60 COUPE & CONVERTIBLE

INFINITI

Inspired Performance

AN ESCAPE

The Q60 Coupé invites you on a journey that is truly intimate. Exuding from the magnetic attraction of its styling and the exhilarating intensity of its performance, a connection is shared in an instant. It is the promise of an experience savored by your every sense.

4 WHEEL ACTIVE STEERING (4WAS) provides greater stability and grip. It raises the vehicle's already high performance threshold, delivering to the driver an additional level of agility when cornering and driving through curves.*

ZERO-LIFT AERODYNAMICS allows it to carve through the wind without upsetting its balance for an enhanced feeling of grip and overall control. Beauty transcends with function.

*Availability can vary within model range.

A CONNECTION

Drawn by an undeniable allure. Rewarded with an unspoken declaration. The Q60 Coupé reflects your desires and translates your thoughts through design, performance and sheer instinct. Once driven, it will never leave you.

NATURAL INSPIRATION can be seen in the organic beauty of windswept shapes and dynamic lines. Designers sought to emphasize the interplay between light, texture and contour to invite an endless sense of fascination.

INFINITI INTELLIGENT KEY personalizes your vehicle to suit you without ever leaving your pocket or purse. Simply pressing the switch on the door handle unlocks the doors, while the seat, outside mirrors, and steering wheel automatically adjust to your personal preferences – ready to please and to excite.

An aerial photograph of a dark blue Jaguar Q60 Convertible driving on a two-lane asphalt road that runs along a coastline. The car is positioned in the center of the road, moving away from the viewer. To the right of the road is a paved sidewalk made of irregular stone tiles, followed by a rocky shoreline and the deep blue sea. The text "IN HARMONY" is printed in white, uppercase letters on the right side of the image.

IN HARMONY

From the very first moment, the Q60 Convertible elicits a deeper connection. You can see it in its alluring form and powerful stance. Feel it in its meticulous detail. Hear it in your heartbeat. Then open the top, and expose every sense to the sights, sounds, even the smells of performance at its fullest effect.

ACCELERATION SWELL transforms mechanical power into emotional excitement. Precise engine tuning unleashes torque over a broader rev range, and the feeling of acceleration is shaped to increase the faster you go.

SPORT-TUNED STEERING GEAR RATIO creates a precise connection that reacts immediately for quicker turn-in response while requiring less overcompensation in steering. More time with your hands on the wheel means more confidence and control.

IN SURRENDER

Compromise should never be required. You know what you desire and every moment of your experience should be exactly as you anticipate it to be, thanks to luxury that anticipates your needs and caters to your comfort.

COUPE-LIKE DESIGN is never compromised, even when engineering a vehicle to be fully enjoyed with the top down. With its three-piece design, the power retractable hardtop maintains a flowing, elegant shape when up, and hides beneath a fully styled trunk lid when folded down.

TOUCHPAD TOP OPENING seamlessly transforms its seductive profile by allowing you to retract the hardtop through the driver's door handle request switch.

IN EXPECTATION

The most intimate connections are the ones known only to you. In a point of contact, a technology that remembers your preferences, or a sound that is tuned for your ears, the Q60 Convertible reveals its aspiration to reward you on a truly personal level.

BOSE® PREMIUM SOUND SYSTEM features outstanding clarity whether the top is up or down. The system monitors ambient noise and vehicle speed, then dynamically adjusts volume and equalization to preserve the depth and detail of your music. It even integrates speakers into the headrest, so every note sounds as though it was played just for you.

CLIMATE-CONTROLLED SEATS* surround you in greater comfort by pushing cool or warm air through the front seats to keep you entirely in your preferred temperature zone. Arrive at your destination refreshed and relaxed.

*Only available for Q60 Convertible

ASSIST/ENTERTAIN

Infiniti InSuite™ integrates a host of intuitive technologies to simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

A BETTER VIEW OF YOUR WORLD Infiniti Hard Drive Navigation System is packed with advanced yet intuitive technology that makes it both more informative and easier to use. Birdview perspective control gives you a more natural view of the map, while 3-D building graphics make it easy to locate your destination in crowded urban environments. Also, you can simply speak your instructions to the system, thanks to full integration with Infiniti Voice Recognition*.

ENHANCED AWARENESS When in reverse, the Rear View Monitor turns on to display coloured guidelines to give you an accurate sense of how close your proximity is to objects behind, and adjusts as you turn, to show your path. The Front and Rear Sonar System alerts you by emitting a beeping tone and displays an icon on the Rear View Monitor when approaching an obstacle while in reverse. It intuitively puts you in total control, while simultaneously putting you at ease.

OPTIMIZED COMFORT The dual occupant memory system allows two custom profiles for the driver's seat. Depending on which key you possess, the preferred settings for the seat, steering column, and mirrors are automatically executed with the press of a button, giving both drivers an intimate level of comfort.

SECURING YOUR SPACE Intelligent Cruise Control (ICC) employs a laser rangefinder to monitor the distance between you and the vehicle in front of you. When traveling above 40 km/h (25 mph), it automatically slows you down when traffic slows and re-accelerates to your preset speed when the way clears.

EMPOWERING YOUR TOUCH The Infiniti Controller puts intuitive, simple control of your technology systems at your fingertips. Designed to fall naturally within your reach and to minimize distraction from driving, it allows you to interact via a variety of inputs and with clearly marked buttons and commands. What's more, a single press can bring you from one major system to another.

PERFORM

Underneath its alluring physique lies the foundation of the thrilling dynamics of Infiniti Direct Response performance engineering.

3.7-LITRE V6 ENGINE A potent blend of exciting response and intelligent efficiency. Benefitting from Variable Valve Event and Lift (VVEL) technology, the engine adjusts on the fly to make the most of every bit of fuel and every breath it takes. The result is a stirring 320 PS that still manages to achieve up to 7.8 l/100km (36.2 mpg)**.

DUAL FLOW PATH® SHOCK ABSORBERS adjust damping forces based on road conditions to maintain the perfect ride and precise response that suits all your moments behind the wheel.

THE SOUND OF PERFORMANCE A performance car speaks to you through its exhaust, and the specialty exhaust tuning on the Q60 Convertible and Coupé shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

SHARPER SHIFTS When you flick the magnesium paddle shifter for a lower gear, Downshift Rev Matching blips the throttle to ready the engine for the new gear. It gives you the power of expert performance driving by delivering smoother, quicker downshifts for increased stability and more consistent engine power.

INNATELY RESPONSIVE BALANCE Dynamic handling is built right into the foundation of the Q60 Convertible and Coupé, thanks to its Front-Midship Platform. Placing the engine's center of mass just behind the front wheel center line creates a near-equal front-to-rear weight ratio, with a slight front bias that you'll feel as quicker turn-in and even balance as you accelerate out of a corner.

SELECTION

Hues that change in response to light and angle. Matching exterior and interior colours to reflect the distinctive energy and mood of the seasons. The reassuring resilience of Scratch Shield Paint that stays brilliant longer. These are just a few ways Infiniti uses paint to express feeling, evoke confidence, and shape the emotional essence of a vehicle.

¹ The values stated were determined according to the measuring methods specified in the most recently amended version of European Directive 715/2007/EC. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO₂ emissions. CO₂ is the main greenhouse gas responsible for global warming.
