## PUSHING BOUNDARIES, FROM THE VERY BEGINNING.

MINI has been motoring its own way since 1959. With transversely mounted engines, a wheels-pushed-out design, and a charm like no other, MINI initially endeared itself to not only the working class, but also rock stars, royalty, and rally racers.

Today, the expanded MINI lineup maintains the principles of its predecessors. Each vehicle packs a bigger-than-expected punch, thanks to world-class engine technology leveraged from the BMW Group. And with added practicality, refinement, and functionality, this MINI lineup is the most exciting we've ever produced.

Discover what makes MINI unlike anything else on the road at [mini.ca/whymini](http://mini.ca/whymini).

## GET THE MOST OUT OF THE ROAD.

### NO-CHARGE SCHEDULED MAINTENANCE.

You may be buying a new MINI, but we want you to feel comfortable enough to drive it like you've owned it forever. To help ease your conscience as you carve every corner, we offer a standard 3-year/40,000 km (whichever comes first) No-Charge Scheduled Maintenance package.

### MINI ROADSIDE ASSISTANCE.

Peace of mind now, and down the road. MINI Roadside Assistance gives you an outstanding 4 years of unlimited travel protection, wherever the road takes you. The program offers towing, lock-out service, and on-site assistance. MINI Roadside Assistance, and our industry-leading MINI Accident Management, are available 24 hours a day, anywhere in Canada and the continental U.S.A.

### MINI WARRANTY.

Each MINI is built according to the highest possible quality standards. To guarantee that you'll experience driving thrills for the entirety of your MINI's life, you will receive a new car warranty of 4 years or 80,000 km (whichever occurs first). This is backed by a 2-year warranty with a no-distance limit on Original MINI Parts and Accessories (the only exception being wear-and-tear parts).

### ALL4 ALL-WHEEL DRIVE.

The ALL4 All-Wheel Drive system, standard on the MINI Clubman and MINI Countryman, takes our hallmark agility to a whole new level. By distributing power and torque between front and rear axles, ALL4 delivers superb traction and confident cornering, regardless of what the road, or Mother Nature, throws your way.

### MINI CONNECTED.

The in-car infotainment revolution starts here. The standard MINI Connected system seamlessly integrates our most advanced technology in a stunning 6.5" in-dash display. Or upgrade to the full 8.8" Touchscreen with MINI Connected XL, making your link-up to the outside world even better - with safe, comfortable, and intuitive controls for all functions available right at your fingertips.

MINI has much more to offer. Visit [mini.ca](http://mini.ca) or ask a MINI Representative for more information.

THE MINI COUNTRYMAN.

# ADD STORIES.

Meet the biggest, most rugged, most adventurous MINI ever made. The MINI Countryman is designed and equipped to inspire and accommodate your next great story – with more space for every escape, ALL4 All-Wheel Drive for every road, and a long list of premium cabin features to enhance every journey. What's more, with the all-new plug-in hybrid version, you can enjoy MINI's agile performance, while keeping your promise to the environment at every point along the way. So go forth. Leave the city behind, and find yourself off the beaten path. Add friends. Add memories. Add meaning. And when you return, go tell your story.

For more about the MINI Countryman, visit [mini.ca/countryman](http://mini.ca/countryman) or configure your own at [buildmymini.ca](http://buildmymini.ca).

**ALL4**

All-Wheel Drive

## ADD SPACE.

## ADD COUNTRY.

### Rugged Design.

Combining unmistakable MINI design with the explorative, can-do attitude of a Sports Activity Vehicle, the MINI Countryman is a real all-rounder that's ready to take you from the city to the country and back again.

### More Room to Boot Volume.

It's time you packed more into your weekend. The MINI Countryman's boot is designed to accommodate all that you want to bring along. With the rear seats folded down, this MINI offers up to 1,390 litres of cargo space – perfect for your next great escape.

### ALL4 All-Wheel Drive.

Stay in control, no matter what the road throws your way. Depending on your driving style and grip on the road, the MINI Countryman's standard ALL4 All-Wheel Drive system distributes optimal torque between front and rear axles, so you can confidently command your way through any condition.

### Variable Rear Seats.

Get a little extra space, when you need it, where you need it. The MINI Countryman's rear seats can be moved back for up to 13 cm of extra legroom, and folded down in a 40/20/40 split to accommodate your passenger and cargo requirements.

### Room for Five.

The MINI Countryman's spacious, richly-tailored interior offers comfortable seating for five adults. And thanks to a number of ergonomic improvements, like the re-designed back of the front seats, even the tallest of passengers can sit back, stretch out, and enjoy the ride.

## ADD SUBSTANCE.

### Superior Cabin Quality.

The MINI Countryman's interior pulls out all the stops. Luxurious materials and top-shelf finishes adorn every inch, from the optional British Oak Chester Leather lounge seats, to the soft-touch dashboard surfaces. And even on the dullest days, the MINI Countryman's ambient interior lighting will boost your mood, allowing you to create a warm, illuminated cabin atmosphere in your choice of colour.

### Added Practicality.

The MINI Countryman is well-appointed with a range of premium features designed to make your drive more convenient. Optional features like Comfort Access, which allows you to access, lock, and unlock the doors with the key fob left in your pocket; Easy Opener, which allows you to open the tailgate with the swipe of your foot under the rear bumper for true hands-free convenience; or the Electric Front Seats with two memory buttons for the driver, which allow you to easily switch between two driver profiles.

### Innovative Connectivity.

The MINI Countryman may inspire you to wander, but its intuitive cockpit technology will ensure you never lose your way. Upgrade to the full 8.8" Touchscreen navigation and infotainment system to wirelessly charge your smartphone and stay connected to the world around you with MINI Connected XL. Plan your road trips in the Journey Mate App and avoid delays with App Integrated Traffic Information and friendly reminders along the way. Access all of these functions comfortably and safely with the ergonomically designed Touch Controller.

## THE MINI COUNTRYMAN PLUG-IN ELECTRIC HYBRID.

# ADD ELECTRIC.

The new MINI Countryman plug-in electric hybrid combines everyday utility and long-distance sustainability, in one electrifying package. Thanks to the all-new eDrive Mode settings, you can switch between three different electric driving modes. Treat yourself to purely electric driving at speeds of up to 120 km/h with MAX eDrive mode. Take advantage of the most efficient combination of the electric motor and gasoline engine in the AUTO eDrive setting. Or, let the gasoline engine do all the work in the SAVE BATTERY mode. And with an electric range of approximately 19 km\*, a combustion engine range of approximately 420 km, as well as a regenerative braking system that recharges the battery as you drive, the MINI Countryman plug-in electric hybrid offers efficient practicality for daily commutes and weekend adventures alike.

For more about the MINI Countryman plug-in electric hybrid, visit [mini.ca/countrymanhybrid](http://mini.ca/countrymanhybrid).

# ADD BALANCE.

## The Distribution of Power.

The MINI Countryman plug-in electric hybrid is engineered to find the most efficient distribution of power between the two drivetrains. A potent 134-hp Twin Power Turbo engine with a 6-speed Steptronic automatic transmission powers the front wheels, while the 87-hp e-motor directs power as required to the rear axle. The result is a truly electric ALL4 All-Wheel Drive system that provides a seamless transition of momentum between the front and rear of the vehicle.

 \* Range and energy consumption may vary due to factors such as driving style, road conditions, external temperature, heating and air conditioning, and preconditioning. Electric Range excludes regenerative battery recharging.

THE MINI 3 DOOR.

# THE LEGEND CONTINUES.

It's the original icon, re-born and re-interpreted for modern motoring. The MINI 3 door features the same wheels-pushed-out body design that made its forefather an instant classic back in '59. It now comes equipped with powerful 3- and 4-cylinder engines, both featuring Twin Power Turbo technology, that make it faster, feistier, and more efficient than ever before. Jump into the driver's seat and discover an array of premium features that deliver an enhanced level of comfort, connectivity, and class.

For more about the MINI 3 door, visit [mini.ca/3door](http://mini.ca/3door) or configure your own at [buildmymini.ca](http://buildmymini.ca).

# PUT YOUR FOOT DOWN AND LET THE FUN BEGIN.

## ① Go-Kart Handling.

Make no mistake about it: the MINI 3 door was born to corner. With its wide track and short overhangs, the MINI 3 door is designed to deliver incredibly nimble handling, a low centre of gravity, and a sensation of being close to the road as you carve through corners.

## ② Driving Modes: Sport, Mid & Green.

Customize drive response at the turn of a dial. Go “Green” for optimized fuel-efficiency, or jump into “Sport” for ultra-responsive steering and acceleration. Of course, you can always choose “Mid” for a happy motoring medium.

## ③ Automatic Start / Stop Function.

Why burn fuel when you don’t have to? The MINI 3 door’s Start / Stop function automatically disengages the engine when you come to a complete stop, and seamlessly re-engages it when you’re ready to motor on.

## ④ 3- & 4-Cylinder Twin Power Turbo Engines.

Thanks to BMW Group engineering and premium lightweight materials, MINI’s 3- and 4-Cylinder Twin Power Turbo engines are more powerful and fuel-efficient than ever before. And, by supplying immediate torque that holds steady through the engine’s power curve, they’re quicker too.

## ⑤ Dynamic Lighting.

The MINI 3 door features an interactive Centre Instrument Ring surrounded by a glowing LED light ring. This glowing ring can be set to change colours in response to engine acceleration, climate control adjustments, incoming calls, and many other events you’ll experience in your MINI.

THE MINI 5 DOOR.

# SAME HANDLING. MORE HANDLES.

The turbocharged icon, with more handles to love. The MINI 5 door is finely-tuned to deliver incredibly nimble handling, and comes equipped with two more doors, extra room for friends, and up to 941 Litres of boot space for cargo. And with a powerful Twin Power Turbo engine under the bonnet, the MINI 5 door serves up the ideal mix of motoring fun and driving function.

For more about the MINI 5 door, visit [mini.ca/5door](http://mini.ca/5door) or configure your own at [buildmymini.ca](http://buildmymini.ca).

### Seating for Five.

The MINI 5 door offers seating for three passengers in the back, thanks to a standard rear-seat bench with a body-hugging shape.

### More Cargo Space.

In comparison to the MINI 3 door, the boot of the MINI 5 door packs an extra 67 Litres of space. This takes the total cargo capacity to 941 Litres with the rear seats folded down – perfect for bringing everything along.

### LED Headlights.

Optional headlights are designed with two 3-D light rings that enclose LED modules in the centre. Lights are accentuated by a sleek chrome trim, which adds a striking and upscale appearance to the front end.

# TECH GEEK AT HEART.

### Rear-View Camera & Parallel Park Assist.

These optional features provide a boot's-eye view by projecting real-time video on your MINI's Centre Instrument display. They also superimpose helpful guidelines and distance marks to assist with reversing and hands-free parallel parking.

### MINI Touch Controller.

All the power of the MINI Connected system, right at your fingertips. Use the simple buttons to navigate through menus, and use your fingers on the touchpad to handwrite a destination or cue up a tune.

THE MINI CLUBMAN.

# WELL-SUITED FOR EVERY OCCASION.

Meet the MINI Clubman, the most refined MINI ever made. Its sweeping silhouette is perfectly complemented by a sophisticated cabin well-appointed with top-shelf finishes and premium features. And with ample interior space, along with standard ALL4 All-Wheel Drive, it boasts as much practicality as it does personality. The epitome of form meets function; it's the MINI for all occasions.

For more about the MINI Clubman, visit [mini.ca/clubman](http://mini.ca/clubman) or configure your own at [buildmymini.ca](http://buildmymini.ca).

**ALL4**  
All-Wheel Drive

Six doors, seating for five, and ample cargo space.

# REFINED VERSATILITY.

## DESIGN.

### Premium Cabin with a Refined Centre Console.

The MINI Clubman's interior sets a new standard with premium surface finishes and five high-end leather upholstery options, including Chester Leather featuring diamond pattern stitching. And with an elegantly designed centre console that houses the intuitive MINI Connected infotainment system, this MINI offers an ideal mix of class and connectivity.

### Split Rear Doors.

A highly-functional element passed down from the classic Mini Traveller. With the Comfort Access feature, they can be opened hands-free, with the simple swipe of the foot below the rear bumper.

### Aerodynamic, Sculpted Body.

The MINI Clubman's streamlined design is further accentuated by strong shoulder contours and air breathers that both emphasize the vehicle's sporty character and enhance its aerodynamic abilities.

## SAFETY.

### Eight Airbags.

2 front, 2 side-impact, 2 ceiling-mounted side-curtain, and 2 knee airbags monitor collision severity to adjust inflation rates and help protect you and your passengers from potential secondary impacts.

### Uniquely Crafted Alloy Wheels.

More spoke options, more bespoke possibilities. Visit [buildmymini.ca](http://buildmymini.ca) to discover the full range of alloy wheels.

## TECHNOLOGY.

### MINI Connected and Navigation.

Upgrade from 6.5" to a full 8.8" in-dash display that puts innovative entertainment, communication, and navigation features right at your fingertips, literally, with touchscreen technology.

### Twin Power Turbo Engines.

Leveraging the award-winning engine expertise of the BMW Group, all MINI Clubman variants come equipped with a potent Twin Power Turbo punch.

### ALL4 All-Wheel Drive.

The standard ALL4 All-Wheel Drive system distributes engine torque between front and rear axles depending on your MINI's speed and steering angle. As a result, the MINI Clubman delivers optimum traction on slippery or uneven road surfaces.

## PERFORMANCE.

### Eight-Speed Automatic Transmission.

The MINI Clubman's available Eight-Speed Automatic Transmission allows for impeccably precise gear changes, while the Steptronic system lets you choose between the convenience of automatic and the thrill of manual shifting.

**THE MINI CONVERTIBLE.**

# **STAY OPEN.**

Open top. Open air. Open-ended possibilities. The MINI Convertible benefits from three generations of MINI design and engineering innovations. With seating for four and a 3-in-1 Soft Top Roof that can function as either a sunroof or a full-fledged drop-top, it's always ready for your next impromptu excursion. And with a lively Twin Power Turbo engine capable of hitting 100 km/h in a blistering 6.6 seconds in the John Cooper Works variant, it isn't afraid to seize every moment along the way.

For more about the MINI Convertible, visit [mini.ca/convertible](https://mini.ca/convertible) or configure your own at [buildmymini.ca](https://buildmymini.ca).

### Woven Union Jack Soft Top.

An iconic accent: the woven Union Jack Soft Top echoes MINI's British heritage, while epitomizing the premium craftsmanship imbued into the third generation lineup.

From the 3-in-1 Soft Top Roof to the "Always-Open Timer", the MINI Convertible is packed with a host of features you won't find in any other convertible.

# LEAP INTO SOMETHING NEW.

## DESIGN.

### ① A Memorable Ending.

From behind, the MINI Convertible has a dynamic and polished presence. Taillights are set wide apart and are accented by a sleek chrome surround. The Cooper S model features not one, but two tailpipes – a great view for everyone playing catch-up.

### ② A Top Choice.

The MINI Convertible's 3-in-1 Soft Top Roof – available in the iconic Union Jack design – can be up, down, or used as a sunroof to let the breeze in. Fully electric, its quiet operation allows you to go from soft top to drop-top in a mere 18 seconds, at speeds up to 30 km/h.

### ③ Streamlined Agility.

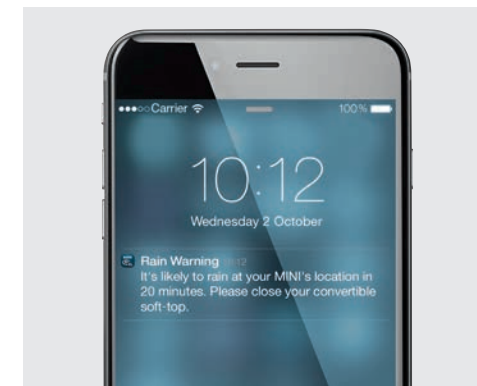

There's no doubt about it – the MINI Convertible is a smooth operator. Long yet agile proportions impart a more streamlined silhouette that's accentuated by a precisely defined roofline. It's sleek all around.

## TECHNOLOGY.

### Head-Up Display.

All the information, right where you need it. The available MINI Head-Up Display projects driving data such as speed and navigation prompts in your field of vision, helping you keep your eyes on the road ahead.

### Rain Warner App.

Drenched is never a good look. Stay ahead of the storm with the Rain Warner App, which is part of MINI Connected XL Journey Mate. It's the smartest kind of weather-proofing.

## SAFETY.

### Invisible Rollover System.

The Invisible Rollover Protection System in the rear belt outlet, disguised by elegant matte black caps with chrome trim, activates within a fraction of a second in an emergency to protect passengers.

MINI JOHN COOPER WORKS.

# TORQUE OF THE TOWN.

The MINI John Cooper Works 3 door, Convertible, Clubman, and Countryman offer a potent combination of balanced handling and ballistic acceleration, and are tuned to achieve performance normally reserved for race cars. One look under the bonnet reveals an engine that is capable of boasting up to 228 hp at 5,000 rpm. If that isn't enough power for you, try engaging Sport Mode. This will transform your MINI into an absolute top athlete, with more precise steering responses and faster acceleration – even the tone of the twin-pipe exhaust moves up a key. From one motoring connoisseur to another – you're welcome.

For more about the MINI John Cooper Works lineup, visit [mini.ca/jcw](http://mini.ca/jcw) or configure your own at [buildmymini.ca](http://buildmymini.ca).

## STREET LEGAL. JUST BARELY.

High-performance tuning and parts give the MINI John Cooper Works lineup its fearsome firepower. Twin Power Turbo engines deliver serious torque with bone-shaking force. Even before you've put your foot down, the throaty growl beneath the bonnet is enough to set your heart racing.

### Inspired by a Legend.

In 1961, British carmaker John Cooper designed a racing-class version of the Original Mini that would achieve a string of stunning motorsport victories, including three wins in the Monte Carlo Rally. Today, John Cooper Works remains a byword for motorsport excellence.

### Exclusive Interior.

The motorsport-inspired interior of the John Cooper Works range features unique trims and surfaces, an ergonomic steering wheel with leather handgrips and race-red stitching, as well as large side bolsters to keep you snugly in place.

### More Power to You.

MINI John Cooper Works models produce up to 228 hp and 258 ft/lb of torque. Pair that with MINI's renowned corner-carving abilities and you've got yourself a genuine force to be reckoned with.

MINI CONNECTED.

# ENHANCE YOUR ROAD TRIP.

Meet the sociable sidekick to your driving adventures. MINI Connected brings you the latest music, information, apps, and much more via the MINI Centre Instrument's stunning high-res colour display.

- Calendar
- Forcemeter

#### RSS Feeds.

Get the news right in your cockpit and select which of your favourite feeds appear on your MINI's display. While driving, use the text-to-speech function and your MINI will dictate the blurbs and articles of your choice, so you can keep your eyes where they belong – on the road.

#### MINI Connected XL with Journey Mate.

This handy application assists you all the way from departure to arrival. Simply connect your smartphone to your MINI, and MINI Connected XL Journey Mate will map routes, dictate directions, indicate traffic jams, locate gas stations, and even remind you where you parked.

#### Integrated Spotify®.

MINI has teamed up with Spotify® to give you access to all the music you'll ever need, right through your MINI stereo. Just download the free Spotify® app, and voila – over 30 million songs at your fingertips in your MINI's full colour display. Best of all, you can enjoy wireless access to all your favourite tracks and custom playlists thanks to Bluetooth® integration.

# EXCEPTIONAL SAFETY.

## SAFETY & EQUIPMENT.

### ① Run-flat Tires.

Run-flat Tires are designed to keep their shape in the event of a puncture. Made with heat-resistant rubber and reinforced sidewalls, they let you drive up to 80 km at 80 km/h\* even with zero tire pressure, so you can get to a safe location.

### ② Adaptive LED Headlights.

Optional Adaptive LED Headlights give you crisp visibility in the dark or during poor weather. They can also swivel in the direction of the road to illuminate what's around the corner and adjust their angle to the road based on your MINI's speed and weight-load.

### ③ Rigid Chassis.

The body structure of a MINI is rigid, yet collapsible – essential for absorbing and shielding you in case of impact. Using high-tension steel, optimized for weight and rigidity, your MINI retains its sporty feel while reducing body torque, and enhancing its agile handling.

### ④ Flexible Rear Axle.

The Multilink Rear Axle allows each wheel to react independently. This means that an uneven road surface won't affect the entire chassis - and your drive stays smooth.

## LEVELS OF CONTROL.

### ⑤ Dynamic Stability Control (DSC).

Intelligent sensors detect if you're veering even slightly off course. DSC then activates to adjust the engine torque, and applies brake force to individual wheels where needed.

### ⑥ Dynamic Traction Control (DTC).

DTC provides the best possible driving force on every surface, even slick or sandy ones. It also restores power to the engine sooner than DSC, and lets the car slide a bit before correcting its course.

### ⑦ Automatic Stability Control + Traction (ASC+T).

ASC+T prevents the front wheels from spinning, which provides ideal starting conditions and plenty of traction.

## ADVANCED BRAKING.

### ⑧ Dynamic Brake Lights.

In case you need to apply the brakes abruptly, these brake lights will begin to flash to alert the vehicles behind you and activate your hazard warning lights automatically.

### ⑨ Electronic Brakeforce Distribution (EBD).

Automatically distributes braking force between wheels to suit the driving conditions and your MINI's weight distribution.

### ⑩ Anti-Lock Braking.

Latest-generation, four-sensor, anti-lock brakes allow you to stop quickly, even on slippery roads.

### ⑪ Cornering Brake Control (CBC).

Taken a turn a little too quickly? CBC improves stability in corners.

## MINI ASSISTANCE.

### ⑫ Driver Assistant System.

Who said a safe drive has to be boring? At MINI, we think you have more fun on a new adventure if you know you're secure. MINI's optional Driver Assistant System provides you with features like collision and pedestrian warnings with braking function, traffic sign recognition, high beam assistant, and active cruise control.

A camera mounted behind the rear-view mirror in the windscreen identifies critical situations, gives you a two-step warning, and prepares the braking system in order to reduce reaction time.

### ⑬ Brake Assist.

Helps you stop faster in emergency situations, by speeding up the process and minimizing the braking distance.

## MINI ACCIDENT MANAGEMENT HOTLINE.

One of the many benefits included in the Roadside Assistance program is MINI Accident Management. If you are involved in an accident and do not require medical assistance, the MINI Accident Management Hotline is your first call. MINI will arrange for a fully-equipped towing service to ensure that you, your occupants, and your MINI are properly taken care of. One call is all it takes.

### MINI Accident Management provides the following services:

- 24-hour hotline, 365 days a year.
- Access to an Accident Management Specialist.
- Notification of police and emergency services (as required).
- Organization of towing services to the nearest MINI Certified Collision Repair Centre, ensuring the transportation of you and your passengers to a safe location.
- Notifying the MINI Certified Collision Repair Centre of incoming towing.
- All costs of towing to a MINI Certified Collision Repair Centre, Accident Reporting Centre, and/or overnight storage facility (if applicable) are covered under the program.

*For more information, simply call your MINI Accident Management Hotline at:*
