

The new Golf

Volkswagen

Beautifully designed. Technologically advanced.

Charismatic, confident and capable, the new Golf features a powerful new design and a wealth of technology. New generation infotainment systems and advanced driver assistance systems ensure you're equipped to handle just about anything everyday life can throw at you. And as you'd expect, it's all done with effortless style and flair. It's time to experience the future. Today.

01 Newly designed bumpers to the front and rear, a **restyled radiator grille**, **new headlights** with LED daytime running lights, rear LED tail lights, redesigned front wings and a fresh selection of alloy wheels and colours give a stylish updated look and feel to this iconic car.

Model shown is the new Golf with optional 18" 'Sebring' alloy wheels and metallic paint.

01

Model shown is new Golf GT Sport Dynamic Pack with optional metallic paint.

European Style.

With its powerful, refined design, the new Golf makes a real statement. The characteristic C-pillar, generous wheelbase and short overhangs create an unmistakable silhouette, while the redesigned bumpers, restyled radiator grille with extended chrome strip and new headlights accentuate the width, creating presence and style.

01 The front of the new Golf is characterised by the instantly recognisable Golf styling. Changing with the times while remaining true to its heritage, the latest generation Golf delivers on every level.

02 The LED headlamp MID featuring dynamic headlight range control make sure you have the best view of what's coming up ahead. | S | DP

03 The front fog lamp with static cornering lights deliver intensive light, assuring better visibility in conditions of thick fog and heavy rain. | M | S | DP

04 The LED tail lamp designed for optimum performance and visibility, blend harmoniously into the bodylines. | M | S | DP

05 Enjoy the fresh air at the touch of a button. The Panoramic Sunroof with tilt/ slide function gives you plenty of choice, with its comfort setting optimized heat insulation, and draught-free ventilation. Optional on Match. | S | DP

European Comfort.

01 The “Climatronic air conditioning with 2-zone climate control” has electronic temperature control and divides the interior into two climate zones for the driver’s and front passenger’s side. The temperature, air supply and distribution can be adjusted individually. | DP

02 The “KESSY” access locking and starting system allows you to unlock your vehicle without taking the key out of your pocket. The engine can be started with the starter button. | S | DP

03 The driver’s seat electric adjustable and lumbar support with memory function offer the possibility of personalizing the seat settings for different people at the touch of a button. | DP

04 The light and rain sensor automatically regulate the frequency of the windscreen wipers, according to how heavily it is raining. Different settings could be chosen to adjust the sensitivity of the system. | S | DP

05 The driver profile selection allows to tailor the car to different requirements. Different settings are provided that change both car’s performance and driving experience – all at the push of a button. Five driving modes could be selected depending on type of drivers and driving situations. | S | DP

Interior shown is the new Golf GT Sport Dynamic Pack with Active Info digital cockpit, climate control - 2-zone electronic air conditioning and 'Vienna' leather upholstery.

Intelligent driving experience.

01 The **Active Info digital cockpit** is a fully configurable, interactive 12.3 inch TFT display which replaces the standard analogue instrument cluster, displaying vehicle data and information on your dashboard. Five different modes allow you to customise the screen, with large or small dials as you prefer, and a number of items displayed behind them. If you wish, you can include driving and assistance functions within the graphics of the speedometer. As the Active Info digital cockpit is linked to all other assistance systems in the vehicle, any data shown in the centre console of the infotainment system, such as phone numbers or your music's compatible cover art, can also be displayed on the dash, conveniently placed directly within the driver's optimum field of vision. Optional on GT Sport and GT Sport Dynamic Pack.

02 The **new intelligent dashboard and controls** provide a gateway to the digital world, with a sophisticated new design, larger infotainment touch-screens. The large 8 inch display of the Composition Media system features a stylish glass surface, with higher resolution display, sharper graphics clearly showing all the relevant information you need, and operable with touch and voice. In addition, new decorative trim panels in the door, dash and centre console, along with a new selection of stylish seat upholsteries, allow you to personalise your Golf to your taste, creating your own interior ambience. | M | S | DP

Digital Infotainment.

The new Golf incorporates the latest generation infotainment systems, providing new levels of connectivity and intuitive operation, utilising touch-screens, voice control and phone operation.

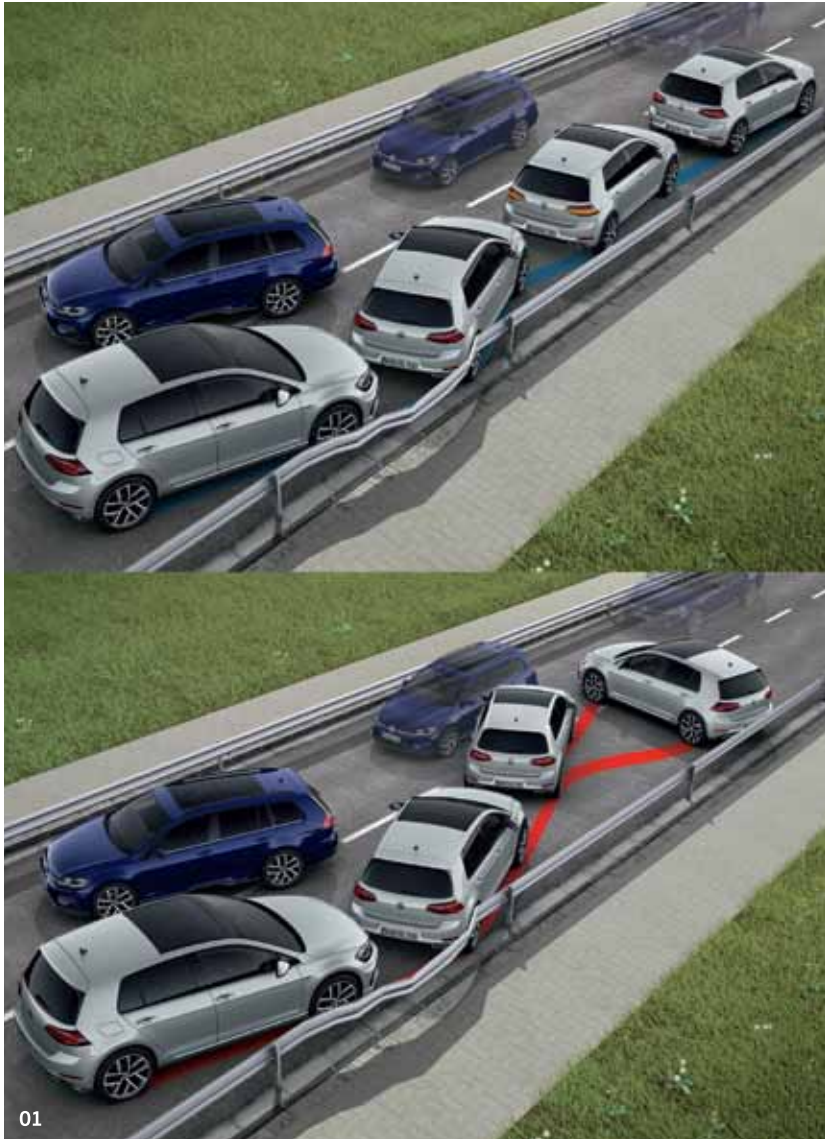

03 The **Composition Media** radio system is equipped with an 8.0 inch colour touch-screen, Multi Device Interface (MDI), single CD player, SD card reader and USB connection. It allows music playback from MP3, WMA and AAC files, simultaneous pairing of two compatible mobile devices*, Bluetooth telephone and audio functionality, and provides driver tips and journey analysis via the 'Think Blue. Trainer.' Eight speakers, situated to the front and rear, deliver 4 x 20 watt output. | S | DP

04 The **"Composition Colour"** radio system features a 20.3cm (6.5") TFT touchscreen colour display, 4 x 20 watts output and eight loudspeakers. It also includes an SD card slot. | M

*Devices must be Bluetooth HFP (Hands Free Profile) compatible, please contact your authorised Volkswagen retailer for specific phone compatibility.

Class leading safety standards.

01 Just under a quarter of all accidents resulting in personal injury involve more than one collision. The **Accident Avoidance multi-collision brake** from Volkswagen can help preventing follow-on collisions or mitigate their severity.

The multi-collision brake automatically initiates braking after a collision, within the system's limits, even before the driver has had time to react. The severity of the accident can thus be reduced and follow-on collisions prevented under ideal conditions.

The driver is able to regain control of the car at any time. | M | S | DP

02 The **Rear View camera** helps the driver when he is reversing. The camera image in the display of the radio or radio/navigation system shows the area behind the vehicle.

Rear View helps with parking by superimposing guidelines over the camera image. These show the path the vehicle will take with the current steering wheel setting, and when the steering wheel has to be turned.

This allows the vehicle to be backed up to any obstacle, regardless of whether it is a bumper or a kerbstone. | S | DP

03 Standard 9 Airbags for dual front, front side, knee and curtain. | M | S | DP

Class Leading Standard.
Euro NCAP 5-star
top rating.

Paint.

- 01 Pure White Non-Metallic 0Q
- 02 Tornado Red Non-Metallic G2
- 03 Black Rubin Non-Metallic V5
- 04 Turmeric Yellow Metallic 6T
- 05 Atlantic Blue Metallic H7
- 06 Tungsten Silver Metallic K5
- 07 White Silver Metallic K8
- 08 Indium Grey Metallic X3
- 09 Deep Black Pearl Effect 2T
- 10 Oryx White Optional
Mother-of-Pearl Effect paint 0R

Optional Oryx White, the premium signature paint, is a special and sophisticated paint finish with a mother-of-pearl effect.

*01). Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68 kg) and luggage (7 kg) in line with EU directive 95/48. Unladen weight shown refers to 3-door models. The unladen weight of 5-door models will increase by 30 kg.

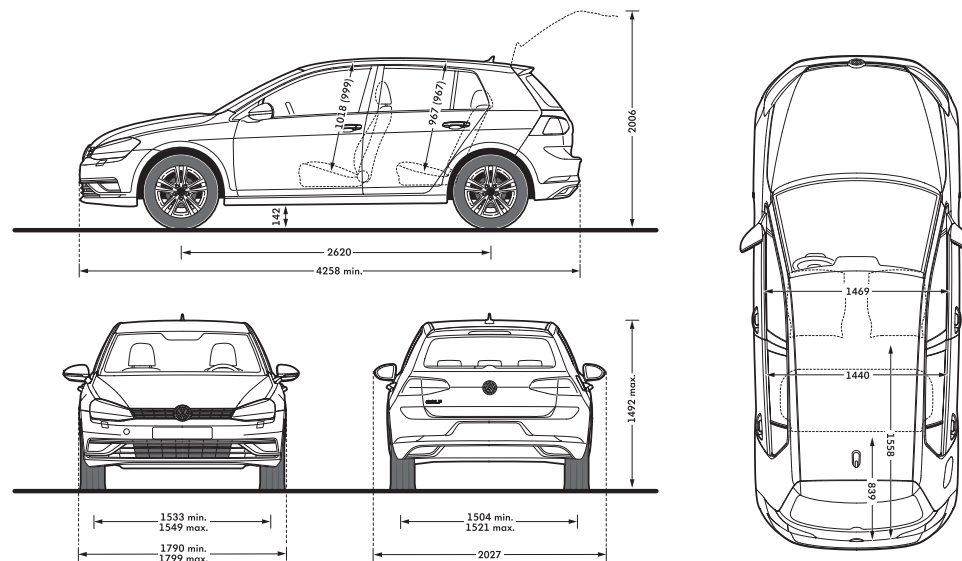

*02). Official fuel consumption according to EU Directive 1999/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.

Technology.

Technical specification notes

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68 kg) and luggage (7 kg) in line with EU directive 95/48. Unladen weight shown refers to 3-door models. The unladen weight of 5-door models will increase by 30kg. Vehicles with higher levels of specification and factory-fitted options may result in higher weight figures.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle / trailer weight (trailer weight + gross vehicle weight) must be deducted. The figures may not represent the actual performance figures achieved in 'real world' driving conditions which may be affected by factors such as environmental condition and vehicle condition.
- 04) The size of the fuel tank is approximate and therefore it may be possible to add a greater amount of fuel than the size of the tank specified, due to the space in the filler neck.
- 05) Official fuel consumption according to EU Directive 99/94. Fuel consumption and CO₂ are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in 'real world' driving conditions. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 06) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

Dimensions.

Exterior dimensions

Length, mm	4258
Width – excl. door mirrors – 3-door/5-door, mm	1799
Height – mm	1492
Height – opened tailgate/floor, mm	2006
Wheelbase, mm	2620
Turning circle, m	10.9

Interior dimensions

Effective headroom – front, mm (with sunroof)	1018 (999)
Effective headroom – rear, mm (with sunroof)	967 (967)
Interior width, front – 5-door, mm	1469
Interior width, rear – 5-door, mm	1440

Maximum luggage capacity, litres VDA measuring

method using 200 x 100 x 50mm blocks

With rear seats upright	380
With rear seats folded	1270

Figures shown are for standard specification models. The addition of certain factory-fitted options and/or accessories may affect some of the dimensions shown.

On illustrations, where arrows and figures are shown inside of the vehicle, the measurements are for interior dimensions. Where arrows and figures are shown outside of the vehicle, the measurements are for exterior dimensions.
