusive business is financing and leasing Lexus vehicles. You'll find our interest rates fully competitive and our terms flexible - up to 72 months. Our online services conveniently allow you to confirm current rates and receive your credit approval in advance of selecting the Lexus that's right for you. For help, visit your Lexus Dealer or lexus.ca, or call 1-800-26-LEXUS.

LEXUS CANADA

Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Some of the photography in this brochure features U.S. or overseas models, shown with optional equipment that may not be available in Canada. Your Lexus Dealer is the best source for up-to-date information.

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package. Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached. Lexus reminds you to place small children in CSA-approved car seats - in the rear seats, to always wear your seatbelts, and to drive safely. **1.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your Owner's Manual for further information. **2.** Lane Departure Alert is designed to read the lane markers of certain roads. If the vehicle approaches the outer limits of its lane, the system warns the driver that corrective action may be required. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. Please see your Owner's Manual for further information. **3.** Automatic high beam feature can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually adjust the highbeams from on to off. Please see your Owner's Manual for details. **4.** Dynamic/Radar Cruise Control was designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important cautions and instructions. **5.** Lexus tests certain Bluetooth® capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. **6.** Functioning Satellite Radio requires a monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. **7.** Mark Levinson® is a registered trademark of Harman International Industries Inc. **8.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. **9.** Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are severe limits to the function, detection range and clarity of the monitor system. For a complete list of limitations and directions regarding use of the monitor system, please see your Owner's Manual. **10.** All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your Owner's Manual for further information/warnings. **11.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. **12.** Headphones are for passenger use only. Do not use while operating vehicle. **13.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **14.** The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System Owner's Manual for further details. Navigational systems in some vehicles are available with bilingual capability. **15.** The Lexus Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. Please see your Owner's Manual for details. **16.** All Lexus vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Lexus Dealer. **17.** Whiplash Injury Lessening (WIL) front seats can help reduce the extent of whiplash in certain types of rear end collisions. **18.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. **19.** Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. **20.** Do not rely exclusively on the Rear Cross-Traffic Alert System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. For a complete list of limitations and directions, please see your Owner's Manual.
