

Toyota Camry

The new Toyota Camry. A new level of prestige.

Built with integrity and Toyota's single-minded commitment to quality. The result is a new automotive benchmark.

Camry's new design exudes prestige with strong, flowing lines. It's self-confident and elegant.

Every Camry brings peerless business-class comfort. Premium features are found throughout the luxurious cabin.

Equipped with advanced technology such as back guide monitor and premium speaker audio system.

Quiet, high-powered engines and a smooth, comfortable ride mean that driving pleasure is assured.

Created with passion, built with integrity.

The remarkable new Camry redefines today's business sedan. It demonstrates our willingness to question the status quo, while ensuring that every Toyota is durable, reliable and safe. Integrity has helped us to build a standard by which others will be judged.

Blends grace and purpose, beautifully.

A prestigious new design deftly communicates Camry's values. With confident flowing lines and perfect proportions, it speaks of elegance and athleticism. This is unquestionably a sedan of distinction.

A photograph of the rear interior of a Toyota Camry. The image shows two black leather seats with a perforated texture and orange stitching. A sunroof is visible at the top, and a side window is on the right. The overall lighting is bright, highlighting the car's interior design.

Seek comfort, discover contentment.

Camry is spacious and extremely well appointed. The sophisticated design brings comfort and luxury to the whole cabin.

Designed to give you unshakable confidence.

From the driver's seat, Camry's pre-eminence is clear. The smooth, unruffled driving experience is enhanced by features such as voice control and a touch screen audio system with integrated rear-view parking camera.

Equipment varies according to grade. See page 20.

Engineered for the greatest satisfaction.

A choice of powerful yet efficient petrol engines brings superb dynamic abilities to the Camry experience.

3.5 litre petrol V6 Dual VVT-i 6 A/T	Power 277 DIN hp	Fuel consumption* 9.3 litres to every 100 km	CO₂ emissions* 306 g/km	Acceleration 7.1 secs 0–100 km/h	Available on Luxury grade only
2.5 litre petrol Dual VVT-i 6 A/T	180 DIN hp	7.8 litres to every 100 km	259 g/km	9.0 secs 0–100 km/h	All grades
* Combined cycle.					

The intelligence to keep you safe.

Advanced active safety systems such as VSC and ABS are primed to protect you and your passengers. And if a collision does occur, 9 SRS airbags provide additional protection.

Vehicle Stability Control (VSC)

VSC automatically activates each individual brake as needed and controls engine output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

Traction Control (TRC)

If you accelerate too hard and cause the drive wheels to lose grip and begin spinning, TRC will automatically reduce engine power and control brake force to help restore traction.

Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD)

ABS prevents the wheels from locking while braking. EBD complements this by optimising brake force distribution between each wheel to compensate for different loads. Together the two systems help you to maintain steering control when braking heavily.

Camry highlights

Back guide monitor

Reverse more safely using the back guide monitor, displayed on the touch screen.

Grade availability:
Prestige Plus, Luxury

Cruise control

Cruise control makes long-distance driving more relaxing, more enjoyable.

Grade availability:
Elegance, Premium, Prestige Plus, Luxury

Triple zone automatic air conditioning

To ensure maximum comfort, Camry is equipped with separate air and temperature controls for driver, front and rear passengers.

Grade availability:
Premium, Prestige Plus, Luxury

Xenon headlights with Adaptive Front lighting System (AFS)

Offering more light than halogen units, Xenon headlights make you more visible.

Grade availability:
Premium, Prestige Plus, Luxury

Premium JBL audio system

Enjoy crystal-clear sound with premium speakers and an under-seat amplifier.

Grade availability:
Prestige Plus, Luxury

Rear controls

Rear passengers can control electrically reclining seats, air conditioning and audio.

Grade availability:
Premium, Prestige Plus, Luxury

The Camry range – exteriors

2.5 I Comfort & 2.5 I Elegance

Main features

- Front and rear parking sensors
- Door handles: colour-keyed
- Door mirrors: colour-keyed, heated, electric, retractable with integrated turning signal
- Halogen headlights
- Front fog lamps
- Retractable headlamp cleaners
- 16" alloy wheels

2.5 I Premium

Main features (additional to Comfort & Elegance grades)

- Door handles with chrome inserts
- Xenon headlights with Adaptive Front lighting System (AFS)
- Automatic headlamp levelling

2.5 I Prestige Plus

Main features (additional to Premium grade)

- 17" alloy wheels

3.5 I Luxury

Main features (additional to Prestige Plus grade)

- Dual exhaust pipe
- V6 engine

The Camry range – interiors

2.5i Comfort

Main features

- Black or shell fabric seats
- Front and rear seat heaters
- Leather and woodgrain gear shift lever knob
- Dual zone automatic air conditioning
- Front and rear automatic power windows with jam protection
- LED interior light
- Multi-information display
- Display audio (touch screen) with 8 speakers
- Aux-in and USB connector
- Rain and dusk sensor
- 6 SRS airbags
- Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD) and Brake Assist (BA)
- Vehicle Stability Control (VSC)

2.5i Elegance

Main features (additional to Comfort grade)

- Black or shell leather seats with driver power lumbar support
- Power front seats
- Leather and woodgrain steering wheel with audio switches
- Back monitor with static lines
- Traction Control (TRC)
- Cruise control

2.5i Premium

Main features (additional to Elegance grade)

- Rear electric reclining and heated seats (with 40:20:40 folding)
- Power tilt and telescopic steering wheel
- Smart Entry & Start System
- Triple zone automatic air conditioning
- Rear audio controls
- 9 SRS airbags

2.5 l Prestige Plus

Main features (additional to Premium grade)

- Full map navigation system AVN premium with Bluetooth®,
- 10 JBL speakers and voice command
- Back guide monitor

3.5 l Luxury

Main features (additional to Prestige Plus grade)

- Electric sunshade on rear window

Accessories

Style, comfort and practicality. Genuine Toyota accessories add to the individuality of the Camry experience. They give you choices to personalise your car the way you like things to be.

1. Headlamp covers in clear acrylic to guard your lamps against damage by stone chips.

2. Hood deflector shaped to deflect mud and water spray away from your car's windscreen.

3. Wind deflectors for the front and rear add to the pleasure of driving with open windows.

4. Side mouldings provide an extra layer of protection against minor door panel damage.

Accessories

Contact your local Toyota Retailer for details of the full accessory range.

5. Rubber floor mats to protect your carpets against the extremes of mud, rain and snow.

6. Velour floor mats combining a luxurious soft-touch feel with tough carpet protection.

7. Trunk liner made of durable black rubber with an anti-slip surface and raised outer edges.

8 & 9. Sunblinds for the back and rear side windows enhance privacy and hot weather comfort.

10. Foot well illumination adds style and convenience on those really dark nights.

Noise (drive-by) (EEC regulation 51/02)		
Noise dB(A)	71.4	68.9

The fuel consumption and CO₂ values are measured in a controlled environment, in accordance with the requirements of Directive 80/1268/EEC incl. its amendments, on a basic production vehicle. For further information about or if you are interested to buy a basic production vehicle, please contact your local retailer. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle conditions, installed equipment, load, number of passengers, ...) play a role in determining a car's fuel consumption and CO₂ emissions.

Glossary

A range of technological and engineering innovations are employed to make Camry safe, comfortable, powerful and efficient.

9 airbags

This model is fitted with up to nine airbags, including driver's knee airbag and SRS airbags for both driver and passenger. Other SRS airbags include large side airbags for the front and rear seats, and SRS curtain shield airbags.

Traction Control (TRC)

If you accelerate too hard and cause the drive wheels to lose grip and begin spinning, TRC will automatically reduce engine power and control brake force to help restore traction.

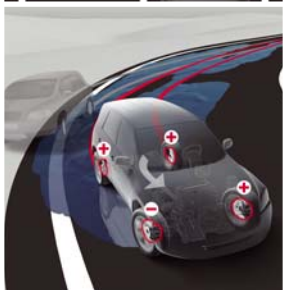

Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD)

ABS prevents the wheels from locking while braking. EBD complements this by optimising brake force distribution between each wheel to compensate for different loads. Together the two systems help you to maintain steering control when braking heavily.

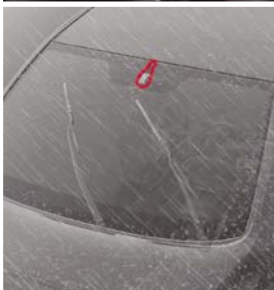

Whiplash Injury Lessening (WIL) seats

During an impact at lower speeds and particularly from the rear, WIL seats and headrests cushion the head and back. This reduces the risk of whiplash injuries.

Vehicle Stability Control (VSC)

VSC automatically activates each individual brake as needed and controls engine output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

Rain sensor

The automatic rain sensor instantly sets the appropriate wiper speed and intervals.

3.5 l V6 Dual VVT-i

The powerful and efficient 3.5 litre V6 Dual VVT-i petrol engine uses low-friction, lightweight components to deliver maximum performance with lower fuel consumption and emissions. Dual VVT-i technology controls valve timing and lift, while the Acoustic Control Induction System (ACIS) optimises the air intake for greater efficiency and torque at all speeds.

2.5 l Dual VVT-i

Featuring lightweight, low-emissions technologies, the 2.5 litre Dual VVT-i petrol engine is economical, quiet and powerful, with excellent low speed acceleration. Dual VVT-i optimises timing and lift of engine valves and a Tumble Control Valves (TCV) system modifies air intake, delivering reduced emissions and greater performance.

Pre-tensioners and force limiters

Integral to the front 3-point ELR seat belts, pre-tensioners and force limiters are designed to help avoid injuries to the chest area.

Automatic transmission

Toyota's automatic transmissions offer a smooth, effortless drive with minimal driver effort. Gear changes are quick and responsive, and additional manual modes enable greater control if required. Automatic transmissions are engineered for the best balance of performance and economy.

Front and rear suspension

The suspension system on every Toyota has been optimised to balance ride comfort, handling and stability. It features MacPherson strut suspension at the front and double wishbone or torsion beam systems at the rear. Coil springs and shock absorbers offer a precisely calibrated damping force and improve performance even further.

Smart Entry & Start System

Instead of a conventional key, the Smart Entry & Start System features a transmitter that allows you to unlock the doors by pulling the handle and lock them again by pressing a button. To start or stop the engine, simply press the Start/Stop button. All you need to do is carry the Smart Entry key in your pocket or handbag.

Owning a Camry means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity.

**Designed
to minimise
maintenance**

**Full Health
& Safety
check**

**3 years
Vehicle
warranty**

Intelligent engineering

The Camry is designed and engineered to minimise maintenance. There are fewer parts that require servicing and those that do are more durable to extend service intervals. Camry technology is made easily accessible so that labour time is minimised. Competitively priced Toyota spares ensure the lowest cost for maintaining your Camry.

Toyota quality service

Your Toyota retailer is here to help and guide you in all your service requirements.

Your Camry will need a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 30,000 km (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 15,000 km (whichever comes sooner).

Comprehensive warranty

3-year vehicle warranty covers any defect caused by a manufacturing or assembly fault. It is valid for 3 years of normal use or 100,000 km, whichever comes first, with no mileage limitation for the first year.

If the car is immobilised due to a breakdown (as a result of a defect covered under warranty), you will also be covered for the cost of towing your vehicle to the nearest authorised Toyota repairer.

3-year paint warranty covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in materials for a period of 3 years, regardless of mileage.

**Low parts
& labour
charges**

3 years*
**Accessory
warranty**

Toyota genuine parts

Camry is designed to minimise the cost of accident repairs. Energy-absorbing elements are built into the bumpers, expensive-to-replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of the damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low parts and labour charges.

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort and practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a 3-year warranty when purchased together with the vehicle*.

* Check with your retailer for specific warranty details.

Toyota takes great pride in constantly improving environmental performance.

- National sales centres
- Logistics centres – vehicles
- Logistics centres – accessories/spares
- Production sites

- Training centres

As a worldwide corporation we aim to be wherever our customers need us, and therefore we have a strong presence in Europe. This shortens delivery distances and results in substantial time savings that are good for you and the environment.

21% less
CO₂ used to
build a Camry
since 2005

Designing your car

Each design detail on our vehicles is analysed to ensure the lowest possible environmental impact throughout its life cycle. This meticulous approach has led to an array of innovative features on our cars that contribute to environmental efficiency.

Making your car

At Toyota, every effort is made to ensure environmental efficiency throughout the manufacturing process. Since 2005, we have reduced the CO₂ emissions per unit of production at Toyota Tsutsumi Plant by 21%. Volume of waste generated was also reduced by 37%.

In the design phase Toyota aims for cleaner engines. Thanks to Toyota Optimal Drive we are achieving even more. Every component is optimised to save weight and space, reduce friction

or simply work more efficiently. This delivers lighter, more compact engines and advanced transmissions that help lower emissions and boost fuel economy without compromising on performance.

Getting vehicles and parts to you

Toyota is always looking to employ the most efficient and environmentally friendly logistical and delivery methods.

Selling and servicing your car

We have developed a sustainable retailer programme to reduce energy, water and waste emissions generated across our network. This covers everything from rainwater recycling, introducing additional roof insulation and using renewable energy at new retailers, as well as carrying out energy audits to identify efficiency improvements at existing retailers.

95% of your
Camry is
recoverable

The end of the road for your vehicle?

Toyota always designs and manufactures its vehicles with an eye on the three Rs: reduce, reuse and recycle. For example, 95% of every Camry is reusable and recoverable, 100% of materials are coded and four heavy metals have been eliminated completely in accordance with 2000/53/EC. In addition, our environmental policy means that we offer Toyota drivers new and innovative ways of returning their old car. For more information visit: www.toyota.eu or contact your local Toyota retailer.

20-30%
less fuel and CO₂

Drive thoughtfully

Drive your car in the right way and you could reduce your fuel bill and your CO₂ emissions by around 20–30%.

01. Remove any extra weight and roof load.
02. Plan your route and avoid detours.
03. Avoid using your car for short journeys.
04. Check your tyre pressure regularly.
05. Service your car according to the owner's manual.
06. Shift up gear earlier.
07. Only use air conditioning when necessary.
08. Follow and anticipate traffic flow.
09. Keep your windows closed.
10. Switch off your engine if you have to wait longer than 60 seconds.

For Toyota, quality is a way of life.
Nothing is so good it cannot be made better.

To experience the new Camry or for more information, please contact your local retailer or visit our website
