

HIGHLANDER

TOYOTA

ALWAYS A
BETTER WAY

AN ELEGANT FIT FOR MODERN LIFE

Sleek, refined and arresting, the new Highlander makes a sophisticated statement wherever life takes you. The high-class design features an aggressively-styled satin chrome-plated front grille that's framed by elegant headlamps. In addition, striking 19", 12-spoke black machined-face alloy wheels and LED-type rear lamps add a final layer of style to the city's classiest SUV.

PUREBRED AGILITY AND CONTROL

From tackling cross-town commutes to relishing a countryside detour, the Highlander's drive rewards whatever the journey. Integrated Dynamic Drive System (IDDS) and Dynamic Torque Controlled All Wheel Drive (AWD) work together to offer athletic handling and agility, while its combination of all-new 3.5 litre petrol engine and 8-speed automatic transmission – as well as 2.7 litre petrol engine option – provides smooth, efficient progress.

Electronic Power Steering (EPS)

If your car should begin to skid, EPS optimises the steering assistance helping you to make steering adjustments and regain control.

Vehicle Stability Control (VSC)

When you turn sharply or corner on slippery surfaces, VSC controls brakes and engine output to prevent skidding.

Traction Control (TRC)

If you accelerate hard and the driven wheels spin, TRC automatically reduces engine power and controls brake force to help restore traction.

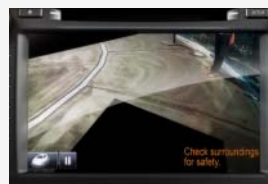

UNINTERRUPTED VIEWS OF THE CITY

When it comes to tricky urban shopping spots or hard-to-see manoeuvres, the new Highlander acts as your second set of eyes. Panoramic View Monitor (PVM) combines images from four cameras to create a near 360° 3D and bird's-eye view making low-speed driving safe and easy. A choice of viewing modes help you to see hidden obstacles or dangers around you, making exploring the city and navigating parking areas safer and easier than ever.

Circular view

When parked and before setting off, the animated bird's-eye view reveals a clear 3D graphics video of your surroundings and any potential obstacles.

See-through view

Watch your surroundings as if the car was transparent: it allows you to check the areas around the car thoroughly from the driver's perspective. Objects appear larger and more clearly than in bird's-eye view to ensure you don't miss a thing.

Wide rear view and panoramic view

The combination of these two perspectives help you park more easily. They reach areas that common rear-view monitors can't capture. For example, you can zoom in on smaller items that are difficult to see.

Wide front view and panoramic view

This mode allows you to safely manoeuvre with limited view ahead: the 180° camera displays a much wider area, including blind spots. It also features a zoom function that can be activated simply by touching the screen.

A QUALITY SPACE FOR LIFE

When it comes to balancing life's demands with comfort and quality, the Highlander's versatility really comes into play. Inside, its luxurious leather seats – with ventilation and heat control – a leather steering wheel, elegant wood trim and three-zone automatic air conditioning ensure you travel in style and comfort. And, with its combination of seven spacious, folding seats and a large trunk, you'll never need to compromise on travel companions or luggage space!

Full-flat loading

The Highlander transforms from seven-person carrier to spacious load-lugger in seconds thanks to its flexible full-flat loading system.

Model shown: Highlander Style

Power back door

The Highlander's convenient power back door release makes light work of loading items into the trunk, especially when you've got your hands full.

THE SMARTER WAY TO TRAVEL

Highlander keeps you seamlessly connected and impressively entertained. The new 8" Toyota Touch® 2 with Go navigation system, sits high in the sleek dashboard for easy control and syncs harmoniously with the 4.2" colour multi-information display directly ahead of the driver. The 12-speaker, custom JBL audio system, operated by touchscreen or multi-function steering controls, completes the highly immersive onboard experience.

The Toyota Touch® 2 with Go

The advanced 8" touch screen features enhanced navigation with real-time updates, Bluetooth® phone calls and music streaming, Wi-Fi connectivity and voice recognition.

Model shown: Highlander Style

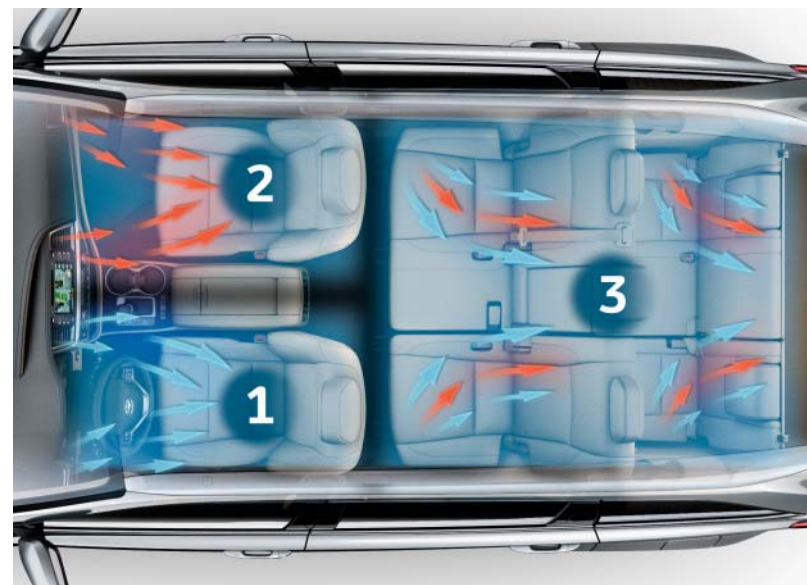

JBL premium audio system

Settle back and enjoy your music just as the artist intended in wide-ranging and crystal clear quality with the custom designed, 12-speaker JBL premium audio system.

Three-zone automatic air conditioning

This makes journeys more comfortable, allowing the driver as well as front and second row passengers to control temperature independently while optimising air flow for third-row passengers.

MAKING SENSE OF EVERY SITUATION

The Highlander's suite of active and preventative safety systems are there to keep you safe whatever the road throws at you. Its Toyota Safety Sense technology includes: Pre-Collision System, Adaptive Cruise Control, Lane Departure Alert, Automatic High Beam and Road Sign Assist. Furthermore, Tyre Pressure Warning, ERA-GLONASS accident response, Rear Cross Traffic Alert and Blind Spot Monitor systems keep you reassuringly on track day-to-day.

1. ERA-GLONASS emergency call system

In the event of a car accident, a terminal located in the vehicle automatically contacts emergency services or is activated by the driver or passenger through an SOS button, helping to get emergency services to the scene quickly and reduce the severity of an accident.

SCAN THIS
QR CODE.
For more
safety
information.

2. Automatic High Beam

This is designed to optimise visibility during night driving for all road users. It switches automatically between high and low beam for safer night-time driving.

3. Pre-Collision System*

When the possibility of collision is detected the driver is alerted with audio and visual warnings and brake assistance is activated.

4. Adaptive Cruise Control

This keeps a minimum pre-set distance from the vehicle in front. It reduces or increases the speed of your vehicle to maintain your chosen cruising speed.

5. Lane Departure Alert

This will alert the driver with audible and visual warnings if the vehicle starts to deviate from its lane without the turn indicator being applied.

6. Tyre Pressure Warning System (TPWS)

The system constantly monitors the tyre air pressure. A dashboard indicator will illuminate to warn you if the pressure falls below the recommended level.

* Technical name: Pre-Crash Safety System.

Model shown: Highlander Style

LIVE

Main features

- 18" alloy wheels (14-spoke)
- Silver lower front grille
- LED front light guide
- LED rear light guide
- Privacy glass on rear windows
- Follow-me-home headlights
- Dusk sensor
- Heated door mirrors
- Power-retractable door mirrors
- Black fabric
- 3-spoke leather steering wheel
- Digital compass in rear-view mirror
- Rear-view camera display in display audio screen
- Static guide lines on rear-view camera display
- Three-zone automatic air conditioning
- Heated driver & front passenger seats
- Coloured TFT multi-information display
- Full-flat loading
- Toyota Touch® 2 multimedia system
- 6 speakers
- Bluetooth® hands-free system

ACTIVE

Main features (additional to Live)

- 19" black machined-face alloy wheels (12-spoke)
- Rain sensor
- Smart Entry & Start System
- Power tailgate
- Remote tailgate release in cabin
- Remote tailgate release on key
- Height memory on tailgate opening
- Opening window on rear tailgate
- Rear parking sensors
- Black or ivory perforated leather
- Leather-like door trim
- Push-button start
- Heated steering wheel

THREE GRADES OF SOPHISTICATION

Whichever Highlander grade you choose – Live, Active or Style – you'll find the perfect balance of sophisticated comfort and technology for you.

STYLE

Main features (additional to Active)

- Chrome surrounds on rear fog lamps
- Automatically retractable door mirrors
- Puddle lamps on door mirrors
- Memory function on door mirrors
- Brown, black or ivory perforated leather
- Light blue lighting on speedometer
- Light blue lighting on tachometer
- Light blue ambient lighting on open tray
- Aluminium door scuff plates
- Dynamic guide lines on rear-view camera display
- Driver & front passenger air ventilated seats
- Toyota Touch® 2 with Go navigation system

Personalise your Highlander.

ACCESSORIES, FOR THAT PERSONAL TOUCH

The spirit of the Highlander says be bold, be yourself. With genuine Toyota accessories you can do exactly that. Choices for extra style, practicality, protection and innovation give you freedom to personalise your car to the way you like things to be.

1. Side bar

The distinctive design enhances the rugged appeal of your car while also making it easier for you to access the vehicle roof and roof rack.

2. Rear bumper protection plate

Custom designed with a wrap-over edge to shield the rear bumper paintwork against scratching when loading or unloading the trunk.

3. Textile floor mats

Tough, easy to clean velour or needle felt textile mats increase protection for your car's cabin carpets. Safety fixings hold the driver's mat firmly in place.

4. Wind deflectors and hood deflector

Both are contoured to your car's aerodynamics. Wind deflectors increase comfort when driving with open windows. The hood deflector diverts spray, mud and stones away from the windshield.

5. Parking aid system

To make parking even easier, you can add sensors to the front, rear, or front and rear bumpers. These link to in-car warning beepers that become progressively more frequent the closer you get to an obstacle.

The fuel consumption, CO₂ and noise values are measured in a controlled environment on a basic production vehicle, in accordance with the requirements of European law published by the European Commission. For further information, or if you are interested in buying a basic production vehicle, please contact Toyota Motor Europe NV/SA. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, installed equipment, load, number of passengers, ...) play a role in determining a car's fuel consumption and CO₂ emissions.
