

Q70

INFINITI

Inspired Performance

A silver Infiniti Q70 sedan is parked on a light-colored, reflective surface, possibly a modern building's plaza. The car is viewed from the side, facing right. In the foreground, the lower legs and feet of two people are visible, walking past the car. The background features a large glass wall reflecting the car and the surrounding environment, which includes greenery and city lights at night. The overall atmosphere is sophisticated and urban.

FROM AMBITION

It's time to step beyond. It's time to demand rarer rewards that are more dynamic and utterly unafraid. Move boldly and savour a sensory intensity that is born from an unwavering attention to tactile reward and a commitment to invigorating motion. When you look beyond the conventions of a flagship luxury sedan, you discover engineering and design more elevated. This is luxury you desire. The Infiniti Q70.

FROM IMPULSE

Act on the moment. Anticipate every opportunity. Apply power and intelligence in equal measure and reveal excitement that exceeds the reach of either by itself. Experience response that leaves you feeling more alive.

INFINITI DIRECT RESPONSE HYBRID doesn't require a choice between efficiency and exhilaration. It achieves up to 40.9* mpg, while also delivering 364 PS with heart-pounding immediacy.

* This figure refers to the combined fuel consumption.

A black Infiniti Q70 is shown from a front-three-quarter perspective, driving on a road at night. The car's headlights are on, creating a bright glow and lens flare effects. The license plate reads 'UX3 HN97'. The background is dark with some blurred lights, suggesting motion.

FROM MOTION

INTELLIGENT CRUISE CONTROL (ICC) automatically slows you down when traffic in front of you slows down. When the way is clear, it accelerates back to your desired speed. Less effort, more ease.

4WAS (4 WHEEL ACTIVE STEERING)* engages each wheel as you steer. Your Q70 turns in and tracks with clarity and precision to make cornering more immediate, stable and exciting.

* Availability can vary within model range.

ACCELERATION SWELL transforms mechanical power into emotional excitement. Precise engine tuning unleashes torque over a broader rev range, and the feeling of acceleration is shaped to increase the faster you go.

Design becomes great when it transcends shape and captures pure emotion. The beauty brought to life in the Infiniti Q70 isn't about adherence to existing concepts of form and function. It's about the ability of its creator to imbue an object with the power to express a singular vision in every curve and evoke a deeply personal response from all those who take it in.

ARTFUL CRAFTSMANSHIP strikes a balance of fluidity and musculature that gives the Infiniti Q70 a presence that is impossible to ignore. Its stance and double-wave hood speak to the power that surges beneath, while its flowing, naturally inspired lines tell of the pleasure it's designed for.

WELCOME LIGHTING celebrates your presence and elegantly draws you into the driving experience. As you approach, a sequence of exterior then interior lights reward your presence. Walk away, and the sequence runs in reverse.

In the richness you touch. In the space that surrounds you. In the sounds that invigorate. In the technologies that fill it. This is where you find true reward. Every time, you'll find the connection between you and the experience of driving intensified. Every time, your Infiniti Q70 will leave you moved.

BOSE® PREMIUM SURROUND SOUND SYSTEM envelops you, creating depth and ambiance for a wider, more immersive sound. 16 powerful speakers deliver music throughout the cabin with the soothing richness and thrilling intimacy of BOSE® 5.1 digital sound.

FOREST AIR® SYSTEM The natural rejuvenation of a cool, soothing breeze is brought into your personal space as you drive. Air is circulated with a gentle ebb and flow.

FROM INDULGENCE

OBJECT OF ATTRACTION

THE INFINITI Q70

AMBIANCE

A welcoming and evocative space is measured by its ability to stir your emotions.

NATURAL REJUVENATION Inspired by the way natural settings simultaneously calm and invigorate your senses, we created the one-of-a-kind Forest Air® climate control system. As it circulates air around the cabin, it emulates the calming sensation of a natural breeze by varying the strength of the airflow. It intermittently cycles from a gentle 2 m/s to a more robust 5 m/s in an ebb and flow so smooth and natural that you only notice the satisfaction it provides.

2 M/S  5 M/S
GENTLE EBB AND FLOW

FINER FABRICS The seat belt is one of the few surfaces you continually touch, so we found a variable herringbone weave for the webbing that is softer than standard fabrics. Not only is it more pleasing to the touch, but by being more compliant, it allowed us to reduce the friction of the seat belt mechanisms. The seat belt is more comfortable to wear, easier to pull out and even less likely to snag the thread of your finest fabrics. No element is too small.

ABUNDANT SPACE The interior of the Q70 was designed to emphasise both the rewards of spaciousness and the feeling of space. It offers excellent head and leg room for all passengers. Interior elements like the roof and windscreen pillars are shaped to give a more open feeling. Each seat is rewardingly supportive and even taller rear passengers will have comfortable legroom. What's more, a wide boot opening gives you easy access to a spacious luggage compartment.

MATCHLESS MATERIALS The craftsmanship in an Infiniti Q70 is not limited to the exquisite ergonomics and trim. Your fingertips will seem to recognise an instinctively rewarding feel in the armrest and other surfaces. We took one-and-a-half years, surveying 360 people all over the world to determine what feels most pleasing to the touch. With tension and texture that match the depth and spacing of the ridges in your fingerprint, we've imbued the surfaces you'll engage most with the perfect feel.

POWER

Award-winning build quality, fuel efficiency and output can be measured with instruments or graphs, but the true excellence of Infiniti engines is in the feeling unleashed as you drive.

364	40.9*
PS	mpg

3.5-LITRE V6 ENGINE WITH INFINITI DIRECT RESPONSE HYBRID
The Infiniti Q70 Hybrid is the vehicle that redefined hybrid power. Combining a powerful V6 petrol engine with a 50 kW electric motor gives the system a total of 364 PS. But unlike many hybrids, it transitions from all-electric mode to full-power hybrid mode with thrilling intensity and organic responsiveness. All while achieving a surprising 40.9* mpg.

320	27.7*
PS	mpg

3.7-LITRE V6 ENGINE Its robust design, exceptional power-to-weight ratio, advanced technology and fuel efficiency have won it acclaim from critics and fans alike. Benefitting from Variable Valve Event and Lift (VVEL) technology, it adjusts on the fly to make the most of every breath and every bit of fuel, resulting in a stirring 320 PS while achieving up to 27.7* mpg.

238	37.7*
PS	mpg

6-CYLINDER DIRECT INJECTION TURBO DIESEL ENGINE is a refined 3.0-litre V6 direct injection powerhouse that delivers 550 Nm of torque, maximising overtaking performance. It's paired with a 7-speed automatic transmission that adapts to your driving style.

* This figure refers to the combined fuel consumption.

PERFORM

Underneath its muscular physique and spacious luxury lies the foundation of the thrilling performance of Infiniti Direct Response engineering.

47%
REAR

53%
FRONT

INNATELY RESPONSIVE BALANCE The engineering philosophy behind Infiniti performance coupes and sedans, the Front-Midship Platform, also underlies the design of the spacious Infiniti Q70. Placing the engine’s centre of mass just behind the front-wheel centre line creates a near-equal front-to-rear weight ratio, with a slight front bias that you’ll feel as quicker turn-in and even balance as you accelerate out of a bend. Experience precision and engagement you might expect from a sports car.

EFFICIENT INVIGORATION No hybrid design is quite like it, and none can match its emotional intensity. The 50 kW electric motor and cutting-edge lithium ion batteries of the Infiniti Direct Response Hybrid are powerful enough to allow you maintain cruising speed in all-electric mode. When not needed, the 3.5-litre V6 petrol engine is turned off and completely disconnected, maximising mechanical efficiency. And yet, it responds to your call for power with a stirring intensity.

SHARPER SHIFTS When you flick the magnesium paddle shifter (only with sport versions) for a lower gear, Downshift Rev Matching blips the throttle to ready the engine for the new gear. It gives you the power of expert performance driving by delivering smoother downshifts for increased stability and more consistent engine power.

MORE RESPONSIVE BRAKING With ventilated discs and aluminium 4-piston opposed front callipers and 2-piston opposed rear callipers, the available Sport Brakes provide great stopping power from both sides of the rotor at the same time for better bite, more friction and direct feel.

THE SOUND OF PERFORMANCE A performance car speaks to you through its exhaust, and the specialty exhaust tuning on the Q70 shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

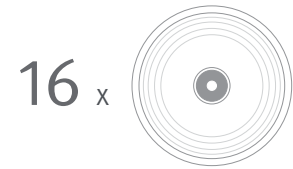

TIGHTER TURNS 4WAS (4 WHEEL ACTIVE STEERING) sharpens handling and increases precision by actively steering all four wheels as you manoeuvre. The system adapts steering angle and ratio to vehicle speed, creating a more responsive and fluid sense of control. With natural low-speed feel, responsive mid-speed turn-in, and precise high-speed stability, 4-Wheel Active Steering makes cornering gracefully easy.

LIGHT ON ITS FEET These stunning 20-inch alloy wheels heighten both the looks and performance of the Q70. Lightweight, thanks to both material and design, they reduce unsprung mass. This reduction makes driving more exciting by allowing the suspension to be more finely tuned and by making the handling of the Q70 more responsive and more nimble.

ASSIST/ENTERTAIN

The advanced technologies of Infiniti InSuite™ simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

AUDITORY INDULGENCE Each of the 16 speakers of the BOSE® Premium Surround Sound system is custom-tuned for the interior of the Infiniti Q70. Each, including those mounted in the shoulders of the front seats, reproduces sound with legendary BOSE® signal processing to create rich and realistic 5.1 surround sound imaging. The system also allows for a wide variety of media sources, including satellite radio, your personal iPod and wireless streaming with a compatible Bluetooth®-enabled device.

CRAFTING TRANQUILITY Active Noise Control (ANC) ensures that the cabin of the Infiniti Q70 offers better solace from the outside world. Intelligent technology uses a microphone in the ceiling to identify undesirable low-frequency engine sounds and neutralises them with sound waves of the opposite phase. The result is a quieter and more peaceful driving experience that still preserves the more invigorating sounds of engine performance.

A SMARTER WAY TO SEE The Adaptive Front-lighting System (AFS) on the Q70 lights not just the way ahead, but around as well. It directs light toward bends by turning the headlights in coordination with steering input to help the driver see upcoming vehicles and pedestrians, and to help you reach your destination safely.

INFINITI INTELLIGENT KEY automatically custom-tailors your car for you. Everything from the driver's seat to your navigation preferences, climate control, audio and performance settings, will be set precisely the way you like it.

SECURING YOUR SPACE Distance Control Assist (DCA) employs radar to monitor the vehicle in front of you and helps you maintain a safe following distance. As your following distance becomes too short, the system can automatically engage the brakes as you release the gas pedal, and it can warn you if you need to brake. If your foot stays on the gas pedal while closing in on the other vehicle, it can push the pedal upwards to assist you in releasing it.

EASE IN TRAFFIC Intelligent Cruise Control (ICC) with Low Speed Following (LSF) allows you to choose your desired speed and following distance, and automatically slows your vehicle in slowing traffic, going all the way to a complete stop. Then, as traffic flow picks up again, it re-accelerates your vehicle to your preset speed.

EXTEND YOUR AWARENESS Engage reverse and the Rear View Monitor displays the area directly behind. Coloured guidelines help give you an accurate sense of how close you are to objects behind, and they adjust as you turn to show your path. Also, the front and rear parking sensors emit a beeping tone and display an icon on the Rear View Monitor when an obstacle appears near the rear bumper.

PROTECTION

The Infiniti Safety Shield® concept – our comprehensive approach to safety – layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

1,350 MPa

ULTRA-HIGH
TENSILE STEEL

590 MPa

CONVENTIONAL
STEEL

STRONGER AND LIGHTER Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle’s resiliency, it allows us to make the vehicle lighter overall.

SENSES WHERE YOU CAN’T SEE The Blind Spot Intervention™ System uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds. The system will even apply opposite side brakes to help you guide your vehicle back to the centre of your current driving lane.

HELPING YOU STAY IN CONTROL Comparing actual vehicle cornering performance to the driver’s input, Vehicle Dynamic Control (VDC) adjusts power levels and applies appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path. Working in tandem, the Active Trace Control senses wheel spin and automatically helps give you a surer foothold.

MAINTAINING YOUR LANE The Lane Departure Prevention System (LDP) uses a camera to watch for departure from the traveling lane when you haven’t signaled, and audibly warns you if it’s detected. Then, if the drift continues, the system lightly applies selected brakes to help ease your vehicle back into the travel lane. But you never give up control. It’s designed to assist, not override.

ALWAYS LOOKING FOR DANGER Intelligent Brake Assist (IBA) with Forward Collision Warning (FCW)¹ uses radar to continuously monitor and analyse your closing speed to the vehicle ahead of you, helping detect an imminent collision. It provides a two-stage warning to alert the driver as the vehicle moves towards impact and – if needed – can automatically apply the brakes to help reduce the impact speed.

THE SUPPORT YOU NEED In certain rear-end collisions, the Front-Seat Active Head Restraints found on the Q70 can move forward to help cushion the head to assist in reducing whiplash-type injuries.

PREPARED TO PROTECT Under certain braking conditions or when the Intelligent Brake Assist (IBA) system is activated without brake pedal input, the Front-seat Pre-Crash Seat Belts automatically tighten the front seat belts – helping restrain you and helping to maximise the effectiveness of the other occupant protection devices, such as airbags.

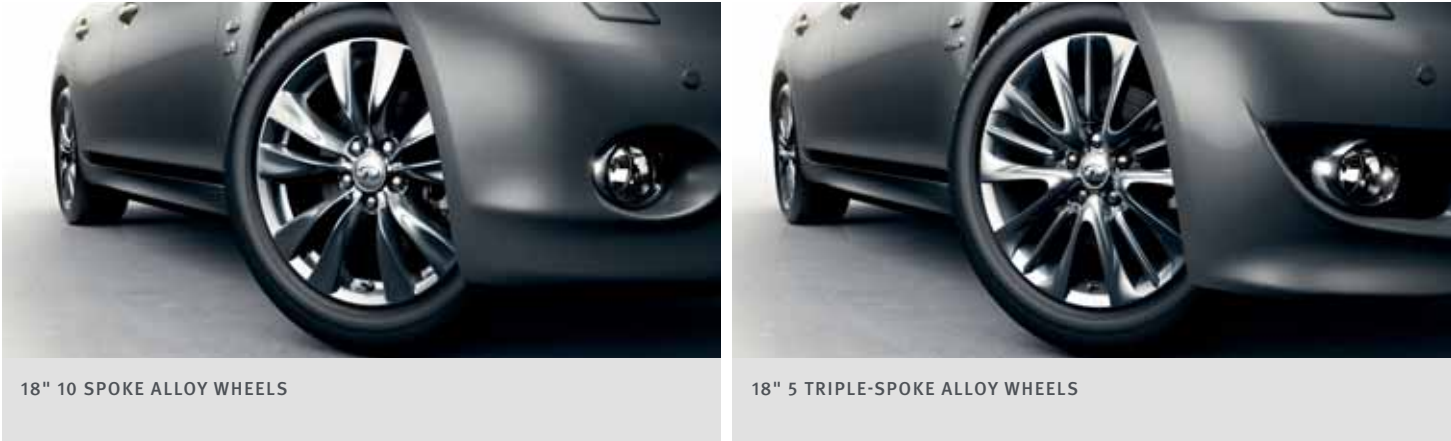

SELECTION

Hues that change in response to light and angle. Matching exterior and interior colours to reflect the distinctive energy and mood of the seasons. The reassuring resilience of Scratch Shield Paint that stays brilliant longer. These are just a few ways Infiniti uses paint to express feeling, evoke confidence, and shape the emotional essence of a vehicle.

Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colours at your local Infiniti Centre.

GENUINE INFINITI ACCESSORIES

The same exacting standards applied to creating an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish.

ACCESSORIES SHOWN: Infiniti roofbox, aluminum loadcarrier, accessory alloy wheels and black sport grille.

18 INCH SILVER ALLOY WHEELS Wherever you go, there'll be no questions about your sense of style and love of sporty design. 245/50 R 18 alloy wheels.

ENTRY GUARDS Set in a stainless steel panel, these soft "Infiniti" illuminated entry guards give the sill area a sporty and sophisticated look. The kit, supplied in pairs, lights up your entrance and protects the paintwork.

TRUNKBOX Collapsible and constructed of a durable and flexible material, the trunkbox helps keep your belongings and other items from moving around while driving, protecting them and your boot from damage and reducing clutter.

REAR SPOILER* Custom-designed for perfect fit and factory-matched colour, it enhances your vehicle's sporty, aerodynamic appearance.

TOW BAR Tested to meet the highest demands of safety and functionality, the tow bar is integrated into the car's bodywork and can be removed easily when not needed.

MUDGUARDS Make your car's paint mud and stone resistant with these body-coloured mudguards.

* Please check applicability with your local Infiniti Centre.

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula 1®, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Infiniti is drawn to Formula 1® racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led to four Formula 1® Constructors' World Championships in a row. Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula 1® and Infiniti vehicles.

This exchange of both technology and ideas now includes the appointment of four-time Formula 1® Drivers' World Champion, Sebastian Vettel, as our Director of Performance. Sebastian has already assisted in the development of the all-new Infiniti Q50 – harnessing his supreme driving senses and passion for performance to ensure this new vehicle is as dynamic as possible. And now, future Infiniti vehicles will be imprinted with the genius and unrivalled passion that defines his greatness.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion – pure and primal – should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti's flagship line has now grown to include saloons, coupes, convertibles and crossovers, all available in 49 countries

worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.

Turning diameter	11.2 m	11.2 m	11.2 m
Suspension			
Front	Independent, double wishbone with coil springs over shock absorbers, stabiliser bar	Independent, double wishbone with coil springs over shock absorbers, stabiliser bar	Independent, double wishbone with coil springs over Double-Piston Shock absorbers (DPS), stabiliser bar
Rear	Independent, multi-link suspension, Double-Piston Shock absorbers (DPS), stabiliser bar	Independent, multi-link suspension, Dual Flow Path (DFP) shock absorbers, stabiliser bar. S and S Premium: double-piston shock absorbers	Independent, multi-link suspension, Double-Piston Shock absorbers (DPS), stabiliser bar
Brakes			
Front/Rear	355 mm front/350 mm rear ventilated discs with aluminium opposed front callipers (4-piston front, 2-piston rear)	320 mm front/308 mm rear ventilated discs; or 355 mm front/350 mm rear ventilated discs with aluminium opposed front callipers (4-piston front, 2-piston rear) (on S and S Premium grades)	320 mm front/308 mm rear ventilated discs
Wheels and Tyres	20 x 9.0-inch alloy wheels with 245/40R20 W-rated tyres (front and rear)	18 x 8.0-inch alloy wheels with 245/50R18 W-rated tyres (front and rear); or 20 x 9.0-inch alloy wheels with 245/40R20 W-rated tyres (front and rear) (on S and S Premium grades)	18 x 8.0-inch alloy wheels with 245/50R18 W-rated tyres (front and rear)
CAPACITIES AND WEIGHTS			
Kerb weight	1,715 kg	1,845 kg	1,830 kg
Gross Vehicle Weight (GVW)	2,255 kg	2,395 kg	2,400 kg
Max trailer weight unbraked/braked	750 kg/1,500 kg	750 kg/2,000 kg	750 kg/1,500 kg
Luggage volume	500 litres	450 litres	350 litres
Fuel capacity	80 litres	80 litres	70 litres
EXTERIOR			
Coefficient of drag	0.28x2.38	0.27x2.38 (GT & GT Premium) 0.28x2.38 (S & S Premium)	0.26x2.38

¹ The values stated were determined under test conditions according to the measuring methods specified in the most recently amended version of European Directive 715/2007/EC and may not represent the actual results achieved in real world driving conditions. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO₂ emissions.
