

MINI COUNTRYMAN. MINI PACEMAN.

NO TWO MINIS ARE THE SAME.

MINI vehicles are a lot like eggs. Think about it – have you ever seen two eggs that are exactly alike? The snowflakes on page 32 are a similar story – up close, they vary enormously, and you'll never find a perfect copy. Yet at the same time, there's no mistaking a snowflake, whatever its make-up.

The MINI Countryman and MINI Paceman are no different. The two vehicles, which now feature ALL4 all-wheel drive, are totally distinct as concepts – yet are immediately recognizable as MINI models.

There's one other thing that makes each MINI unique – you. The special bond between each MINI and its driver is no more noticeable than in the little details. Practically no other vehicle offers as many customization options that really allow you to make it your own.

MINI COUNTRYMAN.

The MINI Countryman is a vehicle for anyone who wants an out-and-out MINI, but not without ALL4 all-wheel drive. It's for anyone who needs a little more space – both for life, and for luggage. It's for anyone who relies on the responsiveness of a go-kart, and the resilience of rubber boots in mud. It's for anyone who wants to spend time in the great outdoors, without getting bogged down in it. It's for the city, the country, and the way there and back. It's for five people. It's a vehicle for anyone wanting a genuine MINI experience, wherever they go.

MINI PACEMAN.

The MINI Paceman is a vehicle for anyone who prefers to set urban trends, rather than follow them. It's for anyone who likes to stand out, without making a scene. It's for anyone searching for the performance of a go-kart, and the practicality of four individual seats. It's for anyone who appreciates design in general, and a coupé silhouette in particular. It's for anyone who doesn't just want to see the city, but wants to get under its skin.

GO BEYOND THE CITY LIMITS.

The MINI Countryman is the perfect option for anyone looking to break free. Let it take you out of the city, and away from the stresses and strains of the everyday grind. Whether hitting the ski slopes or cycle trails, or escaping with the family, the MINI Countryman will take you away from it all and onto your next adventure – inside or outside of the urban jungle.

THE MINI JOHN COOPER WORKS COUNTRYMAN.

With ALL4 all-wheel drive as standard, the MINI John Cooper Works Countryman is way ahead of the pack when it comes to transferring power to the tarmac – and other surfaces. And torque of up to 300 newton-metres (with overboost) means you'll have plenty of opportunities to feel every single pore of the optional leather backrests. The most powerful MINI Countryman model available also comes with a twin-pipe sports exhaust and aerodynamic package as standard, further underlining the vehicle's uncompromising performance.

»» TRULY GRIPPING.

ALL4

THE MINI COUNTRYMAN.

A DIFFERENT KIND OF MINI.

Despite its four doors, an external length of over four metres, and optional ALL4 all-wheel drive, the MINI Countryman is immediately recognizable as a MINI. This is largely thanks to its unique proportions and the classical MINI styling of the front end.

A GOOD-TIMES-TO-GO MINI.

In addition to unique responsiveness and the trademark MINI go-kart handling, the MINI Countryman delivers outstanding traction on any surface. The result is unparalleled driving enjoyment, in any situation.

A MORE VERSATILE MINI.

There's never been another MINI with so much interior flexibility – or space. The higher body means the MINI Countryman has more space for up to five passengers, plus luggage. In addition, there are lots of smart details, such as the Center Rail and a rear seat bench that slides back 13 centimetres. And with a luggage compartment that can hold 350 to 1,170 litres, the MINI Countryman packs in plenty more than just the unmistakable MINI experience.

GENTLEMEN, CHOOSE YOUR ENGINE.

MINI ONE COUNTRYMAN.

With a punchy 98 horsepower/72 kilowatts, the petrol **MINI One Countryman** offers a pacy entry into the world of MINI, as does the 90-horsepower/66-kilowatt **MINI One D Countryman** diesel model. They're also kind on the environment – the MINI One Countryman already meets EU6 emissions standards.

MINI COOPER COUNTRYMAN.

The **MINI Cooper Countryman** is available with a 122-horsepower/90-kilowatt petrol engine that already complies with the EU6 emissions rating. The **Cooper D** meanwhile, features a 112-horsepower/82-kilowatt diesel unit. On request, both engines can be combined with ALL4 all-wheel drive.

MINI COOPER S COUNTRYMAN.

The **MINI Cooper S Countryman** offers an impressive 1.6-litre twin-scroll turbo engine that delivers 184 horsepower/135 kilowatts, while the **MINI Cooper SD Countryman** features a 2-litre common-rail diesel engine offering 143 horsepower/105 kilowatts and 305 newton-metres of torque. Both are available optionally with ALL4 all-wheel drive.

» MINI JOHN COOPER WORKS COUNTRYMAN.

The **MINI John Cooper Works Countryman** is home to the most powerful MINI unit of all, a unique 1.6-litre twin-scroll turbo engine. Featuring direct fuel injection and variable valve timing, it delivers 218 horsepower/160 kilowatts, and offers up to 300 newton-metres of torque via the overboost function. The vehicle also comes with the impressive ALL4 all-wheel drive system as standard.

A WAKING DREAM.

The MINI Paceman satisfies the most demanding tastes, while making a clear statement. This is a car for people who refuse to compromise on either driving enjoyment or design. It exudes elegance and style, while delivering an incredible go-kart ride. This is one design piece that bites back.

THE MINI JOHN COOPER WORKS PACEMAN.

With up to 300 newton-metres of torque, the most powerful MINI engine around has more than enough punch to propel the MINI John Cooper Works Paceman around the city streets. The cutting-edge unit combines a twin-scroll turbo charger, direct fuel injection, variable valve timing and an overboost function, and delivers so much power that the MINI John Cooper Works comes with ALL4 all-wheel drive as standard. The vehicle also boasts the looks to match, thanks to a twin exhaust pipe and the aerodynamic package, featuring a front apron, rear apron and striking side skirts with track-style air intakes.

»» TORQUE ON TAP.

THE MINI PACEMAN.

DESIGNED FOR THE URBAN RUNWAY.

With lengthened doors, a long shoulder line, a slanting roofline and horizontal rear lights, no MINI has ever offered this kind of track-inspired elegance. Despite its unique coupe silhouette, the MINI Paceman is immediately recognizable as a MINI, thanks to classic features such as the radiator grille, side scuttles and contrast roof.

ENGINEERED FOR ENJOYMENT.

The dynamic lines of the MINI Paceman are combined with a lowered sports suspension as standard, direct steering, and high-revving engines that make the vehicle the ultimate go-kart for grown-ups. Meanwhile, ALL4 all-wheel drive and optional Dynamic Traction Control (DTC) with Electronic Differential Lock Control (EDLC) leave you free to focus on nothing more than enjoying yourself.

SUPERIOR SPATIAL DESIGN.

With its track-style silhouette, you would never know just how much the MINI Paceman can pack into its 330–1,080 litres of luggage space and wide-opening doors. There's also a surprising amount of room for four passengers beneath the elongated roof. What's more, the two individual seats in the rear create an exclusive lounge-style environment that is big on comfort.

WELCOME TO OUR MOTOR SHOW.

MINI COOPER PACEMAN.

The **MINI Cooper Paceman** is streets ahead with a 122-horsepower/90-kilowatt petrol engine, which already conforms with EU6 emission regulations. The **MINI Cooper D Paceman** boasts a high-torque diesel unit that offers 112 horsepower/82 kilowatts. As elsewhere, both engines are available with ALL4 all-wheel drive as an option.

» MINI JOHN COOPER WORKS PACEMAN.

Clocking in at 218 horsepower/160 kilowatts, the 1.6-litre unit in the **MINI John Cooper Works Paceman** is the most powerful MINI engine on the market. It is also jam-packed with state-of-the-art features from the track that turn every set of lights into a starting line, such as a twin-scroll turbocharger, direct fuel injection, variable valve timing, and an overboost function that offers 300 newton-metres of torque. With so much power at its disposal, the vehicle is fitted as standard with ALL4 all-wheel drive.

MINI COOPER S PACEMAN.

Whether you opt for the 184 horsepower/135 kilowatts of the 1.6-litre twin-scroll turbo petrol engine in the **MINI Cooper S Paceman**, or the 143-horsepower/105-kilowatt 2.0-litre common-rail diesel unit in the **MINI Cooper SD Paceman**, optional ALL4 all-wheel drive delivers all the traction you could ever need.

With bonnet stripes, contrast roofs, and exterior mirror caps, few other models can come close to the level of customization MINI has been offering for over 50 years now. In fact, choosing a new model is no easy task – for the exterior alone, there are over 100,000 ways to ensure your MINI is a true one-off and a perfect match for your personality. So take a deep breath and immerse yourself in the details. First, you may like to pick out the bonnet

THE LEGEND IS IN THE DETAIL.

stripes, or the sport stripes that run the length of your MINI. Then there's the exterior mirror caps, perhaps in the body colour, a contrast colour, or even finished in Chrome. A contrasting tone also looks great on the roof – if Black or White don't do it for you, Original MINI Accessories offer a host of roof designs, such as the Union Jack shown below right. Put it all together and the end result will be a MINI that is yours, and yours alone.

The customization tradition actually began with John Cooper, who took the rally world by storm in the early 60s. He wanted to be sure spectators could see his Mini fly through the thick woodland around Monte Carlo, on its way to victory. His simple, effective solution was to paint the roof a bright white tone. The decision would have major ramifications, with this design one of the reasons that the MINI went on to become the best-selling, most-loved British car in history. So take a look through the following options, and make your MINI Countryman or MINI Paceman your own.

CHROME LINE

When the first Mini rolled off the production line in 1959, the automotive world was figuratively and literally dazzled. This was in no small part down to the extensive use of Chrome, with an unprecedented amount used for such a small car. Much has changed since then, though our love of Chrome burns as bright as ever. The sparkle of 1959 lives on today in the form of the Chrome Line Exterior. With Chrome fins for the radiator grille, Chrome surrounds for the air intakes and registration plates, and Chrome side scuttles, the optional package guarantees your MINI Countryman or MINI Paceman will make a glittering impression.

MINI COOPER COUNTRYMAN.

Chrome-plated radiator grille slats and a Chrome surround for the lower air intake.

Chrome-plated side scuttle.

Chrome-plated surround for the registration plate in the rear bumper.

MINI COOPER S COUNTRYMAN.

In addition to the radiator grille, chrome-plated air ducts for cooling the brakes.

Chrome-plated side scuttle.

Chrome strip in rear bumper.

The headlights of the MINI Countryman and MINI Paceman are as eye-catching by day as they are by night. Surrounded by sparkling Chrome and housed in aerodynamic glass casing, the headlights shine through the daytime with optional Black reflectors. Their true power really comes to the fore once night falls, with the optional bi-xenon headlights for low and full-beam settings illuminating even the darkest corners. And with the automatic headlight washer system, this remains the case on even the dirtiest roads.

INTRODUCING OUR HEAD OF INTERIOR DESIGN – YOU.

MINI drivers are unique, and their expectations of design are uniquely demanding. They like to be able to select every last detail, and are uncompromising when it comes to their surroundings – be it their home, their office, or their car. Whether elegant or adventurous, each MINI can be set up in countless configurations, so that it is the perfect expression of their personal style.

Our design team shapes each component so that it can be put to use by the best interior designer there is for a MINI – its owner. Over the following pages, you'll find a range of ways to give your MINI that personal touch. From the seat to the cockpit surfaces, the Colour Line and the various Center Rails, you have the final say on what goes inside your MINI. After all, who chooses off-the-peg when you can go bespoke?

Dark Silver

Dark Anthracite

Piano Black

A DREAM IN BLACK. AND RED. AND SILVER.

Treat yourself and your interior to a little colour. For the cockpit surfaces – made up of the decorative trims in the dashboard – you can choose between Dark Silver, Dark Anthracite and Piano Black. In addition, the side surrounds on the centre console can also be ordered in Black Checkered. For those of a more fiery disposition, John Cooper Works models are exclusively available with interior and cockpit surfaces in Chili Red.

Bring a little sparkle to the inside of your MINI with the Chrome Line Interior package. With the rings around the air vents, rev counter, and central round instrument all finished in Chrome, you can look forward to one dazzling highlight after another.

COLOUR LINE.

The Colour Line is another way of adding an edge to your interior. The various options bring a splash of colour to the door mirrors and the decorative insert of the Center Rail. When choosing a Colour Line, think about the way it will combine with the colour of your upholstery, as on the MINI Countryman, rear armrests for seats in cloth/leather or leather are also covered with a comfort pad.

CYCLE STEPLESSLY THROUGH THE FULL COLOUR SPECTRUM – TRY AMBIENT LIGHTING FOR YOURSELF AT WWW.MINI.COM

LIGHTS PACKAGE WITH AMBIENT LIGHTING.

Let there be light: in addition to the standard interior lighting in the headliner, the lights package includes front reading lights, an illuminated vanity mirror, lights in the front footwells, door area lights and an instrument panel backlight. Then, at the push of a button, Ambient Lighting brings the lights in the door mirrors, armrests and Center Rail to life, cycling through all the colours of the spectrum in understated style. You can then select the perfect tone for your mood, and that of your passengers.

LOUNGE REAR SEATS IN THE MINI PACEMAN.

The rear of the MINI Paceman offers the kind of set-up usually found only in luxury-class vehicles. Two exclusive individual seats await passengers, transforming the vehicle from a means of transport into a luxurious lounge. All that's missing is the roaring open fire.

For the gym or the track: the stylish drink bottle from the MINI Collection.

THE THREE-PART SEAT BENCH IN THE MINI COUNTRYMAN.

We have fully redesigned the rear seat bench. Each element of the seats can be adjusted independently, while the seats themselves slide back by up to 13 centimetres. This offers either greater legroom or increased luggage space. When particularly long or bulky items are to be transported, the backrest can also be easily folded down in a 40:20:40 ratio.

RAIL SAFE.

Horizontal iPhone/iPod holder.

Keep your iPhone or iPod securely in place, and easily accessible.

Front cup holder.

Never spill a drop, however tight the corners.

Glasses compartment.

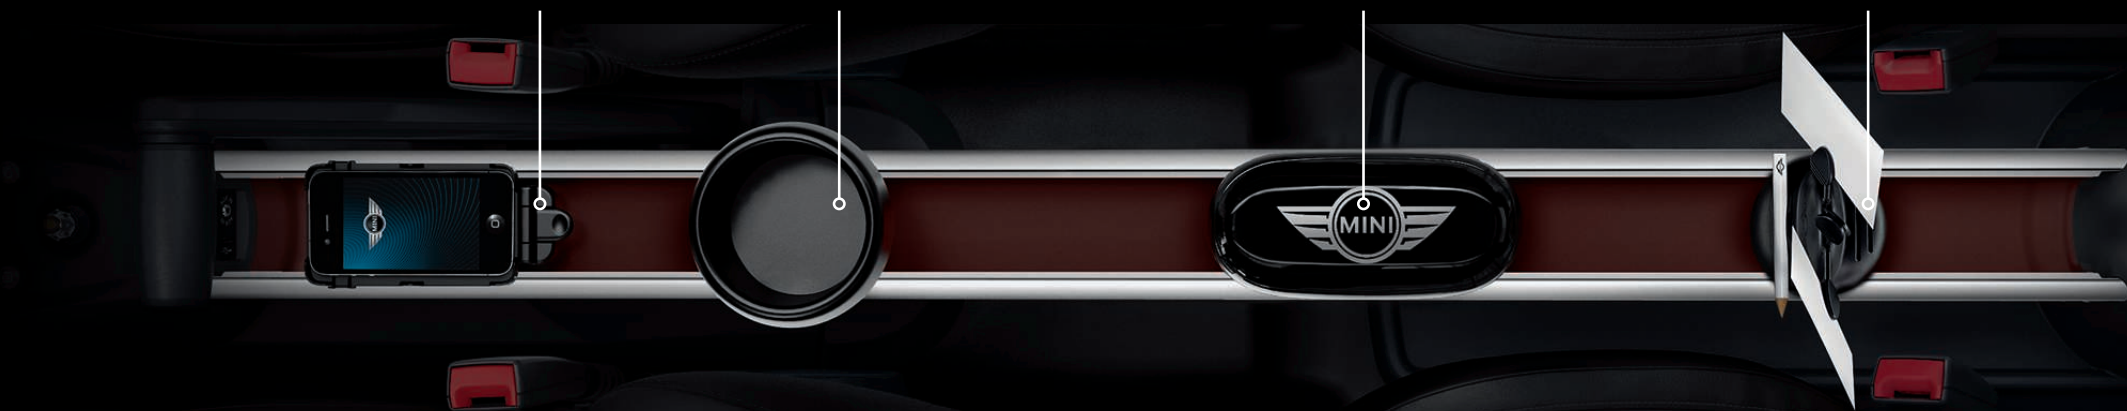

If you've ever had to retrieve your sunglasses from beneath the seat, you'll know how useful this detail is.

+ ACCESSORIES.

For more information, visit www.MINI.com/accessories

Rail note holder.

Made up of two coin slots, a MINI pencil, and an attachment to hold notes and small documents, this solution is as compact as it is practical.

PLANET MINI.

You're sure to experience a wide range of emotions in your MINI, though we can guarantee that you'll never feel alone. Each model is packed full of ways to share the joy of MINI with the outside world. With MINI Connected, you can say hello to passing MINI drivers via Facebook or Twitter, and every two years, you can meet the rest of the community in person at the international get-together, MINI United. It may seem unusual to some, but it is a big part of life with a MINI – where drivers are connected by much more than a shared brand.

MINI CONNECTED: LIKE!

Want to enjoy the perfect soundtrack as you push your MINI to its limits? Enjoy quick, easy navigation? Tweet and connect with friends on Facebook? You can do all this and more with MINI Connected, a complete in-car infotainment solution. With the MINI Connected App, you can link your iPhone to your MINI and access state-of-the-art features on the display unit. In addition, you can receive the latest RSS feeds and thousands of web radio stations from around the world, wherever you may be. Be MINI. Be connected.

DRIVING EXCITEMENT.

With this tool, you can always keep an eye on your driving style. Is it sporty? Precise? Exciting? You'll also earn special badges as you record specific driving achievements.

MINIMALISM ANALYSER.

The MINIMALISM Analyser puts the fun into changing gear, accelerating and braking more efficiently. The solution is good for the environment and great for your fuel economy, and never gets old.

DYNAMIC MUSIC.

Dynamic Music offers a selection of exclusively written tracks, where the rhythm, style and combination of instruments follow the dynamics of your driving.

MINI CONNECTED READY APPS.

You can find out which apps are compatible with MINI Connected in the Info section of the MINI Connected app. Simply download them from the App Store and get started.

MINI.COM/CONNECTED

SOUNDS GOOD.

Radio MINI Boost CD.

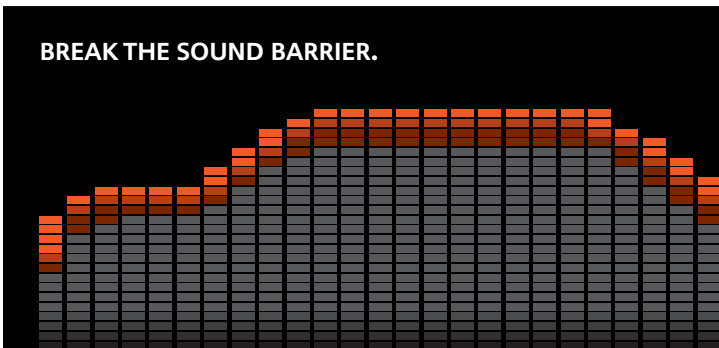

Listen up: the MINI Boost CD radio head unit is based on the Radio MINI CD system fitted as standard. It offers an RDS tuner with scan function, a CD player with MP3 decoder, and permanent clock display. An aux-in port for MP3 players and other mobile devices also comes as standard. And if that's not enough, the MINI Boost CD also has a two-line display, antenna diversity for optimum reception, controls for an external audio player, Bluetooth mobile phone preparation and a DAB tuner. How does that all sound?

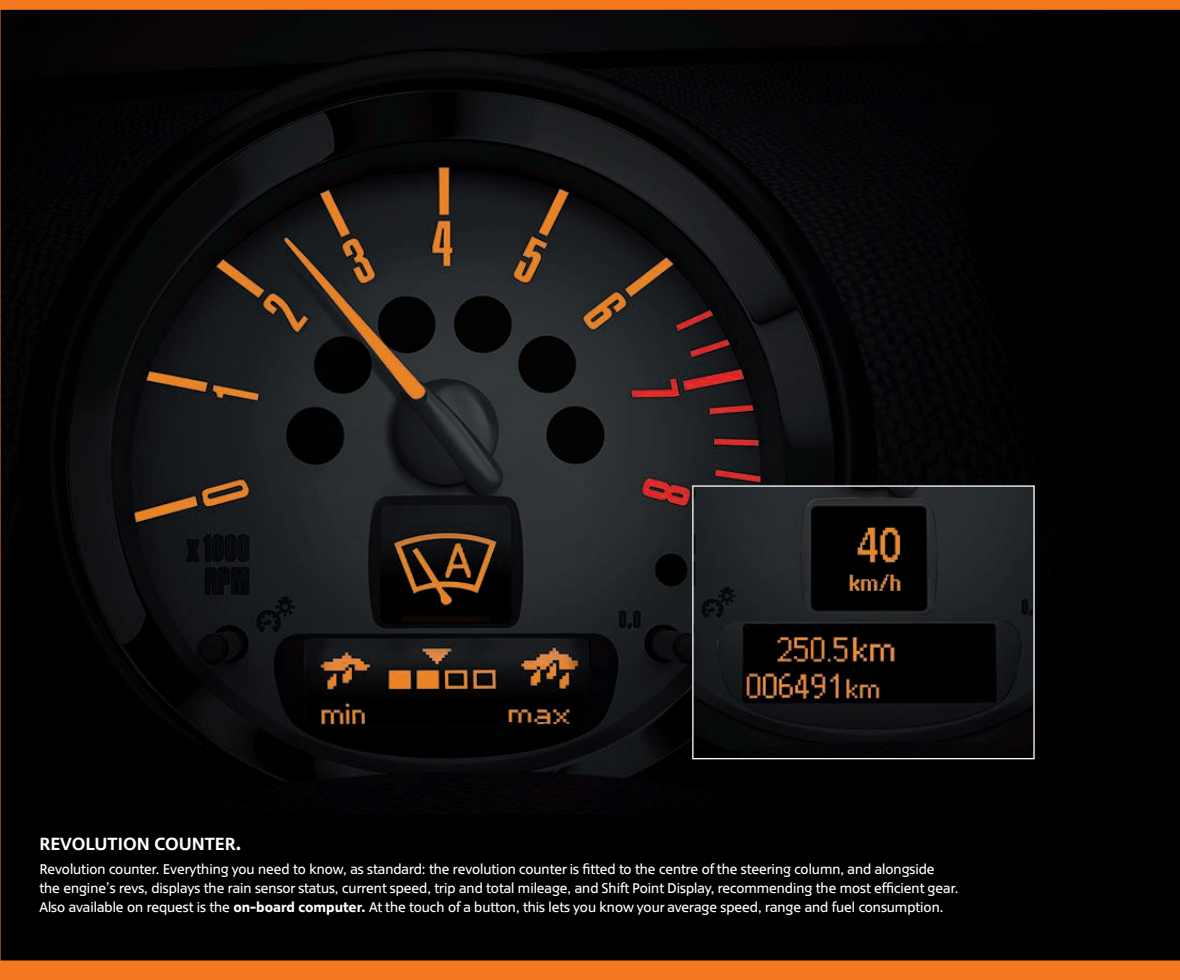

Radio MINI Visual Boost.

Turn your car into a mobile cinema, with Radio MINI Visual Boost. This sophisticated on-board entertainment computer is based on the MINI Boost CD. A high-resolution 6.5-inch display offers intuitive controls and acts as a screen for any compatible Apple iPod with video playback. In addition, the solution features a Bluetooth hands-free kit with USB audio interface and audio/video cable for iPod or iPhone, making the Radio MINI Visual Boost the perfect digital companion. MINI Visual Boost is also "MINI Connected ready", meaning MINI Connected can be retrofitted at any time.

BREAK THE SOUND BARRIER.

The harman/kardon speaker system is music to any audiophile's ears. A digital multichannel amplifier and a total of ten high-performance speakers seamlessly integrated into the vehicle interior deliver a unique sound experience, thanks to a total output of up to 480 watts, with powerful bass and brilliant treble.

REVOLUTION COUNTER.

Revolution counter. Everything you need to know, as standard: the revolution counter is fitted to the centre of the steering column, and alongside the engine's revs, displays the rain sensor status, current speed, trip and total mileage, and Shift Point Display, recommending the most efficient gear. Also available on request is the **on-board computer**. At the touch of a button, this lets you know your average speed, range and fuel consumption.

GET AROUND.

CLASSIC SPEEDOMETER.

As is traditional at MINI, the speedometer is positioned in the centre of the instrument panel. It also features warning and indicator lights, as well as the fuel gauge.

CIRCULAR SPEEDOMETER.

The circular speedometer is fitted as standard in combination with the Radio MINI Visual Boost or the MINI navigation system, and offers a clear display with simple menu controls.

NAVIGATION SYSTEM.

The optional MINI navigation system boasts an incredible range of functions, and makes the perfect partner for the Radio MINI Visual Boost.

AIR CONDITIONING.

The air conditioning system is positioned in the centre console within arm's reach. It offers individual, simple control of both the quantity and distribution of air. Fitted with a microfilter, the solution ensures a comfortable temperature inside the vehicle, through both winter and summer. And should you ever select manual air circulation mode, the system automatically switches back to fresh air after a certain period of time.

AUTOMATIC AIR CONDITIONING.

The intelligent automatic air-conditioning system rapidly adjusts the interior temperature to the selected level, and then keeps it there. This means your hands can stay on the wheel at all times. A built-in active carbon filter protects passengers against unpleasant odours from outside, and the system automatically deactivates air circulation mode when necessary.

KEYED UP.

With the Comfort Access system, you need never remove your key from your pocket. As long as you are carrying the key with you, your MINI opens and closes automatically. The vehicle is locked and unlocked by pressing a button built into the door handle, and the luggage compartment is opened up by simply pushing the logo on the tailgate. Once inside the vehicle, the engine can also be started keylessly, via the Start/Stop button.

COLLECTION.

Key to enjoyment: the Brit Car key ring from the MINI Collection features MINI styling and a Union Jack design. Stainless steel, 7 cm.

USB AND MORE.

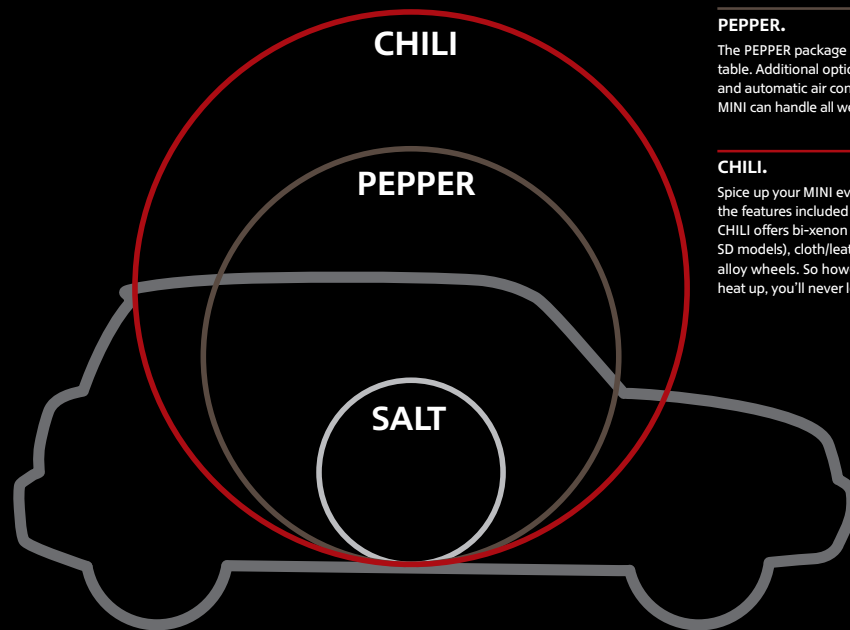

Whether you want to make a call on your mobile or listen to music, the enhanced Bluetooth mobile phone preparation with USB audio interface puts your phone in the driving seat. A hands-free kit and external aerial make calls easy, while interfaces for mobile phones, MP3 players, and USB sticks in the centre armrest and centre console ensure simple access to your favourite tracks. What's more, this option also includes the sports steering wheel with multifunction option, and a front armrest.

An adapter ensures practically every make and model of mobile phone sits comfortably in this armrest.

SPICE UP YOUR MINI.

Get more out of your MINI: the SALT, PEPPER and CHILI packages offer three stylish trim options, each with varying levels of comfort. And for added customization, all three can be combined easily with the WIRED and CITY packages.

SALT.

Add a little flavour to your MINI with the SALT package. The features in this entry-level solution range from foot mats in velour to the lights package with Ambient Lighting. It's a great way of increasing comfort for everyone on board.

PEPPER.

The PEPPER package brings a little more to the table. Additional options include the rain sensor and automatic air conditioning, and mean the MINI can handle all weather conditions with ease.

CHILI.

Spice up your MINI even more. In addition to the features included in the PEPPER package, CHILI offers bi-xenon headlights (for Cooper S/SD models), cloth/leather seats and larger light-alloy wheels. So however much things may heat up, you'll never lose your cool.

JOINED-UP THINKING: MORE PACKAGES FOR YOUR MINI.

From the Radio MINI Visual Boost to MINI Connected, this package brings man and machine together in perfect harmony.

Style and the city: the CITY package includes the alarm system, Park Distance Control and a host of other handy features.

»» EXPRESS PACKAGE.

JOHN COOPER WORKS EXTERIOR PACKAGE.

A speedy proposition: John Cooper Works 18-inch Twin Spoke Black Burnished light-alloy wheels are combined with the aerodynamic kit, sports suspension, sport stripes, John Cooper Works door sill finishers, side scuttles and exterior mirror caps in Black Checkered, and roof rails in Anthracite.

JOHN COOPER WORKS INTERIOR PACKAGE.

A winning environment: from the John Cooper Works leather steering wheel with multifunction option, to the Sport button, Black Checkered interior surfaces, John Cooper Works sport seats, headliner in Anthracite and much more, everything here is tailored for pole position.

CHILI².

JOHN COOPER WORKS CHILI PACKAGE.

Want more of a John Cooper Works experience? Then look no further than the MINI John Cooper Works range – models that pack in practically every motorsport detail we've ever come up with. There is far too much to list here, but for more details see page 79. And if you don't need any extra persuasion, why wait? Order the package today.

The MINI Cooper S Countryman and the MINI Cooper S Paceman with John Cooper Works Tuning

Gear lever knob in Alcantara/Carbon

Exterior mirror caps in Carbon

INTERVIEW

» I'M WHAT YOU'D CALL A SHORT-HAUL DRIVER. «

Meet THOR, our crash test dummy. The successor to the legendary Hybrid III, he is one of the brightest stars on the crash test scene. We caught up with the 175-centimetre supermodel at MINI in Munich.

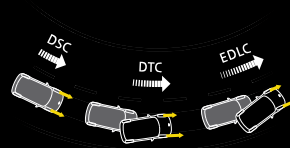

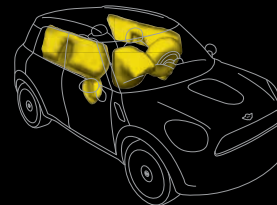

How did it feel heading home from Euro NCAP crash testing¹, having picked up five stars for the MINI Countryman?

I felt incredibly relaxed. I sat in the back seat all the way home, and we never even got close to a wall. Joking aside though, during the tests themselves, the passenger risk for front, side and pole impacts was rated as very low. And speaking from personal experience, I never felt in any great danger.

What do you most like about your job?

Well I'm mainly responsible for head-on crashes into walls. So it's always nice when one of my colleagues goes away on holiday, and I get to do some side impact work.

Do you ever worry about losing your job?

No, not in the slightest – at least not at MINI. With DSC, DTC, ABS, CBC² and more, there are new innovations to be tested practically every day. And you're always going to need a pro such as myself to drive a MINI head-first into a wall every now and again.

Let's talk about your personal life now. I understand Mrs THOR is a housewife and looks after the kids. Did she know what you did for a living when you first met? Or did you have to keep things under wraps until after the wedding?

Well my wife always says that most accidents happen in the home. So as a crash test dummy, I guess I'm pretty lucky.

» Unfortunately, I never get to do much cornering. «

Any professional dreams?

Once in my life, I would love to try out reverse park assist. At present, most of my parking is of the forwards variety, if you know what I mean.

What's your next big project?

I've got a few days off work, so I'm heading up to Sweden with a few friends for a spa trip. The plan is to unwind, run into a few trees, and maybe drop the odd piano on each other's heads.

Many thanks for the interview.

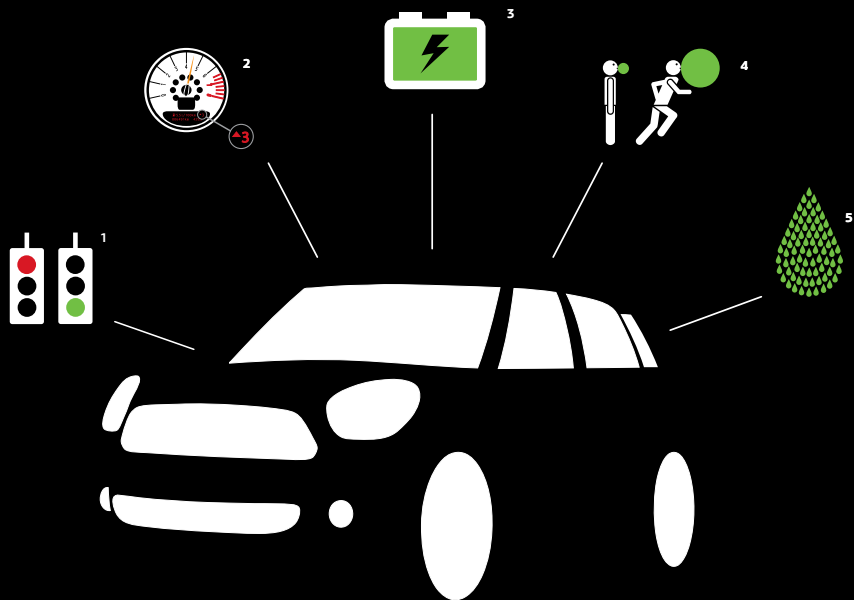

If you'd like to know more about THOR's day-to-day work and MINI safety systems, please see our dedicated website www.MINI.com

And be sure to say "hi" on our behalf.

¹ Euro NCAP 2010

² DSC (Dynamic Stability Control), DTC (Dynamic Traction Control), ABS (Anti-lock Braking System), CBC (Cornering Brake Control).

MINIMALISM.

MINIMALISM. LESS IS MORE.

This is all about increasing driving enjoyment, while cutting fuel consumption. We do this by intelligently combining a range of innovative solutions:

1. AUTOMATIC START/STOP FUNCTION.

The automatic start/stop function means that when the engine is idling – for example, at a red light or in a traffic jam – it is automatically switched off. As soon as the clutch pedal is depressed, the engine is switched back on.

2. SHIFT POINT DISPLAY.

The Shift Point Display tells you via instructions in the revolution counter what gear you should be in to maximize fuel economy, reducing your emissions and your expenditure on fuel.

3. BRAKE ENERGY REGENERATION.

Brake Energy Regeneration uses Intelligent Alternator Control to convert unneeded kinetic energy into electricity. When the driver's foot is not on the gas, more energy is diverted to charging the battery than when the car is under acceleration.

4. FULLY VARIABLE VALVE TIMING.

The fully variable timing of intake valve lift increases power output for all petrol engines, while simultaneously improving combustion efficiency.

5. COMMON RAIL TECHNOLOGY.

High-pressure injection at a consistent 1,600 bar and multiple pre-injections ensure the diesel enters the cylinder as a fine mist, which makes the engine run more quietly and improves both output and fuel economy.

THE MINIMALISM ANALYSER.

Part of the optional MINI Connected infotainment system, the MINIMALISM Analyser monitors a number of variables to determine how economically you are currently driving, and gives you advice on how you could use less fuel. After each journey, you can review and compare your driving data with the user-friendly MINI Connected app, and refine your driving style for even greater fuel-efficiency.

MINI SERVICE.

THE A TO Z OF SERVICE.

We provide everything that you and your MINI could ever need. Our highly trained specialists are ready, willing and able to tackle any challenge you present them with, small or large, without delay. They can diagnose and repair any electronic, mechanical, structural or cosmetic issues – right down to the smallest chip in the paintwork, everything can be fixed quickly and accurately, ensuring your MINI never loses its sparkle. And as you would expect, we only ever use Original MINI Parts – because only they offer the quality, durability and exact fit needed to make sure that your MINI stays a MINI.

A MINI THINKS FOR ITSELF.

Because it's not just built for quality, but for ease of repair and maintenance too. With a MINI, fixed service intervals are a thing of the past, as the on-board Condition Based Service (CBS) system constantly monitors the status of the car to work out what servicing it needs and when – saving you both time and money.

MINI SERVICE INCLUSIVE.

Why risk any unwelcome surprises down the line? MINI Service Inclusive offers full peace of mind, thanks to the expertise of MINI Service specialists, the guaranteed use of Original MINI Parts and the knowledge that your MINI is always in the best possible hands. In addition, work can be carried out around the world, by any participating MINI Service Centre. To find out more, see www.MINI.com/serviceinclusive

A BREAKDOWN?

It's unlikely, we know. But working on the basis that anything can happen, MINI Mobile Service is never more than a phone call away, 24 hours a day, 365 days a year. Specially trained MINI technicians will leave no stone unturned to get your MINI moving again, either over the phone or by coming to you at the roadside. In addition, there is a range of other breakdown assistance services to help you complete your journey (details vary from country to country), and MINI also offers incidental costs insurance for accidents and theft.

MINI FINANCIAL SERVICES.

Don't dream it, drive it. Make it happen, with MINI Financial Services.

Admittedly, daydreaming about a MINI can be fun. But it can't compare with the thrill of actually driving one. And with the right finance solution from MINI Financial Services, the dream can become reality in a way that is tailored to your lifestyle, your budget and the MINI model that you choose.

MINI Leasing, MINI Finance and MINI Select are three roads that all lead to the same destination – namely, putting you behind the wheel of a MINI and making sure you're able to relax and get the maximum pleasure from it. All of them offer their own unique advantages, and speaking to your MINI dealer will help you decide which one is right for you.

Once you've chosen the car and the finance deal, you'll be asking yourself if there's any way you can make the MINI experience even more exciting. Answer: no, of course not. But what you can do is protect against surprises of the wrong sort, by choosing an insurance solution that was made for MINI drivers. Because as well as finance, MINI Financial Services also offers a range of insurance products that are tailored to your exact needs and preferences.

Your next move? The best thing to do is to make an appointment at your local MINI dealership. The sales advisors there know every MINI Financial Services product inside out, and it's their job to help you make your MINI dream come true.¹

¹ For more information about MINI Financial Services, its leasing, finance and insurance products, and the companies through which these products are provided in your country, visit MINI.com or speak to your MINI dealer. Products and services may vary from country to country.

¹ All figures relate to vehicles with the standard six-speed manual transmission. Figures in square brackets relate to vehicles with six-speed Automatic Transmission Steptronic.

² All MINI Countryman and MINI Paceman models comply with the EU5 exhaust emissions standard. MINI One Countryman, MINI Cooper Countryman and MINI Cooper Paceman models with manual

transmission comply with the EU6 exhaust emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (as defined in directive 80/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption. Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted.

WARRANTY.

Every MINI is supplied with a two-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts, for example brake pads.)

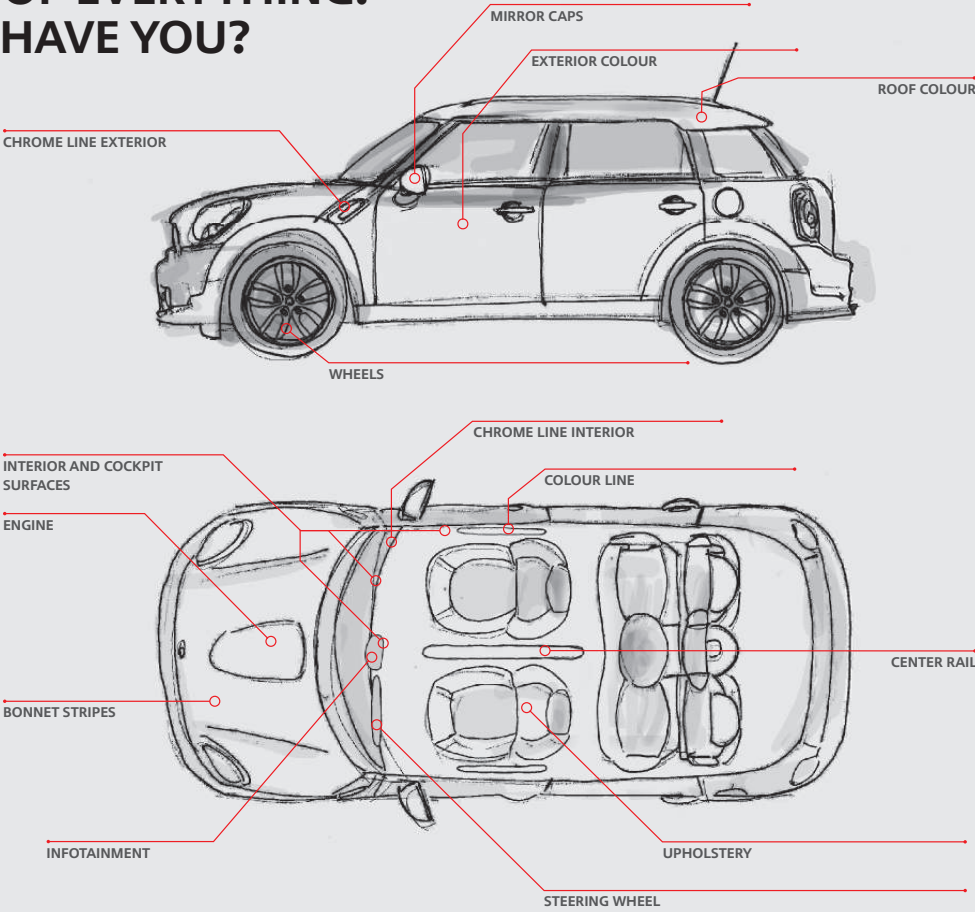

Every MINI also comes with a 12-year anti-corrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under-body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines.

The painted surfaces of the car are covered by a three-year warranty. This excludes any damage to painted surfaces caused by improper treatment or unforeseen environmental factors. The statutory rights of the consumer are unaffected.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in each vehicle's manufacture are selected because they can be used in the most sustainable and environmentally friendly way possible. That way, every MINI can be efficiently and ecologically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI dealer will be pleased to advise you on the disposal of your old vehicle. Alternatively, more information on this subject can also be found at www.MINI.com

WE'VE THOUGHT
OF EVERYTHING.
HAVE YOU?

JULY 2013

The models, standard and optional equipment and combinability of options in this catalogue relate to cars supplied by BMW AG for the German market. The availability of standard and optional equipment, and the combinability of options, may vary from country to country within the European Union for all models. For detailed information about the situation in your country, please contact your authorized MINI dealer. Subject to change in design and equipment.
