

All-New Hyundai i30

Move on.

To the New People's Car.

Rarely does a new car come along that looks so right, that feels so now. The All-New Hyundai i30 does all that in style. It holds appeal for everyone – singles, families, the young and “young at heart”. Timeless design, advanced connectivity features and the most comprehensive package of Hyundai safety technologies add to the potent attraction. That's what makes it the New People's Car.

Move on in timeless style.

The confident design concept of the All-New i30 shines through every detail. Precisely sculpted surfaces, a tapering silhouette and expressive design details establish an air of sleek, simple sophistication. The new Cascading grille is inspired by the flowing descent of molten steel, creating a powerful impression of both strength and movement. Striking new full LED headlamps and eye-catching LED Daytime Running Lights complete the allure.

Move on with an exhilarating drive.

New turbocharged petrol engines invigorate the performance of the All-New i30. Highlight is the new 1.4 T-GDI, delivering 140 PS at only 1500 rpm. There's also a new 1.0 T-GDI with 120 PS and a 1.6 Turbo-Diesel, available with three different power outputs: 95 PS, 110 PS or 136 PS. Together with a 7-speed Dual-Clutch Transmission, sharper steering and more agile handling, it all adds up to a thoroughly rewarding driving experience.

Fuel consumption in l/100 km for the All-New Hyundai i30 range: Combined 5.6 – 3.4 l/100km, CO₂ Emissions 130– 89 g/km.

Move on and stay connected.

In the All-New i30 you'll enjoy seamless access to the integrated connectivity, navigation and infotainment systems via the floating 8" touch-screen. LIVE Services, Apple CarPlay™ and Android Auto™ functionality will keep you in touch, informed and entertained throughout every journey. It's all presented in an elegant style and quality that typifies the timeless character of the All-New i30.

*Non-compatible smartphones require a wireless charging adapter.

Move on in relaxing comfort.

The calm sophistication of the cabin enhances the feeling of elegance, quality and space. In fact the All-New i30 is among the roomiest in this class. The large Panoramic Sunroof adds to this impression, and the button-operated Electric Parking Brake frees up space between the front seats, which are available with both ventilation and heating.

Heated Front Seats

Dual-Zone Climate Control

Move on in calm confidence.

Few cars have ever offered occupants so much peace of mind. The All-New i30 is the first Hyundai to be equipped with Driver Attention Alert (DAA). It detects any tendency of the driver to lose focus on driving safely. Among other advanced active safety technologies are Autonomous Emergency Braking (AEB) and Advanced Smart Cruise Control (ASCC).

Driver Attention Alert (DAA) detects the onset of driver fatigue and provides both acoustic and visual alerts.

Blind-Spot Detection (BSD) warns of the presence of vehicles hidden in blind spots by means of visual and acoustic alerts.

Advanced Smart Cruise Control (ASCC) maintains a pre-set distance to the preceding vehicle, automatically reducing or increasing speed as necessary.

Autonomous Emergency Braking (AEB) with Pedestrian Alert function automatically applies partial or maximum braking force if a potential collision is detected.

Move on with intelligent efficiency.

Reducing weight boosts both performance and fuel efficiency. So Hyundai developed the structure of the All-New i30 using weight-saving Ultra High Strength Steel. And the new turbocharged engines have been ingeniously engineered not only for enhanced throttle response, and low-end torque, but also for lightness. The new 1.4 T-GDI weighs 14 kg less than its predecessor.

More strength, less weight. 53% of the load-bearing structure is assembled from Ultra High Strength Steel. Compared with its predecessor, the All-New i30 saves 28 kg in body weight.

Time to move on.

Time flies. Nothing stands still. And for you, yesterday's rules no longer apply. These are the thoughts that inspired the creation of the All-New i30. It's the car that will fit naturally into your own progressive lifestyle, because it's got exactly what it takes to tick all your personal boxes. Move on to the New People's Car – the All-New i30.
