The Tiguan Sport

Model shown is Tiguan Sport R-Line Track with optional Oryx White paint.

Opens up a world of opportunity. On road and off-road.

On road, off-road, the Tiguan Sport opens up a world of possibilities. The all-new design provides greater functionality than previous models, enhancing handling and performance on a wide range of terrain, from motorway to unmade road, whether you prefer elegant and refined, dynamic and sporty or rugged and robust, there's the Tiguan Sport for you, impressively equipped with a range of advanced features to ensure new levels of driving enjoyment wherever you are.

01 Integrated rear lights, equipped with **LED technology** for optimum performance and visibility, blend harmoniously into the bodylines, creating a dynamic three-dimensional look.

Total control at your fingertips.

01 Ambient lighting illuminates the interior, creating a pleasant interior atmosphere and enhancing the sense of spaciousness. Integrated LED lights in the front footwell, door sill protectors, dashboard and decorative inserts in the front door panels give a luxurious feel with the brightness adjusted via the infotainment screen.

02 The electrically operated, panoramic glass sunroof with integrated roller blind added additional light and space, whether open or closed, filling the interior with natural light and providing an inviting view of the sky above. When tilted upwards, it lets in fresh air.

Model shown is Tiguan Sport R-Line Track with optional Oryx White paint.

On road or off-road, the adventure starts here.

The Tiguan Sport boasts a smart new look that's longer and lower than previous models, providing more interior space and helping to improve drive and handling. Sharp lines, stylish alloy wheels and details such as LED daytime running lights give a look that is dynamic, strong and unmistakably Volkswagen. Off-road models feature shorter front and rear overhangs and restyled bumpers with improved approach and departure angles, while high torque engines and new 4MOTION Active Control with a choice of driving modes provide optimum handling whatever the weather conditions or terrain.

01 Daytime running lights feature LED technology for greater visibility, and fit flush with the newly designed **LED Mid headlamps**, enhancing the Tiguan's sporty new look. | T | R

02 All 4MOTION models feature **4MOTION Active Control** which allows you to adapt your Tiguan to suit the weather and road conditions ahead. Choose from four driving modes including On road, Off-road, Off-road Individual and Snow, enabling you to find the optimum choice of driving mode wherever your adventures may take you. | T | R

Elegant and beautifully crafted design in perfect harmony with advanced technology.

02

01 Functionality and ergonomics go hand in hand in the Tiguan Sport. The premium quality centre console is angled towards the driver for optimum driving convenience, placing the impressive 8.0 inch colour touch-screen and infotainment system easily within reach and every switch and control intuitively to hand. With controls optimally positioned and information clearly in view, driving the Tiguan Sport is so much fun.

02 The **Active Info Display** provides a system that can be tailored to suit your exact preferences. The fully configurable, interactive 12.3 inch TFT display replaces the standard analogue instrument cluster, displaying vehicle data and information on your dashboard. Five different modes allow you to customise the screen, with large or small dials as you prefer and a number of items displayed behind. As the Active Info Display is linked to all other assistance systems in the vehicle, any data shown in the centre console of the infotainment system, can also be displayed on the dash conveniently placed directly within the driver's optimum field of vision.

03 The **head-up display** projects relevant trip data and alerts onto a high-quality slide-out pane positioned directly in the driver's field of vision. At the press of a button, the transparent display rises from its position behind the dashboard into the driver's primary field of vision. | R

04 The **Discover Navigation touch-screen navigation/radio system** builds upon the impressive Composition Media system, but with additional features enabling you to easily manage not only your music, but also navigation data and a broad range of vehicle information. The system offers preloaded Hong Kong navigation data, 2D/3D map view which can be easily followed on the 8.0 inch colour touch-screen. | R

03

04

05

06

05-06 3-Zone electronic air conditioning with allergen filter and automatic air recirculation ensures a pleasant interior temperature to suit the individual preference of driver, front passenger and rear seat passengers. Rear seat passengers are able to make adjustments via an electronic control panel conveniently located to the rear of the front centre armrest. A sensor monitors the outside air quality and, if necessary, automatically activates the air recirculation function. | T | R

As versatile as life demands it to be.

Business, pleasure, family or adventure, whatever your reason for travelling and whatever you need to load up, whether it's shopping, kids, leisure equipment or otherwise, your Tiguan Sport is well prepared. The lower load sill, helps make loading and unloading bulky objects easier, while the keyless entry/keyless start also allows you to open the electrical-operated tailgate from the driver's door.

03

04

05

01-02 From front to rear, everything in the Tiguan Sport is designed to meet your needs. The **rear seats split 40:20:40** and each side can be moved lengthways, giving you various loading options. When the rear seats are folded down and the rear bench is in the forward position, there's an impressive loading capacity of up to 1,655 litres. The load area is continuously level and can be lowered or removed totally for maximum boot space, thanks to the variable boot floor.

03 Rear seatbench adjustment: rear seatbench can be adjusted forward and backward. Backrest reclination can also be adjusted.

04 "Easy Open & Easy Close" the easy open always keeps the door open for you – particularly useful when you've got your hands full. All you have to do is move your foot underneath the rear bumper; the system's sensors will then detect your key and open up the tailgate for you. The easy close is a functional extension of the "Easy Open", the tailgate will close and lock itself as soon as the person who owns the key moves away from the vehicle

05 Memory Seat Function: the electrically adjustable passenger seats with memory function offer the possibility of personalizing the seat settings for different people at the touch of a button. | T | R
The driver's seat - and mirror - settings are assigned by the vehicle key.

06 Everything about the Tiguan Sport is geared towards providing total comfort and functionality. The **flexible seating** concept allows you to adapt the interior to suit your requirements with all seats, apart from the driver's seat.

06

Intelligent driving begins here.

Impressively equipped with intelligent technology and advanced driver assistance systems, The Tiguan Sport provides a confident, reassuring driving experience for added peace of mind.

01 Front and rear parking sensors assist parking manoeuvres by emitting both audible and visual signals, alerting the driver to any obstacles in the way. The closer you are to an obstacle the faster the sound frequency, while an optical parking display indicates your position in relation to obstacles on the screen of the vehicle's audio system.

02 The Park Assist system not only makes parallel parking easier, but also helps you reverse and forward park into a space at 90 degrees to the kerb. Using ultrasonic sensors, Park Assist will detect a parking space large enough for either perpendicular or parallel parking. Once the vehicle is in reverse, all the driver has to do is operate the accelerator and brake, and keep a lookout, while The Tiguan Sport steers itself into its chosen space. **R**

03 The rear-view camera, is integrated behind the Volkswagen badge on the rear tailgate, displays the area behind your vehicle on the screen of the vehicle's audio system, helping you to manoeuvre into tight spaces quickly and easily. Auxiliary lines help you navigate safely into parking spaces, and thanks to the high resolution display, even small obstacles such as kerbs are visible. | Optional in 280 Street

04 Customization enables three drivers to have their individual settings available directly after accessing the vehicle. The infotainment system saves personalized vehicle settings including air conditioning, seat position and assistance systems, and assigns this data to a particular vehicle key. Comfort at the touch of a button. *(no illustration)*

Safety at your fingertips.

From its elevated driving position to the latest active and passive intelligent safety features, the Tiguan Sport offers reassuring levels of protection for you, your passengers and pedestrians.

Euro NCAP 5-star

The safest in it's class for pedestrian and passenger safety.

01 Area view with Park Assist. Four separate cameras, located in the rear tailgate, door mirrors and radiator grille, provide a 360-degree view around The Tiguan Sport, helping you to manoeuvre with confidence in any direction. The driver can select up to twelve possible views of the vehicle, from the front, rear or side, on either full or split-screen displayed on the infotainment system. You will also gain a bird's-eye view around your new Tiguan. Available in Tiguan Sport Trail package or above. | T | R

02 The multi-collision brake has been designed to provide effective assistance for the driver in the moments after an accident. Multi-collision brake triggers automatic controlled braking once an initial collision has been detected so as to reduce the intensity of further accidents after a collision and can help prevent follow-on collisions with oncoming traffic.

03 The Active Bonnet helps safeguard pedestrians and cyclists by instantly lifting the engine hood in the event of a pedestrian collision. *(no illustration)*

Technical specification notes

01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68 kg) and luggage (7 kg) in line with EU directive 95/48. Unladen weight shown refers to 3-door models. The unladen weight of 5-door models will increase by 30kg. Vehicles with higher levels of specification and factory-fitted options may result in higher weight figures.

03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle / trailer weight (trailer weight + gross vehicle weight) must be deducted. The figures may not represent the actual performance figures achieved in 'real world' driving conditions which may be affected by factors such as environmental condition and vehicle condition.

04) The size of the fuel tank is approximate and therefore it may be possible to add a greater amount of fuel than the size of the tank specified, due to the space in the filler neck.

05) Official fuel consumption according to EU Directive 99/94. Fuel consumption and CO₂ are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in 'real world' driving conditions. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.

06) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

Dimensions.

Exterior dimensions

Length, mm	4486
Width – excl. door mirrors, mm	1839
Height – mm	1654 [1673]
Height – opened tailgate/floor, mm	2087 [2095]
Wheelbase, mm	2677
Turning circle, m	11.5

Interior dimensions

Effective headroom – front, mm (with sunroof)	1049 (1004)
Effective headroom – rear, mm (with sunroof)	1012 (967)
Interior width – front, mm	1503
Interior width – 2nd row rear, mm	1491

Maximum luggage capacity, litres VDA measuring method using

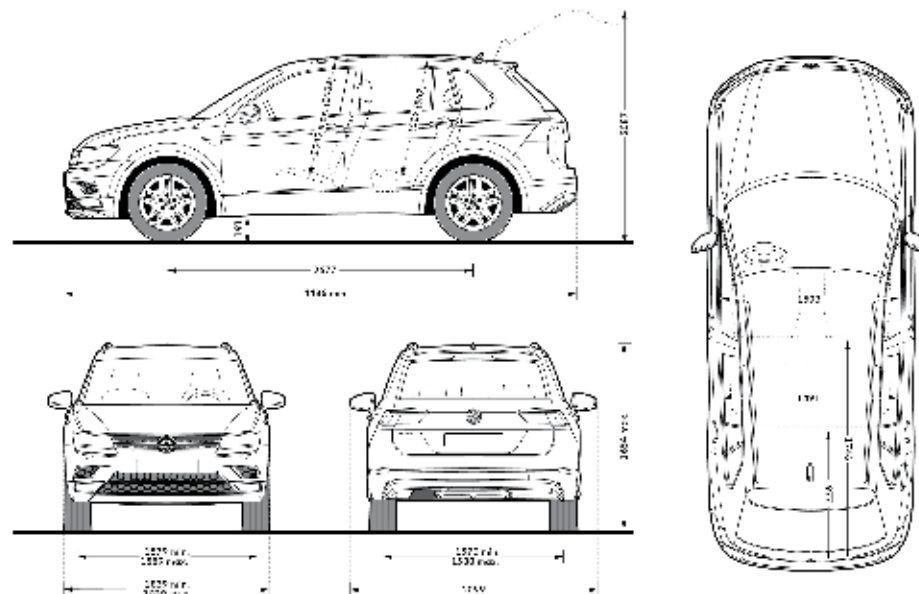

200 x 100 x 50mm blocks

With rear seats upright and rear bench forward	615
With rear seats folded and rear bench forward	1655

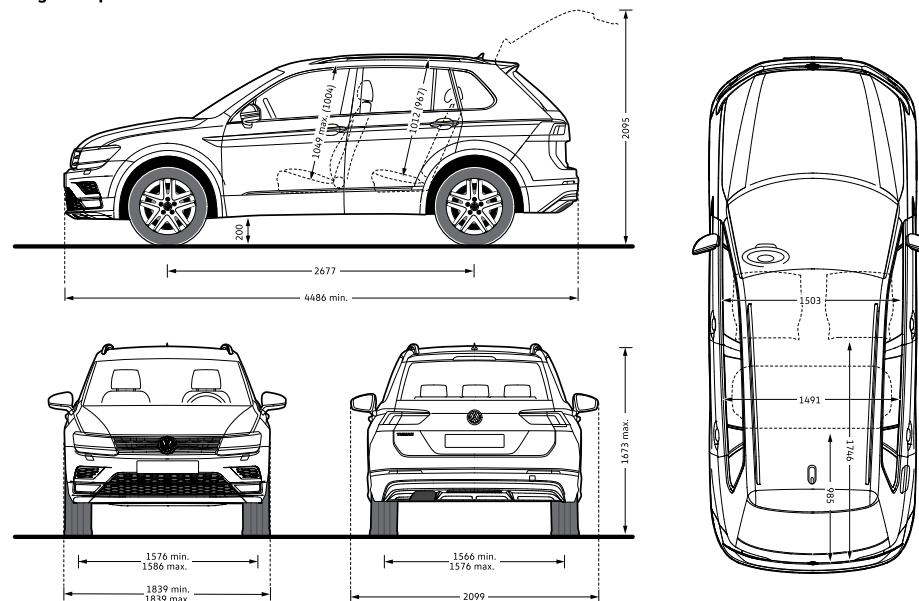

Figures shown are for standard specification models. The addition of certain factory-fitted options and/or accessories may affect some of the dimensions shown.
