

# Q50

**INFINITI**

Inspired Performance

IN OBSESSION

Be driven by desire. Revel in it, and reveal the sensory delights of luxury focused on feel. The all-new Infiniti Q50 is designed for these delights. It delivers them with high-performance intensity and state-of-the-art technology. Luxury has found its future. Time to indulge.

IN SECONDS

Velocity has a special kind of magic. The moment you're launched forward, you can feel from the inside out engineering that accelerates emotion, with power and efficiency. It's so much more than movement.

**INFINITI DIRECT RESPONSE HYBRID** doesn't ask you to choose between efficiency and exhilaration. Capable of achieving 6.2 l/100 km, it also delivers 364 PS with heart-pounding immediacy and only 144 g/km of CO<sub>2</sub> emissions.

**ACCELERATION SWELL** transforms mechanical power into emotional excitement. Precise engine tuning unleashes torque over a broader rev range, and sustains g-forces over a longer period. The feeling of acceleration is shaped to increase the faster you go.

What are you seeking? What feeling are you waiting for? As you take hold of the steering wheel, no matter what experience you anticipate, the Q50 amplifies it. It's designed to become what you desire.

**DIRECT ADAPTIVE STEERING** expands your sense of total control behind the wheel, and your concentration on the road with a digitally enhanced steering connection – allowing for an unprecedented level of handling personalisation and filtering out unwanted vibration.

**INFINITI DRIVE MODE SELECTOR** matches the way your vehicle performs to your conditions, your needs and even your mood with the simple flip of a switch.

IN MOMENTS

There are hidden levels of driving enjoyment that are unlocked when technology and design converge to purify your connection with the road. It takes only an instant to discover what's beneath the surface.

**ZERO-LIFT AERODYNAMICS** manage airflow to ensure your Q50 is balanced while you're in motion, helping maintain exceptional stability at speed and its intimate connection to the road.

**DOUBLE-PISTON SHOCK ABSORBERS** adjust damping forces based on road conditions to maintain the perfect ride and precise response that suits all your moments behind the wheel.

IN ANTICIPATION

Your every touch has power. The greatest response and the tightest connection can come from a momentary contact, the lightest touch of a fingertip. Discover how technology designed in the right way can transform your gestures into influence.

**INFINITI INTOUCH** integrates your digital life, including apps, in a system that responds naturally to your touch. Touch, tap, swipe to navigate email, stream music, catch up on social media and more.

**INFINITI INTOUCH NAVIGATION** offers a more intuitive 3-dimensional view and simple interface for increased ease and confidence, helping you expertly find your location and your destination, even in crowded city environs.

**INTELLIGENT CRUISE CONTROL (ICC)** automatically slows you down when traffic in front of you slows down. When the way is clear, it accelerates back to your desired speed. Less effort, more ease.

IN AWAKENING

Visionaries don't just see the world with greater accuracy, they dream of new experiences that never were before. Take hold of a singular vision of luxury that owes nothing to conventions that have preceded it, and everything to your total sensory delight.

**LED HEADLIGHTS** are designed to complement the sculpted design of the Infiniti Q50 and create a dramatic flair that will turn heads. They also turn to shed light on where you're steering, helping heighten visibility as you manoeuvre.

**SMART BEAM ASSIST** automatically dims your high beams as oncoming vehicles approach. Extend courtesy, increase safety, savour convenience catered for you.

## OBJECT OF ATTRACTION

THE INFINITI Q50

# AMBIANCE

A welcoming and evocative space is measured by its ability to stir your emotions.

360  
PEOPLE

6  
COUNTRIES

.48  
MILLIMETRES

**MATCHLESS MATERIALS** Glide your hand across the armrest, and your fingertips seem to recognise the instinctively rewarding feel. This is purely intentional. We took one-and-a-half years, surveying 360 people all over the world to quantify the most pleasing tactile feel, then created the perfect materials to match it. With tension and texture that match the depth and spacing of the ridges in your fingerprint, it imbues the surfaces you'll engage most with the perfect touch.

**INVITING YOU IN** We use light not only to make you feel more secure, but to make you feel like an honoured guest. Welcome Lighting responds to your presence automatically by gently illuminating lamps in the front door handles as you approach. Then, as you get closer, the interior lights are illuminated. This choreographed sequence ends with the Start/Stop Button, pulsing as though with a heartbeat – inviting you to bring your Q50 to life and building anticipation for the road ahead.

**EVERY BREATH FRESHER AND CLEANER** Even the invisible is never overlooked. The Advanced Climate Control System features the dual zone adaptive climate control with auto-recirculation. It works in concert with the Grape Polyphenol Filter, which removes up to 99.5% of allergens from the air coming in from the outside.

**ABUNDANT SPACE** The interior of the Q50 was designed to emphasise both the rewards of spaciousness and the feeling of space. Interior elements like the roof and windshield pillars were shaped to give a more open feeling. The backs of the supportive front seats give rear passengers more legroom. What's more, a wide trunk opening gives you easy access to one of largest luggage compartments in its class.

## POWER

Award-winning build quality, fuel efficiency and output can be measured with instruments or graphs, but the true excellence of Infiniti engines is in the feeling unleashed as you drive.

364  
PS

6.2\*  
l/100 km

PS

4.4\*  
l/100 km

211  
PS

6.3\*  
l/100 km

**3.5-LITRE V6 ENGINE WITH INFINITI DIRECT RESPONSE HYBRID**  
A combined system power of 364 PS responds to your call with thrilling immediacy, while it achieves a surprising 144 g/km of CO<sub>2</sub>. It transitions from all-electric mode to full-power hybrid mode, with an intensity and organic response that defies everything you think about hybrids.

**2.2-LITRE DIRECT INJECTION TURBO DIESEL ENGINE**  
As clean burning and fuel efficient as it is emotionally invigorating. This engine uses the latest Diesel technology to achieve 4.4\* l/100 km, while putting 170 PS and 400 Nm of torque at your command. And it delivers that power while producing less than 115 g/km of CO<sub>2</sub> emissions.

**2.0-LITRE TURBOCHARGED PETROL ENGINE**  
The supercharger technology of the four-cylinder petrol engine delivers sustained acceleration and outstanding responsiveness. Differentiated drive mode options, in conjunction with a high performance output of 211 PS and 350 Nm, ensure exceptional handling control and a thrilling driving experience. The Infiniti Q50 2.0t accelerates from 0 to 100 km/h in just 7.2 s and achieves a combined fuel consumption of only 6.3\* l/100 km.

**MAGNESIUM PADDLE SHIFTERS**, located behind the steering wheel, allow quick gear change for enhanced sporty driving sensation.

\* This figure refers to the combined fuel consumption

PS Nm g/km CO<sub>2</sub>

# PERFORM

Unleashing the intelligence and intensity of Infiniti Direct Response engineering, the Q50 frees you to drive precisely the way you desire.

96

PERSONALISED  
SETTINGS

**AN ELECTRIFYING CONNECTION** There are nearly 100 ways to dial-in the driving dynamics of your Q50. Direct Adaptive Steering – a world-first technology – gives you an unprecedented level of customisation by next-generation digital systems to streamline the steering mechanism. Not only can it make driving more relaxing by filtering out any unwanted vibration you feel in the steering wheel, it allows you to tailor the steering sharpness to get precisely the response you desire.

**EFFICIENT INVIGORATION** No hybrid design is quite like it, and none has this acceleration speed. The powerful 68 horsepower electric motor and cutting-edge lithium ion batteries of the Infiniti Direct Response Hybrid are capable of maintaining speeds of up to 80 km/h in all-electric mode. When not needed, the 3.5-litre V6 petrol engine is turned off and completely disconnected, maximising mechanical efficiency. And yet, it responds to your call for power with a stirring intensity.

**MORE RESPONSIVE BRAKING** The agile performance of the Q50 is made all the more predictable with sports brakes, featuring opposed-piston calipers (only on Q50S Hybrid). The extra bite they take, shaves speed quicker and with greater confidence.

**LIGHT ON ITS FEET** These stunning 19-inch alloy wheels heighten both the looks and performance of the Q50. Lightweight, thanks to both material and design, they reduce unsprung weight. That reduction of mass makes driving more exciting by allowing the suspension to be more finely tuned and by making the handling of the Q50 more responsive and more nimble.

**AERODYNAMIC ADVANTAGE** The upper and lower body of the Q50 direct the flow of air over, around and under the vehicle, turning it into an incredibly effective downforce generator. By minimising the pressure under the car and the “suction” effect over it, the design achieves zero-lift at the front and rear. This reduces the effects of wind turbulence at higher speeds, and leaves you feeling more tightly in control and in touch with the road surface.

**SHARPER SHIFTS** When you flick the magnesium paddle shifter (only with 7AT\* sport versions) for a lower gear, Downshift Rev Matching (available only with Q50S Hybrid models) blips the throttle to ready the engine for the new gear. It gives you the power of expert performance driving by delivering smoother downshifts for increased stability and more consistent engine power.

**CONTROL WITHOUT COMPROMISE** When conditions are ideal, Intelligent All-Wheel Drive (AWD) sends 100% of the power to the rear wheels for more sporty response and performance. But it also constantly monitors wheelspin, throttle position and vehicle speed, and can divert up to 50% of the available power to the front wheels to enhance traction and control when conditions are less than optimal. Your need for control, and your desire for excitement are both satisfied.

\*7-speed automatic transmission.

## ASSIST/ENTERTAIN

The advanced technologies of Infiniti InSuite™ simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

8"

TOP

7"

BOTTOM

CUSTOMISABLE DUAL TOUCHSCREENS

**INTUITIVE TECHNOLOGY** Infiniti InTouch puts intuitive control of your vehicle's systems, and access to your favourite apps right at your fingertips. The dual touchscreen interface allows you to set the climate control, do a Google® search, check your social media, or access a wide variety of comfort and convenience settings all from the same elegant interface. And if you customise Infiniti InTuition™, it remembers your personal choice of apps, so you'll always see the apps you've selected.

**A SMARTER WAY TO SEE** The Adaptive Front-lighting System (AFS) illuminates not just the way ahead, but around as well. It directs light towards corners by turning the headlights in coordination with input from the steering. What's more, the Q50 introduces innovative High Beam Assist technology, which automatically dims your high beams when oncoming traffic approaches at night (optionally available).

**MAKING YOUR SPACE SAFE** Distance Control Assist (DCA) employs radar to monitor the vehicle in front of you and helps you maintain a safe following distance. If your following distance becomes too short, the system can automatically apply the brakes as you release the accelerator, and it can warn you if you need to brake. If you keep your foot on the accelerator while closing in on the other vehicle, the system can push the pedal upwards to assist you in releasing it.

**CONVENIENCE IN TRAFFIC** Intelligent Cruise Control (ICC) (Full-Speed Range) allows you to choose your desired speed, and automatically slows your vehicle in slowing traffic, bringing it all the way to a complete stop. Then, as the traffic flow picks up again, it re-accelerates your vehicle to your preset speed. This visionary innovation, and the personalised convenience it offers, is available with a simple touch of a button.

**ALL-AROUND AWARENESS** The Around View Monitor (AVM) with Front and Rear Sonar System and Moving Object Detection gives you exceptional awareness of your environment as you park. You'll see a simulated 360° view from above, clearly showing you the objects detected around your car. And the system will even alert you to any moving objects detected in your vicinity. It helps put you intuitively in control of your surroundings, while simultaneously putting you at ease.

**AUDITORY INDULGENCE** The next-generation BOSE® Premium audio system brings 14 individual speakers to bear in its powerful array – three of which are 10-inch subwoofers, which add audible depth to every form of music. Their positioning and sound delivery is precision-engineered specifically for the interior of the Q50 to filter out noise and distortion, and to surround you with a compellingly rich and realistic sound.

**INFINITI INTELLIGENT KEY** automatically custom-tailors your car for you. Everything from the driver's seat to your navigation preferences, climate control, audio and performance settings, will be set precisely the way you like it.

## PROTECTION

The Infiniti Dynamic Safety Shield (DSS) concept – our comprehensive approach to safety – layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

**ALWAYS LOOKING FOR DANGER** Predictive Forward Collision Warning (FCW)<sup>1</sup> can warn you of a possible collision, even when the cause is outside your field of vision. It uses radar to continuously monitor and analyse the relative speed of not only the vehicle directly ahead of you, but of the vehicle in front of that one as well. If your closing speed on either exceeds safe limits, it provides an alert and tightens the seat belt to help restrain you.

**SENSES WHERE YOU CAN'T SEE** The Blind Spot Intervention™ System uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds. The system will even apply opposite side brakes to help you guide your vehicle back to the centre of your current driving lane.

**MAINTAINING YOUR LANE** The Lane Departure Warning (LDW) and Prevention (LDP) System uses a camera to watch for departure from the travelling lane when you haven't signalled, and audibly warns you if it's detected. Then, if the drift continues, the Lane Departure Prevention System gently helps ease your vehicle back into the proper lane. What's more, Active Lane Control (only available with Direct Adaptive Steering) can help you maintain position when driving in a crosswind or on a slanted road.

**REVERSE WITH GREATER CONFIDENCE** A world first from Infiniti, Back-Up Collision Intervention (BCI) employs an advanced set of sensors to help detect vehicles approaching from either side as you back up. If a vehicle is detected, the system alerts you – first, a warning light appears, then an audible alarm sounds, followed by accelerator force feedback. The system can even (only with the automatic gearbox) intervene by automatically engaging the brakes to help avoid a collision.

**PREPARED TO PROTECT** Under certain braking conditions, the front-seat Pre-Crash Seat Belts automatically tighten the front seat belts – helping restrain you and helping to maximise the effectiveness of the other occupant protection devices, such as air bags.

**HARM MITIGATED** Forward Emergency Braking scans the area ahead of you looking for signs that an unavoidable collision might be imminent. If it detects a probable accident, the system warns the driver, and automatically engages the brakes and tightens the driver's seat belt to reduce speed and mitigate damage.

# SELECTION

Hues that change in response to light and angle. Matching exterior and interior colours to reflect the distinctive energy and mood of the seasons. The reassuring resilience of Scratch Shield Paint that stays brilliant longer. These are just a few ways Infiniti uses paint to express feeling, evoke confidence, and shape the emotional essence of a vehicle.

This brochure is intended for general descriptive and informational purposes only. It is subject to change and does not constitute an offer, representation or warranty (express or implied) by INFINITI Europe. Before relying on this brochure to make a purchase decision, interested parties should directly contact the Infiniti Centre to confirm the accuracy of any information given herein and how it relates to a specific vehicle. INFINITI Europe reserves the right to make changes, at any time, without prior notice, in prices, colours, materials, equipment, specifications and models and to discontinue models or equipment. Due to continuous product development and other pre- and post-production factors, the actual vehicle, materials and specifications may vary from this brochure. Some vehicles are shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary. Specifications, options and accessories may differ in other countries. For additional information on availability, options or accessories, contact your Infiniti Centre.

\* FCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed limitations apply. Always drive safely.

Infiniti has taken care to ensure that the colour swatches presented here are the closest possible representations of actual vehicle colours. Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colours at your local Infiniti Centre.

## GENUINE INFINITI ACCESSORIES

The same exacting standards applied to creating an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish.

ACCESSORIES SHOWN, midnight black grille, load carrier, roof box, welcome lighting.

**17 INCH SILVER ALLOY WHEELS** Wherever you go, there'll be no questioning your sense of style and love of sporty design. 225/55 R17, 10 spoke alloy wheels.

**ENTRY GUARDS** Set in a stainless steel panel, these soft "Infiniti" illuminated entry guards give the sill area a sporty and sophisticated look. The kit, supplied in pairs, lights up your entrance and protects the paintwork.

**TRUNKBOX** Collapsible and constructed of a durable and flexible material, the trunkbox helps keep your belongings and other items from moving around while driving, protecting them and your trunk from damage and reducing clutter.

**REAR SPOILER\*** Custom-designed for perfect fit and factory-matched colour, it enhances your vehicle's sporty, aerodynamic appearance.

**TOW BAR** Tested to meet the highest demands of safety and functionality, the tow bar allows you to bring your needs wherever you want. It is integrated into the car's bodywork and has an approved towing capacity of 1.5 t. The tow bar can be removed easily when not needed.

**FLOOR MATS** These tailor-made floor mats feature an elegant model emblem and perfectly match the sophisticated and luxurious interior of your Q50. Dirt-repellent and fixed with a safety hook, these mats always stay in best shape.

\*Please check applicability with your local Infiniti Centre.

## PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula 1®, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Infiniti is drawn to Formula 1® racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led to four Formula 1® Constructors' World Championships in a row. Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula 1® and Infiniti vehicles.

This exchange of both technology and ideas now includes the appointment of four-time Formula 1® Drivers' World Champion, Sebastian Vettel, as our Director of Performance. Sebastian has already assisted in the development of the all-new Infiniti Q50 – harnessing his supreme driving senses and passion for performance to ensure this new vehicle is as dynamic as possible. And now, future Infiniti vehicles will be imprinted with the genius and unrivalled passion that defines his greatness.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion – pure and primal – should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti's flagship line has now grown to include sedans, coupes, convertibles and crossovers, all available in 49 countries

worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.

<b>ENGINE</b>					
Fuel type	Diesel	Diesel	Petrol	Petrol / Electric (Hybrid)	Petrol / Electric (Hybrid)
Cylinders	4	4	4	V6	V6
Displacement	2,143 cc	2,143 cc	1,991 cc	3,498 cc	3,498 cc
Intake System	Common Rail Direct Injection (CDI)	Common Rail Direct Injection (CDI)	Direct injection	High-flow tuned induction system	High-flow tuned induction system
Exhaust System	Dual exhaust system, Diesel Particle Filter	Dual exhaust system, Diesel Particle Filter	Dual exhaust system	Dual exhaust system	Dual exhaust system
Power					
Diesel/Petrol engine	125 kW (170 PS)	125 kW (170 PS)	155 kW (211 PS)	225 kW (306 PS)	225 kW (306 PS)
Electric engine	–	–	–	50 kW (68 PS)	50 kW (68 PS)
Combined engines	–	–	–	268 kW (364 PS)	268 kW (364 PS)
Torque					
Diesel/Petrol engine	400 Nm at 1,600–2,800 rpm	400 Nm at 1,600–2,800 rpm	350 Nm at 1,250–3,500 rpm	350 Nm at 5,000 rpm	350 Nm at 5,000 rpm
Electric engine	–	–	–	270 Nm	270 Nm
Combined engines	–	–	–	546 Nm	546 Nm
Transmission	6-speed manual transmission	7-speed automatic transmission	7-speed automatic transmission	7-speed automatic transmission	7-speed automatic transmission
Driven wheels	Rear-Wheel Drive (RWD)	Rear-Wheel Drive (RWD)	Rear-Wheel Drive (RWD)	Rear-Wheel Drive (RWD)	Intelligent All-Wheel Drive (AWD)
Emissions	Euro 5b+	Euro 5b+	Euro 5b+	Euro 5b+	Euro 5b+
<b>PERFORMANCE</b>					
Top speed	231 km/h	230 km/h	245 km/h	250 km/h	250 km/h
0–100 km/h	8.7 s	8.5 s	7.2 s	5.1 s	5.4 s
Estimated fuel consumption <sup>1</sup>					
urban	5.6 l/100 km <sup>2,3</sup> / 5.7 l/100 km <sup>4</sup>	6.0 l/100 km	8.6 l/100 km <sup>3</sup> / 8.8 l/100 km <sup>4</sup>	8.2 l/100 km	9.6 l/100 km
extra-urban	3.7 l/100 km <sup>2,3</sup> / 3.8 l/100 km <sup>4</sup>	4.1 l/100 km <sup>2,3</sup> / 4.2 l/100 km <sup>4</sup>	5.0 l/100 km <sup>3</sup> / 5.2 l/100 km <sup>4</sup>	5.1 l/100 km	5.3 l/100 km
combined	4.4 l/100 km <sup>2,3</sup> / 4.5 l/100 km <sup>4</sup>	4.8 l/100 km <sup>2,3</sup> / 4.9 l/100 km <sup>4</sup>	6.3 l/100 km <sup>3</sup> / 6.5 l/100 km <sup>4</sup>	6.2 l/100 km	6.8 l/100 km
CO <sub>2</sub> emissions <sup>1</sup>	114 g/km <sup>2,3</sup> / 118 g/km <sup>4</sup>	124 g/km <sup>2,3</sup> / 128 g/km <sup>4</sup>	146 g/km <sup>3</sup> / 151 g/km <sup>4</sup>	144 g/km	159 g/km
<b>DIRECT RESPONSE HYBRID SYSTEM</b>					
Hybrid system	–	–	–	One electric motor, 2 clutch	One electric motor, 2 clutch
Battery Type	–	–	–	Li-ion battery	Li-ion battery
Battery Power	–	–	–	346 V	346 V
Battery capacity	–	–	–	50 kW	50 kW
<b>HANDLING</b>					
Steering					
Type	Hydraulic electric power steering	Hydraulic electric power steering	Hydraulic electric power steering	Direct Adaptive Steering	Direct Adaptive Steering
Turning diameter	11.4 m	11.4 m	11.4 m	11.2 m	11.4 m
Suspension					
Front	Independent, double wishbone with coil springs over shock absorbers, stabiliser bar	Independent, double wishbone with coil springs over shock absorbers, stabiliser bar	Independent, double wishbone with coil springs over shock absorbers, stabiliser bar	Sports-tuned, Independent, double wishbone with coil springs over Double-Piston Shock absorbers (DPS), stabiliser bar	Sports-tuned, Independent, double wishbone with coil springs over Double-Piston Shock absorbers (DPS), stabiliser bar
Rear	Independent, multi-link suspension with Dual Flow Path (DFP) shock absorbers, stabiliser bar	Independent, multi-link suspension with Dual Flow Path (DFP) shock absorbers, stabiliser bar	Independent, multi-link suspension with Dual Flow Path (DFP) shock absorbers, stabiliser bar	Sports-tuned, Independent, multi-link suspension with Double-Piston Shock absorbers (DPS), stabiliser bar	Sports-tuned, Independent, multi-link suspension with Double-Piston Shock absorbers (DPS), stabiliser bar
Brakes					
Front/rear	320 mm front / 308 mm rear ventilated discs	320 mm front / 308 mm rear ventilated discs	330 mm front / 308 mm rear ventilated discs	355 mm front / 350 mm rear ventilated discs with aluminium opposed front callipers (4-piston front, 2-piston rear)	355 mm front / 350 mm rear ventilated discs with aluminium opposed front callipers (4-piston front, 2-piston rear)
<b>CAPACITIES AND WEIGHTS</b>					
Kerb weight	1,716 kg <sup>2</sup> / 1,723 kg <sup>3</sup> / 1,736 kg <sup>4</sup>	1,744 kg <sup>2</sup> / 1,750 kg <sup>3</sup> / 1,764 kg <sup>4</sup>	1,678 kg <sup>3</sup> / 1,692 kg <sup>4</sup>	1,825 kg	1,901 kg
Luggage volume	500 litres	500 litres	500 litres	400 litres	400 litres
Fuel capacity	74 litres	74 litres	80 litres	70 litres	70 litres
<b>DIMENSIONS</b>					
Exterior					
Coefficient of drag	0.26 <sup>2,3</sup> / 0.265 <sup>4</sup>	0.26 <sup>2,3</sup> / 0.265 <sup>4</sup>	0.26 <sup>3</sup> / 0.275 <sup>4</sup>	0.275	0.280
Overall length	4,790 mm <sup>2,3</sup> / 4,800 mm <sup>4</sup>	4,790 mm <sup>2,3</sup> / 4,800 mm <sup>4</sup>	4,790 mm <sup>3</sup> / 4,800 mm <sup>4</sup>	4,800 mm	4,800 mm
Overall width without mirrors	1,820 mm	1,820 mm	1,820 mm	1,820 mm	1,820 mm
Overall height without roof rails	1,445 mm	1,445 mm	1,445 mm	1,430 mm	1,445 mm
Wheelbase	2,850 mm	2,850 mm	2,850 mm	2,850 mm	2,850 mm

<sup>1</sup> The values stated were determined according to the measuring methods specified in the most recently amended version of European Directive 715/2007/EC. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO<sub>2</sub> emissions. CO<sub>2</sub> is the main greenhouse gas responsible for global warming.
