

OUTLANDER PHEV

THERE'S MORE BEYOND DRIVING.

The world's first plug-in hybrid SUV drives like no other car on the planet. Twin electric motors and a highly efficient petrol engine optimise performance according to how you want to drive. It's freedom. Smooth, quiet, cocooning comfort with abundant power to tackle off-road terrain with highly efficient purpose. Go beyond the boundaries of ordinary driving. There's more to enjoy and discover.

1. Twin Motor 4WD and S-AWC

Separately mounted motors at the front and rear axles deliver incredibly responsive 4WD performance with S-AWC ensuring excellent driving stability and intuitive, linear handling.

2. 2.0-litre engine

The powerful, highly efficient engine minimises CO₂ emissions.

3. Generator

The high-performance generator transforms engine power into electricity to recharge the drive battery and assist the motors when needed.

4. Front Motor PDU & Rear EMCU

These intelligent control units contribute to heightened energy efficiency and optimal motor control with instant maximum torque that outperforms a 3.0-litre petrol engine.

5. Drive battery

The battery is stored under the floor to maximise interior space and lower the centre of gravity for improved safety and handling.

INSTYLE NAVI with SAFETY / Orient Red Metallic [P26]

SMOOTH LINEAR RESPONSE

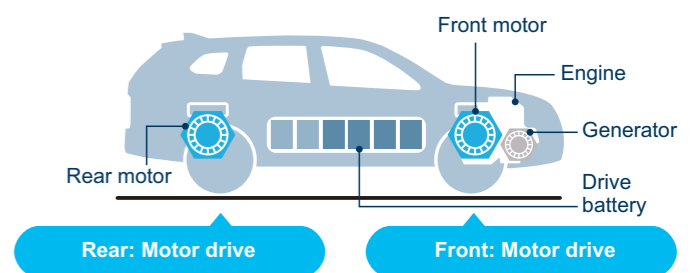

The OUTLANDER PHEV responds faithfully to every command to keep you in total control. Innovative Twin Motor 4WD teams with S-AWC to supply optimal torque and traction to each wheel, now with more responsive acceleration during EV driving. So you enjoy smooth, powerful acceleration and sure, stable handling in all road conditions.

S-AWC (SUPER ALL WHEEL CONTROL)

This integrated control system, only available from Mitsubishi Motors, delivers incredible power and control. By optimally managing AYC (Active Yaw Control), ABS (Anti-lock braking system) and Active Stability Control (ASC) with Traction Control (TCL) — which now offers enhanced traction on snowy roads — it brings out the full potential of Twin Motor 4WD without compromising safety, comfort or fuel efficiency. When desired, you can press the 4WD LOCK button to simulate locking of a centre differential and optimally distribute torque to all four wheels for improved traction and stability.

Twin Motor 4WD

Twin Motor 4WD

High-output motors separately mounted at the front and rear axles instantly supply torque on demand for incredibly responsive yet smooth 4WD performance.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

TOMORROW'S EFFICIENCY TODAY

The innovative Plug-in Hybrid EV system is remarkably eco efficient. Enjoy zero fuel consumption and zero CO₂ emissions during all-electric driving — as well as an incredibly quiet ride. Or enter a hybrid mode to travel even greater distances with low emissions and an impressive 1.7 litre/100 km combined fuel efficiency. You can even generate electricity as you drive to enjoy vast stretches of wilderness with total confidence.

INSTYLE NAVI with SAFETY / Quartz Brown Metallic [C06]

Regular charging
Conveniently charge at home.

Quick charging
When travelling, use the quick charger to save time.

EASY CHARGING AT HOME AND WHILE TRAVELLING

Simply connect the OUTLANDER PHEV with a power outlet at home to charge the drive battery. You can charge while sleeping in around five hours* with the onboard charger and charging cable. Or use the quick charger to charge in as little as 25 minutes (up to 80% capacity) at commercial charging facilities. Charging status is conveniently displayed on the instrument panel.

* With 230V/10A electric power supply. 6.5 hours with 230V/8A electric power supply.

Automatically selected drive modes

ELECTRIC DRIVING

EV Drive Mode: Electric power only

The motors power the vehicle using electricity from the battery, resulting in zero fuel consumption and zero CO₂ emissions. This drive mode is quiet, clean and powerful. Maximum speed is 120 km/h.

HYBRID DRIVING

Series Hybrid Mode: Electric power + engine assistance

The motors power the vehicle using engine-generated electricity. The engine generates electricity when the battery level is low and to increase power when accelerating rapidly or climbing hills.

Parallel Hybrid Mode: Engine power + motor assistance

The engine powers the vehicle (at high speeds, etc. when engine efficiency is high) with assistance from the motors when extra power is required.

INSTYLE NAVI with SAFETY / Black leather interior

SPACIOUS COMFORT AND NEW REFINEMENT

Enter an oasis of comfort and refinement where driving pleasure is enhanced by generous legroom, new luxurious amenities and a supremely quiet ride. The seats are meticulously finished with high quality material and the rear seatbacks can be folded to flexibly meet your changing luggage needs.

ENERGY USAGE INDICATOR

How efficiently are you driving? The energy usage indicator informs you by pointing the needle toward the Power, Eco or Charge zone.

CHARGE AND SAVE

Control over battery usage is at your fingertip command. Press CHRG to charge the battery via engine. Press SAVE, then the engine starts to maintain the remaining drive battery level.

ECO Score

Indicates the eco-friendliness of your driving. The more green leaves, the better.

ECO Mode Control

Press for more energy-efficient use of the motors, engine and air conditioning.

EV Switch

Press the EV switch to enter the EV Priority Mode and help prevent the engine from starting*. It allows you to manually select all-electric driving via Twin Motor 4WD for zero fuel consumption and a quiet ride without engine noise.
* Please see the owner's manual for details.

REGENERATIVE BRAKING LEVEL SELECTOR (PADDLE TYPE)

Located on the steering wheel, the convenient regenerative braking level selector lets you easily adjust regenerative braking strength to any of six settings*.

* Except when Adaptive Cruise Control (ACC) is active.

TECHNOLOGY FOR ALL AROUND SAFETY

Advanced safety technology supports safer, more confident driving — on the road and in parking lots, day and night. From intelligent sensors that track your surroundings and warn you of danger to active driving assistance and solid passive protection, the OUTLANDER PHEV delivers all around high levels of safety.

INTELLIGENT FEATURES SUPPORT SAFER DRIVING

BLIND SPOT WARNING (BSW)

This safety feature uses radar sensors in the rear bumper to detect vehicles in your rear blind spots, on the right and left sides. The sensors detect vehicles up to approximately 70m away, depending on the speed of your vehicle. An indicator appears in the combination meter display when BSW is active. When a vehicle is detected, a buzzer sounds (if the turn signals are on) and an indicator blinks in the door mirror on that side.

Note:
The detection and control capabilities of Blind Spot Warning (BSW) are supplemental only and do not warn you of vehicles in blind spots in every situation. Please do not rely solely on this system while driving.
The blind spot monitor may not operate normally in some cases, depending on traffic, weather, road surface conditions and the presence of obstructions. The buzzer sounds only if the turn signal is activated. Drivers are fully responsible for their own safe driving. The radar wave graphics are used for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

ADAPTIVE CRUISE CONTROL SYSTEM (ACC)

Maintains a selected distance between your vehicle and the car ahead via radar for greater safety and peace of mind. It reduces driver stress especially during traffic jams on highways.

ACC indication on multi-information display

No vehicle in front

Your selected speed is maintained even if you remove your foot from the accelerator pedal.

Vehicle in front

Your selected distance between vehicles is maintained.

Vehicle in front (slowing/stopping)

When the vehicle in front slows or stops, ACC slows or stops your vehicle.

LANE DEPARTURE WARNING (LDW)

This feature beeps and displays a warning if the vehicle drifts from its lane while the turn signals are not operating.

LDW indication on multi-information display

Note:
Lane Departure Warning is not designed to lessen risks associated with not looking ahead carefully (attention drawn to something on the side, absentmindedness, etc.) or poor visibility caused by bad weather etc. Keep steering your vehicle correctly and drive safely. The system may not be able to detect the lane correctly in some conditions. Please see the owner's manual for additional information.

FORWARD COLLISION MITIGATION SYSTEM (FCM)

Helps prevent a frontal collision or reduce damage if the collision becomes unavoidable. Responds to vehicles and pedestrians via camera and laser radar.

Danger of collision

Warning + braking assistance

High danger of collision

Warning + auto braking

Extremely high danger of collision

Warning + strong auto braking

Note:
The detection and control capabilities of FCM and ACC are supplemental only. Please drive safely and never rely solely on these functions while driving.
FCM and ACC may not be activated in some situations. Please read the owner's manual carefully and be aware of these limitations.
FCM and ACC operate when a vehicle is in front of your vehicle. FCM is also designed to detect pedestrians, but may not detect them or be activated in some situations. Auto braking is activated for a car ahead when your vehicle is travelling at a speed of approx. 5km/h to 80km/h and for a pedestrian ahead at approx. 5km/h to 65km/h. Since FCM has no function to maintain braking, the brake is released approximately 2 seconds after stopping. To prevent the vehicle from rolling thereafter, the driver may have to hold the brake pedal down. In some cases, FCM may not function if the driver takes actions for accident avoidance through steering or acceleration operation.
ACC may not correctly detect the actual situation depending on the type of vehicle in front and its conditions, the weather conditions, and the road conditions. Additionally, the system may be unable to decelerate sufficiently if the vehicle in front applies the brakes suddenly or another vehicle cuts into your path, so your vehicle approaches the front vehicle. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

AUTOMATIC HIGH-BEAM

To increase safety, comfort and driving ease at night, the high beams automatically switch to low beams when vehicles are detected ahead and automatically switch back to high beams so you don't have to remove your hand from the steering wheel to switch the beams manually.

High-beam

Low-beam

SAFETY ADVANCES SUPPORT CONFIDENT PARKING

MULTI AROUND MONITOR

The views from cameras mounted on the front, rear and sides of the vehicle (including a bird's-eye view) can be displayed in various combinations to reveal what is in blind spots and help you park more safely.

Rear view + Bird's-eye view

REAR CROSS TRAFFIC ALERT (RCTA)

An indicator appears in the combination meter display when RCTA is active. If radar sensors in the rear bumper detects an approaching vehicle nearby while reverse gear is engaged, a buzzer sounds and an indicator blinks in both door mirrors.

Note: Do not rely solely on this system, which may not detect all moving vehicles in certain conditions. Drivers are fully responsible for their own safe driving.

ULTRASONIC MISACCELERATION MITIGATION SYSTEM (UMS)

To help prevent collisions while parking, a buzzer sounds and a warning displays if front or rear sensors detect a nearby obstacle. Motor output is also controlled if you suddenly accelerate by accident.

Motor output control activates:

- When driving at 0-10km/h (not in N or P position)
- When obstacle/vehicle is within approx. 4m range
- When accelerator pedal is pushed hard or abruptly
- When driver is not turning to avoid obstacle/vehicle

Note: The detection and control capabilities of Ultrasonic misacceleration Mitigation System (UMS) are supplemental only and do not prevent misacceleration in every situation. Please drive safely and do not rely solely on this system while driving. To prevent the motor output control provided by UMS from causing an impediment during normal driving in rough-road driving conditions, the system automatically de-activates and indicates UMS OFF in the meter cluster when the FCM function is OFF or the ASC function is OFF. No function completely stops the vehicle via the automatic braking. The vehicle creeps forward even when motor output is regulated. The sensing system may not work for netlike and sharp-edged obstructions that do not sufficiently reflect ultrasonic sound. UMS does not include a function which keeps the vehicle stationary. The driver is responsible for stopping the vehicle by pressing the brake pedal as required by the driving conditions. The ultrasonic sensor wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

SOLID SAFETY MEASURES

RISE BODY

Collision safety performance is significantly enhanced by Mitsubishi Motors' RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision.

OUTLANDER PHEV earned the Euro NCAP 5-star rating in 2013 and the Euro NCAP Advanced award in 2013 (for FCM system).

Image of airbag deployment

7 SRS AIRBAGS

Front airbags, side airbags, curtain airbags and a driver's knee airbag help protect you and your passengers in the event of a collision.

Note: Airbags are part of a Supplemental Restraint System (SRS). To decrease the risk of injury from a deploying airbag, always wear your seat belt, sit upright in the middle of the seat and do not lean against the door. Always place children 12 and under in the rear seat and use appropriate child restraints. Never place a rear-facing infant restraint in the front seat. Please see the owner's manual and the instructions provided with your child restraint for additional information.

ACTIVE STABILITY CONTROL (ASC)

If wheels lose their grip on slippery surfaces or while turning, ASC automatically adjusts engine output and applies braking force at the appropriate wheels to help maintain control and prevent skidding.

Note: The control capabilities of ASC are supplemental only. Please drive safely and never rely solely on these functions while driving. Be sure to use the same specified type and size of tyres on all 4 wheels. Do not install any aftermarket limited slip differential on your vehicle. Please see the owner's manual for additional information.

AUTO DIMMING REAR VIEW MIRROR

This mirror automatically reduces glare from the headlights of cars behind you to maintain a clear rear view and support safer driving.

HILL START ASSIST (HSA)

When starting on a steep slope, HSA helps prevent you from rolling backwards while you release the brake by maintaining the braking force for up to two seconds until the accelerator is applied.

Note: Hill Start Assist (HSA) is not a substitute for safe driving. Never rely solely on this function while driving on steep roads. Your vehicle may move backwards if the brake pedal is heavily loaded, or if the road is very steep or slippery. This function is not designed to keep the vehicle stopped in place on uphill slopes for more than 2 seconds. Do not rely on this function to maintain a stopped position as an alternative to depressing the brake pedal. Please see the owner's manual for additional information.

FEATURE HIGHLIGHTS

INSTYLE NAVI with SAFETY / Black leather interior

Wide HD display
Presents information at high resolution for easy reading.

Sound quality control
Supports easy adjustment of various sound control functions.

3D map view
Shows 3D polygon landmarks on city maps.

ECO information indicator
Displays your ECO score and other related data.

Split display
Simultaneously displays map information, audio information, etc. on the same screen.

Navigation guidance in meter display
Direction and distance cues contribute to safe driving.

Note: The information displayed varies depending on equipment.

mitsubishi MULTI COMMUNICATION SYSTEM (MMCS)

This central HD touch-screen makes navigation easy and keeps you clearly informed of ECO information such as energy consumption and driving range. It also displays the rear camera view whenever you reverse to lend a helping hand.

ROCKFORD FOSGATE® PREMIUM SOUND SYSTEM

Savour the stunning sound quality of a new audio system jointly developed with the Rockford Corporation. Nine speakers surround you with spectacular DTS Neural Surround™ sound.

Note: Rockford Fosgate® and associated logos are registered trademarks of Rockford Corporation in the United States and other countries.

DTS Neural Surround™ is a trademark of DTS, Inc.

USB PORT & 12V POWER OUTLETS

These amenities are conveniently located within the centre floor console, allowing easy access once you open the lid.

BLUETOOTH® HANDS-FREE KIT

Keep in touch while keeping safely in control with the hands-free kit. Link your Bluetooth® – compatible mobile phone, and the voice-activated dialer lets you make calls while holding the wheel.

Note: The Bluetooth® word mark and logos are registered trademark owned by the Bluetooth SIG, Inc. and any use of such marks by MITSUBISHI MOTORS CORPORATION is under license.

FEATURE HIGHLIGHTS

ELECTRIC HEATER

The electric heater uses the electric water pump to circulate hot water and warm the cabin even if the engine isn't running, such as during EV driving. So you can run it early in the morning or late at night without bothering the neighbours. In extremely cold weather, the electric heater can also be used to supplement heat generated by the engine.

Centre floor console outlet

Luggage area outlet

AC 1500W POWER SUPPLY (PLUG: F TYPE)

One power outlet behind the centre floor console and another in the luggage area on the lower quarter trim panel provide up to 1500W of power from the drive battery, enough to run appliances at a campground or at your home during a power outage.

Note: Some appliances may not be used even if they do not exceed the rated power consumption of 1500W. Please see the user manual for additional information.

HEATED STEERING WHEEL

The heated steering wheel supports more comfortable operation in chilly weather. Its power switch is conveniently located on the centre panel.

HEATED WINDSCREEN

Heated wires throughout the windscreen clear the glass of fog or frost to secure forward visibility in less time than by using the heater/defroster.

ELECTRIC TAILGATE

The tailgate can be opened and closed automatically from a switch located near the driver's seat.

Driving range indicator

EV Drive ratio indicator

Energy flow indicator

SPECIAL PHEV DISPLAY FUNCTIONS

The Multi-information Display shows various PHEV display functions including driving range indicator, EV Drive ratio indicator and energy flow indicator.

Timed charging

Timed air conditioning

Vehicle information/
Vehicle operation

MITSUBISHI REMOTE CONTROL

For convenience, use your smartphone to remotely control the charging timer, reschedule charging for late at night when electricity fees are low, monitor the remaining charge time and more. The Mitsubishi Remote Control app also enables immediate or timer activation of cabin cooling or heating.

Note: The vehicle and smartphone have to be interconnected within a Wi-Fi area. Some smartphones may not be supported. The cooling function can only be operated remotely in models without the electric heater. Pre-heating requires the electric heater.

ELECTRIC PARKING BRAKE WITH BRAKE AUTO HOLD

The parking brake on the floor console is easy to operate via stylish switch. Simply pull the switch up to apply the parking brake or push the switch down to release it. While stopping at a stoplight, Brake Auto Hold keeps the vehicle stationary at even if you release your foot from the brake pedal. Pressing the accelerator releases the brakes.

KEYLESS OPERATION SYSTEM (KOS)

When carrying the key, you can press a button on the outside of the front doors or tailgate to lock or unlock all the doors and tailgate, and press the power switch in the cockpit to start the Plug-in Hybrid EV System.

CHARGING CABLE STORAGE

A storage space beneath the rear luggage area floor is ideal for conveniently storing the charging cable.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

The Spirited New S Edition

Satisfy your passion for driving pleasure with the OUTLANDER PHEV S Edition. A special edition black leather interior and tasteful black roof convey elite sophistication. Bilstein shock absorbers deliver more linear handling, and aluminium pedals enhance refinement and control. It's the privileged choice of demanding drivers.

S EDITION / Silky White Pearl with black roof [XW1]

S EDITION / Black leather with red stitched interior

EQUIPMENT LEVEL

S EDITION

Key features (in addition to INSTYLE NAVI with SAFETY)

- 18" x 7.0J alloy wheels (dark chrome)
- Bilstein shock absorbers
- Front grille (dark chrome)
- Glossy black door sashes
- Front skid plate (colour-keyed)
- Rear skid plate (colour-keyed)
- Black roof rails
- Soft upper surface instrument panel and front door trims with red stitches
- Four-spoke leather wrapped steering wheel with red stitches
- Aluminium acceleration and brake pedals
- New geometric pattern with silver molding on accent panel, door trim panels, centre console and floor console panel
- Front centre armrest with red stitches
- Front and rear black leather with red stitched seats (8-way power adjustable driver's seat, front seat heaters, driver's and front passenger's seatback pockets)
- Black upper interior

Optional, shown:

- Black roof / Black shark fin antenna

ALUMINIUM PEDALS

BILSTEIN SHOCK ABSORBERS

Highly responsive Bilstein shock absorbers dramatically improve handling and stability.

Note:
Bilstein® is a registered trademark of ThyssenKrupp Bilstein GmbH.
Actual product may differ from photo shown.

EXTERIOR COLOUR

Orient Red Metallic (P26)*

Silky White Pearl (W13)*

Cool Silver Metallic (A31)*

Ruby Black Pearl (X40)

* Black roof is available.

SEAT MATERIAL

Front and rear black leather with red stitches

Note: Equipment may vary by market.
Please consult your local Mitsubishi Motors dealer/distributor for details.

EQUIPMENT LEVEL

INTENSE

Key features

- Driver's and front passenger's SRS airbags, side airbags & curtain airbag for 1st and 2nd rows
- Driver's SRS knee airbag
- Active Stability Control (ASC) with Traction Control (TCL) system
- Super All Wheel Control (S-AWC)
- Acoustic Vehicle Alerting System (AVAS)
- Tyre Pressure Monitoring System (TPMS)
- 215/70R16 tyres and 16" x 6.5J alloy wheels
- Chrome beltline mouldings
- Colour-keyed door mirrors and side turn lamps, electronically controlled with defoggers and folding function
- High regenerative brake stop signal
- EV switch
- Four-spoke leather wrapped steering wheel
- Black stream print accent panel and door trim panels
- Auto dimming rear view mirror
- Sunglass pocket
- Foot lamps (driver and front passenger) and console illumination
- Electric Parking Brake / Brake Auto Hold
- Quick charger
- Regenerative braking level selector (paddle type)
- Cruise control (including steering wheel remote control switches)
- Speed limiter (including steering wheel remote control switches)
- High contrast back-lit meters and gauges
- Colour liquid crystal multi-information display with ECO score indicator + washer fluid level warning lamp
- Keyless Operation System (KOS) with two Keyless Operation Keys and power switch
- Dual-zone automatic climate control air conditioning system
- Rain sensor
- Auto light control
- LW/MW/FM radio, CD/MP3 player and 6 speakers
- Fully-flat function for 1st and 2nd rows
- 2nd row seats: Independent seat reclining function (60:40 split)
- Privacy glass (rear door, quarter window, tailgate)
- Halogen headlamps with manual levelling
- Halogen front fog lamps with chrome ring

INTENSE+

Key features (in addition to INTENSE)

- Corner sensors
- 225/55R18 tyres and 18"x7.0J alloy wheels
- Mitsubishi Remote Control with timed-charging cancellation switch
- Electric heater
- Digital Audio Broadcast (DAB) radio
- Display audio with LW/MW/FM radio, CD/MP3 player, 6 speakers and rear view monitor/camera
- Front heated seats

EQUIPMENT LEVEL

INSTYLE NAVI

Key features (in addition to INTENSE+)

- Blind Spot Warning (BSW) with Lane Change Assist
- Rear Cross Traffic Alert (RCTA)
- Multi Around Monitor
- Ultrasonic misacceleration Mitigation System (UMS)
- Steering wheel camera switch
- Heated steering wheel
- Electric tailgate
- Mitsubishi Multi Communication System (MMCS) navigation system with LW/MW/FM radio, CD/MP3 player, 6 speakers and rear view monitor/camera
- Front and rear leather seats (8-way power adjustable driver's seat, front seat heaters, driver's and front passenger's seatback pockets)
- Heated windscreen
- LED headlamps with auto levelling
- LED front fog lamps with chrome ring

INSTYLE NAVI with SAFETY

Key features (in addition to INSTYLE NAVI)

- Forward Collision Mitigation (FCM) system
- Adaptive Cruise Control (ACC) system
- Lane Departure Warning (LDW) system
- Automatic high-beam
- Anti-trapping electronically controlled sunroof with sunshade (tilt and sliding)
- Mitsubishi Multi Communication System (MMCS) navigation system with Rockford Fosgate® 710W premium sound system, LW/MW/FM radio, CD/MP3 player, 9 speakers and rear view monitor/camera

* With 230V/10A electric power supply. 6.5 hours with 230V/8A electric power supply.

** Measured by MITSUBISHI MOTORS CORPORATION. Actual performance may vary in some cases.

*** Only 215/70R 16 tyres and 16" x 6.5J alloy wheels are available on INTENSE.

RECYCLING OF OLD VEHICLES

It is our duty to protect the environment.

Mitsubishi Motors designs and produces high quality vehicles and components aiming to provide our customers with durable motor vehicles, and excellent services to maintain your vehicle in an optimum running condition. We have the highest respect for the environment and use materials which may be recycled and re-used after your Mitsubishi Motors vehicle has come to the end of its economical life. After a long working life we will take your vehicle back and recycle it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles and any applicable national statutory provisions.

All Mitsubishi Motors vehicles (up to 3.5t GVW) sold after 1st July 2002, will be taken back free of charge from the last owner, at one of the designated take back points, provided the vehicle contains all major components and is free of waste. From 1st January 2007, this applies to all Mitsubishi Motors vehicles irrespective of the sold date. A network of collection points is available to receive

Mitsubishi Motors End-of-Life Vehicles, to ensure your vehicle will be recycled in an environmentally friendly manner. At the same time, the possibilities for the recycling of vehicles and vehicle components are continually being evaluated and improved, aiming to the achievement of even higher recycling percentages in the future.

The European End-of-Life Vehicles Directive and the free take back of End-of-Life Vehicles are applicable in all European Union member states. The transposition of the End-of-Life Vehicles Directive into national law in each member state might not have been completed at the time of putting this publication to print.

Please refer to www.mitsubishi-motors-europe.com and select the web site of the Mitsubishi Motors service network in your country of residence, or call the National Mitsubishi Motors Customer Assistance Centre for further details.

OUTSTANDING AFTER SALES FOR CAREFREE MOTORING

Around 2,500 Mitsubishi Motors Authorised Service Points in Europe are committed to helping you wherever you are.

PROFESSIONAL SERVICING

Even new cars require regular maintenance and servicing. Not just to guarantee your mobility, but also for the safety of you and your passengers. Trained professionals using specialist diagnostic equipment and original parts at your Mitsubishi Authorised Service Point are ready to oblige. You'll be advised about the cost beforehand, so there will be no unpleasant surprises when you return to pick up your vehicle.

MITSUBISHI MOTORS GENUINE PARTS

Even the smallest technical faults can lead to accidents. Therefore, all Mitsubishi Motors Genuine Parts have been developed and tested to stringent quality standards. It is recommended to use Mitsubishi Motors Genuine Parts in order to maintain the safety and integrity of your vehicle and that of your passengers. Mitsubishi Motors Genuine Parts are available at all Mitsubishi Authorised Service Points. We are proud to regularly score top in After Sales quality surveys.

COMPREHENSIVE WARRANTY – OBVIOUSLY

New Mitsubishi vehicles come standard with a comprehensive 5*-year warranty or up to a maximum of 100,000 km (62,500 miles), whichever comes first. The anti-corrosion perforation warranty covers rusting through for the first 12* years. The reliability statistics for Mitsubishi vehicles are impeccable, but in the unlikely event that you do need help, we offer MAP.

*Depending on vehicle model and market, for details please refer to your Mitsubishi Service Booklet

MITSUBISHI MOTORS ASSISTANCE PACKAGE (MAP) – FREE BREAKDOWN ASSISTANCE

In order to demonstrate our commitment to your mobility and the faith we have in the reliability of our vehicles, you will receive a free MAP card valid for 5 years with your new Mitsubishi. With the MAP card in your pocket, your mobility is guaranteed in more than 30 countries throughout Europe. Should you ever need assistance in the event of breakdown, accident, theft or vandalism – wherever you are, 24 hours a day, 7 days a week – just call the number on your card and the problem will be fixed on the spot. If it's more serious, your car will be taken to the nearest Mitsubishi dealer and you'll be offered services such as a hotel, continuation of journey, a replacement car and vehicle repatriation.
