* The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

A high-contrast, close-up photograph of a BMW M car. The focus is on the front wheel, which features a multi-spoke alloy design and a blue brake caliper. The BMW roundel logo is visible on the center of the wheel. To the left, a portion of the side mirror and a small M logo on the body panel are visible. The background is a soft, out-of-focus sky.

VELKOMMEN TIL UDSTYRSSEKTIONEN.

De efterfølgende sider i kataloget er en oversigt over det ekstra- og standardudstyr, bilen leveres med i Tyskland. Udstyrsliste gældende specifikt for det danske marked finder du her www.bmw.dk/udstyr

Med venlig hilsen

BMW X2 xDRIVE20i WITH EDITION M MESH:

Fuel consumption in l/100 km (combined): 6.3–6.6¹

CO₂ emissions in g/km (combined): 143–152¹

¹ Provisional figures, awaiting official confirmation

The data for fuel consumption, CO₂ emissions and energy consumption are determined in accordance with the measurements processes as defined by European Regulation (EU) 2007/715 in the applicable version. Data refer to a vehicle with base-level equipment in Germany, and the ranges account for differences according to the selected wheel and tyre size and the optional equipment and may change during the configuration process. Figures have been determined on the basis of the new WLTP test cycle and have been converted back into NEDC figures for comparability. [For these vehicles, values other than those specified here may apply for the assessment of taxes and other vehicle-related charges that are (also) based on CO₂ emissions.]

The models illustrated in this medium show the equipment and configuration options (standard and optional) for vehicles produced by BMW AG for the German market. Some of the equipment features shown or described here are available as optional equipment at an extra charge. The availability of some equipment features depends on engine variants or additional options. Alterations in standard and optional equipment and the configurations available for the different models, as described in this brochure, or according to the specific requirements of other markets may occur after 08/24/2020, the date when this brochure went to press. Your local BMW Partner is available to provide further details. Subject to change in design and equipment. Of course, each vehicle is designed for economical recycling after its long-running life. You can find more information regarding your end-of-life vehicle on our website www.bmw.com
