UPLIFTING EFFECT

Love driving with hybrid.

Get behind the wheel of an Auris Hybrid and you're sure to fall in love with driving again. From the moment you set off, a hybrid puts a big smile on your face, soothing away the stresses of busy traffic giving you a quiet, smooth drive. You'll love its responsiveness too, encouraging you to explore the open road and the joy that freedom to roam can bring. Driving a hybrid is intuitive, just get in, start the engine and press the accelerator. It really is that easy. Every hybrid adventure begins this way: where will you choose to go?

ATTRACT ATTENTION

Designed to be desirable.

The Auris has a fresh and attractive look. Whether it's the bold, finely styled new LED headlamps, or the dynamic design front and back, Auris is a car that'll brighten your day from the moment you set eyes on it. Thanks to a wider, confident stance on the road, combined with a distinct sporting flair to the design, it visually expresses how every journey is more enjoyable in an Auris. And with an Auris Touring Sports available featuring ample luggage space of up to 1,658 litres and superb versatility, you can enjoy the style of Auris without compromising on your needs.

DESIGNED FOR YOU

Comfort and style within.

Scan this page.
Discover driver
technology
close up.

Auris has a clear focus: you, the driver. With an innovative integrated dashboard, it effortlessly mixes intuitive functionality with a stylish design that will captivate you from the moment your hands touch the steering wheel. At its heart is the seamlessly integrated Toyota Touch® 2 with 7" screen, your window to a whole world of music and multimedia features. It works seamlessly with a new 4.2" colour TFT screen in the instrument panel that displays trip data, navigation commands and Toyota Safety Sense information. Together, they make driving safer and more enjoyable.

Control your own music via the Toyota Touch® 2 screen. Connect your devices remotely from Bluetooth® or through a USB socket. Album, artist and track information are displayed on screen for your convenience.

Find your way with clear mapping and concise directions, and benefit from real-time traffic updates, eco-friendly route guidance, speed limit and speed camera warnings, Google local search and Google Street View™, weather updates, parking availability and fuel price information.

Keep in touch safely with hands-free technology. Connect up to five mobile phones, see your SMS messages on screen and access your phonebook.

Take the stress out of reverse parking. On the colour screen you'll see exactly what's behind you when reversing, with static guide lines to make manoeuvring easier.

SPACE AND HARMONY

The appeal of roominess.

Toyota strives to make every journey better, and at the core of that aim is your comfort. Auris features comfortable seats, and an interior trimmed with rich, quality materials. The spacious interior of Auris immediately puts you at ease, and with the Toyota Skyview®, you can let the natural light flood in. The Easy Flat system*, which allows you to fold the seats at the touch of a button, and numerous storage options including an ingenious double floor in the load bay, mean the Auris is emphatically practical. And if it's even more space you're after, the Auris Touring Sports offers even more luggage space, with a 2-way tonneau cover and a partition net included.

* Auris Touring Sports only.

RAISE YOUR SPIRITS

An engine for everyone.

Auris features three advanced engine options for a drive you'll love: hybrid, petrol and diesel, providing the ideal solution for every driver. Calm, quiet and smooth, the responsive Hybrid powertrain leaves you feeling relaxed and refreshed on every journey. In addition to the hybrid, the Auris is now available with a 1.2 l turbo petrol engine. It possesses the excellent economy you might expect from one so small; but the sparkling performance and low-end torque might just surprise you. And just as impressive is the 1.6 l D-4D, which offers dynamic performance. With superb handling and hushed refinement, the Auris is a car you'll look forward to driving, every day.

TOYOTA SAFETY SENSE

Keeping you in safe hands.

In the Auris, safety has been raised to new levels. Toyota Safety Sense, now available from Live grade, adds advanced active safety systems for an even safer and more relaxed drive. Four active safety technologies, Pre-Collision System*, Lane Departure Alert, Automatic High Beam and Road Sign Assist are at the heart of Toyota Safety Sense. On top of that there is, of course, a wide range of additional innovative safety systems. For more information on Auris safety technologies, please refer to pages 46, 47 and 48, 49 or scan the QR code on the opposite page.

Road Sign Assist

Toyota Safety Sense's Road Sign Assist monitors the road signs ahead, displaying useful information such as the current speed limit or overtaking restrictions in clear view on the new colour TFT cockpit display. The system also provides a visual and acoustic warning if you are not following the road sign indication.

Lane Departure Alert

Using a camera to detect the lane markings in the road ahead, Toyota Safety Sense's Lane Departure Alert will alert the driver with audible and visual warnings if the vehicle starts to deviate from its lane without the turn indicator being applied – the driver can then take corrective action.

Pre-Collision System*

Toyota Safety Sense's Pre-Collision System uses a camera and laser to detect other vehicles in the road ahead. When the possibility of collision is detected the driver is alerted with audio and visual warnings, and brake assistance is activated. If the driver fails to brake in time the brakes automatically engage to prevent or mitigate a collision.

Automatic High Beam

Toyota Safety Sense's Automatic High Beam is designed to optimise visibility during night driving for all road users. A camera detects the lights of oncoming vehicles and leading traffic whilst also monitoring the brightness of street lights. It switches automatically between high and low beam for safer night-time driving.

Accessory packs

Chrome pack

1. Rear lower trunk garnish

Highlights your car's distinctive rear-end with a dash of chrome.

2. Exhaust pipe finisher, for the Auris hatchback

In durable chrome to make a design feature of the exhaust pipe.

3. Side door chrome garnish

The stylish chrome garnish emphasises your car's side contours.

Activity pack

1. Towing hitch with wiring harness

Safely integrates your car's lights with those on a towed trailer or the foldable bicycle holder.

2. Trunk liner

Tough flexible plastic with raised edges for dependable trunk carpet protection.

3. Foldable bicycle holder

Carries one or two bicycles and folds for easy installation, handling and storage. Includes a lights and licence plate holder.

4. Foldable bicycle holder bag

Purpose-designed bag for carrying and storing the foldable bicycle holder.

Sport pack

1. 16" alloy wheels

A bold 5-spoke design in an anthracite colour with a machined face.

2. Exhaust pipe finisher, for the Auris hatchback

In durable chrome to make a design feature of your exhaust pipe.

3. Roof spoiler, for the Auris hatchback

An aerodynamic wraparound design with a sporty carbon fibre look.

Black accent pack

1. Rear lower trunk garnish

Black detailing to highlight your car's distinctive rear design.

2. Side door garnish

A dramatic splash of black for the already stylish side profile.

Residual value pack

1. Rear bumper protection plate, polished steel

Style and protection for bumper paintwork when loading or unloading the trunk.

2. Toyota parking assist

Front and rear bumper sensors linked with in-car beepers to warn of obstacles.

3. Trunk liner

Tough flexible plastic with raised edges for dependable trunk carpet protection.

4. Floor mats

Textile on a tough backing to protect cabin carpets. Non-slip fixings secure the driver's mat.

Exterior accessories

Exterior

1. Rear bumper protection plate, black plastic
With a wraparound edge for extra bumper paintwork protection when using the trunk.

2. Rear bumper protection plate, polished steel
Style and protection for bumper paintwork when loading or unloading the trunk.

3. Wind deflectors
Available as a front side windows set or a combined front and rear side windows set.

4. Roof rack, for the Auris hatchback
Strong yet lightweight aluminium design with integral security locking.

5. Ski box, Thule Motion 800, gloss black
For winter sports accessories. Opens from both sides and has multi-point central locking.

6. Crossbars, for the Auris Touring Sports
The bars lock onto pre-fitted roof rails and provide a secure base for roof-top loads.

Personalise your Auris.

Interior accessories

Interior

1. Rear entertainment system

Seat-back docking system with optional DVD player, cordless stereo headphones, holder for iPad® with optional adapter frame for iPad Air®, and a coat hanger.

2. Seat heater

Gently warms the front seats on those icy mornings and really cold nights.

3. Child restraint seat, Baby-Safe Plus

For babies from birth up to 13 kg. Includes a carry handle and retractable canopy.

4. Aluminium scuff plates

Side sill protection that also adds a compelling style detail to your car's interior.

5. Trunk guard with trunk divider, for the Auris Touring Sports

Divides the trunk space for two dogs, a dog and luggage, or two types of luggage.

6. Foot-well illumination

A subtle blue light that automatically turns on when the car doors are opened.

The fuel consumption, CO₂ and noise values are measured in a controlled environment on a basic production vehicle, in accordance with the requirements of European law published by the European Commission. For further information, or if you are interested in buying a basic production vehicle, please contact Toyota Motor Europe NV/SA. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, installed equipment, load, number of passengers, ...) play a role in determining a car's fuel consumption and CO₂ emissions.

Glossary

Discover more about the Auris technology.

Follow-me-home headlights

Activated by the driver for added safety and practicality at night, the headlights remain lit for 30 seconds after parking your car to illuminate your path to the front door.

Dusk sensor

The dusk sensor monitors light levels and automatically switches on the headlights when the light is low.

Rain sensor

The automatic rain sensor instantly sets the appropriate wiper speed and intervals.

Smart Entry & Start System (driver, passenger and boot)

Instead of a conventional key, the Smart Entry & Start System features a transmitter that allows you to unlock the doors by pulling the handle and lock them again by pressing a button. To start or stop the engine, simply press the Start/Stop button. All you need to do is carry the Smart Entry key in your pocket or handbag.

Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD)

ABS prevents the wheels from locking while braking. EBD complements this by optimising brake force distribution between each wheel to compensate for different loads. Together the two systems help you to maintain steering control when braking heavily.

Brake Assist (BA)

If you attempt an emergency stop, BA will detect this and apply additional brake pressure. This enables ABS to work to its maximum potential.

Vehicle Stability Control (VSC)

VSC automatically activates each individual brake as needed and controls engine output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

Hill-start Assist Control (HAC)

HAC helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back. It is activated by pushing the brake pedal harder after stopping as long as the transmission shift lever is in any forward gear position.

Toyota Safety Sense

Toyota Safety Sense adds advanced active safety systems for an even safer and more relaxed drive. Four active technologies – Pre-Collision System*, Lane Departure Alert, Automatic High Beam and Road Sign Assist are at the heart of Toyota Safety Sense.

* Technical name: Pre-Crash Safety System.

Simple Intelligent Parking Assist (Simple IPA)

Simple IPA automatically manoeuvres you into your chosen parking spot whether between two vehicles or behind one. Using ultrasonic sensors on the front side-bumper to identify a suitable parking space, once engaged, the system automatically performs the steering operations. You simply have to control the reversing speed and let the Simple IPA park your vehicle.

Traction Control (TRC)

If you accelerate too hard and cause the drive wheels to lose grip and begin spinning, TRC will automatically reduce engine power and control brake force to help restore traction.

Supplemental Restraint System (SRS) airbags – 7 airbags

This model is fitted with seven airbags. They include driver's knee airbag, SRS airbags for both driver and passenger, side airbags for the front seats, and SRS curtain shield airbags covering both the front and rear seat passengers.

Complete peace of mind with Toyota

Hybrid Service Programme

This is designed for you to enjoy your driving experience with peace of mind. We are pleased to provide Hybrid Battery Extra Care cover* on an annual/ 15,000 km basis (whichever comes sooner) up to the 10th year from vehicle registration date.

Quality Service

Your Toyota retailer will advise you on your car's service requirements. It will need a Health & Safety check at least once every 2 years/30,000 km (whichever comes sooner). An intermediate check is necessary every year or 15,000 km.

Low Maintenance Costs

All Toyota vehicles are designed and engineered to minimise your maintenance costs. This includes fewer parts that require servicing and, equally important, is that Toyota vehicle technology is made easily accessible so that maintenance labour time is less and pricing is competitive.

Genuine Parts

Providing the reassurance of Toyota quality, only genuine and approved components are used on your vehicle. If the vehicle is damaged, its design helps minimise the cost of repair because the most expensive-to-replace parts are deliberately located away from common damage zones. The result is ultimately less expense for parts and labour.

Genuine Accessories

Toyota genuine accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Adding a touch of style, comfort, convenience and practicality, they are tested for exceptional durability to enhance the enjoyment of your new car. All accessories are covered by a 3-year warranty when purchased together with the vehicle[§].

Comprehensive Warranty

Every new Toyota comes with a 3-year/100,000 km vehicle warranty, which covers any defect caused by a manufacturing fault. Transport to the nearest authorised Toyota repairer will also be covered. In addition, a 3-year/unlimited mileage paint warranty protects against defects and surface rust caused by a manufacturing fault. Every new Toyota is covered by a 12-year anti-corrosion warranty (not valid for commercial vehicles) against perforation of body panels caused by a manufacturing fault in materials or workmanship.

Toyota Eurocare

Enjoy peace of mind driving with complimentary Toyota Eurocare roadside assistance in 40 European countries for 3 years[§]. If you experience a problem with your vehicle, Toyota Eurocare offers several possibilities to keep you on the road.

Added Security

Toyota's comprehensive security system withstands the insurance industry's rigorous 5-minute attack test. The alarm system and engine immobiliser are approved by all of Europe's major insurance companies.

* Check with your retailer for specific Toyota Hybrid Service Programme details. [§] Check with your retailer for specific warranty details. [°] Belgium 5 years/Portugal and Denmark 1 year.

Toyota Environmental Challenge 2050

Toyota has set out 6 environmental challenges to be completed by 2050. The objective being to achieve sustainable development together with society.

Challenge 1

New Vehicle – Zero CO₂ Emissions Challenge.

Challenge 2

Life Cycle – Zero CO₂ Emissions Challenge.

Challenge 3

Plant – Zero CO₂ Emissions Challenge.

Challenge 4

Challenge of Minimising and Optimising Water Usage.

Challenge 5

Challenge of Establishing a Recycling-based Society and Systems.

Challenge 6

Challenge of Establishing a Future Society in Harmony with Nature.

Toyota's Lifecycle Approach to Environmental Issues

Toyota has been working on developing sustainable mobility for many years, driven by our vision of zero emissions and zero waste.

* The Life Cycle Analysis for the Toyota Auris (engine type 1ND-TV) compared to an equivalent model, shows a reduction in emissions of the following pollutants: 26% in CO₂ (Carbon Dioxide), 48% in NO_x (Nitrogen Oxide), 13% in SO_x (Sulphur Oxide), 45% in PM (Particulate Matter) and 25% in NMHC (Non-Methane Hydrocarbons).

Toyota's LCA methodology, which is applied to our passenger vehicles was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

The Toyota Auris is built to the highest quality standards at TMUK in Burnaston, United Kingdom.
