

VOLVO C30

People, get ready.

This might be the smallest Volvo but it
functions at a very high level. Get ready.

This is a ride you'll want to share.

Volvo. for life

**Over-stimulation is not a
crime (among friends).**

Elevated levels of enthusiasm are common for all passengers of the Volvo C30, so if your seat has the steering wheel, don't let the music stop.

Like caffeine and sugar. Only safer.

A spark is all it takes and you're off: Quick, determined, and ready for what the road may bring. The Volvo C30 delivers an inspired mix of performance and passion. This may be the smallest Volvo but it functions at a very high level. The premium Volvo feel is evident in every detail. A smooth running engine responds instantly even at low revs. Of course, handling is exceptionally sweet. Long trips? No worries. Tuck into one of four great seats and enjoy the ride.

Wicked, yet wise.

There is a feeling of safety that comes with the ability to accelerate quickly. Each Volvo C30 engine is engineered to make that feeling last. There are two highly refined engines to choose from — including the intercooled, turbocharged, T5. Wicked, yet wise, this engine employs a sophisticated engine management system to maximize performance and minimize fuel consumption.

Adult-strength stress relief now in capsule form.

This generous four-seater gives you and three of your friends the space and convenience to travel in comfort. The floating centre console presents intuitive controls for the audio and climate systems. The front seats adjust to suit height, reach, lumbar support and legroom – power seats can even memorize settings. The wide door openings and the sliding front seats make getting in and out of the rear seat simple. With high quality materials throughout the cabin, you'll immediately feel the reassuring presence of years of Volvo's expert craftsmanship and attention to detail.

Sense appeal (including your sense of direction)

Integrated into your Volvo for effortless operation, these features offer navigation and communication that let you keep your eyes and hands where they're most needed during a drive: on the road and on the wheel. A seamless way of reducing distractions and keeping you focused – sensible convenience that adds to your sense of security.

Volvo Navigation System (VNS) with RTT (Real Time Traffic)*
Volvo's GPS-based VNS is totally integrated into your car. It offers both voice guidance and graphic navigation all the way to your destination. The VNS system is easily controlled from the steering wheel or a remote, and the screen is positioned so you can keep your attention on traffic.

Maps do not cover all areas or all routes within an area. Also constant expansion and rebuilding of the road network mean that the digital map database is not always the latest road information. Always follow relevant regulations and road information.

Integrated Bluetooth® handsfree system*
Bluetooth® technology enables a cell phone to be connected to the audio system in your Volvo – wirelessly. Once configured for a cell phone, the system automatically recognizes your phone as you enter the car. You then operate your phone using the buttons in the steering wheel keypad. As you climb in and out of the car, the system automatically allows you to switch freely from the phone to the handsfree system and back again.

 The Bluetooth wordmark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Volvo Car Corporation is under license. Other trademarks and trade names are those of their respective owners.

*Standard, not available on 2.4i

Something special for your ears (and everything in-between)

With a choice of two audio levels – Dynaudio Premium Sound and High Performance – each configured to the cabin's ambient acoustics – the Volvo C30 has a sound system that makes the most of your music. The world-class components are mounted in the dashboard separately from the controls on the floating centre stack and the control buttons on the steering wheel.

Volvo iPod® interface

The iPod® interface allows you to connect and have complete control of your iPod® directly from the car's audio system. Use the audio system's controls to search for music by artist, album, song or musical style.

Volvo satellite radio* Satellite radio is now available for your Volvo. Volvo has joined forces with Sirius to offer an integrated satellite solution that is sure to provide endless listening enjoyment.

*Standard, not available on 2.4i

The ten Dynaudio high-end loudspeakers of the Dynaudio Premium Sound system are powered by a 5x130 W Alpine digital amplifier. There are two separate speakers – woofer and tweeter – in each door, and in the side panels at the rear seats there is a similar set-up. Each speaker has a crossover filter to maximize fidelity. The latest generation Dolby® surround sound system with a centre loudspeaker and sound processor recreates authentic sound with a strong sense of presence for every-one in the car – a Volvo world first. The digital class D amplifier features a new technology to provide extremely high efficiency, enabling it to generate the most audio power from the least amount of current.

Dynaudio Premium Sound*

Our top-of-the line audio system designed for perfect sound dynamics, featuring 10 loudspeakers by Danish specialist Dynaudio. With Dolby® Pro Logic® II surround sound for an authentic audio experience in all seats. Premium Sound includes:

- MP3 and WMA compatible CD player
- 10 loudspeakers by Dynaudio
- 5x130 W digital Class D amplifier
- Dolby® Pro Logic® II surround sound
- AUX input

Options: an MP3 and WMA compatible 6-CD changer (in place of the CD player), iPod®/USB Music Interface.

*Included in the optional Technology Package, not available on 2.4i

High Performance*

A powerfully versatile system. Each loudspeaker is fitted with a powerful magnet and a large coil. In combination with the amplifier, this system promotes excellent transient reproduction and high power – quite simply superb sound. High Performance equipment includes:

- MP3 and WMA compatible CD player
- 8 High Performance loudspeakers
- 4x40 W High Performance amplifier
- AUX input

Options: an MP3 and WMA compatible 6-CD changer (in place of the CD player), iPod®/USB Music Interface.

*Standard

**Volvo safety doesn't
take time off when
you park your car.**

On your way to or from the car at night your path can be lit up. With keyless drive*, the doors unlock as you grasp the handle. Should you encounter an emergency situation, the alarm can be activated with your hand-held remote control. The combination of sturdy door locks and an electronic immobilizer is an effective theft deterrent.

*Included in the optional Technology Package, not available on 2.4i

WE INNOVATE FOR LIFE.

For decades, we've created cars that encourage people to enjoy life and help protect it in the event of an accident. Many of the most important car safety innovations are the hallmark of Volvo, and hundreds of thousands of people all over the world can say they're still alive thanks to Volvo ingenuity.

This is not by coincidence. Our founders stated that safety is, and shall always be, at the heart of what we do. As a result, Volvo is recognized the world over for our passion and dedication to provide the safest cars on the road.

The protective character of Volvo also encompasses the world we share. Already in 1972, Volvo was the first car manufacturer to acknowledge and actively respond to the environmental impact of cars. In fact, we invented the three-way catalytic converter, and are constantly innovating to reduce the environmental impact of the cars we make and how we make them.

Of course, choosing a Volvo will always be something you do for both yourself and the people around you – because our cars will always consider the well-being of everyone. Even if those people happen to be outside your car or are part of future generations.

Find more innovations at volvocanada.com

“Cars are driven by people. Therefore, the guiding principle behind everything we make at Volvo is – and must remain – safety.”

Assar Gabrielsson and Gustaf Larson, founders of Volvo

CITY SAFETY COLLISION AVOIDANCE TECHNOLOGY

In 2008, Volvo Cars introduced the new XC60 with City Safety – the world's first standard-fitted collision avoidance and mitigation technology active at speeds up to 30 km/h. Helping to lower the risk of low-speed collision and whiplash injury, City Safety is a major step towards safer urban driving. At the moment, City Safety is only available in the Volvo XC60.

THE THREE-WAY CATALYTIC CONVERTER

In 1976, Volvo Cars was the first car manufacturer to introduce the three-way catalytic converter with an oxygen sensor for exhaust emission control. Today virtually all gasoline-powered cars are equipped with this ingenious component – just as indispensable for the environment as the three-point seat belt is for safety.

THE THREE-POINT SAFETY BELT

In 1959, Nils Bohlin, a Volvo safety engineer, invented the three-point safety belt. So important is this invention, it is considered to be one of the most life-saving technical innovations in the history of mankind.

VOLVO SAFETY TECHNOLOGY. BECAUSE PEOPLE ARE ONLY HUMAN.

Cars are driven by people. That's why all our safety research and development continues to investigate the capabilities, limitations and tendencies of human nature. This people-centric research is always based on real situations – and with the vision to create cars that do not crash.

To help you avoid accidents while maintaining the fun of driving, Volvo safety technologies are designed to support the driver in various situations without unnecessary interference. All these intelligent technologies share information and interact with split-second precision. Today, a new Volvo can “read” actual situations and provide optimal support and protection for example, by sensing normal driving patterns or panic situations and by taking protective action before, during and after a collision. Still, technology can never take the responsibility away from you, the driver. Final decisions are always in your hands. But if these technologies help make you more alert and relaxed, they will also contribute to the overall safety of those in and around your Volvo.

Read more about our safety research at volvocanada.com

VOLVO ACCIDENT RESEARCH TEAM

Since 1970, Volvo's Accident Research Team has investigated accidents involving Volvo cars on Swedish roads. Today, our own statistical database contains over 36,000 accidents with more than 60,000 occupants. In addition to studies on the scene of the accident, our researchers also investigate what happened before the crash to understand how to improve the driver's conditions to avoid a collision. These findings give us unique knowledge that guides us in creating technology that helps prevent or mitigate accidents and – if an accident can't be avoided – to help protect the occupants.

VOLVO CARS SAFETY CENTRE

Based on the findings from our accident research, we can recreate a variety of real-life traffic situations and crashes. Beyond numerous virtual crash tests in super-computers, we perform around 400 crash tests each year. We crash test car-to-car at different speeds and from different angles. We perform frontal impacts, rear impacts, side impacts and roll-over tests and test cars off-road as well as against genuine Swedish granite rock-face – we can even simulate impacts with wild animals.

IF YOU MAKE IT HERE, YOU MAKE IT ANYWHERE

Other car manufacturers come to Sweden for final car testing under harsh and capricious conditions. For us it's home. Our own proving ground Hålleröd with its 55 km of test tracks includes different road types from all over the world. Here we scrutinize our cars' ability to support their drivers in all imaginable and unimaginable situations during thousands of test miles – not to mention the distances driven on ordinary Swedish roads.

TOWARDS A FUTURE WHERE CARS DON'T CRASH

We already know what we want to achieve: no accidents. By applying a holistic approach which considers the driver and the vehicle as well as the infrastructure, we can realize a future where cars interact with other cars, the road and the traffic-control systems. For example, this includes cars that can brake and steer automatically, if needed. This makes it possible to design cars in completely new ways to protect and preserve life.

IS DOING FOR THE ENVIRONMENT WHAT THE SAFETY BELT DOES FOR PEOPLE.

Looking after people and the environment is an indispensable part of the Volvo soul. For more than 80 years we've been driven by a passion for safety. We are environmental pioneers in the car industry, and have always employed a healthy respect for our limited resources and environmental responsibilities. Consequently, we aim to create new solutions that help halt climate change and improve the environment – both inside and outside the car. Our goal is crystal clear: to build cars that leave a minimal impact on the environment. We don't think that there is just one way to tackle the environmental issues. We think there are many solutions and we must explore all the options. That's why we're developing new eco-technologies. **DRIVE captures all our environmental work – from production to recycling – and represents our commitment and continued efforts for sustainable mobility.**

MOTION

We must minimize the emissions of fossil CO₂ (which leads to climate change) and increase the energy efficiency of our cars. **Continuous improvements** within aerodynamics, rolling resistance, lightweight materials and drive train technology help us lower fuel consumption. In our new **Hybrid technology centre** in Göteborg, we are developing the next generation power trains for future Volvos.

INSIDE

If you drive 15,000 km a year, you spend at least 24 hours a month in your car. We also know that more and more people are suffering from asthma and allergies. To ensure a healthy interior for you and your passengers, we test upholsteries and interiors in the **Volvo Environmental Laboratory** in Sweden. All upholstery materials and interior textiles also comply with **Oeko-Tex Standard 100** – an international benchmark for human ecological safety of textiles. All **leathers are chromium-free** – they're tanned using vegetable or synthetic substances instead of chromium. What's more, some panel trims are **Forest Stewardship Council (FSC) certified** to ensure the wood comes from responsibly managed forests.

LIFECYCLE

Already from the early stages of conception we've considered our cars' environmental impact: from design and manufacturing to useful life and recycling. For example, we've seen to it that our factories are powered by wind and hydro power and use energy and water responsibly. Our production facilities are certified under **the global environmental standard ISO 14001**, and we make sure that all our major suppliers meet our strict environmental standards. At the end of its useful life, every Volvo is designed to be **85% recyclable**. We also offer **re-manufactured exchange parts** which substantially reduces the need for raw materials and energy.

Factory-installed options.

The sense of quality and care — and knowing that you get the Volvo that suits your lifestyle. Customize your car with the options that best meet your demands and desires, and you'll soon be behind the wheel of your individually tailored Volvo C30.

1 Blind Spot Information System (BLIS)*

The next best thing to having eyes in the back of your head, BLIS is there to help when you're changing lanes. Rear-facing cameras in the power folding door mirrors help detect vehicles moving into your blind spot and alert you of their presence. BLIS doesn't make any decisions for you, but it does help to keep you informed. BLIS is activated once the car exceeds 10 km/h, and reacts to almost any type of vehicle from a motorcycle upwards. Day or night.

* Standard T5 and T5 R-DESIGN, included in the optional Technology Package on 2.4i Premium and 2.4i R-DESIGN

2 Volvo iPod® and USB adapter

Simply connect your iPod® — or a USB device — to the connector hidden under the front centre armrest and leave it there out of harm's way. The iPod® or USB device will be seamlessly integrated with the car's audio system. Playlists, songs and artists are displayed in the console menu, and you can select your music via the audio controls or steering wheel integrated controls. You can also select different random and shuffle modes. When you reach your destination, simply unplug and take your portable device with you — with the battery newly charged.

3 Integrated Bluetooth® handsfree system

Bluetooth® technology enables a mobile phone to be connected to the infotainment system in your Volvo — wirelessly. Once configured for a mobile phone, the system automatically recognizes your phone as you enter the car. You then operate your phone using the buttons in the steering wheel. As you climb in and out of the car, the system automatically allows you to switch freely from the phone to the handsfree system and back again.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Volvo Car Corporation is under license. Other trademarks and trade names are those of their respective owners.

4 Volvo Navigation System (VNS) with RTT (Real Time Traffic)*

Volvo's GPS-based VNS is totally integrated with your car. It offers both voice guidance and graphic navigation all the way to your destination. The VNS system is easily controlled from the steering wheel or a remote, and the screen is positioned so you can keep your attention on traffic.

Maps do not cover all areas or all routes within an area. Also constant expansion and rebuilding of the road network mean that the digital map database is not always the latest road information. Always follow relevant regulations and road information.

* Included in the optional Technology Package on T5 and T5 R-DESIGN

5 Keyless drive*

Keyless drive lets you lock, unlock and start the car without having the remote control in your hand. As long as you have the remote with you, grasping the door handle automatically unlocks the door. To start the engine, simply turn the control on the instrument panel. To lock the doors, just press a button in the door handle as you leave the car.

* Standard T5 and T5 R-DESIGN, included in the optional Technology Package on 2.4i Premium and 2.4i R-DESIGN

Accessories.

Volvo's accessories help you make your Volvo C30 even better suited to your personal needs. They are the only ones that have been tested to meet Volvo's exacting safety, quality and environmental requirements. You can also rest assured they're a perfect match to the technology and design of your Volvo.

Volvo C30 specifications.

ENGINE

Five-cylinder in-line engine. Double overhead camshafts and 20 valves. The five-cylinder engine features continuously variable valve timing on both the intake and exhaust side. Electronic engine management system. Three-way catalytic converter with Lambda sensor. Also features a turbocharger and dual-charge air coolers (Intercoolers). Boasting a turbocharger and variable all-valve timing, this high-performance power source delivers an exceptionally quick and powerful response throughout the entire rev range. It complies with stringent emission standards, such as California's ULEV II.

VOLVO C30 T5 (227 hp)

Engine type: 2.5-litre five-cylinder turbocharged gas engine
Max. power output: 227 hp at 5000 rpm
Max. torque: 236 lbs./ft. at 1500–4800 rpm
Acceleration 0–100 km/h, man/auto: 6.7/7.1 sec
Top speed, man/auto: 240/235 km/h
Fuel consumption, litres/100 km, city, man/auto: 10.2/10.2
Fuel consumption, litres/100 km, highway, man/auto: 6.8/6.8
Environmental classification: ULEV II
Transmission: Six-speed manual or five-speed Geartronic automatic

VOLVO C30 2.4i (168 hp)

Engine type: 2.4-litre five-cylinder gas engine
Max. power output: 168 hp at 6000 rpm
Max. torque: 170 lbs./ft. at 4400 rpm
Acceleration 0–100 km/h, man/auto: 8.1/8.8 sec
Top speed, man/auto: 220/215 km/h
Fuel consumption, litres/100 km, city, man/auto: 10.3/10.6
Fuel consumption, litres/100 km, highway, man/auto: 7.0/7.1
Environmental classification: ULEV II
Transmission: Five-speed manual or five-speed Geartronic automatic

DRIVELINE

Front wheel drive. Transverse engine. Six-speed manual gear-box. It is also available with a five-speed Geartronic automatic allowing manual shifting. The smooth manual six-speed gearbox inspires an active driving style, while the smooth clutch operation affords confident take-off. For the best of both worlds, there's the option of Geartronic – a responsive five-speed automatic for relaxed driving. It can also be shifted manually so that you can maintain a lower gear to bring up the revs or provide the added assistance of engine braking.

CHASSIS

Front suspension with spring struts (McPherson), anti-dive and anti-lift function. Multilink independent rear suspension. Anti-roll bars front and rear. Dynamic Stability and Traction Control (DSTC) can help counteract a skid. The rigid body enables the suspension to perform optimally – for well-balanced handling and a high level of comfort. The front and rear suspensions also interact to provide stable braking and smooth steering. The DSTC system assists if either of the drive wheels begins to lose traction, and the DSTC stability system adds the benefit of counteracting if a skid is imminent.

STEERING

Power-assisted electro-hydraulic rack and pinion steering. Tilt and telescopic steering wheel column. 2.6–2.9 turns lock to lock (depending on wheel size). Turning circle 10.6–12.1 metres (depending on wheel size.) Behind the wheel, you can enjoy responsive yet firm steering at all speeds. High steering precision and balanced road feedback are easily enjoyed benefits.

BRAKES

Power-assisted anti-locking disc brakes (ABS), ventilated discs front. Emergency Brake Assistance (EBA). Electronic Brake Distribution (EBD) between the front and rear brakes. Diagonal-split braking system. Braking distance from 100 to 0 km: 38 metres. Powerful anti-locking disc brakes help ensure a short stopping distance under all circumstances and withstand tough use without fading. EBA helps you use your brakes to the full in an emergency situation, while EBD distributes the braking effect between the front and rear wheels in order to achieve optimal results according to the car's load and driving conditions.

452 Black Sapphire metallic
(Standard T5, optional 2.4i Premium)

*Metallic paint is an option.
Please note: It is not possible to reproduce exact original shades in printed matter. Please ask your dealer to show you samples.
As part of our commitment to the environment, the paper used in this brochure is recycled, and colour choices were printed directly on the page. This eliminates the need for chemically treated colour chips. A small thing perhaps, but then, every little bit helps.

Taking care of your ownership needs.

It's a simple idea; one point of contact for all your car ownership needs, whether it's finding the right financing or who to contact in an emergency. Get the most out of owning your Volvo – trust Care by Volvo.

Volvo Car Financial Services Canada

If you purchase or lease your Volvo through Volvo Car Financial Services Canada, you can take advantage of services designed to make financing simple and convenient. Quick debit, for instance, enables you to have your monthly payment automatically debited from a designated bank account.

Care by Volvo® On Call roadside assistance

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or maps and routing information for your next trip, refer to your On Call Card and dial 1 (800) 263-0475 – anytime, day or night. Your complimentary 48 month membership activates the moment you become a Volvo owner.

Volvo new car warranty

Your new car warranty provides comprehensive coverage for 48 months or 80,000 km, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, emission systems, genuine Volvo replacement parts and genuine Volvo accessories. Should you encounter any problem with your Volvo, simply contact the nearest retailer for assistance. Where your warranty ends, Volvo Increased Protection (VIP) plans begin. To purchase the additional protection of a VIP plan, contact your local retailer.

Volvo genuine service

The best way to ensure superior performance year after year is to bring your Volvo to your authorized retailer for regular maintenance. Our service advisors and factory-trained technicians are uniquely qualified to maintain your automobile. With the aid of advanced Volvo diagnostics, they follow all prescribed factory maintenance outlined in your service interval manual. Genuine Volvo service is our ongoing commitment to you: to keep your Volvo performing smoothly long after other cars have given up.

Canadian Fleet Sales

Volvo Cars of Canada is committed to providing your organization with a Premium Fleet Experience. Our core values of safety, quality and environmental care are the essence of our brand, and our dedication to these values allows us to build world-class automobiles that meet the needs of today's demanding fleet decision-makers and drivers. Our Premium Fleet Experience enhances customer treatment and satisfaction by providing consistent order-to-order delivery times with priority order placement at the factory, direct-order relationships with major fleet leasing companies, and premium courtesy delivery via a Volvo Retailer that is convenient to the driver's location. Each Volvo offers a unique driving experience. We trust the Volvo you choose to best fit your fleet needs is better than anything you've driven before. For Sales people, Managers or Executives, Volvo range offers a large selection of models that perfectly matches your drivers' needs.

Volvo XC90 The versatile SUV that takes you anywhere with grace.

C

Volvo C30 The compact and charismatic Sports Coupe.

Volvo C70 A convertible when you want it.

Volvo C70 A coupe when you need it to be.

To live life is to care about it.

Every moment in a Volvo is a moment designed to celebrate life. A life full of twists and turns, ups and downs; the little things as well as the big ones. Of course, to live life to its fullest isn't just about you; caring for others is important as well.

For more than eighty years we have helped save lives on roads around the world. Nevertheless, when it comes to improving automotive safety, we will never be satisfied. And while we're seeking new solutions, our existing safety systems are preventing many accidents from happening and providing some real protection when they do.

Our passion for life means looking after our children's children, too. Which is why we try to balance the needs of our company with those of society. With this bigger picture in mind, we develop engines and technology that have less impact on mother earth. This approach also explains why we pay so much attention to your immediate environment – in the car. Simply put, we care about you – and the whole circle of life.

Please note: This brochure provides a brief introduction. Some of the information may be incorrect due to possible product changes since printing. Some of the images may be of models and equipment not available in all markets. Before ordering, please ask your Volvo dealer for the latest information. The manufacturer reserves the right to make changes at any time, without notice; to prices, colours, materials, specifications and models.
