

Q5

More than an SUV.

Forward thinking all along the line.

The new Audi Q5* combines the sportiness of an Audi Avant with a multifaceted character, a highly versatile interior and high everyday usability. Its new, sporty design language captivates at first glance. Thanks the quattro all-wheel drive, its driving characteristics are governed by superb dynamics.

Fuel consumption combined: 7.2 - 7.5 l/100 km;
CO₂ emissions combined: 165 - 171g/km

Captivating driving dynamics.

The new Audi Q5* offers impressively spontaneous, dynamic acceleration and agile handling. Thanks to powerful TFSI engines. It comes with a fully variable quattro drive as standard. This enables the drive forces to be distributed as needed between the individual wheels.

Let there be light.

The Matrix LED headlights provide precise, high-resolution illumination of the road.

Particularly radiant light.

The LED rear combination lamps with dynamic light design and dynamic turn signal improves visibility in certain situations.

An intelligent interplay of assist systems.

The new Audi Q5* features an intelligent combination of highly refined assist systems. With a diverse range of optional packages designed for virtually any challenge. For long journeys, urban driving and parking.

quattro and more.

Audi drive select enables the driver to adjust the vehicle characteristics via a variety of modes.

Final equipment subject to specification sheet.
For detailed information, please contact sales hotline 2291 0000.
*Overseas model is indicated, specification and features may differ in Hong Kong.

The new Audi Q5*: Moving dynamics

The new design of the sill trims creates a visual lightness and signals impressive ground clearance. New 19- or 20-inch alloy wheels provide an even sportier touch.

A sporty interpretation of appeal.

With its sporty charisma, the Audi Q5* is fascinating at first glance. With high air inlets and a flat wide octagonal radiator protective grille, its sculptural front testifies to the vehicle's distinctive self-confidence.

Black styling package.

The optional black styling package adds further expressive accents with highly striking design elements on the front of the vehicle, rear and sidelines painted black.

Final equipment subject to specification sheet.

Plenty of space for individuality.

Generous space concept with plenty of space for five people including ample headroom and legroom. Not to mention a wide range of options for customising the interior design thanks to the new equipment line and package concept.

Functionality made simple.

With features that are easy to operate, such as the electrically opening and closing luggage compartment lid, the new Audi Q5* helps you confidently master everyday challenges.

Sports front seats with heating and ventilation as option

The MMI touch operating system in the new Audi Q5*.

To ensure you always arrive at your destination, MMI navigation plus with MMI touch offers a great range of different functions. With Audi connect, you always have practical online solutions available to you on board.

Model	Q5 45 TFSI® quattro® S-line
Engine type	In-line 4 cyl FSI petrol engine, turbocharged, mild hybrid technology
Displacement	1,984 cc
Max. output	265 hp / 5,250 – 6,500 rpm
Max. torque	370 Nm / 1,600 – 4,500 rpm
Power transmission	
Drive type	quattro® all-wheel drive with ultra technology
Transmission type	7-speed S tronic
Weights / capacities	
Empty weight	1,835 kg
Perm. Total weight	2,445 kg
Permissible roof load limit / Support load	75/100 kg
Mileage	
Top Speed	240 km / h
Acceleration	0-100 km / h: 6.1s
Consumption	
Fuel type	Super Sulfur-free ROZ 95
Consumption and emission values according to NEDC	
Urban	9.0 - 9.1l / 100 km
Extra - urban	6.2 - 6.5 l / 100 km
Combined	7.2 - 7.5 l / 100 km
Combined CO2 emissions	165 -171 g/km
Emission class	Euro 6d-ISC-FCM

Explanatory note

- * Empty vehicle weight includes driver (75 kg) and fuel tank 90% full, calculated in accordance with the current Regulation (EU) 1230/2012. Optional equipment may increase the car's empty weight and drag coefficient, whereupon the possible payload and the top speed will be reduced accordingly.
- *** The specified fuel consumption and emission data have been determined according to the measurement procedure prescribed by law. Since 1 September, 2017, certain new vehicles are already being type-approved according to the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO2 emissions. Starting on 1 September, 2018, the New European Driving Cycle (NEDC) will be replaced by the WLTP in stages. Owing to the more realistic test conditions, the fuel consumption and CO2 emission measured according to the WLTP will, in many cases, be higher than those measured according to the NEDC.
- ** We recommend using super sulfur-free unleaded RON 95 fuel in complying with DIN EN 228. If this is not available, use regular sulfur-free unleaded RON 91 fuel complying with DIN EN 228, power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10% (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/ EC.
- We are currently still required by law to state the NEDC figures. In the case of new vehicles which have been type-approved according to the WLTP, the NEDC figures are derived from the WLTP data. It is possible to specify the WLTP figures voluntarily in addition until such time as this is required by law. In cases where the NEDC figures are specified as value ranges, these do not refer to a particular individual vehicle and do not constitute part of the sales offering. They are intended exclusively as a means of comparison between different vehicle types.
- Additional equipment and accessories (e. g. add-on parts, different tyre formats, etc.) may change the relevant vehicle parameters, such as weight, rolling resistance and aerodynamics, and, in conjunction with weather and traffic conditions and individual driving style, may affect fuel consumption, electrical power consumption, CO2 emissions and the performance figures for the vehicle.

Q5 45 TFSI® quattro® S-line

Dimensions in mm

Dimensions are for empty vehicle weight. Luggage capacity 520 l / 1,520 l (second value is with the rear seat backrest folded down and the vehicle loaded up to roof height). Turning circle approx. 11.8 m.
* Maximum headroom. ** Elbow room width. *** Shoulder room width. **** Vehicle height with roof aerial.
