The new Polo

EXTERIOR.

01

Pictures for reference only.

01 The **front design** is sporty and athletic, characterised by the long bonnet and horizontal lines, giving a broader, more muscular appearance, while new LED headlights with LED daytime running lights enhance its sharp new look.

02 Model shown is new Polo Sport with 16" 'Las Minas' Adamantium Dark alloy wheels, LED dipped and main beam headlights and metallic paint.

03 Enjoy your surroundings. The **panoramic sunroof** gives an unobstructed view to the sky above, allowing sunshine and fresh air to flood into the interior.

03

INTERIOR.

04 The leather trimmed **multi-function steering wheel** allows control of audio and telephone functions without taking your hands off the wheel with information displayed on the multi-function computer.

05 The **wireless smartphone charger** allows Android smartphone charging without the use of cables. The storage compartment in the front centre console contains a wireless charging pad that you place your phone on top of to charge. The advantage of wireless charging is that it's quicker and easier, as you don't have to plug and unplug each time and, it also looks neater without any trailing cables. Please see www.qi-wireless-charging.net for full details.

06 The **Composition Colour infotainment system** is equipped with 6.5 inch colour touch-screen, Multi Device Interface (MDI), SD card reader and USB connection. It allows music playback from MP3, WMA and AAC files, simultaneous pairing of two compatible mobile device, Bluetooth telephone and audio functionality, and provides drivers tips and journey analysis via the 'Think Blue. Trainer.'

FUNCTIONAL EQUIPMENT.

07

07 Front and rear parking sensors assist parking manoeuvres by emitting both audible and visual signals, alerting the driver to any obstacles in the way. The closer you are to an obstacle the faster the sound frequency, while an optical parking display indicates your position in relation to obstacles on the screen of the vehicle's infotainment system.

08 Storage on side door

09 Traveling with luggage? No problem for the new Polo. There's a 351 litre boot behind the second row. Fold the second row flat and you have **1,125 litres of boot space**.

10 The new Polo provides a stronger protection with 28% higher stiffness in the body structure.

Technical specification notes

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower).
- 02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68kg) and luggage (7kg) in line with EU directive 95/48. Unladen weight shown refers to 5-door models.
- 03) With increasing altitude the engine performance diminishes. From 1,000m above sea level and for every 1,000m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Fuel consumption and CO₂ figures are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption and CO₂ emissions achieved in 'real world' driving conditions. More information is available on the Volkswagen website at www.volkswagen.co.uk and at www.dft.gov.uk/vca. CO₂ is the main greenhouse gas responsible for global warming. This information should be used for illustration purposes only. Choosing larger alloy wheels than standard may result in increased fuel consumption as well as higher CO₂ emissions and subsequently increased Vehicle Excise Duty (VED) band, and BIK rates paid for company car drivers will increase. In some instances, the 'On the road' cost paid for the vehicle may increase as a result of the increased VED rate. The specifications contained in this brochure are for information purposes only and are subject to change.

On illustrations, where arrows and figures are shown inside of the vehicle, the measurements are for interior dimensions. Where arrows and figures are shown outside of the vehicle, the measurements are for exterior dimensions.
