

LAND CRUISER

---

# UNRIVALLED STRENGTH. LEGENDARY CHARACTER

---

With an off-road heritage spanning more than 65 years, the Land Cruiser remains unique in its ability to combine outstanding quality, durability and reliability with unrivalled off-road performance and ever greater levels of luxury, prestige, and on-road comfort.

---

Model shown on this page and on front cover is Executive.

# BORN AN ICON. FOREVER UNSTOPPABLE

Ever since the first generation climbed Mount Fuji in 1951, the Land Cruiser has been unstoppable. It continues to excite customers all over the world with its capability and its determination to get you anywhere and safely back. Today, the new Land Cruiser is just as relentless – with more advanced on- and off-road technologies, more safety features and more powerful performance to tackle any terrain.

**1951**

BJ series is born – first vehicle to be driven as far as 2,500 metres up Mount Fuji.

**1966**

The Land Cruiser Station Wagon series – offers a more sophisticated version of the 4x4.

**1985**

The first Light Duty series – combines uncompromised off-road strengths and comfort.

**1996**

90 series – now with a strong chassis, independent front suspension and a higher performance engine.

**2002**

120 series – first full model change in 6 years to enhance drivability both on- and off-road.

Model shown is Executive.

2009

150 series is born – combines outstanding durability with unrivalled off-road performance.

2017

150 series – equipped with more advanced on- and off-road technologies as well as safety features.

Model shown is Executive.

---

## STRENGTH AND PURPOSE IN EVERY LINE

---

The new Land Cruiser further enhances its reputation with more modern and robust exterior styling. Every line serves a clear purpose: starting with the bonnet which has been shaped to improve downward visibility at the centre; the headlamps and grille cooling openings positioned higher to maximise both protection and wading depth; while high-gloss painted 19" alloy wheels create a more dynamic profile. The rear now includes a redesigned lamp cluster with an LED stop light.

---

A photograph of the interior of a luxury SUV, showing the front and rear seats, dashboard, and steering wheel. The seats are upholstered in dark leather with a perforated texture. The dashboard and center console are also in dark leather. A large infotainment screen is visible on the dashboard. The sun is shining through the windshield, creating a bright glow.

COMFORT  
THROUGH  
CRAFTSMANSHIP

Model shown is Executive.

The Land Cruiser's unique mix of functionality, craftsmanship and attention to detail ensures the most rewarding journey on any route.

On-board comfort has been enhanced through the adoption of front seat ventilation, a rear passenger adjustable ventilation system, three-zone automatic air conditioning, an electrically heated windshield with heated washer nozzles, and reverse-tilting door mirrors.

### 1. CENTRE CONSOLE

The centre console features the large, Toyota Touch® 2 with Go multimedia system, Smartphone Integration for Apple CarPlay™ and Android Auto™ and more ergonomic, functionally grouped switches that are separated into specific zones. The drivetrain-, driving- and comfort-related switchgear are easy to use in all on- and off-road conditions.

### 2. REAR PASSENGER AIR CONDITIONING CONTROL PANEL

The rear passengers can adjust the temperature to their individual needs to experience optimal comfort at all times.

The image shows the front interior of a Toyota SUV. The steering wheel is black with a wood-grain trim and the Toyota logo in the center. Behind it is a digital instrument cluster displaying various vehicle metrics. The center console features a large touchscreen infotainment system showing a navigation map with a route highlighted in yellow. Below the screen are physical buttons for climate control and other functions. The gear shift is a leather-wrapped automatic shifter. The overall design is modern and functional.

ON-ROAD OR  
OFF-ROAD.  
BE IN  
CONTROL

Model shown is Executive.

The new Land Cruiser's high levels of on-board technology hallmark it as a premium 4x4. The top of the new centre console tower has been lowered for a more sleek appearance and improved front visibility when driving off-road. It incorporates a new, 8" multimedia screen which displays multiple images from cameras positioned around the vehicle.

Off-road controls including a Multi-Terrain Monitor (MTM) with Under-Vehicle Terrain View and Multi-Terrain Select (MTS) in combination with Crawl Control help you tame the wildest territory.

1.

2.

### 1. DRIVE MODE SELECT SYSTEM

Once you select the mode to suit your driving style and/or the conditions, the system will automatically control engine, transmission, Electric Power Steering (EPS), Variable Flow Control (VFC), Adaptive Variable Suspension (AVS) and air conditioning to maximise either the vehicle's environmental efficiency or its dynamic abilities.

### 2. TFT SCREEN WITH TYRE PRESSURE MONITORING SYSTEM (TPMS)

The 4.2" TFT multi-information screen in the combi-metre provides drivers with comprehensive vehicle and infotainment data including safety features such as TPMS. TPMS allows you to keep a check on the pressure of each individual tyre (including a full size spare tyre) via the display. Should the pressure be too low, a warning symbol lights up.

---

AS VERSATILE  
AS YOUR  
AMBITION

---

Whether you're exploring new territory, or negotiating the urban jungle – the Land Cruiser has the spacious cabin and the versatility to match your needs. Choose between a 2-, 5- or 7-seater, for a vehicle that adapts to changing conditions and individual wishes. Loading is easy too, thanks to features like the rear glass hatch window that can be operated with one hand.

**7 people travelling**  
All seats up.

**5 people travelling**  
3rd row stowed.

**2 people travelling**  
2nd row seating folded down  
and 3rd row stowed.

Model shown is Executive.

Model shown is Executive.

---

## IN CONTROL, WHATEVER LIES AHEAD

---

Towing your equipment, avoiding potholes, battling rain, snow and ice – no other SUV can offer the new Land Cruiser's unique combination of on-road dynamics and off-road performance. It is equipped with a Drive Mode Select System, an electronically modulated Kinetic Dynamic Suspension System (KDSS), which optimises the effect of the front and rear stabilisers for enhanced on-road performance.

---

### **KINETIC DYNAMIC SUSPENSION SYSTEM (KDSS) ON-ROAD\***

KDSS is an electronically modulated hydraulic suspension system. On-road, highly responsive suspension with conventional anti-roll bars provides unrivalled steering agility and ride comfort by optimising the effect of the front and rear stabilisers.

### **TRAILER SWAY CONTROL (TSC)**

TSC suppresses any trailer sway caused by wind, bumpy roads or steering etc. whenever you are towing. With sensors detecting yaw, acceleration and steering, TSC uses deceleration control and yaw moment to limit sway. The slip indicator bleeps when TSC is activated, and to warn drivers behind, the stop lamps are illuminated.

### **TORSEN REAR LIMITED SLIP DIFFERENTIAL (LSD) LOCK**

The new Torsen Rear LSD lock helps improve stability and traction on rough roads and slippery surfaces. When cornering, it limits the torque difference between the left and right wheels generated by engine braking, thereby achieving greater vehicle stability.

\* A full description is available on pages 42/43.

---

# READY TO CONQUER THE TOUGHEST TERRAIN

---

Crawling through a river, climbing hills, descending a rocky track – the Land Cruiser's ability to overcome the roughest terrain and bring you back safely is legendary. The Multi-Terrain Monitor (MTM) with Under-Vehicle Terrain View gives you an instant overview of your surroundings, including Panoramic View. There is also a choice of three rear differential variants including the new Torsen Rear Limited Slip Differential (LSD) lock for enhanced stability and grip. The Multi-Terrain Select system (MTS) in combination with Crawl Control automatically regulates vehicle settings to suit the conditions for maximum control.

---

## **MULTI-TERRAIN MONITOR (MTM) WITH UNDER-VEHICLE TERRAIN VIEW\***

MTM is designed to give you an instant overview of your surroundings, helping you stay on your intended course and avoid potential danger. Under-Vehicle Terrain View captures an image of the area in front of the vehicle and combines it with the current tyre position, creating a realistic view of what lies underneath.

## **PANORAMIC VIEW MONITOR\***

To help you spot obstacles and ease off-road driving, the Panoramic View Monitor and the Steering Angle Display create a near 360 ° 3D view of the vehicle's surroundings.

## **MULTI-TERRAIN SELECT (MTS) IN COMBINATION WITH CRAWL CONTROL\***

Tackle any scenario with a choice of five terrain modes. MTS automatically regulates the amount of wheel spin to suit the off-road conditions and even works in conjunction with Crawl Control.

**REAR DIFFERENTIAL LOCK**

The touch of a button allows you to temporarily lock a differential forcing both wheels to spin at the same speed, helping the wheel regain full control.

Model shown is Executive.

**ACTIVE TRACTION CONTROL (A-TRC)\***

A-TRC helps to overcome wheel spin and stabilise the vehicle when accelerating on slippery roads and in muddy conditions.

\* A full description is available on pages 42/43.

Model shown is Executive.

---

## UNRIVALLED QUALITY

---

### **BODY ON FRAME\***

Land Cruiser's robust body on frame construction uses high tensile sheet steel for a lightweight design, which maintains maximum strength and rigidity. It also isolates the cabin from suspension impacts for greater comfort even in rough road conditions.

### **KINETIC DYNAMIC SUSPENSION SYSTEM (KDSS) OFF-ROAD\***

KDSS allows the wheels to remain firmly on the ground and provide greater traction and stability on the roughest terrain.

### **HILL-START ASSIST CONTROL (HAC)\*/ DOWNHILL ASSIST CONTROL (DAC)\***

HAC helps to ensure a smooth start on steep inclines and prevents the vehicle from rolling back. When descending off-road, DAC applies individual brakes to keep the vehicle stable.

### **ADAPTIVE VARIABLE SUSPENSION (AVS)\***

AVS continuously adapts shock absorber damping at the front and rear in response to the road conditions and automatically selects the most appropriate ride mode: Comfort, Normal or Sport.

The Land Cruiser epitomises strength built on its unrivalled commitment to quality, durability and reliability. Key to the Land Cruiser's peerless off-road capability is its combination of a highly durable, deformation-resistant, unique body on frame construction with the remarkable level of guidance and technical support it offers drivers. From Japanese mountaintop and European forests to central Asian and Russian territories, the Land Cruiser has literally been tested all over the world. It always returns unfazed, ready for the next challenge.

---

---

# OFF-ROAD OR ON-ROAD, ALWAYS PROTECTED

---

## **AUTOMATIC HIGH BEAM**

Toyota Safety Sense's Automatic High Beam is designed to optimise visibility during night driving for all road users. A camera detects the lights of oncoming vehicles and leading traffic whilst also monitoring the brightness of streetlights. It switches automatically between high and low beam for safer night-time driving.

## **INTELLIGENT ADAPTIVE CRUISE CONTROL**

This technology includes the features of Adaptive Cruise Control combined with Road Sign Assist, automatically keeping the car at a pre-selected speed and warning the driver if the speed limit changes, and allowing the driver to easily adapt the cruising speed accordingly.

## **LANE DEPARTURE ALERT**

Using a camera to detect the lane markings in the road ahead, Toyota Safety Sense's Lane Departure Alert will give the driver audible and visual warnings if the vehicle starts to deviate from its lane without the turn indicator being applied – the driver can then take corrective action.

Model shown is Executive.

The Land Cruiser is fitted with Toyota Safety Sense\*, a set of active safety technologies designed to help prevent or mitigate collisions across a wide range of traffic situations. It includes a Pre-Collision System (PCS)<sup>§</sup> with pedestrian (day or night) and cyclist (day only) detection, Intelligent Adaptive Cruise Control (ACC), Lane Departure Alert (LDA), Automatic High Beam (AHB) and Road Sign Assist (RSA).

Further safety technologies include a Blind Spot Monitor (BSM) with Rear Cross Traffic Alert (RCTA).

#### ROAD SIGN ASSIST

Toyota Safety Sense's Road Sign Assist monitors the road signs ahead, displaying useful information such as the current speed limit or overtaking restrictions in clear view on the new colour TFT cockpit display. The system also provides a visual and acoustic warning if you are not following the road sign indication.

#### PRE-COLLISION SYSTEM

The Pre-Collision System is using alerts, brake assist or automatic braking to reduce the likelihood and severity of impact, and can detect cars, pedestrians (day or night) and cyclists (day only).

\* Available on Executive grade. <sup>§</sup> Technical name: Pre-Crash Safety System.

THE  
SOURCE OF  
STRENGTH

Model shown is Executive.

The new unrivalled Land Cruiser is powered by a 2.8 l D-4D turbodiesel combined with a choice of manual or automatic transmission.

# LAND CRUISER GRADES

---

## ACTIVE GRADE MAIN FEATURES

### Exterior features

- Available in all colours
- 17" silver alloy wheels (6-spoke)
- 19" bi-tone dark grey & machined-face alloy wheels (12-spoke)\*
- Smart Entry & Start System
- Daytime running lights (LED type)
- Cruise Control
- Active Traction Control (A-TRC)
- Hill-start Assist Control (HAC)
- Downhill Assist Control (DAC)
- Tyre Pressure Warning System (TPWS)
- Trailer Sway Control (TSC)
- Pre-Collision System (PCS)<sup>§</sup> with pedestrian (day or night) and cyclist (day only) detection
- Intelligent Adaptive Cruise Control (ACC)
- Lane Departure Alert (LDA)
- Automatic High Beam (AHB)
- Road Sign Assist (RSA)

### Interior features

- Black or beige fabric
- Push-button start
- Display Audio\*
- 6 speakers

\* Optional.

<sup>§</sup> Technical name: Pre-Crash Safety System.

## LEGEND GRADE MAIN FEATURES

### Exterior features (additional to Active grade)

- Available in all colours
  - Chrome insert on upper front grille
  - Chrome surrounds on upper front grille
  - Body-coloured door mirrors
- 

### Interior features (additional to Active grade)

- Black or beige premium fabric\*
  - 4-spoke leather steering wheel
  - Leather gear shift knob
  - Leather handbrake
  - Rear-view camera display in audio screen
  - Three-zone automatic air conditioning
  - Rear passenger air conditioning
  - Rear passenger adjustable ventilation system
  - Rear passenger air conditioning control panel
  - Heated driver & front passenger seats
  - Toyota Touch® 2 multimedia system
  - 8" multimedia display
  - 9 speakers
- 

\* Optional.

## PRESTIGE GRADE MAIN FEATURES

### Exterior features (additional to Legend grade)

- Available in all colours
- 18" black alloy wheels (6-double-spoke)
- 19" bi-tone dark grey & machined-face alloy wheels (12-spoke)\*
- Privacy glass on rear windows
- Automatic High Beam
- Adaptive Cruise Control
- Pre-Collision System with Pedestrian Detection
- Lane Departure Alert
- Road Sign Assist
- Drive mode selector

### Interior features (additional to Legend grade)

- Black or beige premium fabric
- Black or beige leather\*
- Toyota Touch® 2 with Go navigation system
- JBL premium sound system
- 14 speakers
- Voice recognition

\* Optional.

## EXECUTIVE GRADE MAIN FEATURES

### Exterior features (additional to Prestige grade)

- Available in all colours
- 19" bi-tone dark grey & machined-face alloy wheels (12-spoke)
- Puddle lamps on door mirrors
- Power roof opening
- Moon roof
- Blind Spot Monitor (BSM)
- Panoramic View Monitor
- Body Angle Display
- Multi-Terrain Monitor (MTM)
- Crawl Control
- Multi-Terrain Select (MTS)

### Optional features

- Chrome roof rails
- Tinted chrome upper front grille
- Chrome surrounds on front fog lamps
- Dark chrome door mirrors
- Tinted chrome insert on boot door
- Black side steps

### Interior features (additional to Prestige grade)

- Black or beige leather
- Light or dark brown wood insert on steering wheel<sup>§</sup>
- Memory function on steering wheel
- Adaptive Variable Suspension (AVS) power steering

\* Optional. <sup>§</sup> Depending on trim colour.

---

# ACCESSORIES

---

Genuine Toyota accessories add special touches of individuality to your Land Cruiser 150. Wherever you go, through town or country, options for style, practicality and innovation offer extra flexibility to tailor your car for life and the way you choose to live.

---

The following accessories are optional for the packs:

### **TRUNK DIVIDER – FOR 5 SEATER**

Combines with the full height trunk guard to divide the trunk space for different types of equipment, luggage or two dogs.

### **DOG GUARD HALF HEIGHT – FOR 5 SEATER**

Shaped to prevent a dog jumping into the passenger space. Made especially for cars with trunk rails.

### **TRUNK GUARD, FULL HEIGHT**

A floor to ceiling guard for keeping your equipment, luggage or a dog out of the passenger area.

### **RUBBER FLOOR MATS**

Tough protection for your car's cabin carpets. Safety fixings hold the driver's mat firmly in place.

## FLEET PACK

Business, pleasure and practicality go hand-in-hand with the Land Cruiser 150. Fleet pack accessories make even more of the experience.

---

\* Not applicable for all versions. Please contact your local Toyota retailer for details.

**TRUNK LINER\* (Available on both packs)**

Strong black plastic with a non-slip surface and raised edges to protect the trunk carpet. Fits around trunk rails.

**HORIZONTAL DETACHABLE TOWING HITCH (Available on both packs)**

Lets you make full use of your car's powerful towing capacity. The hook can be removed when not used.

# TRANSPORT PACK

Transport pack accessories add extra dimensions of practicality and carrying to the Land Cruiser's legendary go anywhere, do anything capability.

**TEXTILE FLOOR MATS**

Stylish anthracite coloured mats for dependable protection of your car's carpets. Safety fixings hold the driver's mat in place.

**ROOF RACK**

Easy to fit lockable bars that combine to form a roof-top base for safely carrying extra luggage or equipment.

**THULE PACIFIC 700 SKI BOX**

Exactly the right length, shape and capacity for carrying winter sports gear and accessories. Silver grey finish.

Visit [www.toyota-europe.com](http://www.toyota-europe.com) or pick up a brochure at your local Toyota retailer for details of the full range of accessories.

Hydrocarbons, THC & Nitrogen Oxides, NO <sub>x</sub> (mg/km)	34.1	43.7
Smoke particulates (mg/km)	1.27	1.48
Sound level drive by (dB(A))	71.4	72.7

The fuel consumption and CO<sub>2</sub> values are measured in a controlled environment on a representative production model, in accordance with the requirements of the new WLTP European Regulation EC 2017/1151 and its applicable amendments. For each individual vehicle configuration, the final fuel consumption and CO<sub>2</sub> values may be calculated based on the ordered optional equipment. The fuel consumption and CO<sub>2</sub> values of your vehicle may vary from those measured or calculated values, as driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, load, number of passengers, etc.) have an influence on a car's fuel consumption and CO<sub>2</sub> emissions. For more information regarding the new WLTP test method, please visit: <https://www.toyota-europe.com/world-of-toyota/feel/environment/worldwide-harmonized-light>

# GLOSSARY

Discover more about Land Cruiser technology.

## Panoramic View Monitor

Panoramic View Monitor helps to make parking and manoeuvring safer and easier. It combines images from four cameras to create a near 360° 3D view of the surroundings. Displayed clearly on the Toyota Touch® 2 multimedia system screen, the driver can choose from two viewing modes: Moving View and See-through View to check for any hidden obstacles or dangers.

## All Wheel Drive (AWD)

In normal road conditions, drive is through the front wheels, but on loose or slippery surfaces the system automatically and continuously distributes the torque between front and rear wheels. This optimises traction and driving stability and also maximises fuel economy.

## Multi-Terrain Select (MTS)

Tackle any situation with a choice of four terrain modes – 'Rock', 'Mogul', 'Loose rock' or 'Mud & sand'. The vehicle's throttle, braking and traction control systems are automatically modified to suit the off-road conditions, providing maximum traction and control.

## Body on frame

High tensile sheet metal is used to maintain a lightweight design and ensure strength and rigidity. Sound-absorbing and noise-cancelling materials contribute to a peaceful drive.

## Multi-Terrain Monitor (MTM)

MTM allows you to see the road around you, helping you stay on your intended course and avoid potential danger. The screen displays a choice of six live images from four exterior cameras showing your surroundings either side of the car, behind and in front of you, as well as underneath your vehicle. By simply pressing the multi-function switch on the steering wheel, you'll have an instant understanding of your surroundings.

## Kinetic Dynamic Suspension System (KDSS)

KDSS is an electronically modulated hydraulic suspension system. On-road, highly responsive suspension with conventional anti-roll bars provides unrivalled steering agility and ride comfort. Drive off-road and the wheels remain firmly on the ground and provide greater traction and stability on the roughest terrain.

#### Hill-start Assist Control (HAC)

HAC helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back. It is activated by pushing the brake pedal harder after stopping as long as the transmission shift lever is in any forward gear position.

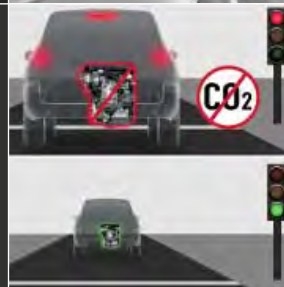

#### Crawl Control

Crawl Control maintains constant and stable low-speed off-road progress. The driver doesn't have to worry about controlling the throttle and brake, and can instead concentrate on steering.

#### Downhill Assist Control (DAC)

When descending off-road, DAC applies individual brakes to keep the vehicle stable and maintain its speed between 5 and 7 km/h. DAC works in forward or reverse, and when activated it requires no pedal input from the driver.

#### Stop & Start System

The Stop & Start System automatically stops the engine when your vehicle is stationary and in neutral – at a red light, for example, or in a similar situation. This improves fuel efficiency and reduces exhaust gas emissions. The engine is immediately restarted when you press the clutch.

#### Active Traction Control (A-TRC)

Designed for on- and off-road, A-TRC helps to keep you moving in the most adverse conditions. This intelligent traction control applies brake force to one wheel that may be slipping, while distributing power evenly between the three that are not.

#### Toyota Safety Sense

Toyota Safety Sense adds advanced active safety systems for an even safer and more relaxed drive. Five active technologies – Pre-Collision System\* with pedestrian (day or night) and cyclist (daytime) detection, Lane Departure Alert, Automatic High Beam, Road Sign Assist and Intelligent Adaptive Cruise Control are at the heart of Toyota Safety Sense.

\* Technical name: Pre-Crash Safety System.

#### Adaptive Variable Suspension (AVS)

AVS dampens all four shock absorbers independently. This provides you with outstanding ride comfort, handling and stability. What's more, you can choose from Comfort, Normal and Sport modes to suit your preferences and road conditions.

# TOYOTA 2050 ENVIRONMENTAL CHALLENGE & ENVIRONMENTAL LIFECYCLE POLICY

## TOYOTA ENVIRONMENTAL CHALLENGE 2050

At Toyota, we want to go beyond zero environmental impact and leave the world in a better place than we found it. To make that happen, we have set ourselves six challenges to complete by 2050. Each one presents its own difficulties, but we are committed to generating a positive and sustainable impact on society and the natural world as a whole.

For more information regarding Toyota Environmental Challenge please visit: [www.toyota-europe.com/world-of-toyota/feel/environmental-sustainability](http://www.toyota-europe.com/world-of-toyota/feel/environmental-sustainability) or contact your local Toyota retailer.

## CHALLENGE 1

### NEW VEHICLE – ZERO CO<sub>2</sub> EMISSIONS

By 2050, we want to reduce the CO<sub>2</sub> emissions from our vehicles by 90% compared to our 2010 levels. To achieve this, we will promote the development of new vehicles with low or zero carbon emissions, and do everything we can to increase the uptake of these vehicles.

## CHALLENGE 4

### MINIMISING AND OPTIMISING WATER USAGE

To minimise water usage, we have started to collect rainwater at our manufacturing plants. We have also developed purification methods so that the water we do use can either be used again or returned safely into the local supply.

## CHALLENGE 2

### LIFE CYCLE – ZERO CO<sub>2</sub> EMISSIONS

We are working to create more environmentally friendly designs – and then analysing and refining them to ensure the lowest possible environmental impact throughout the vehicle's entire life cycle\*.

## CHALLENGE 5

### ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

We've been working on the challenge of resource recycling for 40 years, with the result that 95% of every Toyota Land Cruiser is now reusable and recoverable. In addition, we offer new and innovative ways of returning your vehicle when it eventually reaches 'the end of the road'.

\* Toyota's LCA methodology, which is applied to our passenger vehicles, was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

## CHALLENGE 3

### PLANT ZERO – CO<sub>2</sub> EMISSIONS

To reduce carbon emissions at our manufacturing plants, we are focusing on improving the technologies we use and switching to alternative power sources. We are committed to making our facilities more energy-efficient and adopting renewable energy sources such as solar and wind, as well as low-carbon power such as hydrogen energy.

## CHALLENGE 6

### ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

To preserve and enhance our co-existence with the natural world, we are organising reforestation and tree planting, green urban schemes and other environmental initiatives, both at our own sites and in the wider world. Our aim is to establish a society where people and nature coexist in harmony.

# YOUR COMPLETE PEACE OF MIND WITH TOYOTA

### QUALITY SERVICE

Your Toyota will need a Health & Safety check at least once every 2 years/30,000 km (whichever comes sooner). An intermediate check is necessary every year or 15,000 km.

### LOW MAINTENANCE COSTS

All Toyota vehicles are designed and engineered to minimise your maintenance costs.

### GENUINE PARTS

Providing the reassurance of Toyota quality, only genuine and approved components are used on your vehicle.

### COMPREHENSIVE WARRANTY

Every new Toyota comes with a 3-year/100,000 km vehicle warranty\*, which covers any defect caused by a manufacturing fault<sup>§</sup>.

### ADDED SECURITY

Toyota's comprehensive security system withstands the insurance industry's rigorous 5-minute attack test.

### GENUINE ACCESSORIES

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. All accessories are covered by a 3-year warranty when purchased together with the vehicle\*.

### TOYOTA EUROCARE

Enjoy peace of mind driving with complimentary Toyota Eurocare roadside assistance in 40 European countries for 3 years<sup>°</sup>.

For more information on peace of mind visit: [www.toyota-europe.com/service-and-accessories](http://www.toyota-europe.com/service-and-accessories)

\* Check with your retailer for specific warranty details. <sup>§</sup> Transport to the nearest authorised Toyota repairer will also be covered. In addition 3-year/unlimited mileage paint warranty protects against defects and surface rust caused by a manufacturing fault. Every new Toyota is covered by a 12-year anti-corrosion warranty (not valid for commercial vehicles) against perforation of body panels caused by a manufacturing fault in materials or workmanship. <sup>°</sup> Belgium 5 years/Portugal and Denmark 1 year.
