LX 600

A NEW STATEMENT OF LUXURY

Experience the performance and the crafted luxury of The Lexus LX 600.

Unmistakable from every angle, The Lexus LX exhibits a silhouette that perfectly complements any terrain, both off and on the road. Every edge portrays a strong sense of unity between bold styling and commanding luxury. Its powerful presence remarked by the appearance of the new floating spindle grille design that will leave a signature impression.

“

Wherever the road takes you, the supreme off-road capabilities allow you to master the trail with confidence

”

LEXUS LX SERIES

NEW FRAMELESS SPINDLE GRILLE

The new generation of spindle grille features a signature seven floating bar sets that turns heads as well as maximizing engine cooling. The signature Quad-LED Headlights feature three-dimensional shape with doubled inner lenses to give a sense of depth and change depending on the viewing angle.

STRIKING REAR DESIGN

The redesigned rear LEXUS logo symbolizes the next generation of Lexus replacing the "L" emblem, creating a more cohesive and modern look. The new LED rear lamps are formed by combining the iconic L-shaped lights with Taillamp that visually connects with the vehicle's character line.

THRILLING WHEELS DESIGN

LX 600 VIP (4-Seater)

The forged 22-inch alloy wheels on VIP grade models benefit from a premium metallic coating that is applied after machining to enhance the distinctive and exclusive style.

LX 600 (7-Seater)

On The LX 600 7 Seater, the 22-inch forged alloys feature a high-contrast combination of a black coating and bright machined finish. Forged wheels are stronger and lighter than traditional alloys, helping to improve the agility of the vehicle.

LUXURY THAT KNOWS NO LIMITS

Experience the epitome of luxury and refinement with an iconic attention to detail. Impeccable materials and handcrafted artistry creating an eye-opening approach to luxury.

SANCTUARY ON THE MOVE

LX four-seater variant indulges with massaging rear-seat captain's chairs that recline up to 48 degrees. The rear-seat entertainment displays can fold out of view when not in use. An advanced climate system with strategically placed vents, including in the ceiling, showers rear-seat occupants with their preferred temperature.

ROOM FOR EVERY JOURNEY

LX now features power 50/50-split third-row seats. Simply press a single button to configure the seating automatically for a maximum cargo space. From the passenger seat, you can easily access the center console, wireless charging tray, seat heating, ventilation controls, the climate control system and storage spaces.

- 4. 7-inch Display

INCOMPARABLE INDULGENCE WITH TAZUNA COCKPIT

LX incorporates the Tazuna Concept cockpit that allows the driver to connect more intuitively with the vehicle. The combination meter and head-up display are centered directly in the driver's line of sight. The upper display shows navigation, audio controls, and the Multi-Terrain Monitor during off-road driving, while the lower display shows the climate control screen and serves as a driving-support screen for Multi-Terrain Select.

4-Seater
(Ash Open Pore Sumi Black)

7-Seater
(Takanoha Hand-Finished Art Wood)

INTRICATE ARTISTRY

Lexus crafted the first ever LX VIP (4-Seater), with Ash Open Pore Sumi Black wood trims featuring a strong woodgrain ash burl overlaid with Sumi Black. Meanwhile, a new Takanoha hand-finished art wood is applied to the LX (7-Seater).

ENGINEERED FOR MULTI-TERRAIN ADVENTURE

An innovative new Multi-Terrain Select system provides more integrated control of the drive force and suspension, further enhancing off-road capability and control over varied landscapes. The system offers the ability to adjust the amount of traction and response by choosing from five different types of terrain (Mud, Sands, Deep Snow, Rock & Dirt).

For greater visibility during off-road excursions, the advanced Multi-Terrain Monitor uses the upper display to show a variety of distinct camera views from under the vehicle to keep the driver informed. The innovative Underfloor View and world's-first Back Underfloor View provide images of the area underneath the vehicle and around the rear wheels.

FULL-TIME ALL-WHEEL DRIVE

The LX uses four-wheel Active Traction Control helps keep you on course and secured by using sensors to detect and help prevent wheel slippage.

CRAWL CONTROL

Activated with just the press of a button, Crawl Control is designed to automatically maintain an optimal slow and steady pace over challenging terrain. Turn Assist can also tighten your turning circle by adding brake force to the inside rear wheel.

UNQUENCHABLE INNOVATION

World First fingerprint authentication engine switch has been adopted to help strengthen security against vehicle theft. An all-new Lexus Interface that seamlessly connects you via touchscreen—or voice—to an available Intelligent Assistant that gets smarter over time.

ELECTRONICALLY ASSISTED POWER STEERING

New Electronic Power-Assisted Steering replaces a hydraulic power system. With this new system, steering is less sensitive at high speeds and more responsive at low speeds. This help provide easier maneuverability and more confidence across the wider variety of driving conditions both on and off-road.

ADAPTIVE VARIABLE SUSPENSION (AVS)

Intuitively responsive, the new AVS enables you to customize your desire level of road feel. This system responds more efficiently to changing road surface condition. The smoother and more precise control resulting in enhanced ride comfort and improved on-road performance.

DIGITAL REAR VIEW MIRROR

With a simple toggle of a lever, the standard rearview mirror transforms into a digital display that helps provide an obstruction-free view behind your Lexus.
