

OPEL MOVANO

Opel Movano. No job too big.

As all the numbers show ...

In your business there's no room for numbers that don't add up. That applies especially to your transport and logistics operations. You need vehicles that are purpose-built to be strong enough – and big enough – for your biggest projects.

Meet Opel Movano. The large van that's been designed, engineered and built with you and your business in mind. With more versions, more driver comfort and stronger than ever before – and with the availability of rear-wheel drive. All with the same proven efficiency and reliability that comes standard with every Opel commercial vehicle. So, with your Opel Movano, you can be sure that there'll be no job too big.

3 roof heights. 4 vehicle lengths. 3,500 to 4,500 kg gross vehicle weight.

1 comprehensive line-up.

The Opel Movano range starts with panel vans and crew vans, all available in four different vehicle lengths and three heights, with different drive trains and GVW ratings, all of which can be tailored to meet your requirements.

2 drive options: front-wheel drive and rear-wheel drive. Up to 3 t towing capacity.

1 answer for any challenge.

No two jobs are the same, and no two roads are the same. So, if towing heavy trailers or uneven road surfaces are a staple of your business, you'll already be thinking about rear-wheel drive. Opel Movano is available with rear-wheel drive in two vehicle lengths and with gross vehicle weight ratings of 3,500 and 4,500 kg. Up to 3,500 kg the capable front-wheel drive Opel Movano will cover all your needs.

270° wide opening rear doors. 1,270 mm¹ side opening.

1 form that truly follows function.

Design is about much more than good looks (which the Opel Movano certainly has). It's about creating usable load space and ensuring that it's easily accessible.

Opel Movano's rear doors can be opened to 270° (optional), and 1,270 mm¹ wide sliding side doors take the hassle out of loading or unloading full-size euro-pallets.

¹1,050 mm for L1 version.

1 professional driver. 8.5 hours on the road.

0 problems.

How you sit is just as important as where you sit. Whether you drive yourself, or others drive for you, it's vital that a day at the steering wheel does not result in a week of back problems. The cabin of Opel Movano, from the choice of seats to the ergonomically located gear lever and tiltable steering wheel, has been designed to keep the driver, as well as the van, on the road day after day.

Instrument panel. Clear, easy-to-read instruments, ideally and ergonomically placed, reduce driver fatigue and increase operating safety.

Suspended driver's seat. More comfort for driving over rough terrain or long distances. Fore, aft, rake and height-adjustable, with sensitivity control.

Air conditioning. A major plus factor in crew comfort and efficiency, manual air conditioning and Electronic Climate Control are optionally available.

10 user-friendly storage spaces. 2 12-V power sockets.

1 productive work station.

The Opel Movano driver always takes his office with him, now there is room for everything, even a 2-litre water bottle. The optional Convenience Pack includes a CD radio, upgraded driver's seat with armrest and lumbar support, a dual passenger seat with storage and a folding centre seat that includes a swivelling tray for the driver's laptop computer, a dash-mounted retractable clipboard and additional sound-deadening material on the bulkhead.

Multiple storage possibilities. Practical, convenient and efficient. A place for almost every business or personal need. See also chapter Option Packs for more details on storage.

Cabin

More power. More torque.

Less emissions.

New Euro 6 engines are available in all performance classes. The BiTurbo engines offer the fuel-saving technology of the ecoFLEX version and add sequential turbocharging to bring out the last ounce of torque from every drop of diesel for maximum economy.

The new super-efficient 2.3 CDTI BiTurbo options come from 100 kW (136 hp) to 125 kW (170 hp) and offer CO₂ reductions of up to 18 %. The torque blasts in at just 1,500 rpm and with 380 Nm, giving a new meaning to the term high-speed deliveries. The Movano BiTurbo engines also feature Eco Mode that saves up to 10 % more fuel. Push-button operated it modifies the accelerator response, modifies engine performance and optimises air-conditioning power demands. Eco Mode can be overrun any time by kickdown or simply switched off.

are provided only for the purpose of comparison between different vehicles but may differ from the actual fuel consumption achieved in real-world driving conditions which are greatly influenced by driving style and operating conditions. Additional equipment and factory-fitted options may increase the kerb weight of the vehicle and impact the payload. This may lead to a reduction in top speed and increased acceleration time. Driving performance figures assume a 75 kg driver plus a 125 kg load.

12 tunnels. 4 sudden heavy storms.

1 van for all conditions.

Airbags, ABS, ESP® and strong, full-height bulkheads are no longer strangers to the large van operator. Opel Movano adds excellent crosswind stability, standard lashing eyes for securing loads and a vision-optimised view of the road. And the Opel Movano's driver can also benefit from the extra safety and protection provided by headlights and windscreen wiper systems, which react automatically to light and weather conditions.

Lane Departure Warning and High Beam Assist. These smart systems warn you if you leave your lane unintentionally and switch from low to high beam if the traffic situation allows.

Static Cornering Light. Simply activated by the indicator switch at low speeds, it throws light exactly where it's needed.

Electronic Stability Program (ESP®).

ESP® massively increases stability and safety. It is standard on every Movano and includes Hill Start Assist, Trailer Stability Program and Enhanced Traction Mode.

Up to 17 m³ load capacity. Up to 2.2 t payload.

1 effective business plan.

With an available total load volume of up to 17 m³, up to 2.2 t payload and a maximum load floor length of over 4.3 m, Opel Movano can swallow vast amounts of goods with ease.

Load compartment protection. Optional half or full-height wooden side panels and a resin-coated wooden floor, all perfectly tailored to the Opel Movano, protect the interior from damage. The panels are also specially constructed not to obstruct the vital lashing eyes.

Opel Movano panel vans.

Hard working space with easy access perfectly describes all Opel Movano panel vans. Wide 1,270 mm side doors that allow a euro-pallet to be loaded sideways on all but the shortest variant. On H1 and H2 variants the rear doors are full height, coping easily with load heights of up to 1,820 mm on the H2 models. Load lengths are available up to 4,383 mm, with conveniently located lashing eyes and points, meaning ample space for secure and balanced cargo stowage. In addition, a sturdy metal bulkhead to protect the crew is standard.

With a choice of four gross vehicle weights, four lengths, single or double rear wheels, front- or rear-wheel drive, three roof heights, three power outputs, 6-speed manual or Easytronic® transmissions and a whole range of comfort, business and convenience options and accessories, the Opel Movano panel van fits perfectly to your business plans.

¹ Vehicle kerb weight calculated according to directive 97/27/EC. Standard and additional content as well as accessories can impact the kerb weight and hence the payload.

7-man team. 180 traffic cones.

1 flexible workforce.

Transporting a work crew and their equipment is the speciality of Opel Movano crew van. Two sit next to the driver (one if an optional single seat is specified), while the rear bench seat can accommodate four crew members abreast, seat belts and headrests are, of course, standard. Access is through a large sliding door, and the crew is protected from load movement by a high-strength glazed ABS bulkhead.

4-seat rear bench. Fully trimmed seats with safety belts make transporting crew members a safe and simple matter.

Opel Movano crew vans.

The people you need, where they are needed, with whatever they need to get the job done. It's easy with the Opel Movano crew van. Three load lengths, two gross vehicle weights, four power options and two heights fit to just about any task. A full range of optional equipment including pneumatic suspension, power take-off and sturdy towing hitch deal with the more demanding challenges.

A fully trimmed cabin with three seats forward, the centre with fold-flat capability, four in the second row, integrated into the bulkhead, offers comfort for a crew of seven. Through-flow heating and ventilation and windows in the sliding side door and the opposite side panel ensure a civilised travelling atmosphere.

Equipment and options.

Infotainment.

Staying in touch, knowing exactly where to go, how to get there and how the traffic is moving gives you a real advantage in business. Also, people work best in relaxed conditions. For these reasons the infotainment packages in the Opel Movano are tailor-made for outstanding performance. There are three packages available, all have been exactly developed especially for the Opel Movano.

Navi 80 IntelliLink. Radio and infotainment system with an impressive range of features, together with easy intuitive operation via steering wheel or voice control, includes aux-in and USB, Bluetooth® hands-free phone and audio streaming, CD player with MP3 and WMA capability, SMS readout, maps for Europe, 7-inch colour touch screen that also displays rear-view camera, plus TomTom LIVE services without charge until 2020.

TomTom LIVE. Packages a wide range of benefits to make the perfect journey planner and companion. TomTom HD Traffic for the fastest route with precise real-time traffic information.

Search & Go with TomTom Places, to locate and lead you to shops, businesses etc. LIVE Quick GPS fix for optimised GPS positioning. And up-to-date weather forecasts for where you are and where you are going.

Navi 50 IntelliLink. This radio, infotainment and navigation system offers excellent value for money. The 7" colour touch screen is positioned in optimum view on the upper centre console. Dynamic navigation in 2-D or 3-D bird's eye view includes actual TMC traffic messages. The maps can be updated via USB.

Other features include voice control for connected smartphones, steering column controls, USB and aux-in as well as Bluetooth® for hands-free phone and audio streaming. The free 'aha' app on connected smartphones allows access to Internet radio and social media via the touch screen. Digital radio DAB+ is optionally available.¹

CD 16 BT USB. The steering column-controlled CD radio offers universal connectivity via aux-in, Bluetooth® and 2 USB ports. Output 2 x 15 W, integrated display.

R 15 BT USB. Tuner with integrated display, which also displays the time. With RDS EON, Bluetooth®, USB and aux-in. 2 x 15 W.

Auxiliary input (aux-in) and USB connection. All Opel Movano infotainment systems feature auxiliary input jacks and USB connection.

Digital Radio. All European digital radio formats can be received with DAB/DAB+/DMB audio. Available as option in combination with CD 16 BT USB and Navi 50 IntelliLink.

Steering column radio controls. These help avoid driver distraction.

Bluetooth® connectivity. Easy to operate and virtually universal, Bluetooth® makes mobile phone communication hands-free and safe.

¹The compatibility and certain functionalities may differ depending on the type of device and version of operating system.

Cockpit

Board computer. This provides information including fuel consumption, range, driving time and distance covered.

Digital tachograph. Easily operated by the driver. Reliably records driving and rest time for assembling and analysing fleet management data.

Cruise control with speed limiter. Steering wheel controlled, the cruise control also allows the driver to select a temporary maximum speed. When ordering cruise control you also get on-board computer, so you do not need to purchase it separately.

Fixed speed limiter. This can be programmed at one of four predetermined speeds. It cannot be deactivated by the driver.

Automatic lights and wipers. Optionally available to reduce driver distraction and increase safety.

Third key. Especially useful for fleet operators or multiple drivers, the third key exactly replicates the first two.

Comfort

Comfort driver's seat. Optionally available deep contoured seat, adjustable lumbar support and armrest, height-adjustable. Also available for co-driver.

Suspended driver's seat. This is optionally available and ideal for driving on rough terrain or long distances, 4-way adjustable with fixed armrest. Suspension sensitivity is also adjustable.

Electronic Climate Control. Selectable thermostatically controlled temperature control. Also available with the Comfort Pack.

Parking heater. Instant climate comfort and clear windows from the start. Available with programmable timer, which also monitors cabin temperature and heating cycle.

Air conditioning. Improved working ambience in all weather conditions. Available as part of the Climate Pack, it also features a pollen filter.

Parking heater with remote control. Allows the system to be started and controlled when needed without having to enter the car. The display monitors all important settings.

The air conditioning in vehicles with N1, N2 or M2 type approval relies upon fluorinated greenhouse gases (R 134a) for its functioning. The front system contains a quantity of overall 580 g of R 134a, which corresponds to a CO₂ equivalent of 0.83 tons. The front and rear system in versions with up to 9 seats contains a quantity of overall 1,100 g of R 134a, which corresponds to a CO₂ equivalent of 1.57 tons. The front and rear system in versions with more than 16 seats contains a quantity of overall 1,700 g of R 134a, which corresponds to a CO₂ equivalent of 2.43 tons. The global warming potential amounts to 1,430. Information acc. to R (EU) No. 517/2014.

Exterior

Rear step. Standard on rear-wheel drive models, the anti-slip rear step eases access to the load compartment. Optional on FWD models.

Smoker Pack. A removable ashtray that fits into the cupholders and a cigarette lighter that can be used in any of the 12-V sockets.

Removable trailer hitch. The Euro style ball trailer hitch further extends the practicality of the Opel Movano.

Load security

Movable partition wall. Fitted into the roof and floor rails at 25 mm intervals and especially useful for restraining parcels and loose loads. With possibility to open for walk through.

Load restraint net. Three-dimensional, highly flexible and adaptable, the load restraint net is ideal for cargo in different dimensions and compositions.

Telescopic blocking bars. These are installed horizontally or vertically on the fixing rails, and secure heavy loads safely.

Side panelling fixations. Flexible straps for space-securing fixation of loads on the side anchorage rails.

Side anchorage rails. With fixing points every 25 mm, supplied with 6 movable lashing eyes, providing universal load securing.

Movable lashing eyes. Purpose designed for the Opel Movano rail system. Made of steel with push-button locking mechanism.

Load lashing eyes. Ideally located, 6, 8, 10 or 12 floor load lashing eyes (depending on vehicle length) keep loads secure and safely in place. 4 side-mounted lashing eyes are also optionally available.

Bulkhead window protection. A solid steel mesh which complies to ISO standards protects the window without obstructing the view.

Roof glass windows. These provide improved light conditions in the load compartment for better orientation.

Protective wooden panels. Full- or half-height wooden panels protect the walls while a resin-coated wooden floor protects the load area floor.

Grab handles for rear door and sliding door area. These assist access to and exit from the load compartment.

Safety and security

Vehicle security system. Remote-controlled anti-theft alarm that uses volumetric movement sensors to protect the whole vehicle (engine compartment, cabin and load compartment) against intrusion.

Deadlocks. Extra security optionally available for all models.

Park Pilot. This gives an audible warning to avoid accidental damage when reversing.

Front fog lamps. These are recessed against accidental damage and optimally positioned.

Wide-view mirrors. Dual lens exterior rear-view mirrors minimise blind spot dangers while driving. A large convex mirror mounted on the front passenger sunblind offers extra blind spot coverage while reversing in tight spaces.

Chassis

Rear locking differential. To assist driving in rough or slippery conditions the locking differential is optionally available for RWD models.

Pneumatic suspension. For increased ride comfort and load security, a height-adjustable pneumatic rear suspension is optionally available for FWD models.

Ancillary systems

Power take-off. An auxiliary drive from the engine is available. For heavier duty applications, a gearbox-driven power take-off is available on all RWD models.

Second battery. Recommended for vehicles with additional heating and air-conditioning systems and electric consumers.

Option Packs

Created to help you get the most out of your Opel Movano, the following option packs will also simplify ordering.

Convenience Pack

- CD 16 BT USB. CD/MP3 player, tuner with RDS EON, Bluetooth®, 2 x USB, aux-in and integrated display, steering column controls. 2 x 15 W.
- Retractable dashboard document clipboard
- Comfort driver's seat
- Double bench seat with centre fold-flat swivel tray and under-seat storage
- Sound-deadening panel on bulkhead
- One-touch-down power driver's window

Storage Pack

- Covered and open A4 storage on dashboard
- Additional lower door trim storage
- 12-V power socket, load compartment

Climate Plus Pack

- Manual air conditioning
- CD 16 BT USB. CD/MP3 player, tuner with RDS EON, Bluetooth®, 2 x USB, aux-in and integrated display, steering column controls. 2 x 15 W.
- Cruise control with speed limiter
- On-board computer
- Park Pilot

Popular Pack

- Electronic Climate Control (ECC) with pollen filter
- Automatic headlamps and windscreen wipers
- Front fog lamps
- Office Pack

Professional Pack¹

- Trailer hitch
- Rear Park Pilot
- 270° opening unglazed rear doors

Edition Pack

- Manual air conditioning
- CD 16 BT USB. CD/MP3 player, tuner with RDS EON, Bluetooth®, 2 x USB, aux-in and integrated display, steering column controls. 2 x 15 W.
- Comfort driver's seat
- Cruise control with speed limiter
- On-board computer
- Larger, 105-litre fuel tank

Safety Pack

- Front passenger airbag
- Driver's side airbag
- Cruise control with speed limiter

Advanced Safety Assist Pack²

- High Beam Assist
- Lane Departure Warning
- Front fog lamps
- Automatic windscreen wipers
- On-board computer

Construction Pack

- Towing hitch
- Limited Slip Differential
- Suspended driver's seat

Lighting Pack

- Automatic wipers and lights
- Front fog lamps
- Static Cornering Light

Climate Pack

- Manual air conditioning
- CD 16 BT USB. CD/MP3 player, tuner with RDS EON, Bluetooth®, 2 x USB, aux-in and integrated display, steering column controls. 2 x 15 W.

Comfort Pack

- Automatic headlamps and windscreen wipers
- Front fog lamps
- Electronic Climate Control (ECC) with pollen filter

¹Not available on shortest wheelbase. ²Standard on 4.5 t (N2) variants.

Accessories: exterior

Roof base carrier. Light but strong transverse-mounted aluminium bars can carry long loads up to the 200 kg maximum roof loading capacity, such as pipes, scaffolding etc.

Rear-mounted ladder. In robust steel, provides easy roof access for all vehicle heights.

Roof rack tray, aluminium. Strong, practical and made to carry loads up to the 200 kg maximum roof loading capacity, available for all Opel Movano vehicle lengths.

Towing hitch, heavy duty. This strong, high-quality towing hitch extends the usability and versatility of the Opel Movano. Standard ball or pin and ball-type, with 7- or 13-pin electrical adapter. Towing electrics to be ordered separately.

Walkway for roof rack. Sturdy perforated aluminium walkway enhances roof access. To be used with roof rack tray, available for all Opel Movano vehicle lengths.

Splash guards. Tough thermoplastic, specifically designed to protect the bodywork from damage resulting from stone chips, splashes, grit etc.

Accessories: interior

Seat covers, standard. Protective and good-looking, the dark grey seat covers are made of hard-wearing polyester and specifically tailored for the Opel Movano.

Floor mats, carpet. Practical, hard-wearing and smart, the dark grey “Movano”-branded carpets fit perfectly to the cabin floor. The carpet covers both driver and passenger sides.

Floor mats, all-weather. Tailored to the Opel Movano, the light grey rubber mats protect against dirt and are easily removed for cleaning.

Seat covers, premium. The dark grey leather-look seat covers deliver more style and luxury while protecting the original seat fabric.

Rear-view camera. Shows the area behind the car on the 7” screen of the navigation system or on the 3.5” LCD screen, mounted in the rear-view mirror. Automatically activated by selecting reverse gear.

Multimedia connection. Integrated in the glove box, the aux-in and USB ports allow the connection of mobile digital sources with the speakers in the vehicle. Connected devices can be remote-controlled.

Side window protection grilles. Interior-mounted, epoxy-coated perforated metal grilles protect the glass against load damage.

Rear window protection grilles. Sturdy white-coated metal grilles internally mounted to protect the rear glass while allowing driver rear-view vision.

40,000 km service intervals.¹ 3,200 service points.

1 proven route to peace of mind.

Opel Movano is built on the premise that your commercial vehicles should be out there working for your business and clients, not standing around in workshops. To this end, Opel Movano has been engineered to provide years of reliable service, with the minimum of necessary servicing. Before going on sale, Opel Movano test vehicles covered over 3.2 million real-world test kilometres, as well as extensive bench testing. It is covered by a six-year anti-perforation warranty.

Should unscheduled maintenance be required, a Europe-wide network of 3,200 specialist service points is there to get your Opel Movano back on the road with minimum downtime, or provide a temporary replacement vehicle.

For full details of leasing, maintenance or fleet customer services, please contact your specialist Opel commercial vehicle dealer.

2. Register for free and confirm your account
3. Download the optional myOpel app

Opel Service.

Europe-wide Customer Service.

More than 6,000 Opel repair workshops including over 2,000 commercial vehicle specialised service centres throughout Europe are prepared to provide individual, professional and punctual service. Good service also includes explaining to you in detail what has been repaired and why, and where this is shown on the invoice.

OPEL RoadPlus.¹

Maximum uptime.

Your vehicle will be immediately diagnosed without appointment should you need to visit one of our Opel commercial vehicle repair workshops. Smaller repairs are done while you wait and standard wear-and-tear parts will be replaced within a day. Should the repair take more than 3 hours, an alternative transport solution shall be made available to you free of charge within the first 3 years of ownership of your new vehicle.

Customer Information Centre.

Your Opel partner is at your service for all questions and special requests. For any additional information on your van, you may also contact our Opel Customer Information Centre.

Opel Roadside Assistance.

This mobility service is valid and free of charge for all new Opel vehicles during the first year after the date on which they were first registered or delivered to the customer by the distributor, depending on which date comes first. No matter where you are, the Opel Roadside Assistance is there to help. In more than 40 European countries – round the clock. Offering services such as breakdown assistance, towing services, rental car, hotel accommodation or the organisation of onward transportation, e.g. via rail or air (please see programme conditions). Your distributor or authorised repairer will be happy to offer an extension at your annual service.

Financing Offers.²

Opel retailers offer you interesting tailor-made financing models. You alone decide how you would like to pay for your vehicle, in accordance with your particular needs.

Leasing Offers.²

You can also lease your Opel, e.g. through GMAC Leasing. Leasing terms can be adapted to fit your business requirements and capabilities. Also, Master Lease offers you a complete fleet management service from one source.

Insurance Service.²

Our GMAC insurance service rounds off the Opel service package. We offer Opel customers all types of automotive insurance.

OPEL Rent Service.²

OPEL Rent will keep you on the road if your vehicle is out of service.

2-year new vehicle warranty.

This warranty applies to any new Opel car for a period of 24 months without any mileage restrictions, as from the day on which it was delivered to the customer by the selling Opel dealer.

Extended Vehicle Warranty.²

This repair cost insurance enables you to extend the warranty on your new vehicle. For information on availability and details please contact your Opel partner.

Up to 12 year Anti-Perforation Warranty.

Opel provides you with a reliable long-term warranty against perforation according to the warranty conditions as described in the service booklet.

Parts and Accessories.

All items necessary to maintain your vehicle in perfect condition and to individualise it for your private and business needs are available at your Opel partner.

Recycling.

Information on Design for Environment, our takeback network and the recycling of End of Life Vehicles can be found on www.opel.com

In case of any questions, please ask your Opel partner. More information can be found under www.opel.com
