

Land Cruiser V8

TOYOTA

ALWAYS A
BETTER WAY

Land Cruiser V8. King of all roads since 1951.

Land Cruiser V8's striking looks include a newly sculpted bold front grille, powerful xenon headlights with daytime running lights and new rear light clusters.

Go anywhere, with innovative 4-wheel drive technology that makes this lavish SUV king of any road.

Travel everywhere in exceptional luxury with supreme comfort levels and versatile seating options.

60 years as an off-road legend and the journey is still only just beginning.

Refreshed design

Before you even get behind the wheel, Land Cruiser V8 thrills. A striking new front grille and bumper as well as newly sculpted rear lights are the focus of an exciting fresh and even bolder look.

Other new stylish touches include sophisticated xenon headlamps with daytime running lights, new front fog lamps, outer mirrors with integrated indicators and cameras, chrome side mouldings and new 18" or 20" alloy wheels. All in all, luxury never looked better.

Kinetic Dynamic Suspension System (KDSS) On-road
Highly responsive suspension with conventional anti-roll bars provides unrivalled on-road steering agility and ride comfort.

Hydraulic lines are used to connect the front and rear stabilisers. KDSS electronically controls a set of valves connected to accumulators to optimally balance the effect of the front and rear stabilisers and absorb surface irregularities.

Front and rear suspension
Land Cruiser V8 is fitted with a suspension system that maximises off-road capabilities while delivering ride comfort and superior handling on-road. Double-wishbone suspension is used at the front, with 4-link coil suspension at the rear.

Hill-start Assist Control (HAC)
HAC helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back. It is activated by pushing the brake pedal harder after stopping as long as the transmission shift lever is in any forward gear position.

On-road technology

Land Cruiser V8 masters every road you take. Its highly sophisticated Kinetic Dynamic Suspension System (KDSS) intelligently optimises the front and rear stabilisers on every road surface and around every bend. The result?

Adaptive Variable Suspension (AVS)

AVS continuously adapts shock absorber damping in response to the road conditions and automatically selects the most appropriate ride mode: Comfort, Normal or Sport.

Robust body on frame

High tensile sheet metal is used to maintain a lightweight design and ensure strength and rigidity. Sound-absorbing and noise-cancelling materials contribute to a peaceful drive.

Seamless, smooth and incomparably pleasurable driving. Add to that additional on-road friendly technologies, like Adaptive Variable Suspension (AVS) and Hill-start Assist Control (HAC) and it's easy to see that Land Cruiser V8 has been comprehensively engineered to deliver an engaging ride.

Multi-Terrain Select (MTS)
Tackle any situation with a choice of five terrain modes – ‘Rock’, ‘Rock & dirt’, ‘Mogul’, ‘Loose rock’ or ‘Mud & sand’. The vehicle’s throttle, braking and traction control systems are automatically modified to suit the off-road conditions, providing maximum traction and control.

Multi-Terrain Monitor (MTM)
MTM allows you to see the road around, helping you stay on your intended course and avoid potential danger. The screen displays a choice of six live images from four exterior cameras. By simply pressing the multi-function switch on the steering wheel, you’ll have an instant understanding of your surroundings.

Off-road Turn Assist
The Off-road Turn Assist function enhances drivability on tight corners. The turning performance is enhanced in accordance with the driver’s steering wheel operation, while maintaining a constant low speed thus reducing the number of 3-point turns.

Kinetic Dynamic Suspension System (KDSS) Off-road
Drive off-road and the wheels remain firmly on the ground and provide greater traction. The stabiliser is disconnected. With the fluid now allowed to flow freely through the system, each wheel can move with much more independence on uneven ground. The resulting longer wheel travel provides uncompromised traction and stability on the roughest terrain.

Mud, sand, rocks. Land Cruiser V8 is ready for any obstacle, with a range of innovative technology that has nature conquered. Multi-Terrain Select means you can choose the best driving mode for your environment, while Multi-Terrain Monitor shows the surroundings from four different camera angles.

Off-road technology

Tyre angle display

In uneven off-road conditions it is often difficult to determine your exact steering direction. The multi-information display shows the tyre angle guidelines to give you confidence in these situations. When Multi-Terrain Select is in use, the tyre angle guidelines let you know your predicted path.

4-wheel Active Height Control (AHC)

4-wheel AHC adjusts your Land Cruiser V8's ground clearance. When lowered, stability at speed and cabin access is improved. Raising it, meanwhile, boosts off-road ground clearance.

Active Traction Control (A-TRC)

Designed for on- and off-road, A-TRC helps to keep you moving in the most adverse conditions. This intelligent traction control applies brake force to one wheel that may be slipping, while distributing power evenly between the three that are not.

Crawl Control can handle braking and acceleration in particularly demanding conditions while concentrating on steering; in addition the Off-road Turn Assist function has been added to Crawl Control to enhance drivability on tight corners where 3-point turns are necessary. It is no wonder Land Cruiser V8's off-road capability has become so legendary.

Centre of excellence

Land Cruiser V8 boasts an interior as spacious as it is sumptuous. High-quality materials abound; beautiful finishes and attention to detail are in evidence everywhere you look. All harmonised to create a truly luxurious cabin.

There's plenty of space too: up to seven people can fit more than comfortably into three rows of seats. What's more, there's a generous amount of storage room: a centre armrest with a cool box, double-layered glove compartment, bottle and cup holders, plus door pockets. Surround yourself in lavishness and enjoy the quiet, refined ride.

Capacity with flair

That's because, whatever your plans, you'll discover versatile seating options that fit around you. The second row of seats offers a flexible 40:20:40 combination. They also slide and tilt forward for easy access to the third row behind.

The seats can also go fully flat in seconds at the touch of a button, allowing for maximum load space. And if you are loading cargo, the good news is the boot can be opened or closed with a button on the dashboard or remotely with an electronic key – perfect if your hands are dirty and you don't want to mark the boot handle.

The engine room

Wherever you want to go, whatever you want to do, you can count on Land Cruiser V8's astonishing performance. A choice of powerful V8 petrol or diesel engines deliver go-anywhere potential and an impressive 650 Nm of torque between 1600 and 2800 rpm on the 4.5 litre diesel engine.

Multi-Terrain Anti-lock Braking System (ABS)

When driving with Multi-Terrain Select, Multi-Terrain ABS automatically detects terrain conditions and ensures the best possible braking performance.

Crawl Control

Crawl Control maintains constant and stable low-speed off-road progress. The driver doesn't have to worry about controlling the throttle and brake, and can instead concentrate on steering.

Brake Assist (BA)

If you attempt an emergency stop, BA will detect this and instantly apply additional brake pressure. This enables ABS to work to its maximum potential.

Vehicle Stability Control (VSC)

VSC automatically activates each individual brake as needed and controls engine output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

The most comprehensive safety

A host of clever, innovative safety features ensures you and your passengers are always well protected. Whether it's Multi-Terrain ABS that adjusts to wheel slippage in off-road conditions, additional brake pressure with BA or the skid-avoidance help of VSC, Land Cruiser V8 takes care of you, first and foremost.

Details and features

New headlamps

Powerful new xenon headlamps with daytime running lights make Land Cruiser V8 more stylish as well as safer.

Damping force selector

This switch allows you to influence the suspension characteristic as individually preferred, to ensure a smooth and comfortable ride across a particular terrain.

Multi-information display

Sitting comfortably at driver eye-level, the Multi-information display provides all relevant vehicle information such as speed, steering wheel angle or Multi-Terrain Select display.

Accessories

For city streets, country lanes and nature's wide open spaces. Wherever life takes you and your Land Cruiser, genuine Toyota accessories make the journey even more of a personal experience.

1. **Trunk liner** with a non-slip surface and raised edges to protect against mud and dirt.
2. **Dog guard** in a floor-to-ceiling design that gives your pet its own space for relaxing.

3. **Velour floor mats** combine a luxurious soft-touch feel with tough carpet protection.
4. **Door handle protection film** for guarding the paintwork against minor scratches.

5. Chrome side sills shaped to integrate with and emphasise your car's contours.

6. Exhaust pipe finisher in durable chrome for a classic sporty appearance.

7. Detachable towing hitch with a 3500 kg capacity and the convenience of a removable hook.

8. Cross bars that lock onto your car's roof rails and create a base for carrying extra loads.

Contact your local Toyota retailer for details of the full accessory range.

The fuel consumption, CO₂ and noise values are measured in a controlled environment on a basic production vehicle, in accordance with the requirements of European law published by the European Commission. For further information, or if you are interested in buying a basic production vehicle, please contact Toyota Motor Europe NV/SA. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, installed equipment, load, number of passengers, ...) play a role in determining a car's fuel consumption and CO₂ emissions.

Glossary

Discover more about Land Cruiser V8 technology.

Full-time 4WD

This full-time 4WD system provides excellent traction and control during acceleration and turning. All four wheels are powered at all times for unbeatable ability to go anywhere on- or off-road.

Dusk sensor

The dusk sensor monitors light levels and automatically switches on the headlights when the light is low.

Rear-view camera

Reverse more safely using the rear-view camera. The clear colour image displayed on screen helps you spot hidden hazards and park with ease.

Rain sensor

The automatic rain sensor instantly sets the appropriate wiper speed and intervals.

Supplemental Restraint System (SRS) airbags

This model is fitted with ten airbags, including knee airbags for driver and front passenger. Other SRS airbags include SRS airbags for both driver and passenger, side airbags for the front and rear seats, and SRS curtain shield airbags covering both the front and rear seat passengers.

Automatic transmission

Toyota's automatic transmissions offer a smooth, effortless drive with minimal driver effort. Gear changes are quick and responsive, and additional manual modes (availability depending on model) enable greater control if required. Automatic transmissions are engineered for the best balance of performance and economy.

4.6 l V8 petrol

The 4.6 litre V8 petrol engine featuring Toyota's VVT-i technology offers significant power, ideal for off-road challenges and high-end performance on-road.

4.5 l V8 diesel

The 4.5 litre V8 diesel engine is one of the most powerful diesel engines in the Toyota range, delivering flexibility and an unrivalled driving performance on- and off-road. The impressive power is boosted by a sophisticated twin variable-nozzle turbocharger.

Active headrests

In a rear impact, the passenger's lower back is pressed hard against the seat. A built-in unit triggers the Active headrests to move diagonally upward and forwards to provide extra head support. This alleviates neck impact and helps reduce the risk of whiplash.

Smart Entry & Start System

Instead of a conventional key, the Smart Entry & Start System features a transmitter that allows you to unlock the doors by pulling the handle and lock them again by pressing a button. To start or stop the engine, simply press the Start/Stop button. All you need to do is carry the Smart Entry key in your pocket or handbag.

Pre-tensioners and force limiters

Integral to the front 3-point ELR seat belts, pre-tensioners and force limiters are designed to help avoid injuries to the chest area.

ISOFIX seat fixing

Seats incorporate special anchor points, including a top tether that helps prevent the seat tipping forward. These provide a safe and convenient way of correctly securing ISOFIX child seats (available from your Toyota dealer).

Owning a Land Cruiser V8 means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity.

Designed to minimise maintenance

Intelligent engineering

The Land Cruiser V8 is designed and engineered to minimise maintenance. There are fewer parts that require servicing and those that do are more durable to extend service intervals. Land Cruiser V8 technology is made easily accessible so that labour time is minimised. Competitively priced Toyota spares ensure the lowest cost for maintaining your Land Cruiser V8.

Full Health & Safety check

Toyota quality service

Your Toyota retailer is here to help and guide you in all your service requirements.

Your Land Cruiser V8 will need a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 30,000 km (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 15,000 km (whichever comes sooner).

3 years Vehicle warranty

Comprehensive warranty

3-year vehicle warranty – covers any defect caused by a manufacturing or assembly fault. It is valid for 3 years of normal use or 100,000 km, whichever comes first, with no mileage limitation for the first year.

If the car is immobilised due to a breakdown (as a result of a defect covered under warranty), you will also be covered for the cost of towing your vehicle to the nearest authorised Toyota repairer.

3-year paint warranty – covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in materials for a period of 3 years, regardless of mileage.

12-year anti-perforation warranty – covers against perforation of the bodywork (from inside to outside) that develops due to corrosion caused by faults in materials or workmanship, regardless of mileage.

**Low parts
& labour
charges**

Toyota genuine parts

Land Cruiser V8 is designed to minimise the cost of accident repair. Energy-absorbing elements are built into the bumpers, expensive-to-replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low parts and labour charges.

3 years*
**Roadside
assistance**

Toyota Eurocare

In order to help you enjoy peace of mind driving, we are pleased to provide 3 years* Toyota Eurocare roadside assistance coverage in no fewer than 40 European countries. If you experience a problem with your Land Cruiser V8, Toyota Eurocare offers several possibilities to keep you on the road.

Added security

The Land Cruiser V8 security system withstands the insurance industry's rigorous 5-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

3 years[§]
**Accessory
warranty**

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort and practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a 3-year warranty when purchased together with the vehicle[§].

* Belgium 5 years, Portugal and Denmark 1 year.

[§] Check with your retailer for specific warranty details.

Toyota takes great pride in constantly improving environmental performance.

- National sales centres
- Logistics centres – vehicles
- Logistics centres – accessories/spares
- Production sites
- Supporting companies
- Training centres

As a worldwide corporation we aim to be wherever our customers need us, and therefore we have a strong presence in Europe. This shortens delivery distances and results in substantial time savings that are good for you and the environment.

Less CO₂ used to build a Land Cruiser V8 since 2002

Designing your car

Each design detail on our vehicles is analysed to ensure the lowest possible environmental impact throughout its life cycle. This meticulous approach has led to an array of innovative features on our cars that contribute to environmental efficiency.

The environmental impact of the Land Cruiser V8 diesel compared to its previous model is demonstrated through the complete life cycle analysis with 13% CO₂ (Carbon dioxide), 45% NO_x (Nitrogen Oxides), 12% NMHC (Non-Methane Hydrocarbons), 10% SO_x (Sulphur Oxide) and 38% PM (Particulate Matter) reduction.

Making your car

At Toyota, every effort is made to ensure environmental efficiency throughout the manufacturing process. Since 2002, we have reduced the average energy consumption per vehicle built at the Toyota Tahara plant.

Getting vehicles and parts to you

Toyota is always looking to employ the most efficient and environmentally friendly logistical and delivery methods.

Selling and servicing your car

We have developed a sustainable retailer programme to reduce energy, water and waste emissions generated across our network. This covers everything from rainwater recycling, introducing additional roof insulation and using renewable energy at new retailers, as well as carrying out energy audits to identify efficiency improvements at existing retailers.

95% of your
Land Cruiser V8
is recoverable

The end of the road for your vehicle?

Toyota always designs and manufactures its vehicles with an eye on the three Rs: reduce, reuse and recycle. For example, 95% of every Land Cruiser V8 is reusable and recoverable, 100% of materials are coded and four heavy metals have been eliminated completely in accordance with 2000/53/EC. In addition, our environmental policy means that we offer Toyota drivers new and innovative ways of returning their old car. For more information visit: www.toyota.eu or contact your local Toyota retailer.

20-30%
less fuel and CO₂

Drive thoughtfully

Drive your car in the right way and you could reduce your fuel bill and your CO₂ emissions by around 20–30%.

01. Remove any extra weight and roof load.
02. Plan your route and avoid detours.
03. Avoid using your car for short journeys.
04. Check your tyre pressure regularly.
05. Service your car according to the owner's manual.
06. Shift up gear earlier.
07. Only use air conditioning when necessary.
08. Follow and anticipate traffic flow.
09. Keep your windows closed.
10. Switch off your engine if you have to wait longer than 60 seconds.

The Land Cruiser story: a legend from day one.

1951 – Toyota BJ

1967 – Toyota LC 55 Series

1998 – Toyota LC 100 Series

For more than six decades, Toyota's off-road icon has established a reputation for quality, durability and reliability. From African plains and Antarctic blizzards to South American jungles, Land Cruisers have played key roles across the globe.

For Toyota, quality is a way of life.
Nothing is so good it cannot be made better.

ALWAYS A
BETTER WAY

Point your smartphone or webcam at the graphic and start a new experience of Land Cruiser V8.
